Boston & Albany.

(For year ending June 30, 1895.)

The pamphlet report is not yet issued, but from statements in the Boston papers we are able to give the following: The total westward tonnage shows an increase of 13·96 p. c., while the total eastward tonnage decreased 88-100 of one per cent. Tonnage in both directions increased 2·40 per cent and the freight earnings increased 2·21 per cent. From rates and miscellaneous sources the income has fallen off about $55,000. A gain in freight receipts is offset by the loss in passenger earnings, so that the income from both sources is nearly the same as in the year 1894. The net profits have proved to be much greater than we had any reason to expect at the beginning of the year.

By the payment of $2,000,000 six per cent bonds which matured July 1, 1895, the fixed charges for the coming year will be decreased by the sum of $120,000. The premiums, amounting to $114,006, obtained by the sale of $2,000,000 four per cent bonds and substituted for the above named six per cent bonds, have been credited to the improvement fund and charged to the trustees.

Regarding the improvements made and in progress, and the amounts charged to operating expenses on account of the same, the report says:

New shops have been built at West Springfield for the repair of cars and locomotives at a cost of $186,172. New coal pockets have been built after improved modern methods at a cost of $41,391. For the separation of grade crossings the sum of $157,560 has been charged to the earnings of the year, though the whole amount has not yet been expended. The cost of raising and ballasting the tracks has been $114,089. Twenty-seven large and powerful locomotives have been purchased, and all cars are now substantially equipped with vertical plane couplers and with a sufficient number of power brakes to comply with the statute of the United States. All of the above items have been charged to working expenses of the year, and nothing has been added to the construction account.

The directors and the Mayor and Aldermen of the city of Newton have substantially agreed upon a plan for the depression of the tracks between Newton and Auburndale. The plans are being made for this important undertaking, which will necessitate the temporary removal of the tracks to another location, and it is to be hoped that the work will be begun in the near future. When these works are completed there will be no grade crossings between Boston and South Framingham.

The following is a four-year comparison:

Jacksonville Tampa & Key West Railway.

(Report for the year ending March 31, 1895.)

The report of receiver Joseph H. Durkee says in part:

General remarks.—During the first nine months of the year the business of the road was exceptionally good. The gross earnings between March 31st, 1894, and January 1st, 1895, were $508,662, as against $466,491 during the same period of the preceding year, showing an increase of $42,170. The orange crop of the State was larger than ever before and the growers were receiving fair prices for the fruit. Less than half of the orange crop along the line of the road had been shipped. On the night of December 28th, 1894, the first severe freeze of the year occurred, and all of the oranges on the trees were frozen and totally destroyed. As a result the gross freight earnings of the road for the months of January, February and March, 1895, were only $79,109, as against $200,480 for the same period of the preceding year, showing a decrease of $121,371. On February 8th, 1895, there occurred another freeze, which was so severe that the orange trees themselves were to a great extent killed to the ground, and all were severely injured, so that but a small crop can be expected for the next three or four years. During the year ending March 31st, 1894, the road carried about 2,000,000 boxes of oranges and lemons, producing a gross revenue of $190,414, being 38½ per cent of the gross freight earnings during the year. Add to this the freight realized from shipments of fertilizer, box material, and other material used in the orange business, and the same will amount to at least 45 per cent of all the freight earnings of the road.

During the current year a new industry has started up along the line of road, that of turpentine farming. One farm of considerable extent is now in operation, and there are prospects of other farms being operated in the near future. The lands adapted to this industry are quite extensive along

the line of the road, and it bids fair to become quite an important factor in the business of the road.

The road bed, trestles, bridges, engines, equipment and the physical condition of the road generally have been improved during the year, and the road is now in better physical condition than when your receiver took possession thereof. During the year new side tracks have been constructed and old ones extended, to the amount of 6,351 feet, at a cost of $3,-93) 16.

The receiver is advised that since his appointment some, and perhaps a majority, of the consolidated mortgage bonds held as collateral have been sold by the holders, but he is unadvised as to the details of such sales.

Receiver's certificates.—The amount now outstanding is $49,000, the same as shown by the last annual report

Interest on underlying bonds.—The receiver has paid under order of court the coupons maturing July 1st, 1894, upon the bonds of the Jacksonville Tampa & Key West Railway Co.; the coupons maturing March 1st, 1894, and September 1st, 1894, upon the bonds of the Sanford & Lake Eustis Railway Co.; the coupons maturing March 1st, 1894, and September 1st, 1894, and certain coupons maturing September 1st, 1894, upon the bonds of the Atlantic Coast St. Johns & Indian River Railway Company; making a total of $83,250, paid by the receiver during the year. The coupons upon 52 of the Sanford & Lake Eustis Railway Company bonds, numbers 239 to 290, inclusive, have not been paid by the receiver, as these bonds are held by the Florida Construction Company, which Company, it is claimed, is largely indebted to the Jacksonville Tampa & Key West Railway Company.

Statistics.—The earnings and charges for two years have been as follows:

	1894-5.	1893-4.
Earnings—		
Freight	$490,917	$483,647
Passengers	179,447	192,777

V. 59, p. 115.

GENERAL INVESTMENT NEWS.

Allegheny & Kinzua.—An appeal to the Court of Appeals at Albany has been taken by the directors of this road in the case recently decided against them.—See V. 60, p. 1143.

Atchison System—Colorado Midland RR.—It is announced that the Colorado Midland Equipment, Series B, Ascen Short Line First Mortgage and Busk Tunnel First Mortgage Coupons due July 1, 1895, from above bonds will be paid on presentation at the office of the Central Trust Company, 54 Wall Street, New York.—V. 60, p. 1143.

Atlantic Coast Electric Railway.—This line between Asbury Park and Elberon was formally opened on Wednesday. —V. 60, p. 784.

Bank of America (New York City.)—A meeting of the stockholders of this bank is announced for October 7 to act upon a proposed reduction of the capital stock from $3,000,000 to $1,500,000.

Beatrice Rapid Transit & Power.—At Beatrice, Neb., July 26, the property and franchises of this company were sold at auction under an order of the United States Circuit Court, and purchased for $32,951 by Victor G. Langtry of Omaha.

Brooklyn Elevated.—This company will on Monday next begin running trains from the Brooklyn Bridge to Manhattan Beach. The cars will be transferred at the Union Station, at Fifth Avenue and Thirty-sixth Street, to the old Prospect Park & Coney Island (now owned by the Long Island R. R. Co.), to Parkville, and then on the main line of the New York Brooklyn & Manhattan Beach Road. The running time will be thirty-six minutes.—V. 60, p. 1144.

Centralia & Chester R. R.—First mortgage 5 per cent gold bonds of this company, which are limited to $12,000 per mile, are offered for sale by Messrs Griswold & Gillett. As is shown by the map in the INVESTORS' SUPPLEMENT, the Centralia & Chester extends from its connection with the Illinois Central RR. at Centralia, Ill., to Evansville, Ill., with a branch to Roseborough, Ill.

The bankers above named say:

The road passes through a thickly populated and fertile agricultural district, which produces enormous crops of cereals, and is underlaid with coal. The Bartlett Coke & Coal Company, an organization with a capital stock of $500,000, is now successfully operating several coal mines and a large number of coke ovens on the line of the road in the vicinity of Sparta, with an average capacity of about 1,500 tons per day.

Central RR. & Banking—Savannah & Atlantic.—The Savannah & Atlantic bondholders just before the time for deposit of securities under the Central of Georgia plan expired, reversed their previous decision and deposited their bonds.—V. 61, p. 158.

Chattanooga Rome & Columbus—Savannah & Western.—The Central Trust Company, as trustee of the mortgage on the Chattanooga Rome & Columbus, has brought action for a receiver for the property and for other relief, naming the company and the Savannah & Western as defendants.—V. 61, p. 68.

Chicago Peoria & St. Louis—St. Louis Alton & Terre Haute.—A St. Louis paper says: The new title of the Chicago Peoria & St. Louis Line after the sale under foreclosure will be the St. Louis Springfield & Peoria. The opinion is still generally expressed in traffic circles that the Illinois Central is behind the Cairo Short Line in the negotiations for acquiring this property.—V. 61, p. 69.

Columbus & Hocking Coal & Iron Co.—John H. Davis & Co., 10 Wall Street, as large holders of the company's stock and bonds, and representing other bondholders holding a large proportion of the entire issue, request that all security-holders who have not already replied to the circular of July 2d will communicate at once with them regarding the wisest course to pursue. They add, "It is proper for us to say that, in our opinion, the security for the bonds is ample, and if prompt and proper action is taken by the united bondholders no loss whatever need be feared."

M. L. Scudder, 32 Liberty Street, New York, announces that he has been requested by holders of more than one-third of the outstanding bonds to take steps to secure co-operation of bondholders for their protection. Bondholders are therefore asked to send him their names, amounts of holdings and suggestions as to proposed committee.—V. 61, p. 86.

Columbus Sandusky & Hocking.—The foreclosure sale of this road has been ordered for September 14, 1895.—V. 61, p. 153.

Columbus Southern.—Mr. T. E. Blanchard, of Columbus, Ga., was this week appointed receiver of the Columbus Southern Railway Company on the application of the Central Trust Company, trustee of a mortgage securing $1,087,000 of bonds. The road defaulted on the interest of the bonds two years ago and has continued to default ever since. The appointment was made by Judge Newman in the United States Court at Atlanta, Ga. This is the road which Savannah Americus & Montgomery (now Georgia & Alabama) parties have talked of buying. See v. 60, p. 874.

Coney Island & Brooklyn RR. (Trolley).—Earnings for the quarter and the year ending June 30 have been reported as follows:

3 months, end. June 30.	*Gross earnings.*	*Net earnings.*	*Other income.*	*Interest, etc.*	*Balance, surplus.*
1895	$101,949	$48,777	$812	$13,448	$25,941
1894	87,092	31,405	483	14,292	17,596
12 months.					
1894-95	$353,199	$125,333	$2,105	$49,857	$77,581
1893-94	306,975	101,388	1,251	52,218	50,421

Loans and bills payable on June 30, 1895, $79,000, against $24,000 on March 31, 1895.—V. 60, p. 1104.

Des Moines & Fort Dodge.—The income account for the year ending December 31, 1894, is published as follows:

Bal. from previous year	$7,503	Interest on bonds	$104,880
Rental from Rock Island for year	132,371	Miscellan's expenditures	5,114
Miscellaneous income	11,269	Total	$109,994
Total income	$151,145	Balance Dec. 31, 1894	$41,151

Dividend 4 per cent payable August 1, 1895, $30,504; balance in treasury, $10,647.

Distilling & Cattle Feeding.—On the application of Frederick W. Annesa and George M. Pynchon, represented by Messrs. Guggenheimer, Untermeyer & Marshall, Judge Morgan

J. O'Brien in the New York State Supreme Court on Thursday granted a temporary injunction against the Reorganization Committee of the Distilling & Cattle Feeding Company, and also against the Manhattan Trust Company.

The order of Judge O'Brien prevents the committee, or any of them, personally or through their agents or attorneys, from bidding upon or acquiring the properties of the Trust under the reorganization agreement, or from taking any action whatsoever by reason of the alleged ownership of any stock or money deposited with the Manhattan Trust Company. The injunction restrains the Manhattan Trust Company from paying out or disposing of any of the moneys or securities which are on deposit with it. Yesterday the injunction in the matter of restraining the purchase of the properties by the Reorganization Committee was vacated. A decision upon the original motion will be given prior to date of sale. The Reorganization Committee believe all obstacles to the carrying out of the plan will be duly removed.—V. 60, p. 152.

Flint & Pere Marquette RR.—It is reported that construction on the proposed extension of this road from Monroe, Mich., to Toledo, Ohio, twenty-five miles, will probably be undertaken in the early autumn. The extension will be built by the Monroe & Toledo Ry. Co., which will be owned by the F. & P. M. It will afford connection at Toledo with the Columbus Hocking Valley & Toledo, with which company very friendly relations exist. Mr. T. F. Ryan being a director of both roads (see v. 58, p. 902 and v. 57, p. 1038). The annual report of the F. & P. M. for the year ending December 31, 1894, showed $101,729 to that date invested in the Monroe & Toledo, for securing rights of way, etc. The company, however, has not felt disposed to push the extension until the floating debt, amounting in bills payable to $765,327, January 1, 1895, was paid off; but this, it is said, has been arranged for.—V. 58, p. 710.

Georgia & Alabama—Savannah Americus & Montgomery.—For this new company, which has taken over the property of the Savannah Americus & Montgomery, recently sold in foreclosure, officers and directors have been elected as follows: President, John Skelton Williams, of the banking house of John L. Williams & Sons, of Richmond; Vice-President and General Manager, Cecil Gabbett; Treasurer, J. Willcox Brown, President of the Maryland Trust Co., of Baltimore, and Secretary, W.W. Macall, of Savannah. Directors: Adolph Ladenburg, of Ladenburg, Thalmann & Co., bankers, New York; C. Sidney Shepard, of New York; John Skelton Williams, of Richmond, Va.; J. W. Middendorf, of Middendorf, Oliver & Co., Baltimore; J. Willcox Brown, R. B. Sperry, Baltimore; John W. Sheffield, Americus, Ga., President of the Bank of Commerce; Cecil Gabbett, Americus; John Flannery, W. W. Macall and John K. Garnett, of Savannah; James D. Stetson, Macon, Ga.; Vice-President, American National Bank, and S. A. Carter, Columbus. Arrangements will be made at once for completing the Savannah extension.—V. 60, p. 1147.

Knoxville Electric Railway.—In the United States Circuit Court on Thursday George W. Henderson, receiver of this company, filed a bill in equity against the Union Trust Company of Philadelphia, trustee of one of the mortgages of the railway company, to recover $200,000, proceeds of bonds said to have been paid to William G. McAdoo, Jr., President of the railway company, and alleged to have been converted by Mr. McAdoo to his own use.—V. 61, p. 152.

Louisville Evansville & St. Louis.—The Fairchild Committee representing the consols have extended the time for deposits without penalty to August 20. See advertisement today's CHRONICLE.—V. 61, p. 152.

Louisville & Nashville.—Under date of August 1 notice is given to the holders of the *ten-forty adjustment mortgage bonds* dated 1884 that the whole series of said bonds is called for payment on the first day of February, 1896, pursuant to their terms, and will be paid on that date at the office of the company, No. 120 Broadway, New York City.

Of the *ten-forty* six per cent bonds $4,531,000 are outstanding and their cancellation will release to the company the following securities:

Lebanon & Knoxville branch bonds	$1,500,000
Pensacola & Selma division bonds	898,000
Mobile & Montgomery division bonds	2,677,000
Louisville Cincinnati & Lexington bonds	3,208,000
Pensacola & Atlantic bonds	1,000,000

"Unified mortgage" 4 per cent bonds for $9,239,000 are reserved by the terms of the deed for the sole purpose of replacing the 10-40 bonds now called, and the Lebanon & Knoxville and Louisville Cincinnati & Lexington bonds pledged as collateral therefor. Said unified bonds will consequently be at the disposal of the company in February, 1895, upon the cancellation of the bonds representing these three loans.

Up to the present time unified bonds have been issued to a total of $15,824,000, of which $2,330,000 have been held in the company's treasury. A sale of $2,000,000 of these treasury bonds has just been made to Kuhn, Loeb & Co., who have also taken $4,000,000 of new bonds, part of an issue of $5,000,000 to be made jointly by the Louisville & Nashville and Mobile & Montgomery. The old Mobile & Montgomery bonds will be cancelled, and the new 50-year 4½ per cent gold bonds will be a first lien at $28,000 per mile on the 178⅛ miles of main line between Mobile and Montgomery; $1,000,000 of the new bonds will be reserved for improvements.

This financial operation enables the company to pay off about $1,000,000 of floating debt, and makes available a large amount of "unified" and other bonds, at the same time decreasing the annual interest charge (if we take into account the interest accruing on the floating debt) by between $50,000 and $75,000 per annum.

It is pointed out also that in less than three years the company will be able to refund at a lower rate of interest about $10,000,000 of 7 per cent bonds, viz., $2,850,000 L. C. & N. bonds, due Jan. 1, 1897, and $7,070,000 consols, due April 1, 1898.—V. 61, p. 69.

Macon & Northern Railway.—At the meeting this week a report was received from Alexander Brown & Sons, agents for the bondholders, regarding the proposition made previously for the sale of the property. The Executive Committee of the company making the offer failed to approve of the details of the proposition. Under these circumstances no proposition was made to the meeting, which adjourned subject to the call of Alexander Brown & Sons.

The report presented to the meeting said:

The Macon & Northern Railway Company is taking care of itself, and while the security holders are not deriving any interest upon their investment, all the net earnings of the company being put back upon the property, it is now in very good physical condition, and under these circumstances we think it much better to hold on to our property until we can dispose of it on satisfactory terms. Our not accepting any proposition at the present time will unquestionably leave us in a much better position to make a more favorable settlement with the Reorganization Committee of the Central Railroad & Banking Company of Georgia for the guarantee of that company which we hold.—V. 61, p. 112.

Memphis & Charleston R. R. Co.—The receivers announce that the coupons due July 1, 1893, from the following-named bonds will be paid on and after August 1, 1895, at the Chase National Bank, New York, with interest thereon at 6 per cent from date of maturity:

First and Second Extension 7 per cents, extended 1880.
Second Mortgage 7 per cents, renewed January 1, 1885.
First Mortgage Tennessee Division 7 per cents.
Consolidated Mortgage 40 year 7 per cents
—V. 59, p. 1055.

Mexico Cuernavaca & Pacific RR.—A press dispatch from Cuernavaca, Mexico, July 30, says that this road has just been completed to Las Tres Marias, a distance of seventy-four kilometres from the City of Mexico, and the construction of the line to Cuernavaca is being vigorously pushed. Col. J. H. Hampson, President of the road, is quoted as saying that the prospects are bright for the building of the line to the port of Acapulco, on the Pacific Coast.

Mississippi Valley.—A special dispatch to the Globe-Democrat from Chester, Ill., says that this company by Thomas N. Chase, its President, has filed a deed appointing William J. Strong, of Chicago, attorney for the purpose of selling the $3,000,000 of bonds of said company, which are secured by a mortgage deed of trust, dated April 10, 1894, to the amount of $15,000 per mile for every mile of track laid from East St. Louis to Cairo, the attorney not to sell the bonds for less than 90 per cent of their face value.—V. 60, p. 432.

New York & New England RR.—Judge Wallace, in the United States Circuit Court, on Wednesday, entered an order confirming the foreclosure sale of this road to the Reorganization Committee for $5,000,000. It is expected the new company will take possession within thirty days. Poor & Greenough will purchase the equipment bonds and their coupons due August 1.—V. 61, p. 69.

Northern Pacific.—The Northern Pacific & Montana R. R. Co. bondholders' committee has extended the time for deposit of bonds until August 15, after which a penalty of $10 per bond will be imposed. Out of $5,631,000 bonds listed, $4,042,000 had been deposited with the Knickerbocker Trust Co. prior to Aug. 2.—V. 61, p. 27.

North Carolina RR.—It is stated that the Seaboard Air Line people propose to bid for the lease of this road and therefore ask that the matter be deferred for future consideration.—V. 61, p. 152.

Pennsylvania RR.—Philadelphia & Reading.—The Pennsylvania RR. Co. this week revived an old suit long dormant respecting the agreement by which the Reading Company agreed to ship annually one million tons of anthracite coal over the Pennsylvania RR. lines. Subsequently the Reading undertook to revoke the contract by reason of alleged violations of its terms by the Pennsylvania Company. The latter appointed a referee to adjust the matter, but the Reading, in equity in the Common Pleas Court, No. 3, at Philadelphia, had the referee enjoined from taking any action. No further steps were taken until this week when the Pennsylvania Railroad filed a cross bill setting forth that the Reading had defaulted in the performance of the contract, causing the Pennsylvania a loss to date of nearly $7,000,000. The Court is asked to declare the agreement in full force and effect; that an account be stated between the parties and that the Reading Company be ordered to perform its contract.—V. 61, p. 69,113.

Philadelphia & Reading R. R.—The receivers have obtained an order from the United States Court authorizing the purchase of new equipment—1,000 coal cars from the Pullman Company, two steam tugs and six barges. The coal cars are to cost $489,500, to be paid for 10 per cent cash and the remainder in sixty notes, one falling due each month, thus spreading the payments over five years. The vessels are to cost $352,000, of which the Cramps, who build them, will re-

ceive $52,000 cash, and the remainder in notes, payable monthly.

—The results of operations for June and the seven months of the fiscal year—Dec. 1 to June 30—have been as follows:

Philadelphia Traction—Electric Traction—People's Traction—Union Traction.—The boards of directors of the Philadelphia Traction, People's Traction and Electric Traction companies have all formally approved the plan for uniting their interests. The Philadelphia Traction stockholders will hold a special meeting of stockholders on September 26 to vote on the question of leasing their system to the Union Traction Company. The stockholders of the People's and Electric Traction companies have received a circular describing the proposed consolidation. This circular is important as it states the particulars regarding the deal in official form. We therefore quote it at length:

After conference between the boards of directors of the Philadelphia Traction Company, the Electric Traction Company and the People's Traction Company, an application has been filed at Harrisburg for a charter of a new corporation, to be known as the Union Traction Company of Philadelphia, with a capital stock of $30,000,000, divided into 600,000 shares of $50 each. It is expected to call a first instalment of $5 per share on or about the first of October, 1895, also a second instalment of $5 per share within 90 days thereafter. It is not now expected that any further immediate calls will be necessary.

It is proposed that the new corporation shall acquire the control by lease or by the purchase of shares of all the lines now forming the systems of the Philadelphia Traction Company, the Electric Traction Company and the People's Traction Company, which include all the leading street passenger railway lines within the city of Philadelphia, except those of the Hestonville Mantua & Fairmount Passenger Ry. Co.

The plan adopted provides that the property and franchises of the Philadelphia Traction Company shall be leased at a rental which will give each stockholder a net dividend of $4 per annum on each share, payable in gold coin, free of taxes, this rental being measured at 4 per cent upon a valuation of $100 per share for each share of Philadelphia Traction Company stock.

It is proposed that the Union Traction Company shall purchase practically all the shares of the Electric Traction Company at the rate of $85 per share for each share on which $50 has been paid and 970 per share for each share on which $30 has been paid, and all the shares of the People's Traction Company at the rate of $70 per share. The price for the shares of the Electric Traction Company and the People's Traction Company will be paid in trust certificates, to be issued by the Pennsylvania Company for Insurances on Lives and Granting Annuities, in form similar to those issued under agreement dated April 15, 1893, upon the shares of the People's Passenger Railway Company. These trust certificates are to be issued in sums of $1,000 each, redeemable at the option of the Union Traction Company after October 1, 1945, with interest from October 1, 1895, at the rate of 4 per cent per annum, payable semi-annually on the first days of April and October in each year, said payments to be made in gold coin of the United States of the present standard of weight and fineness, free of taxes and all charges, and to be guaranteed by the Union Traction Company, and to be secured by a deposit in trust with the Pennsylvania Company for Insurances on Lives and Granting Annuities of all the shares of the stock of the Electric Traction Company and the People's Traction Company thus purchased.

The privilege is given to the stockholders of the Philadelphia Traction Company, the Electric Traction Company and the People's Traction Company, of subscribing to all the shares of the new company in proportion to their several holdings. This entitles each shareholder to subscribe to 77 per cent of the number of shares held by him in the Philadelphia, People's or Electric Traction Company.

The boards of directors of the three companies have unanimously approved of the plan. The holders of a large number of shares have already indicated their assent thereto, and you are invited to avail yourself of the opportunity to join in the arrangement.

As soon as sufficient assents have been obtained to justify the plan being declared operative, notice will be sent calling for a deposit of the shares with the Pennsylvania Company for Insurances on Lives and Granting Annuities.

The stockholders of the People's Traction Company will take action September 26 on the proposed reduction of the par value of their stock from $50 to $30, its paid-up value. This will reduce the capital stock of the company to $6,000,000, which will bring the combined capital of the Electric and People's companies within the limit prescribed by law, under which the two companies can be absorbed by the Union Traction Company.

As to the use to which the cash received by the Union Traction Company from the subscriptions to its stock will be put, the Philadelphia *Ledger* says:

On the two calls of $5 each per share on the stock of the Union Traction Company, amounting to $6,000,000, it is stated on authority that about $4,500,000 will be used for work now "in sight;" that is, for the building of the road through Fairmount Park, with its bridge over the Schuylkill River, and for finishing up work already under way. This will leave a margin of $1,500,000, and it is declared that there will be no further calls on the stockholders for money on their shares, unless for the purpose of building new lines not now contemplated.—V. 61, p. 152.

Pueblo City Railway.—The foreclosure sale of this street railway is advertised for August 31 at not less than $150,000.—V. 60, p. 1010.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE *since* the last edition of the INVESTORS' and STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

Rockaway Valley RR.—Commissioner Rowe has been authorized to sell sections two and three, one from Peapack, New Jersey, to Minden, and from Minden to Morristown, of the Rockaway Valley Railroad Company, which was controlled by Mr. Pidcock. The first section, from Whitehouse to Peapack, was sold last week and was bought in for $30,000 by two of Mr. Pidcock's sons.—V. 61, p. 153.

St. Louis Street Railway Consolidation.—Negotiations are pending with a view to consolidating the leading street car lines of St. Louis, Mo., into a single system.

Savannah & Western RR. Co.—Central RR & Banking.—The Savannah & Western Bondholders' Committee, of which Simon Borg is chairman, gives notice that it has agreed to participate in a plan for the purchase of the properties of the Central Railroad & Banking Company of Georgia, subject to the approval of the Savannah & Western certificate holders as provided in the Bondholders' Protective Agreement. A meeting of the certificate holders will therefore be held at the office of Messrs. Simon Borg & Co., New York City, August 26, 1895, for the purpose of ratifying the action of the committee in accepting participation in said plan. In order to render the plan effective, the consent of the holders of 60 per cent of the certificates is essential. The committee has remitted until August 3 the penalty of $25 heretofore imposed for deposit of unassented bonds, after which day no bonds will be received for account of the committee except upon the payment of a penalty of $35 per bond.

The Borg Committee has issued a circular explaining the situation. In the course of this circular, alluding to the new consols which are allotted to the bondholders [see V. 61, p. 112] the committee says:

If you desire that your bonds should be cashed it is necessary to file, in writing, with the committee a notice to that effect within fifteen days after the bondholders' meeting (which meeting has been called for the 26th day of August, 1895). If you prefer to participate in the syndicate which will bring out the new consolidated bonds, you have a right to do so. In this event you will receive the pro rata net cash proceeds of the bonds which are sold and of any bonds remaining unsold. We are informed by the proposed purchasers that all of the new consolidated bonds of the Central of Georgia Railway Company have been or are to be underwritten and will be offered to the public in the usual manner at a price in excess of 85.—V. 61, p. 68, 153.

Southern Central.—The reorganization committee, of which Simon Borg is chairman, announces that the time for depositing bonds with the Metropolitan Trust Company has been extended to Aug. 15, which is the last day on which bonds will be received for deposit.—V. 61, p. 28.

Toronto Hamilton & Buffalo.—Arrangements have been completed to extend this road at both ends to make it a through line between Buffalo and Toronto via Hamilton, a total distance of 123 miles. The Canadian Government grants a subsidy of $3,200 for each mile of track and the City of Hamilton has also granted a subsidy of $325,000. S. E. Peabody, President of the American Loan & Trust Company, of Boston; N. W. Jordan, Treasurer of the same company; Henry D. Hyde, of Boston, and W. N. Coler & Co., bankers, of New York, are stockholders.

Union Pacific.—A dispatch from Omaha July 20 says that Special Master Cornish has filed a report in the two Union Pacific cases. Edward Sheldon, attorney for the trustees of the *Denver Extension* bonds prayed on January 25 for an order for the Receivers to pay certain interest on those bonds. Judge Cornish recommends that the petition be denied on the ground that there was not sufficient funds to the credit of that mortgage division to pay the interest in default. The second report refers to the non-payment of the taxes on the *Kansas City & Omaha* road. Taxes were delinquent for 1894 in February, and the bondholders filed a prayer with the Court calling upon the receivers to pay overdue taxes. Judge Cornish denies the petition for the reason that he finds no funds available for the purpose prayed for by the bondholders. The cases were heard in New York.—V. 61, p. 153.

Unadilla Valley.—This railroad, running from Bridgewater to New Berlin, N. Y., a distance of 20 miles, was formally opened on Thursday. By means of the new road the Delaware Lackawanna & Western obtains a connection with the New Berlin branch of the New York Ontario & Western Railroad. The road was chartered in 1890.

United States Cordage.—The *company's reorganization committee* announces that there have been deposited with the Manhattan Trust Company under the plan of reorganization more than a majority of the outstanding bonds of the United States Cordage Company, and also more than 70 per cent of the guaranteed, preferred and common stocks of said company. The committee has therefore declared said plan of reorganization operative.

The *bondholders' committee* say that even if it be true, as announced, that the company's committee has received a majority of the Cordage bonds, that fact does not in any respect alter the purposes of the bondholders' committee, who intend to prosecute the plan announced by them and who have sufficient support to enable them to carry it out. A mere majority of bonds, they say, gives no practical advantage to the party holding them in the face of an amount so large as that held by the bondholders' committee and others who have not joined the Waterbury plan.—V. 61, p. 153.

United States Leather.—The executive committee, "in view of the misleading reports which have recently appeared," has sent to the stockholders a circular in which the statements quoted in the CHRONICLE of July 20 (p. 114) are repeated. They also say the company "will be glad to explain any item" in the annual report issued in February last "needing elucidation, or to give upon personal application of stockholders such general information as can be reasonably asked for." The circular closes with the following:

> The status of the $4,000,000 bonds unissued and in the treasury is unchanged, power to issue remaining with the directors; and while no present necessity exists for their sale yet as trustees for the stockholders, the directors would not hesitate to take action should conditions arise when in their judgment the company's interest would be served by the sale of all or any portion of them.—V. 61, p. 114.

Valley RR. of Ohio—Baltimore & Ohio.—The Court yesterday granted a decree for the foreclosure sale of the Valley RR. of Ohio.

Washington County Railroad (of Maine).—The citizens of Washington County, Me., this week voted largely in favor of the proposition to subscribe to $500,000 of the company's preferred stock, as authorized to do by the last legislature. The projectors are said to have secured also private subscriptions for a considerable portion of an additional $200,000 of the stock, and the chances of the road being constructed are considered good. The project is a reorganization of the Shore Line RR. Co. The line is to extend from a connection with the Maine Central across Washington County as near the coast line as practicable to Calais and Eastport on the eastern boundary line of Maine. Mr. George A. Curran, of Portland, Me., is President of the new company and the projectors include Messrs. S. H. Leavitt, S. D. Leavitt, N. A. Nutt, G. A. Murchie, E. B. Curtis and T. W. Cooper. Washington County is the most eastern county of Maine and up to the present time has enjoyed railroad facilities only on its northern, eastern and western borders.

—The Reorganization Committee of the Fort Worth & Denver City Railway Co. gives notice to the holders of the first mortgage bonds that deposits should be promptly made with the Mercantile Trust Co. in exchange for its negotiable certificates, and those who have not received the circular of the Reorganization Committee, showing the necessity of an immediate deposit in order to protect the property, will be furnished with it on application to the Mercantile Trust Co. or at the office of the Company, No. 1 Broadway, New York City.

—The Louisville & Nashville Railroad Co. having called in for payment the entire issue of the Louisville & Nashville Railroad Co. ten-forty adjustment mortgage bonds, dated October 2, 1884, on the first day of February, 1896, Messrs. August Belmont & Co. give notice that they are prepared to purchase such bonds in anticipation of payment by the company at a price equal to their redemption value on that date, less a discount of 3 per cent per annum.

—Messrs. Griswold & Gillett offer a limited amount of first mortgage 5 per cent 30-year gold bonds of the Centralia & Chester Railroad Company of Illinois at 92½ and accrued interest, at which price they will pay the investor over 5½ per cent. These bonds are not a new security, as the twelfth coupon was paid at the Farmers' Loan & Trust Company, trustee of the mortgage, on July 1. A map of the line will be found in our INVESTORS' SUPPLEMENT.

—Mr. Henry P. Davison has been appointed cashier of the Liberty National Bank and Messrs. Charles G. Emery and E. C. Converse have been added to the board of directors. The Liberty Bank is located in the Central Railroad Building, Liberty Street, corner West Street. Its list of directors comprises prominent names in the financial world. See the card on the first page of the CHRONICLE.

—In our advertising columns will be found a list of investment securities offered by Messrs. Redmond, Kerr & Co., covering a large variety of steam and street railroad securities. These securities are fully described in the circulars issued by this firm, which will be mailed on application.

Reports and Documents.

CHICAGO & NORTH WESTERN RAILWAY.

ANNUAL REPORT FOR THE THIRTY-SIXTH FISCAL YEAR ENDING MAY 31, 1895.

The annual report of the business and affairs of the Chicago & North Western Railway Company for the fiscal year beginning June 1st, 1894, and ending May 31st, 1895, is herewith submitted:

A summary of the year's operations is as follows:

Gross Earnings from Traffic	$28,108,374 43
All Charges against Income	25,501,325 97
Net Receipts from Traffic	$2,607,048 46
Other Income from Investments	244,907 50
Net Receipts	$2,851,955 96

The account is as follows:

GROSS EARNINGS.

Passenger Earnings	$7,044 691 43	
Freight Earnings	19,484,415 06	
Express and Mail Earnings	1,297,716 23	
Miscellaneous Earnings	281,551 71	
		$28,108,374 43

CHARGES AGAINST INCOME

Operating Expenses ($62^{37}/_{100}$ per cent)	$17,503,917 35	
Taxes ($3^{59}/_{100}$ per cent)	1,007,811 22	
		18,511,728 57
Net Earnings		$9,596,645 86
Net Interest on Bonds and Interest	$7,071,135 30	
Less Credits:		
Balance of Int. and Exchange	$30,767 90	
Div. on Omaha Pref. Stock	376,600 00	
	407,367 90	
		6,663,767 40
Profits		2,932,878 46
Deduct Sinking Funds		325,830 00
Balance Profit for the Year		$2,607,048 46
Add Income from Investments		244,907 50
Net Receipts for the Year		$2,851,955 96
Amount taken from Accumulated Surplus		273,590 04
Total		$3,125,546 00

DIVIDENDS.

The foregoing statement shows net earnings sufficient to pay seven per cent upon the Preferred Stock, and—with the additional sum of $273,590 04, taken from the undivided surplus of previous years—four per cent upon the Common Stock, and such dividends were respectively declared for the year, to wit:

Seven per cent upon Preferred Stock	$1,563,450 00
Four per cent upon Common Stock	1,562,096 00
Total of Dividends	$3,125,546 00

COMPARATIVE STATEMENT.

FISCAL YEAR 1895 WITH 1894.

	For 1895. *Aver. miles op.,* 5,030·78.	*For* 1894. *Aver. miles op.,* 4,841·35.	*Difference.*

Net Interest on Bonds, 1895	$6,663,767 40
Net Interest on Bonds, 1894	6,443,558 95
Increase, $3^{42}/_{100}$ per cent	$220,208 45
Sinking Funds, 1895	$325,830 00
Sinking Funds, 1894	327,150 00
Decrease, $^{40}/_{100}$ per cent	$1,320 00
Net Revenue, 1895	$2,851,955 96
Net Revenue, 1894	4,307,543 56
Decrease, $33^{79}/_{100}$ per cent	$1,455,587 60

LENGTH OF ROAD.

The miles of railroad embraced in the system of the Chicago & North Western Railway are the same as were in operation at the beginning of the fiscal year, to wit, 5,030·78 miles, as follows:

Chicago & North Western Railway, including as its Ashland Division the former Milwaukee Lake Shore & Western Railway	3,782·29	Miles.
Leased road St. Paul Eastn Grand Trunk R'y received from the M. L. S. & W. R'y Co.	60·02	"
	3,842·31	"
Winona & St. Peter, proprietary road	118·18	
Dakota Central " "	722·93	
Princeton & Western " "	16·06	
	1,188·17	
Length of road	5,030·78	"

All of which was operated the entire year against the average of 4,842·35 miles operated in the preceding year.

The mileage by States is as follows:

In Illinois	593·97
In Wisconsin	1,579·62
In Michigan	521·19
In Iowa	1,163·12
In Minnesota	414·47
In South Dakota	744·13
In North Dakota	14·28
Total	5,030·78

The number of miles laid with steel rails on May 31, 1895 was 4,726·35, equal to 93 95-100 per cent of the whole mileage. The total of second track not included in the foregoing statement was 803 78 100 miles, all of which is laid with steel.

CAPITAL STOCK.

Capital Stock account on May 31, 1895, was as follows:

	Stock outstanding	*Stock held by the Company.*	*Total.*
Common Stock	$39,051,100 00	$2,351,000 00	$41,[illegible] 100 00
Preferred Stock	22,336,000 00	485,200 00	22,[illegible]200 00
	$61,387,100 00	$2,836,200 00	$63,[illegible]300 00
Common Scrip	2,[illegible]32	78 00	2,[illegible]10
Preferred Scrip	170 00	84 56	254 56
	$61,389,957 92	$2,836,362 61	$64,[illegible]554 56

The only change during the year was the issue of one share of Common Stock for conversion of Scrip.

FUNDED DEBT.

By the payment of bonds drawn for cancellation in the sinking funds, and the redemption of $4,000 of Cedar Rapids & Missouri River Second Mortgage Bonds which matured in 1894, the funded debt was reduced $249,000 during the year, viz:

BONDS PAID.

C. & N. W. Sinking Fund Bonds of 1879, out of $129,000 drawn	$120,000
M. L. S. & W. R'y Improvement Bonds of 1893	105,000
M. L. S. & W. R'y Huron & Ontonagon Bonds, out of $35,000 drawn	21,000
Cedar Rapids & Missouri River RR. Co., Second Mort. Bonds	4,000
Reduction of debt	$249,000

The Company also paid to the sinking fund of the Milwaukee Lake Shore & Western Railway Extension & Improvement Bonds and canceled $42,000 of the same issue, taken from bonds on hand, which amount is not included in above statement.

The debt was increased by the issue and sale of $1,800,000 of the 25 year five per cent Debenture Bonds of 1909, the same being the balance of this class of bonds heretofore reserved from issue; of the present amount $1,500,000 were sold in anticipation of a large expenditure for track elevation in the city of Chicago, and for construction and equipment purposes, and $300,000 were sold for sinking fund investments.

The net increase arising from these changes during the year was $1,551,000. The total amount of funded debt on May 31st, 1895, including $2,252,500 of five bonds in the various sinking funds was $131,664,500.

PASSENGER TRAFFIC.

The gross earnings from passengers amounted to $7,044,691 43 against $9,226,466 90 in the preceding year, being a decrease of $2,181,775 47, or 23 65-100 per cent; this decrease was equivalent to 56 26-100 per cent of the total losses which the Company sustained upon all of its traffic during the year, and was, for the most part, the result of general duiness and local inactivity which followed closely upon the discontinuance of the large movement of the World's Fair travel in the preceding year.

In detail the decrease in earnings from first class passengers was $494,356 55, or 7 56-100 per cent; in round trip and excursion travel, which in the previous year included the great bulk of World's Fair passengers, the decrease amounted to $1,575,979 60, or 64 per cent; in the earnings from commutation travel the decrease was $90,776 56, or 8 34 per cent and in parlor car travel the decrease was $14,918 51, or 13 52-100 per cent; there was a small gain of $2,255 15 in receipts from second class passengers, caused by the relatively longer haul of the travel compared with that of the preceding year.

The number of passengers carried was 15,117,298, a comparative decrease of 1,965,102 passengers, or 11 50-100 per cent; the decrease in first class was 222,823 or 3 83-100 per cent; the decrease in second class was 1,084 or 18 per cent; the decrease in round trip and excursion passengers was 648,504 or 33 10-100 per cent; and the decrease in commutation passengers was 1,092,691 or 11 74-100 per cent; the average rate received from first class passengers was 88 cents, from second class, $6 43, from round trip and excursion 72 cents, and from commutation passengers, 13 cents, making the total average rate received from each passenger 47 cents, against 54 cents in the preceding year, a reduction equal to 12 96-100 per cent.

The total number of all classes carried one mile was 340,377,973, a decrease of 133,702,860, or 28 21-100 per cent.

The number of first class passengers carried one mile decreased 22,338,269, or 10 47-100 per cent; the number one mile of second class increased 169,257, or 12 86-100 per cent; the number one mile of round trip and excursion decreased 101,236,165, or 69 per cent, and the number one mile of commutation passengers decreased 10,267,683, or 9 11-100 per cent.

The average rate received per passenger per mile was 2 7-100 cents, against 1 95-100 cents in the previous year, an increase of 6 15-100 per cent, and the average distance that each passenger was carried was 22 52-100 miles, being a decrease of 5 24 100 miles compared with the distance traveled by each passenger in the preceding year.

FREIGHT TRAFFIC.

The earnings from freight traffic were $19,484,415 06, against $21,284,929 06 in the preceding year, a decrease of $1,800,514, or 8 46-100 per cent.

The total number of tons of freight carried was 13,822,906, against 12,949,382 tons in the preceding year; an increase of 873,524 tons, or 6 75-100 per cent; this increase was derived principally from a partial revival of iron ore tonnage during the season of lake navigation, and a moderate amount came from the movement of iron products, stone, brick, lumber, and other coarse and miscellaneous commodities.

The average rate received per ton was $1 41 against $1 64 in previous year, a decrease of 23 cents per ton, or 14 2-100 per cent; the number of tons carried one mile declined from 1,989,555,696 to 1,713,655,944, a decrease of 275,699,752 tons, equal to 13 86-100 per cent; the average distance that each ton of freight was carried was 124 miles against 154 in the preceding year, being a decrease of 30 miles, or 19 48-100 per cent, and the rate received per ton per mile was 1 14-100 cents.

PERFORMANCE OF ENGINES.

There was a decrease in the number of miles run during the year as follows: Reduction in passenger service, 208,040 miles, or 2 15-100 per cent; in freight service, 1,401,499 miles, or 8 72-100 per cent; in switching, 549,087 miles, or 8 6 100 per cent, and in gravel train work, 182,080 miles, or 27 45-100 per cent. The total mileage accomplished was 30,866,139, against 33,206,795 in the preceding year, a decrease of 2,340,656 miles, or 7 5 100 per cent.

The cost of this service, including labor, supplies, fuel and repairs, amounted to $5,586,137 37, and was 31 91-100 per cent of the entire operating expenses. The reduction in this department of expenditure, as compared with the previous year, was $614,718 98, or 9 91-100 per cent as follows: Decrease in service of enginemen, firemen and wipers, $155,511 52, or 6 68-100 per cent; decrease in fuel account, $273,318 78, or 10 38-100 per cent; decrease in oil, waste and tallow, $23,285 20, or 22 92-100 per cent, and decrease in cost of repairs, $162,393 68, or 14 29-100 per cent.

The total cost per mile run was 18 10-100 cents against 18 67-100 in the preceding year, distributed as follows: For service of enginemen, firemen and wipers, per mile run, 7 3-100 cents, being a slight increase per mile of 2-100 of a cent; for fuel, per mile, 7 66-100 cents; for oil, waste and tallow, per mile, 25-100 of a cent, and for repairs, per mile, 3 16-100 cents.

The miles run per ton of coal or cord of wood were 24 86-100, a gain of 1 46-100 miles, or 6 38-100 per cent; the miles run to a pint of oil were 16 88-100, a gain of 1 87-100 miles, or 12 46-100 per cent; and the miles run to a pound of waste, 156 50-100, a gain of 23 93-100 miles, or 18 5-100 per cent.

The quantity of coal consumed by engines was 1,243,015 tons, being a decrease of 168,792 tons, or 11 96-100 per cent, as compared with the consumption in the previous year, and the quantity of wood consumed was 23,778 cords, a decrease of 15,336 cords, or 39 31-100 per cent.

The average cost of coal per ton was $1 85, an increase of 5 cents per ton, or 2 78-100 per cent; and the average cost of wood per cord was $2 71, an increase per cord of 18 cents, or 7 11-100 per cent.

MAINTENANCE OF TRACK.

The gross sum expended upon track was $2,704,886 86, of which amount $1,595,250 70 was for labor; $512,440 85 for renewals of rails; $399,059 87 for renewals of ties, and $197,635 94 for track fastenings, switches, frogs, dump cars, hand cars, tools, etc.; against these charges were credits of $251,192 49 for value of old rails taken up and $33,376 89 for old track material, making the net expenditure for renewals and repairs $2,419,817 98.

The quantity of steel rail laid was 20,518 540-2240 tons, of iron rail 187 703-2240 tons, and the number of cross-ties laid in the track were 1,061,688.

Besides these outlays, $454,675 11 was expended upon roadway, bridges, culverts, cattle guards, fencing, road crossings, etc., and charged to operating expenses.

The condition of the track has been fully maintained throughout the year.

EQUIPMENT.

The number of locomotive engines was 1,010, the same as at the beginning of the year. To the car equipment were added 85 cars by the purchase of 110 refrigerator cars and the dismantling of 25 dump cars taken out of service. The whole car equipment at the close of the year consisted of 36,288 cars of all classes.

The sum of $1,016,381 49 (less credit of $42,529 52 for old material) was expended in locomotive repairs in the Company's shops, and 505 engines were taken up, partially rebuilt and put in thorough repair.

For the maintenance of passenger equipment, the net sum of $324,441 08 was expended, and for freight equipment the net sum of $878,559 05, included in which is the cost of 625 box cars and 208 live-stock cars purchased to replace worn-out cars.

A large amount of work was done during the year in equipping passenger trains with steam-heating apparatus and Pintsch gas light, and in fitting up freight cars with air brakes and automatic couplers, in addition to the usual repairs and renewals, and the rebuilding of 6 furniture cars.

GENERAL REMARKS.

In the Land Department the sales consisted of 15,755 99-100 acres and 467 lots, which were sold upon the usual terms for the consideration of $152,676 07. The average rate received was $10 15 per acre for lands in the Minnesota Grant, $3 87 per acre for lands in Michigan, $4 50 for lands in Wisconsin and $1 97 per acre for Ashland Division lands.

The net land income amounted to $316,770 85, including sales of sundry miscellaneous lands, for which the sum of $17,740 05 was realized and credited to construction account.

The quantity of all lands remaining on the 31st of May, 1895, was 967,855 82-100 acres, of which 231,490 88-100 acres had been sold under contracts still running, and 736,364 94-100 acres were unsold lands.

The outstanding amounts unpaid to the Land Department on the 31st of May last for lands and lots sold under contracts were $1,247,758 11.

These transactions do not include the lands of the St. Paul Eastern Grand Trunk Ry. Co., of inconsiderable amount, which are set over to the credit of that company.

There was a large reduction in the amount expended on construction account, and for new equipment and permanent improvements, during the year; additional facilities were acquired by the building of 36 54-100 miles of side tracks, at a cost of $143,565 66; the sum of $19,894 33 was paid for right of way; $52,659 62 was expended for account of second track; $90,313 90 for equipment; $71,112 40 as the first outlay for elevation of track in Chicago; $103,579 59 for iron ore docks and wharves at Ashland, and $104,655 05 was expended for various other permanent improvements on the Company's property.

The gross earnings per mile of road averaged $5,587 28, against $6,606 87 per mile in the preceding year, being a decrease of $1,019 59 per mile, equal to 15 43-100 per cent; operating expenses and taxes were reduced from the average of $4,318 62 per mile in the preceding year to $3,679 69, making a saving of $638 93 per mile, or 14 79-100 per cent.

The rate of operating expenses to gross earnings was 62 27-100 per cent and of operating expenses and taxes 65 86-100 per cent, against 62 11-100 per cent and 65 37-100 per cent, respectively, in the previous year.

The fiscal year covered by this report was marked by a series of adverse circumstances, which greatly reduced both freight and passenger earnings. At its beginning business had not recovered from the general depression of the previous two years, when freight earnings had fallen off with the decline of numerous industries, and the situation, with respect to passenger traffic, was only relieved by the exceptional movement of World's Fair travel. These existing conditions were soon aggravated by the formidable labor strike which originated at the Pullman Car shops, and, in spreading, involved the Company's lines in common with other roads at Chicago and throughout the West, to the interruption of communication, trade and travel, with corresponding loss of revenue.

This disturbance was followed by the unparalleled and almost complete failure of the crops in Iowa, Nebraska and South Dakota, and by less general failure in other regions served by the Company's system of roads, and the immense volume of tonnage dependent upon the movement of agricultural products, and the consequent prosperity attending the same were lost to the year's business, and the result is shown in the unusual decline of receipts, both in freight and passenger earnings.

Notwithstanding the large curtailment of expenditures in all departments as compared with former recent years, made necessary by the serious falling off in tonnage movement and passengers, the amount of material and labor expended has been sufficient to maintain the property in good condition.

The usual detailed statements, tables and statistics showing the results of the year's business, and the reports of the Land Commissioner, and of the Fremont Elkhorn & Missouri Valley Railroad Company, will be found in the accompanying pages.

MARVIN HUGHITT,
President.

Office of the
CHICAGO & NORTH WESTERN RAILWAY COMPANY,
July 31st, 1895.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, August 2, 1895.

There has been increased inquiry for bulk parcels of many descriptions of staple merchandise and jobbers and retailers generally appear about ready to commence renewal of working assortments. All recent gains in value have been well sustained and additional business has in some instances served as stimulus for further advance in prices. A few labor troubles have developed during the week, but as a rule employers manifest a disposition to grant reasonable requests from workmen. Variable weather has prevailed over most latitudes during the week, but there is no evidence to indicate that growing crops have suffered any appreciable injury. The marketing of new wheat continues very slow.

The following is a comparative statement of stocks of leading articles of merchandise at dates given:

	July 1, 1895.	*Aug.* 1, 1895.	*Aug.* 1, 1894
Pork.....bbls.	14,352	10,183	2,117

Lard on the spot has declined, and at the concessions increased business has been transacted, closing at 6 45c. for prime Western, 6·25c. for prime City and 6·85c. for refined for the Continent. The speculation in the local market for lard futures has been at a standstill, but prices have been quoted lower in response to weaker advices from the West, where leading packers have been operating for a decline.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	*Mon.*	*Tues.*	*Wed*	*Thurs.*	*Fri.*
September.....c.	6·65	6·67	6·60	6·50	6 50	6·45

Pork has sold moderately well at lower prices, closing at $11 75@$12 25 for mess. Cutmeats have been quiet and easier. Tallow has been quiet but steady, closing at 4@4⅛c. Cotton-seed oil has been steady, closing at 28@28¼c. for prime yellow and 27@27½c. for off grade yellow. Butter has advanced. Cheese has been easier. Fresh eggs have been firmer.

Raw sugars have sold with greater freedom, in part to arrive, and prices are higher. Centrifugal quoted at 3 5-16c. for 96-deg. test and muscovado at 2 15-16c. for 89 deg. test. Refined sugars were quiet but steady; granulated quoted 4⅝c. Teas easy.

Coffee sold freely at higher prices, closing firm at the advance. Rio quoted at 16¼c. for No. 7, good Cucuta 19¼c. and standard Java 27¼@37¾c. For future delivery offerings were moderate, demand to cover good, and prices firm, closing unsettled.

The following were the final asking prices:

Aug.....15·45c.	Nov.....15·50c.	Feb.....15·30c.
Sept.....15·60c.	Dec.....15·35c.	March.....15·20c.
Oct.....15·60c.	Jan.....15·30c.	April.....15·15c.

Kentucky tobacco has sold slowly, but prices have ruled steady at 2½@5c. for lugs and 5@14c. for leaf. Seed leaf tobacco has been in slightly better request and steady. Sales for the week were 1,450 cases as follows: 200 cases 1892 crop, Wisconsin Havana, 12@15c; 100 cases 1893 crop, Zimmer's, p. t.; 200 cases 1892 crop, Pennsylvania Havana, 10@12c.; 100 cases 1893 crop, Pennsylvania seed leaf, 10c; 150 cases 1893 crop, New England Havana, 8@10c.; 100 cases 1893 crop, New England Havana, 18@30c.; 400 cases 1894 crop, New England Havana, 16@20c., and 200 cases 1893 crop, Onondaga, 5@20c.; also 750 bales Havana, 65c.@$1 15, and 450 bales Sumatra, 60c.@$3, in bond.

Trading in the market for Straits tin has been quiet and prices have declined in response to weaker advices, closing barely steady at 14·25c. Ingot copper has continued to advance, and the close was strong at 11·90@12c. for Lake. Lead has made a slight further advance, and the close was steady at 3·55c. for domestic. Spelter has also advanced, closing firm at 3·85@3 87½c. for domestic. Pig iron has been moderately active and firm, closing at $11·50@14·00 for domestic.

Refined petroleum has further declined, closing at 7·10c. in bbls, 4·60c. in bulk and 7·50c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have been steady, closing at 1·30c. asked. Spirits turpentine has further declined, but the close was steady at 27c.@27¾c. Rosins have been easier, closing at $1·52½@1·57½. Wool has been moderately active and firm. Hops have been dull and weak.

COTTON.

FRIDAY NIGHT, August 2, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 1,760 bales, against 2,734 bales last week and 2,676 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,865,690 bales, against 5,918,843 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,946,847 bales.

Total 1893	16,331	2,979	7,804	2,512	29,626	257,086

Speculation in cotton for future delivery at this market has been irregular. At commencement of week business was unusually dull with tone easy, but demand subsequently revived and prices advanced in consequence of an increased consuming demand for cotton and an unfavorable construction placed upon crop advices from the South. Saturday brought only limited trading, confined mainly to settling up small deals for the week, and prices declined 2@3 points. About the same decline took place on Monday without really any new features shown, and on Tuesday trading was so light that scarcely a fluctuation took place; closing rates were same as preceding day. On Wednesday, however, there was a sharp change for the better, stimulated by unexpectedly poor showing in Government weather report and increased demand from Eastern spinners, influences that served to stimulate a net gain of 6@7 points. Yesterday the same general influences, fortified by stronger cable advices, created further buoyancy, with 12@13 points additional advance made. To-day the demand was generally less active and with some selling to realize prices receded about 5 points. Cotton on the spot is steady at 7⅛c. for middling uplands.

The total sales for forward delivery for the week are 409,700 bales. For immediate delivery the total sales foot up this week 36,447 bales, including 3,149 for export, 5,398 for consumption, — for speculation and 18,900 on contract. The following are the official quotations for each day of the past week—July 27 to August 2.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1⅛ on.	Good Ordinary	c. 1⅛ off.
Middling Fair	⅞ on.	Good Middling Tinged	Even.
Strict Good Middling	½ on.	Strict Middling Stained	7/32 off.
Good Middling	5/16 on.	Middling Stained	⅛ off.
Strict Low Middling	5/16 off.	Strict Low Mid. Stained	29/32 off.
Low Middling	⅞ off.	Low Middling Stained	1⅛ off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary	5⅞	5⅞	5⅞	5 15/16	6	6
Low Middling	6 9/16	6 9/16	6 9/16	6⅝	6 11/16	6 11/16
Middling	7	7	7	7 1/16	7⅛	7⅛
Good Middling	7 5/16	7 5/16	7 5/16	7⅜	7 7/16	7 7/16
Middling Fair	7⅞	7⅞	7⅞	7 15/16	8	8

GULF.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary	6¼	6⅜	6⅜	6 3/16	6¼	6¼
Low Middling	6 13/16	6 13/16	6 13/16	6⅞	6 15/16	6 15/16
Middling	7¼	7¼	7¼	7 5/16	7⅜	7⅜
Good Middling	7 9/16	7 9/16	7 9/16	7⅝	7 11/16	7 11/16
Middling Fair	8¼	8⅜	8⅜	8 3/16	8¼	8¼

STAINED.	Sat.	Mon	Tues	Wed	Th.	Fri.
Low Middling	5⅝	5⅝	5⅝	5 11/16	5¾	5¾
Middling	6 9/16	6 9/16	6 9/16	6⅝	6 11/16	6 11/16
Strict Middling	6 25/32	6 25/32	6 25/32	6 27/32	6 29/32	6 29/32
Good Middling Tinged	7	7	7	7 1/16	7⅛	7⅛

MARKET AND SALES.

The total sales of cotton on the spot and for future delivery each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

Spot Market Closed.	Sales of Spot and Contract. Export.	Consump.	Spec-ul'tn	Con-tract.	Total.	Sales of Futures.

☞ The imports into Continental ports the past week have been 34,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 451,321 bales as compared with the same date of 1894, an *increase* of 278,991 bales over the corresponding date of 1893 and a decrease of 112,282 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns.	Movement to August 2, 1895. Receipts. This week.	Receipts. Since Sept. 1, '94	Shipm'ts This week.	Stock Aug. 2.	Movement to August 3, 1894. Receipts. This week.	Receipts. Since Sept. 1, '93.	Shipm'ts This week.	Stock Aug. 3.

* Louisville figures "net" in both years.
‡ This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 6,194 bales and are now 15,657 bales *less* than at same period last year. The receipts at all the towns have been 566 bales *less* than same week last year and since Sept. 1 are 1,776,544 bales *more* than for same time in 1893-94.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Aug. 2.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Saturday.	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.
Galveston	6⅝	6⅝	6⅝	6⅝	6⅝	6⅝

Cincinnati	7	7	7	7	7	7
Louisville	7	7	7	7	7	7

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta	6⅛	Little Rock	6 1/16	Newberry	6¼
Columbus, Ga.	6⅛	Montgomery	6⅜ @ —	Raleigh	7⅛
Columbus, Miss	6	Nashville	6¼	Selma	6⅜ @ 7
Eufaula	6 3/16	Natchez	6⅜	Shreveport	6 1/16

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stock at Interior Towns.			Receipts from Plantations		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
June 28	12,[illegible]	12,[illegible]	6,229	100,[illegible]	83,[illegible]	67,870	4,[illegible]	6,914	2,135
July 5	16,484	10,119	3,[illegible]	[illegible],[illegible]	76,[illegible]	64,734	6,771	3,[illegible]	649
" 12	14,[illegible]	5,[illegible]	5,[illegible]	[illegible],[illegible]	76,[illegible]	58,[illegible]	10,[illegible]	3,[illegible]	
" 19	11,[illegible]	3,[illegible]	2,[illegible]	110,[illegible]	73,[illegible]	56,[illegible]	[illegible]	340	218
" 26	14,[illegible]	4,[illegible]	2,[illegible]	[illegible],[illegible]	68,[illegible]	53,[illegible]			
Aug. 2	10,[illegible]	3,[illegible]	1,[illegible]	21,[illegible]	62,[illegible]	[illegible],[illegible]	4,[illegible]	[illegible]	

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,[illegible]; in 1893-94 were 1,[illegible]; in 1892-93 were 5,[illegible] bales.

2.—That although the receipts at the outports the past week were 1,[illegible] bales, the actual movement from plantations was only —— bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were [illegible] bales and for 1893 they were 4,[illegible] bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Aug. 2 and since Sept. 1 in the last two years are as follows:

August 2.	1894-95.		1893-94	
	Week.	Since Sept. 1.	Week.	Since Sept.
Shipped—				
Via St. Louis	3,[illegible]	[illegible]	1,[illegible]	[illegible]
Via Cairo	[illegible]	337,225	[illegible]	[illegible]
Via Hannibal	[illegible]	[illegible]	[illegible]	[illegible]
Via [illegible]	[illegible]	3,[illegible]	[illegible]	[illegible]
Via Louisville	[illegible]	[illegible]	[illegible]	[illegible]
Via [illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Via other routes, &c.	[illegible]	[illegible]	[illegible]	[illegible]
Total gross overland	5,[illegible]	1,791,177	2,[illegible]	1,237,522
Deduct shipments—				
Overland to N. Y., Boston, &c.	[illegible]	[illegible]	[illegible]	[illegible]
Between interior towns	[illegible]	[illegible]	[illegible]	[illegible]
Inland, &c., from South	2,[illegible]	[illegible]	[illegible]	[illegible]
Total to be deducted	3,[illegible]	[illegible]	[illegible]	[illegible]
Leaving total net overland*	1,730	1,100,594	1,227	810,944

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 1,730 bales, against 1,227 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 289,650 bales.

In Sight and Spinners' Takings.	1894-95.		1893-94	
	Week.	Since Sept. 1.	Week.	Since Sept.
Receipts at ports to Aug. 2	1,760	7,865,690	3,944	5,918,843
Net overland to Aug. 2	1,730	1,100,594	1,227	810,944
Southern consumption to Aug. 2	10,000	730,000	8,000	660,000
Total marketed	13,490	9,696,284	13,171	7,398,787
Interior stocks in excess	*6,194	*110,133	*3,086	113,307
Came into sight during week	7,296	[illegible]	10,085	
Total in sight Aug. 2	[illegible]	9,696,121	[illegible]	7,385,480
North'n spinners' tak'gs to Aug. 2	31,095	2,038,648	5,110	1,559,435

* Decrease during week. (Less than September 1.

It will be seen by the above that there has come into sight during the week 7,296 bales, against 10,085 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,310,671 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that there has been but little rain generally the past week. In Texas the weather has been dry almost everywhere and cotton is said to need moisture in a number of sections. Some districts along the Gulf report an improvement in condition, but in others the position is somewhat unfavorable. At a few points in the Atlantic States rain would be of benefit.

Galveston, Texas.—The weather has been dry the past week.

Palestine, Texas.—Crop is generally in good condition. We have had no rain during the week. The thermometer has averaged 82, ranging from 70 to 94.

Huntsville, Texas.—We have had only a trace of rain during the week. The thermometer has ranged from 79 to 88, averaging 84.

Dallas, Texas.—There has been no rain during the week. Average thermometer 82, highest 96 and lowest 68.

San Antonio, Texas.—Dry weather has prevailed all the week. The crop is three weeks late and condition is below the average. There is some complaints of Mexican weevil. The thermometer has averaged 85, the highest being 98 and the lowest 72.

Luling, Texas.—Cotton needs moisture. We have had rain on one day of the week to an inappreciable extent. The thermometer has averaged 87, ranging from 74 to 100.

Columbia, Texas.—Only one-third of a crop will be made in this county. Cotton is fully four weeks late. We have had dry weather all the week. The thermometer has ranged from 70 to 96, averaging 83.

Cuero, Texas.—The weather has been dry all the week. Crop is from three to four weeks late and considerable shedding of blooms is reported. Average thermometer 86, highest 98 and lowest 74.

Brenham, Texas.—We have had only a trace of rain during the week. The thermometer has averaged 86, the highest being 98 and the lowest 74.

Belton, Texas.—Crop needs rain, although not damaged as yet. The thermometer has averaged 85, ranging from 68 to 102.

Fort Worth, Texas.—It has been dry all the week. The thermometer has ranged from 68 to 96, averaging 82.

Weatherford, Texas.—There has been no rain during the week. Average thermometer 82, highest 96 and lowest 68.

New Orleans, Louisiana.—It has been dry all the week. The thermometer has averaged 83.

Shreveport, Louisiana.—It has rained on one day during the week, to the extent of twenty-five hundredths of an inch. The thermometer has averaged 82, ranging from 71 to 94.

Columbus, Mississippi.—There has been rain on one day during the week, to the extent of five hundredths of an inch. The thermometer has ranged from 64 to 104, averaging 83. During the month of July the precipitation was one inch and ninety-eight hundredths.

Leland, Mississippi.—Telegram not received.

Meridian, Mississippi.—The weather has been favorable the past week and crops are growing well. The thermometer has averaged 82, the highest being 96 and the lowest 68.

Little Rock, Arkansas.—Rain has fallen on three days of the week, to the extent of two inches and seven hundredths. The thermometer has averaged 79, ranging from 66 to 94.

Helena, Arkansas.—Cotton is grassy. There have been light showers on three days of the past week, the rainfall being twenty hundredths of an inch. The thermometer has ranged from 66 to 91, averaging 78. July rainfall five inches and twenty-five hundredths, on seventeen days.

Memphis, Tennessee.—Warm, dry weather and sunshine is needed. The first open boll was received on Thursday from Concordia Parish, Louisiana. We have had light rain on four days of the week, the precipitation being fifty-four hundredths of an inch. The weather now is clear. Average thermometer 76·2, highest 90 5 and lowest 66·8. During July it rained on twenty-two days, to the extent of six inches and ninety-nine hundredths.

Nashville, Tennessee.—The week's rainfall has been thirteen hundredths of an inch. The thermometer has averaged 76, the highest being 89 and the lowest 58.

Mobile, Alabama.—Crop reports are unfavorable. Much complaint of poor fruitage. It has rained on one day of the week, the rainfall reaching seven hundredths of an inch. The thermometer has averaged 83, and ranged from 71 to 94. During the month of July the rainfall reached four inches and fifty-three hundredths.

Montgomery, Alabama.—Cotton has improved considerably and is maturing very rapidly. Corn is made and there is plenty of it. We have had a trace of rain on two days of the week. Month's rainfall three inches and forty-seven hundredths.

Selma, Alabama.—The cotton crop through this section is spotted. In some districts it looks wilted and yellow and is suffering for rain. On upland and rolling lands it is fairly good. Rain has fallen on two days of the week but to an inappreciable extent. Average thermometer 80, highest 93 and lowest 66.

Madison, Florida.—We have had rain on three days of the past week, the rainfall reaching two inches and seventy hundredths. The thermometer has averaged 81, the highest being 91 and the lowest 70.

Columbus, Georgia.—Rain has fallen on one day of the week, to the extent of four hundredths of an inch. The thermometer has averaged 82, ranging from 69 to 90.

Savannah, Georgia.—We have had rain on four days of the week, the rainfall reaching two inches and fifty-six hundredths. The thermometer has ranged from 69 to 98, averaging 82.

Augusta, Georgia.—We have had rain on three days of the week, the precipitation reaching fifty-one hundredths of an inch. Average thermometer 81, highest 92 and lowest 68.

Albany, Georgia.—Telegram not received.

Charleston, South Carolina.—We have had rain on four days of the week, the precipitation reaching sixty-four hundredths of an inch. The thermometer has averaged 81, ranging from 69 to 94.

Stateburg, South Carolina.—Rain has fallen on two days of the week, to the extent of one inch and ninety-five hundredths. The thermometer has ranged from 65 to 88, averaging 78.

Greenwood, South Carolina.—Cotton needs moisture very much. It is estimated that it has already suffered to the extent of ten per cent and will further depreciate unless rain comes soon. Average thermometer 75, highest 90 and lowest 69.

Wilson, North Carolina.—Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock August 1, 1895, and August 2, 1894.

		Aug. 1, '95.	*Aug.* 2 '94.
		Feet.	*Feet.*
New Orleans	Above zero of gauge.	4·7	4·2
Memphis	Above zero of gauge.	8 3	4 7
Nashville	Above zero of gauge.	7·5	2 6
Shreveport	Above zero of gauge.	29·5	1·6
Vicksburg	Above zero of gauge.	37·1	6·8

India Cotton Movement From all Ports.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to August 1.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	*Shipments this week.* Great Brit'n.	Conti-nent.	Total.	*Shipments since Sept.* 1. Great Britain	Conti-nent.	Total.	*Receipts.* This Week.	Since Sept. 1.
'94-5	.....	4,000	4,000	26,000	517,000	543,000	11.000	1,501 000
'93-4	.....	8,000	8,000	47,000	827,000	874.000	8 000	1,762.000
'92-3	1,000	11,000	12,000	43,000	796,000	839,000	4 000	1,719,000
'91-2	.....	5,000	5,000	69,000	828,000	897,000	5,000	1,734,000

Note. Last year's figures revised.

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 3,000 bales and a *decrease* in shipments of 4,000 bales, and the shipments since Sept. 1 show a *decrease* of 331,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week. Great Britain.	Conti-nent.	Total.	*Shipments since Sept.* Great Britain.	Continent.	Total
Calcutta—

Alexandria Receipts and Shipments.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, July 31	1894-95.	1893-94.	1892-93.
Receipts (cantars*)....			
This week ...	.....	.....	5,000
Since Sept. 1.	4,538,000	4,931,666	5,143,000

	This week.	*Since Sept.* 1.	*This week.*	*Since Sept.* 1.	*This week.*	*Since Sept.* 1.
Exports (bales)—						
To Liverpool	.....	273.000	.....	305,000	1,000	307,000
To Continent†	1,000	344,000	5,000	336,000	4,000	343 000
Total Europe.	1,000	617,000	5,000	641.000	5.000	650,000

Note.—Last year's figures revised.

* A cantar is 98 pounds.

† Of which to America in 1894-95, 43,360 bales; in 1893-94, 24,886 bales; in 1892 93, 37,665 bales.

This statement shows that the receipts for the week ending July 31 were —— cantars and the shipments to all Europe 1,000 bales.

Manchester Market.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. Stocks of yarn are accumulating. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895. *32s Cop. Twist.*	*8¼ lbs. Shirtings.*	*Cott'n Mid. Uplds*	1894. *32s Cop. Twist.*	*8¼ lbs. Shirtings.*	*Cott'n Mid. Uplds*

Comparative Port Receipts and Daily Crop Movemen—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1894, and in previous years, have been as follows:

Monthly Receipts.	*Year Beginning September* 1 1894.	1893.	1892.	1891.	1890.	1889.
Sept'mb'r	518,762	377,408	405,355	676,823	732,236	561,710

Perc'tage of tot. port receipts July 31..	98·90	98·86	99·02	98·68	98·58	

This statement shows that up to July 31 the receipts at the ports this year were 1,947,360 bales more than in 1894 and 2,809,301 bales greater than in 1893. By adding to the totals to June 30 the daily receipts since that time we shall be able to reacn an exact comparison of the movement for the different years.

Percentage of total port rec'pts Aug. 2.	98·92	98·90	99·19	98·70	98·59	

* 7,704 bales added as correction at New Orleans.

This statement shows that the receipts since Sept. 1 up to to-night are now 1,947,510 bales more than they were to the same day of the month in 1894 and 2,807,828 bales greater than they were to the same day of the month in 1893. We add to the table the percentages of total port receipts which had been received to August 2 in each of the years named.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (August 2) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

Receipts to Aug. 2	1894-95. This week.	1894-95. Since Sept. 1.	1893-94. This week.	1893-94. Since Sept. 1.	Stock 1895.	Stock 1894.

JUTE BUTTS, BAGGING, &c.—Bagging has been in limited request during the week under review, but prices have been well maintained at 4½c. for 1¾ lbs., 4¾c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4¼c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5¼c. for 2¼ lbs. f. o. b. at New York. Jute butts continue dull on the spot at 1⅛c. for paper quality, 1½c. for mixing and 1¾c. for bagging quality. The deliveries of jute butts and rejections at New York and Boston during July were 51,696 bales against only 4,651 bales for the same month last year, and for the seven months the deliveries reached 370,145 bales against 147,033 bales in 1894. The aggregate stock in the hands of importers and speculators at New York and Boston on July 31 was 2,300 bales, against nil bales at the corresponding date in 1894 and the amount afloat for the United States reaches 40,778 bales against 74,599 bales last year.

THE EXPORTS OF COTTON from New York this week show an increase compared with last week, the total reaching 4,238 bales, against 3,085 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1894, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1894.

Exported to—	Week Ending— July 12.	July 19.	July 26.	Aug. 2.	Total since Sept. 1.	Same period previous year.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 11,138 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales
NEW YORK—To Liverpool, per steamer Bovic, 1,091	1,091
To Havre, per steamer La Champagne, 338	338
To Bremen, per steamers Ems, 24... Willehad, 868	892
To Rotterdam, per steamer Spaarndam, 44	44
To Antwerp, per steamer Waesland, 792	792
To Genoa, per steamer Powhatan, 200	200
To Yokohama, per steamer Olive Branch, 901	901
To Matamoras, per steamer Maihana, 5	5
NEW ORLEANS—To Liverpool, per steamers Electrician, 4,143 ... Holbein, 1,100	5,242
To Hamburg, per steamer Cheruskia, 380	380
To Barcelona, per steamer Pio IX., 200	200
BOSTON—To Liverpool, per steamers Georgian, 1....Ottoman, 32 .. Pavonia, 600	633
BALTIMORE—To Liverpool, per steamer Sedgemoor, 53	53
To Bremen, per steamer Weimar, 200	200
PHILADELPHIA—To Liverpool, per steamer Kensington, 166	166
Total	11,138

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Havre.	Bremen.	Hamburg.	Rotterdam & Antw'p.	Barcelona, &c.	Total.
New York.....	1,091	338	892	.....	836	1,106	4,263

BREADSTUFFS.

FRIDAY, August 2, 1895.

For wheat flour the market has been dull, and while no material changes have been made in quoted values, to sell holders had to make concessions of at least 10c. per bbl. In city mills a fairly large business was transacted with the West Indies and prices ruled steady. Rye flour has been quiet and without change. Corn meal has sold slowly, but prices have held steady. To-day the market for wheat flour was dull and easy.

Immediately after our last issue the market for wheat futures was fairly active at advancing prices on buying by "shorts" to cover contracts, stimulated by unfavorable crop accounts from the West and stronger foreign advices, but subsequently the market became quiet and under weaker advices from abroad, accompanied with selling orders and improved crop accounts from the West, prices declined, losing all of the early improvement. In the spot market business has been dull but prices have been steady. Yesterday No. 2 red winter was quoted at 2½c. over September f.o.b afloat. To-day the market was steady during early 'Change in response to stronger foreign advices but subsequently Western selling caused a decline. The spot market was quiet. The sales included No. 1 hard at 4c. over September f.o.b. afloat. No. 2 red winter was quoted at 2½c. over September f.o.b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs	Fri.
August delivery.....c.	75⅜	76¼	75	73¾	74	73¼
September delivery....c.	75⅛	76½	75¼	73⅞	74	73⅛
October delivery..... c.	75⅞	76⅝	75⅜	74	74¼	73¼
December delivery.....c.	76⅞	77¾	76⅛	75⅛	75½	74½
May delivery.....c.	79⅞	80⅜	79¼	77¾	78⅛	77¼

The speculative dealings n Indian corn have been moderately active, and although crop accounts from the West have been favorable prices for the near-by deliveries have made fractional advances on fairly brisk buying by "shorts" to cover contracts, stimulated by a good business in the spot market both for local and foreign account. The sales yesterday included No. 2 mixed at 49⅛c. in elevator, 50⅛@50¼c. delivered and 2c. over September f. o. b. afloat; also yellow at 51½c. delivered. To-day the market was weaker under realizing sales by "longs." The spot market was easier. The sales included No. 2 mixed at 49½@50c. delivered, and 2c. over September f. o. b. afloat; also No. 2 white at 49⅜c. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
August delivery.....c.	48¼	48¼	48⅛	48⅛	49	48⅛
September delivery....c.	48⅜	48⅜	48¼	48⅛	49	48⅛
October delivery.....c.	47⅛	47⅝	47¼	47¼	47¾	46⅞
May delivery .....c.	40⅞	41¼	41¼	41	41	40⅝

Oats for future delivery have been quiet and fluctuations in prices have been narrow, but the market has held fairly steady in sympathy with the firmer market for corn. The spot market has been quiet and prices have weakened slightly. The sales yesterday included No. 2 mixed at 28c. in elevator and No. 3 white at 31½c. in elevator. To-day the market was lower, with corn. The spot market was steady. The sales included No. 2 mixed at 28c. in elevator, and No. 2 white at 31½c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., August 2, 1895.

Although there has again been a good attendance of buyers in the market, there has not been much development of demand in cotton goods of any kind, whilst in men's-wear woolens and worsteds some falling off in business has been noticeable. So far as cotton goods are concerned this may be attributed in some degree to the influence of the end of the month and to some extent to the recent advance in prices having a tendency to check freer buying. In woolens and worsteds the falling off is but a sequel to recent good demand by which the bulk of early requirements have been met. The general tenor of reports of July business, which include deliveries on old orders is to the effect that the volume is largely in excess of July last year, and better considerably than the average July. This month opens under very encouraging auspices. Available stocks have seldom been in such small compass in staple cottons as at present, production is largely taken care of for the next two months, or even longer. Distribution from second-hand is brisk, a good supplementary business is probable and prices are generally on a basis returning some profit to manufacturers, with indications that they may in many instances go still higher.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 29 were 2,723 packages, valued at $139,066, their destination being to the points specified in the table below:

NEW YORK TO JULY 29.	1895. Week.	1895. Since Jan. 1.	1894 Week.	1894 Since Jan. 1.
Great Britain	31	3,100	67	3,415
Other European	33	1,751	16	2,039
China	50	30,962	1,002	56,302

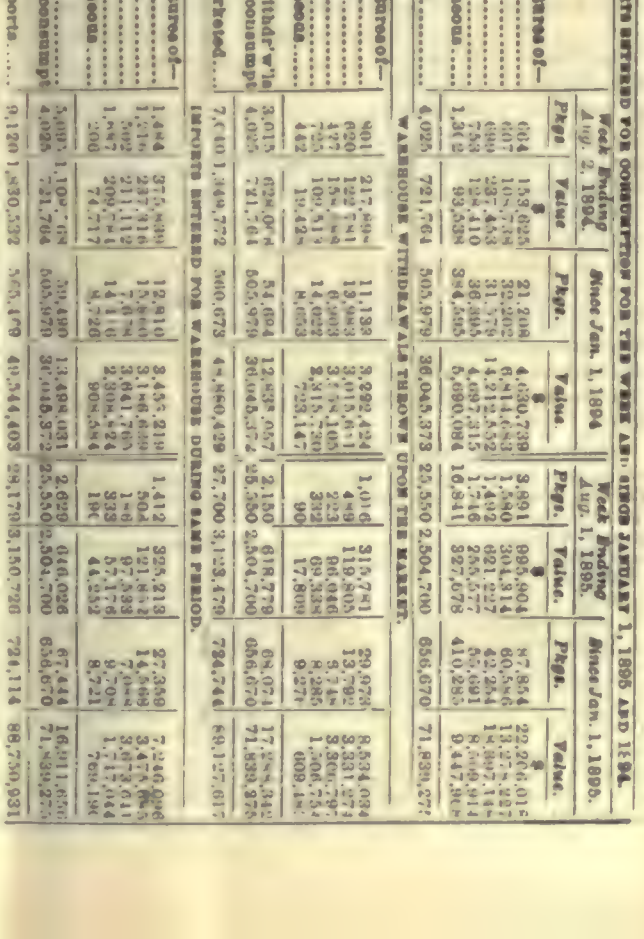
China, via Vancouver*	....	15,350	....	14,298
Total	2,723	130,802	3,258	144,101

* From New England mill points direct.

The value of the New York exports for the year has been $5,182,481 in 1895 against $6,821,265 in 1894.

The advances in bleached cottons noted last week have been followed by a number of others, this bringing most tickets into line again with the leaders. The demand has not been at all free at the advance, but is likely to prove brisker before long in all grades. Low-grade bleached cottons are very firm. In brown sheetings four-yard makes are gradually hardening, but as a rule standards and three yards in both sheetings and drills can be bought at previous prices. The home demand is moderate, but there is a fair inquiry for exports. Denims are still quiet and easy to buy, as a rule. Ticks are firm and light makes occasionally ¼c. higher. Cheviots have sold rather more freely, but other coarse colored cottons are dull. Wide sheetings and cotton flannels and blankets are all very firm, but sales are moderate. Kid-finished cambrics are quiet even at 3½c. for 64 squares, although most sellers are asking 3⅝c. Other linings firm but quiet. Business in dark fancy prints is expanding and prices are firm There is a relatively good demand for printed flannel effects and wide specialties, Shirting prints and indigo blues have an upward tendency and other regular prints are firm. Ginghams are quiet throughout. Print cloths have been dull but the price has held firmly at 2⅜c. plus one per cent for 64 squares. Odd goods have been in fair demand.



Stock of Print Cloths—	1895. July 27.	1894. July 28.	1893. July 29.
At Providence, 64 squares	180,000	319,000	171,000
At Fall River, 64 squares	67,000	602,000	293,000
At Fall River, odd sizes	103,000	214,000	
Total stock (pieces)	350,000	1,135,000	464,000

WOOLEN GOODS.—In most lines of light-weight woolen and worsted fabrics for men's wear the bulk of the first round of orders has been taken and current orders show some falling off in consequence. The highest grades of worsted goods in fancies have shown, relatively, best results. In woolens the tone is hardly as confident as at the opening of the season, some reductions from opening prices in indigo blue flannel suitings and other wool goods having a rather disturbing influence. In worsteds the market, however, is generally quite firm. Sales of low-grade goods in cotton-warp cassimeres and the like have been limited, with some irregularity in prices. The demand for overcoatings is quiet and cloakings are without new feature. Woolen and worsted dress goods are fairly re-ordered, with a generally firm tone prevailing. Flannels have advanced 1c. to 2c. per yard and blankets occasionally 5 per cent, with but a moderate current business in progress.

FOREIGN DRY GOODS.—Business this week has been considerable in the aggregate in foreign merchandise, but individual transactions were moderate. Mohairs and fine worsted dress goods have sold well at very firm prices, as have silk fabrics. Ribbons are quiet but firm. Linens steady, with more doing and some increase reported in orders for hosiery and underwear in new lines for spring.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending August 2, and since January 1, 1895, and for the corresponding periods of last year are as follows:

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time		$3 50	Three Months	(13 times)	$25 00
One Month	(4 times)	11 00	Six Months	(26 times)	43 00
Two Months	(8 times)	18 00	Twelve Months	(52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

CALIFORNIA IRRIGATION DISTRICT BONDS.

We have received this week the full text of the decision of Judge Ross of the United States Circuit Court of Southern California, declaring invalid the Wright Irrigation District Law. The decision is an important one to investors in general and particularly to those interested in the irrigation schemes of our Western States.

The "District Irrigation Law" of California, popularly known as the "Wright Act," was passed by the Legislature after a hard struggle in 1887, and was amended in 1889 and 1891. It provides that the organization and government of irrigation districts shall be much the same as that of counties. It authorizes the districts to issue bonds for the acquirement of irrigation works and canals, to make assessments for the payment of the principal and interest of such bonds, and in case the assessments become delinquent to sell the property for their payment. Efforts have been made to frame similar irrigation laws in other States but none have as yet been successful.

In his decision of last week Judge Ross holds that this district irrigation law is in violation of both the Constitution of the United States and that of California on the ground that it authorizes the taking of land from private owners without due process of law and for purposes not public. The decision is a lengthy one and we can quote but briefly from it as follows:

"Can it be properly held that within the reasons that underlie any of the cases in which private property may be taken for a public use falls the case where it is sought to take such property in order to supply water only to certain individuals within a certain district? I think not. The property to be held by the corporation whose creation is provided for by the legislation in question is not, as said by the Supreme Court of California in re Madera Irrigation District, 92 Cal., 322, to be held 'in trust for the public,' but in trust for the land owners of the district, and for nob dy else. Manifestly, they do not constitute the public, whether they number many or few; and for their exclusive use the private property of no man can be taken without his consent. 'To lay, with one hand,' said the Supreme Court of the United States, in Loan Association vs. Topeka, 20 Wallace, 655, 'the power of the Government on the property of the citizen, and with the other bestow it on other individuals to aid private enterprises and build up private fortunes, is not the less a robbery because it is done under the forms of law, and is called taxation.' In Cummings vs. Peters, 56 Cal., 593, it was held that several owners of mines could not condemn a right-of way for a ditch through which to convey water to work their mines, because the use was a private one, being limited to specific individuals and not intended for the general public. Precisely the same thing is true in respect to the legislation in question. It is wholly immaterial whether the specific individuals are named or are designated as the owners of the lands within the district, or whether they number a half-dozen only, or as many hundred. The important and controlling fact in respect to this point is that in the case at bar, as in the case of the mine-owners referred to in 56 California, 593, the use of the water is limited to specific individuals, and the interest of the public is nothing more than that indirect and collateral benefit that it derives from every improvement of a useful character that is made in the State."

The weight of the decision, its wide-reaching effects and the public policy involved may be gathered from the following extract:

"The fact that vast sums of money have been invested in works constructed under and in pursuance of this legislation, and that bonds running into the millions have been issued and sold thereunder, and that many individuals may not otherwise be able to secure water for the irrigation of their respective tracts of land, and that the validity of the legislation has been several times sustained by the Supreme Court of the State, while demanding on the part of this Court great care and caution in the consideration of the case, and casting upon it a very grave responsibility, cannot justify it in failing to declare invalid legislation which, in its judgment, violates those principles of the Constitution of the United States which protect the private property of every person against forcible taking without due process of law, and for other than a lawful purpose. Such questions are not to be determined by considerations of expediency or hardship. Unfortunate as it will be if losses result to investors, and desirable as it undoubtedly is in this section of the country that irrigation facilities be improved and extended, it is far more important that the provisions of that great charter which is the sheet-anchor of safety be in all things observed and enforced."

The old case of "Trogen vs. Modesto Irrigation District," involving the constitutionality of the Wright act is now pending in the Supreme Court of the United States, and as this new case will probably be appealed it is hoped a decision will soon be had from that body.

The following we take from the Los Angeles *Daily Times*:

The districts now in existence which have been formed under the Wright law are given below, with the exception of two or three which were recently formed and which are said to be of minor importance. The list shows the names of the districts respectively in each county and the amount of bonds which have been voted in each district:

SAN BERNARDINO COUNTY.

GLENN COUNTY.			
Orland Southside	$100,000		
YUBA COUNTY.			
Brown's Valley	$140,000		

* This is the district in the case of which the decision of Judge Ross is rendered.

All the bonds voted by the several districts, as above stated, have not been sold. The bonds awaiting sale, pending the decision on the validity of the act by the Supreme Court of the United States, are said to aggregate about $3,500,000. The bonds which have been voted in these districts aggregate approximately $17,000,000.

Until the decision of the Supreme Court is had uncertainty is sure to prevail in the minds of those interested in these irrigation districts and it is hardly probable that the work of completing the water works systems will be continued.

Kansas City.—At Burlington, Vt., on the 29th inst., Justice Brewer, of the United States Supreme Court, granted the application of the attorneys representing Kansas City for an

order providing that the parties who furnished the $3,000,000 to pay for the water works should be subrogated to the rights of the National Water Works Company bondholders. On the following day Judge Brewer granted the Water Works Company an appeal and supersedeas, the case to be heard in St. Louis August 26.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Allegan, Mich.—An election held July 24 on issuing $8,000 of water-works bonds resulted in the defeat of the proposition.

Alliance, Ohio.—An election held July 20 on issuing $20,000 or $30,000 of sewerage bonds resulted in favor of the proposition.

Baltimore, Md.—On July 29, 1895, the city of Baltimore sold $720,000 of 3½ per cent Clifton Park bonds to the Fidelity & Deposit Co. of Maryland at 106·68. The securities are dated March 1, 1895, and will mature March 1, 1945. Five months accrued interest will be paid by the Park Commissioners. Sixty-two bids were received, aggregating $7,025,000 and ranging from 103 to 106·78. The last-named price was offered for $120,000 of the bonds, but the Fidelity & Deposit Company bid for all or none, and the whole amount was therefore awarded to them. The city officials expressed themselves as highly pleased with the high prices which were bid.

In a communication to the CHRONICLE Messrs. Wilson, Colston & Co., bankers of Baltimore, say in reference to the city's park loans that all city passenger railways in Baltimore pay nine per cent of their gross earnings to the city for a "park fund." This sum amounts at present to about $250,000 a year and is continually increasing. It provides interest and sinking fund on all stock issued in payment of parks and cost of maintenance. The stock issued in payment of Druid Hill Park, the principal one, has been already redeemed by the operations of the sinking fund. The splendid park system of Baltimore has not cost the citizens anything in the way of a direct tax. The fare on the city passenger railways is five cents and free transfers are given on connecting lines.

Bristol, Conn.—On July 30, 1895, the borough of Bristol sold $50,000 of 4 per cent sewer bonds to E. H. Gay & Co. at 104·09 and accrued interest. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1 and the principal will mature at the rate of $10,000 every five years from July 1, 1905, to July 1, 1925, both principal and interest being payable at the Bristol National Bank.

Nine bids were received for the loan as follows:

	Bid.
E. H. Gay & Co.	104·09
N. W. Harris & Co.	102·67
E. H. Rollins & Sons	102·45
Street, Wilkes & Co.	102·16
W. J. Hayes & Sons	102·03
Dietz, Denison & Prior	101·73
Cushman, Fisher & Co.	101·07
C. H. White & Co.	101·05
Wesson & Schlesinger	100·87

The bonds are to be delivered August 7, 1895.

Brooklyn, N. Y.—Proposals will be received until August 12, 1895, by George U. Palmer, Comptroller, for the purchase of $350,000 of school building bonds, $50,000 Twenty-sixth and adjacent wards sewer bonds and $25,000 of consolidated stock issued for the construction of the new East River bridge. Interest on the loans will be payable semi-annually on January 1 and July 1 and the principal will mature January 1, 1925, both principal and interest to be payable in United States gold coin. The securities are exempt from all taxation except for State purposes.

Canton, Ohio.—The City of Canton has sold $50,000 of 5 per cent refunding bonds to Lamprecht Brothers Co. for $53,-963 50 and accrued interest. Interest on the securities is payable semi-annually and the principal will mature at the rate of $5,000 yearly in from three to twelve years from date of issue.

Thirteen bids were received for the loan as follows:

	Premium.
Lamprecht Brothers Co., Cleveland, Ohio	$3,903 50
Sherwood & Merrill, New York City	3,865 00
Seasongood & Mayer, Cincinnati, Ohio	3,771 50
W. J. Hayes & Sons, Cleveland, Ohio	3,595 00
E. L. Day & Co., Boston, Mass.	3,643 50
C. H. White & Co., New York City	3,500 00
N. W. Harris & Co., Chicago, Ill.	3,530 00
Blodget, Merrill & Co., Boston, Mass.	3,540 00
Parson, Leach & Co., Chicago, Ill.	3,512 75
Dietz, Denison & Prior, Cleveland, Ohio	2,257 00
J. W. Longstreet & Co., Boston, Mass.	2,850 00
Rudolph Kleybolte & Co., Cincinnati, Ohio	2,750 00
E. A. Kean, Chicago, Ill.	1,625 00

Caroline County, Md.—Proposals will be received until Aug. 6, 1895, for the purchase of $15,000 of 5 per cent county bonds falling due in from 6 to 15 years. The bonds will be delivered Oct. 3, 1895.

Cassville, Wis.—The people of Cassville voted on July 19 in favor of issuing $4,500 of water-works bonds.

College Point, N. Y.—F. R. Clair, Village Treasurer, reports to the CHRONICLE that an election held July 29 on issuing $20,000 of water-works bonds resulted in the defeat of the proposition.

Corning School District No. 9, N. Y.—Proposals will be received until Aug. 28, 1895, by the Board of Education, for the purchase of $26,500 of 4 per cent school bonds. The securities will be dated Sept. 1, 1895, interest will be payable semi-annually on March 1 and Sept. 1, and the principal will mature at the rate of $2,000 yearly from March 1, 1918, to 1930 inclusive, and $500 on March 1, 1931, both principal and interest to be payable at the Knickerbocker Trust Company, New York.

Council Bluffs, Ia.—Notice is given by City Treasurer J. A. Gorham that $17,500 of city improvement bonds, issued March 1, 1885, payable in twenty years, with an option of call after ten years, are to be redeemed at the National Park Bank of New York City on September 1, 1895. Interest on the securities will cease on the same date. The bonds called are of the denomination of $500 and are numbered from 81 to 115, inclusive.

The official advertisement will be found elsewhere in this Department.

Cuba, Ill.—The citizens of Cuba will vote August 10 on issuing bonds for electric-light purposes.

Culpepper, Va.—Proposals will be received until Aug. 15, 1895, by A. M. Allan, Chairman of Finance Committee, for the purchase of $30,000 of 6 per cent water-works bonds. The securities will be dated Sept. 1, 1895, interest will be payable semi-annually, and the principal will mature Sept. 1, 1915, with an option of call after Sept. 1, 1900.

Dallas, Texas.—An ordinance entitled "An ordinance providing for the issuance of two hundred thousand dollars in 5 per cent general improvement bonds and providing a fund for their payment, principal and interest," approved May 24, 1895, has been repealed. The bonds will be taken up and cancelled in the presence of the city officials and such other persons as may desire to be present.

Duquesne, Pa.—Proposals will be received until August 7, 1895, by John W. Crawford, Chairman of Finance Committee, for the purchase of $75,000 of 4½ per cent water-works bonds. The securities will be dated September 1, 1895, interest will be payable semi annually on March 1 and September 1 at the First National Bank of Duquesne, and the principal will mature at the rate of $5,000 yearly from September 1, 1900, to September 1, 1914.

Eaton Rapids, Mich.—John J. Milbourn, City Recorder, reports to the CHRONICLE that the people of Eaton Rapids will vote August 19 on issuing $35,000 bonds, $27,000 for a water-works plant and $8,000 for an electric-light plant.

Elyria, Ohio.—An election will be held to vote on issuing $100,000 of water-works bonds.

Essex County, N. J.—On July 30, 1895, the County of Essex sold $1,000,000 of 3·65 per cent park bonds to Vermilye & Co. at 100·77 and accrued interest. The securities are dated August 1, 1895, and interest is payable semi-annually, both principal and interest being payable in gold coin. The total amount of bonds offered for sale was $3,500,000, maturing at the rate of $500,000 every fifth year from August 1, 1915, to August 1, 1955. A list of the bids received for the securities is given below:

	Amount.	*Bid.*
Eli Tetter, New York	$2,500,000	107·5345
J. & W. Seligman, New York	1,000,000	100·034
N. Y. Life Ins. Co.	1,000,000	100
Vermilye & Co., New York	1,000,000	100·77
Howard Savings Institute, Newark	50,000	100

Mr. Tetter was requested to prove his ability to take up the bonds, but misunderstanding the date set for a hearing was not present. A letter from him protested against the acceptance of any bid until he was heard from, but it was decided to let Vermilye & Co. have $1,000,000 at 100·77, the remainder to be held until Mr. Tetter was heard from.

Fitchburg, Mass.—Four per cent thirty-year school bonds of this city to the amount of $50,000 were sold on July 30 to E. H. Rollins & Sons, of Boston, at 107 00 and accrued interest. Eleven bids were received for the loan, ranging from 105 to 107 60.

Franklin, Minn.—Peter E. Wicken, Recorder, reports to the CHRONICLE that proposals will be received until August 16, 1895, for the purchase of $4,000 of water-works bonds to bear interest at a rate not exceeding 6 per cent. The securities will mature in fifteen years and will be payable in United States currency at St. Paul, Chicago or New York, at the option of the purchaser.

Garrett, Ind.—W. J. Martin, City Clerk, will receive proposals until August 16 for the purchase of water-works bonds to the amount of $19,500.

Hudson, N. Y.—On August 1, 1895, the city of Hudson sold $20,000 of 4 per cent cemetery purchase bonds to the Hudson City Savings Institution at 103¾ and accrued interest. The securities are dated Aug. 1, 1895, interest is payable semi-annually on February 1 and August 1, and the principal will mature at the rate of $2,000 yearly from February 1, 1905, to February 1, 1914.

Ironton, Ohio.—Proposals will be received until August 27, 1895, by George H. Davies, City Clerk, for the purchase of $30,000 of 5 per cent bonds. The securities will be dated Sept.

tember 1, 1895, interest will be payable semi-annually in New York, and the principal will mature in 20 years.

The official advertisement of this bond offering will be found elsewhere in this Department.

Jackson, Mich.—The people of Jackson will vote August 19 on issuing $35,600 of bonds for water-works purposes.

Lillian Irrigation District of Custer County, Neb.—P. L. Metcalf, Secretary, will receive proposals until August 15 for the purchase of $32,000 of bonds.

Lorain, Ohio.—Proposals will be received until August 24, 1895, by George Hall, Village Clerk, for the purchase of $3,500 of 6 per cent prison bonds. The securities will be dated August 15, 1895, interest will be payable semi-annually, and $1,500 of the principal will mature August 15, 1897, and $2,000 August 15, 1898.

Proposals will also be received until August 31, 1895, by the Village Clerk, for the purchase of $25,000 of 5 per cent Black River improvement bonds, dated Sept. 15, 1894, and maturing at the rate of $5,000 each year commencing Sept. 15, 1924, and $25,000 of 5 per cent water-works extension bonds dated August 24, 1895, and redeemable August 24, 1915. Interest on both loans will be payable semi-annually.

All of the above-mentioned bonds will be payable at the Chase National Bank, New York.

An advertisement regarding these loans will be found elsewhere in this Department.

Mankato, Minn.—Proposals will be received until August 16 for the purchase of 5 per cent electric-light bonds to the amount of $10,000.

Milford, Mich.—On July 29, 1895, the village of Milford sold $18,000 of 5 per cent water-works bonds to Messrs. Trowbridge & Co., of Chicago, for a premium of $25 and accrued interest, the firm to furnish blank bonds. The securities are dated Aug. 1, 1895. Interest is payable semi-annually; both principal and interest to be payable at Lacy & Liddell's Bank, Milford, and the principal will mature at the rate of $1,000 yearly after five years and $4,000 the twentieth year. Seven other bids were received for the loan as follows:

Dietz, Denison & Prior offered par and accrued interest.
S. A. Kean offered $18,045 and accrued interest.
Lamprecht Brothers Co. offered par and accrued interest.
Mason, Lewis & Co. offered par and accrued interest less $150 00 commission.
N. W. Harris & Co. offered par less $23 00 for bonds.
W. J. Hayes & Sons offered par less $87 00 commission.
Farson, Leach & Co. offered $18,018 and accrued interest.

Bids were to be received for the loan in two forms, one the principal to mature at the rate of $1,000 yearly after 5 years and $4,000 the twentieth year; and the other, the principal to mature at the rate of $6,000 each year in ten, fifteen and twenty years from date.

Montesano, Wash.—Funding bonds of this city to the amount of $16,000 have been authorized by the Council. The loan will bear interest at a rate not exceeding 5 per cent, payable semi-annually, and will mature in 20 years, the bonds to be payable in New York.

Montgomery, Ala.—On July 29, 1895, the city of Montgomery sold $30,000 of 5 per cent paving bonds to Seaman & Co. of Cincinnati at 103⅛ and accrued interest. Interest on the loan is payable annually, and the principal will mature at the rate of one-twentieth yearly.

Mount Vernon, N. Y.—Proposals will be received until August 6, 1895, by the Common Council of the city of Mount Vernon, for the purchase of $11,000 of 5 per cent assessment bonds. The securities are dated August 1, 1895, interest will be payable semi-annually, and the principal will mature August 1, 1901. Both principal and interest will be payable at the office of the City Treasurer. The bonds will be delivered to the purchasers on or before August 19, 1895.

Newark, N. J.—It has been decided by the Finance Committee of Newark to issue $100,000 of school building bonds, $60,000 of street and water bonds and $250,000 sinking fund bonds.

GEORGIA MORTGAGE LOANS.
SOUTHERN LOAN AND TRUST COMPANY OF MACON, GA.
J. S. SCHOFIELD, Pres. H. M. SMITH, Sec.
F. O. SCHOFIELD, Treasurer.
This company makes a specialty of handling a limited amount of the best five year mortgage loans afforded by this community. Doing only a small business in this line, we can select the best. Loans secured by business property net the investor six per cent, residence, seven per cent. Principal and interest payable at the Merchants' Exchange National Bank, New York. Correspondence solicited.

WARRANTS SELECTED WASHINGTON STATE COUNTY, CITY AND SCHOOL.
JNO. P. DORR & CO., Seattle, Wash.

The bonds were awarded to E. H. Gay & Co., of Boston, Mass. The improvement bonds become due December 1, 1904, and the water bonds July 1, 1922. Interest is payable semi annually and the payment of principal is secured by sinking fund.

Trenton, N. J.—It is reported that this city has sold $79,000 of 4 per cent coupon bonds to Messrs. Street, Wykes & Co. at 103·63 and accrued interest. The loan matures at the rate of $7,900 yearly from August 1, 1900, to August 1, 1909.

Troy, N. Y.—It is reported that on July 29 this city sold $34,000 of 3½ per cent 10 to 18-year public building bonds to the Troy Savings Bank at 102·01. The securities are dated August 1, 1895.

Washington County, Me.—The voters of Washington County have decided to subscribe $500,000 to the Washington County Railroad Company.

West Carrollton, Ohio—Proposals will be received until August 16 for the purchase of $8,000 of water-works bonds, the loan to bear interest at the rate of 6 per cent.

Worthington, Minn.—On July 19, 1895, the village of Worthington sold $15,000 of 5 per cent electric-light bonds to N. W. Harris & Co. for a premium of $135. Two other bids were received, one from Farson, Leach & Co. and one from S. A. Kean. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1, and the principal will mature July 1, 1915, both principal and interest to be payable in New York.

Wyoming, Ohio.—On July 24, 1895, the village of Wyoming received bids for $3,000 of 5 per cent water-works bonds, a list of which is as follows:

	Premium.
S. A. Kean, Chicago	100·5
J. W. Longstreet & Co., Boston	100·34
Atlas National Bank, Cincinnati	104·33
German National Bank, Cincinnati	106·
R. Kleybolte & Co., Cincinnati	106 5
Seasongood & Mayer, Cincinnati	106 5-8

The securities are dated July 20, 1895, interest is payable annually, and the principal will mature July 20, 1925.

Yonkers, N. Y.—On July 30 the city of Yonkers sold $15,000 of 4 per cent registered school bonds to Messrs. Bennell & Everitt, of New York, at 111·55.

Water-works bonds to the amount of $100,000 have been authorized by the Council.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Canton Union School District, Illinois.—Following is a statement of the indebtedness, etc., of this district on July 1,

FINANCIAL.

THE MONETARY TRUST,
50 BROADWAY, NEW YORK.

Speculative Investment. Permanent Investment.

This new financial institution has been established under authorization from the State of New York upon principles not heretofore incorporated into any monetary institution. It is designed to aid investors in the profitable use of money. It cannot legally acquire ownership in securities nor transact business for its own account. It is the only incorporated institution in New York legally restricted to a disinterested position toward all investments. Banks or private individuals will be advised concerning safe investments without cost except simple commission if transactions are consummated, and all transactions in securities listed on the New York Stock Exchange will be executed upon that Exchange by Messrs. Carley & Co., members thereof. Those investors who undertake to obtain more than simple interest will be aided in acquiring bonds or stocks which the officers of this institution believe most nearly combine safety with promise of radical improvement. Those who venture to use money in this manner will find this institution the best medium which modern finance has yet developed through which a given sum can be thoughtfully placed at risk. Small investors (of Savings Bank class) carefully provided for.

FRANCIS D. CARLEY, President.
LEON T. ROSENGARTEN, Vice-President.
ROBERT MURRELL JARVIS, Treasurer.

The United States Life Insurance Co.
IN THE CITY OF NEW YORK.
This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

COMMISSIONER'S SALE.—In the Circuit Court of the United States for the Eastern District of Texas, at Galveston. The Farmers' Loan & Trust Company, Trustee, Complainant, vs. the Houston & Texas Central Railway Company, Charles Dillingham and George E. Downs, defendants. No. 227 Chancery Docket.

Notice is hereby given that in pursuance of the decree entered in the above entitled cause on the 5th day of March, 1895, at the regular March term of said Court in the City of Galveston, Texas, I, the undersigned Master Commissioner, thereby designated, shall, on the 3d day of September, 1895, that being the first Tuesday of said month of September, or on the day to which I may adjourn such sale, at twelve o'clock noon, in front of the Court House door of McLennan County, in the City of Waco in the State of Texas, make sale at public auction as an entirety to the highest bidder therefor of all the mortgaged premises and property, real, personal and mixed, rights and franchises, wherever situated, mentioned in said decree and thereby directed to be sold, viz.:

The railway of the Houston & Texas Central Railway Company, known as the Waco & Northwestern Division, beginning at a point on the main line of said railway company in the town of Bremond, in Robertson County, Texas, passing through the County of Falls, and running to the town of Ross in McLennan County in said State, a distance of about fifty-eight miles, together with all side-tracks, turn-outs, rolling stock, equipment and materials, all right of way and tracks, depot and shop grounds, tenements, hereditaments, rights and franchises, including all the property, real and personal, pertaining to the operation of the said fifty-eight miles of railway, and including any and all rights in, to, or in respect to the franchise to build to the Red River and thence to the northern boundary line of said State; and also all and singular the portion of the land grant donated by the State of Texas to aid in the construction of the Waco & Northwestern Railroad or said Waco & Northwestern Division covered by said mortgage as specified therein and remaining unsold at the date of entry of said decree, which portion of said land grant consists of about two hundred and twenty-three thousand six hundred and twenty-two and twenty eight hundredths (223,622·28) acres, all situated in the following-named Counties in the State of Texas, and more particularly described as follows: All of the lands described by Patent No. and Volume No. are patented by the State of Texas to the Houston & Texas Central Railway Company, as assignee of the Waco & Northwestern Railroad Company, and all lands described by Certificate No. and Survey No., which numbers follow the words "Cert." and "Survey" in the following description, are not patented, but are located by virtue of land Certificates issued to the said Waco & Northwestern Railroad Company, and when land is stated to be in two or more Counties it means that part of it is in each:

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, August 10, have been $909,848,022, against $984,905,522 last week and $766,012,241 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending August 10. 1895.	1894.	Per Cent.
New York	$407,726,350	$323,203,382	+26·2
Boston	72,728,876	58,407,339	+24·5
Philadelphia	48,878,800	39,525,280	+23·7
Baltimore	10,830,349	9,715,629	+11·5
Chicago	67,972,507	70,445,813	— 3·5
St. Louis	19,292,525	18,326,130	+ 5·2
New Orleans	5,454,575	4,547,194	+19·9
Seven cities, 5 days	$632,871,802	$524,168,247	+20·7
Other cities, 5 days	123,911,782	114,941,762	+ 7·8
Total all cities, 5 days	$756,785,584	$639,110,009	+18·4
All cities, 1 day	153,062,438	126,902,232	+20·6
Total all cities for week	$909,848,022	$766,012,241	+18·8

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, August 3, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of a little more than sixty million dollars, and at New York the gain is thirty-seven and a half millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 22·4 per cent. Compared with the week of 1893 the current returns record an excess of 6·2 per cent and the loss from 1892 is 9·7 per cent. Outside of New York the gain over 1894 is 12·7 per cent. The excess over 1893 reaches 17·2 per cent, but making comparison with 1892 the decrease is seen to be 8·5 per cent.

THE FINANCIAL SITUATION.

The feature of the week at this centre has been great quietness in all the financial markets. Foreign exchange remains without alteration as to nominal rates, while those for actual business have apparently reached the highest possible point, thus restricting purchases by others than bankers who have facilities for trading one class of bills for another. Gold exports continue without attracting special attention in exchange circles for the reason that the shipments are chiefly by mercantile houses and the movement is natural in the existing condition of our foreign trade—a trade condition which will soon change. Money on call has become so abundant that the record of 1 per cent is reported to have been broken on Wednesday when ⅛ of 1 per cent per annum is said to have been paid for the use of about $250,000 over night. The stock market for several days has been well nigh stagnant, most operators of importance and the investing public generally being out of town. Prices have shown great strength, but as they already are on a much higher level than they were and as crops are not fully assured yet, the disposition is to await developments.

A conspicuous event of the week was the announcement of the First National Bank of Chicago by circular to its stockholders that it had marked off from its surplus and charged to profit and loss $1,000,000, covering "items of impaired bills, stocks of uncertain value," together with sundry parcels of real estate which had fallen "into the bank's hands through settlement of claims, &c." This transaction was made conspicuous from its size, though otherwise it appears to have no special importance. The bank has been in operation for about thirteen years and, as we understand the circular, this amount is the aggregate of the half-live assets it finds on its books, the greater part of the losses dating with the late depression in business. The reason for taking this step was "to keep the assets clear of doubtful values," which seemed especially desirable because "the growing burden of taxation is severe enough if levied only against absolute value," and "the reduction of surplus should save (the bank) one-sixth of the local taxes." Every one knows that the First National of Chicago has $2,000,000 of surplus and $3,000,000 of capital left, and so far as that institution is concerned the transaction is of no moment. Indeed the directors' circular likewise states that they "see no reason why our established rate of dividend, 3 per cent quarterly, cannot be continued, with a growing balance to the credit of profit and loss account at each quarterly period."

The action of the Bank of America of this city in calling a meeting of shareholders in October to vote whether its capital shall be reduced by paying off one half of it—that is reducing it from $3,000,000 to $1,500,000—is a very different affair. Bank managers here are getting to feel that a large capital is simply an encumbrance. It apparently does not assist them in securing deposits, while to loan it at a rate which would enable the bank to keep up current dividends (8 per cent in this case) is of course impossible, and yet it is subject to heavy local taxation. In times of very low interest rates like the present the question of economy presses upon all these institutions, and it is no surprise that in the existing condition of affairs other banks should be seriously considering the propriety of making like reductions. It is only with great difficulty that remunerative employment can be found for money.

In the general trade situation, while there has been no particularly new development, all the conditions have been favorable. As far as the crops are concerned, we shall have at the close of business to-day the regular monthly report of the Agricultural Bureau at Washington and it is certain to be very favorable in character, especially in the case of corn, for which crop the weather conditions have been almost perfect everywhere. That report will bring the information down to the 1st of August. For the ten days since then the conditions have continued to be about all that could be desired, and should there be no premature frost the prospect of the largest corn crop in the country's history will be realized. And the benefits will be felt for fully eighteen months to come.

Our industries, too, remain in a state of increased activity, though this is the mid-summer period, when many of those who initiate new enterprises are away from business. As indicating the revival in the iron trade, the shipments of iron ore through the St. Mary's Falls or "Soo" Canal reached in July the unprecedented total of 1,469,838 tons, this comparing with 915,291 tons in July 1894. The "Iron Age" in its market report this week says that the conviction is gaining ground throughout the iron trade that the present high level of prices is not merely going to be maintained but that even better figures are certain to rule. It is noted that any slight reaction promptly results in a burst of activity, and there is good evidence, it is said, that in some lines consumers are holding back large orders, watching for an opportunity to place them without putting up the market on themselves. It is regarded as significant, too, that the Chicago & North Western, a corn road, has ordered 1,500 cars.

The improving exhibits of earnings which the Illinois Central has been making of late deserve more prominent mention than they have yet received. The return for the month of June has been issued this week, and hence we know the results as to gross and net for the fiscal year ending with that month. An estimate of the gross revenues for July has also been issued, and this estimate makes the total of the gross the present year $274,785 better than in the same month of last year. For June there has been an addition of $171,591 to the gross and of $174,048 to the net, the amount of the latter the present year being $431,051, against only $257,003 last year, an increase of nearly 70 per cent. And this is simply a sample of the character of the returns for all recent months. The company has been enlarging its gross revenues and at the same time has managed to reduce expenses, and as a consequence has been increasing its net in a very marked way. In May the net was $577,819 against $374,048, in April $426,933 against $273,342, in March $551,699 against $422,492, in February $395,355 against $355,221, and in January $538,048 against $346,300. In fact there has been an increase in net in each of the last eight months. And this increase has worked a great change in the outlook. In the first four months of the fiscal year, namely July, August, September and October, the company was comparing with the period of the World's Fair, when its revenues had been increased beyond that of all other companies, since it got so much of the local business to the Fair grounds In 1894 the Fair traffic being lacking, the earnings

fell off very heavily and at the end of the four months —that is on October 31—the company was no less than $2,303,263 behind in gross and $1,535,398 behind in net. At that time the general belief was that in the remaining months of the fiscal year the company would be doing well if it held its own. But as a matter of fact, as we have already seen, earnings have been steadily increasing ever since then, and as a consequence the loss in gross has been reduced from $2,303,263 to $1,660,470 and the loss in net has been cut down from $1,535,398 to $499,584. In other words, the net for 1894-5 is less than half a million dollars smaller than for 1893-4, when the company had the benefit of the business connected with the Fair.

Money on call representing bankers' balances has been in abundant supply this week, loaning generally at 1 per cent, with one loan, as stated above, for about $250,000 reported at ½ of 1 per cent and a few small loans at 1¼, making the average about 1⅛. Banks and trust companies quote 1 per cent as the minimum, and the majority are glad to loan at that figure and to let the contract stand undisturbed, but down-town banks report that the loan is usually promptly paid off and the money returned. Time contracts are difficult to place for short dates, and though the offerings are liberal for long periods, not much business is done. Quotations are 1½ per cent for thirty days, 2 per cent for sixty days, 2½ per cent for ninety days to four months and 2¾@3 per cent for five to seven months on good marketable security. Banks report some inquiry, but a light business in re-discounting this week, and there are indications that Western banks, particularly those at Chicago, St. Louis and St. Paul, have for the time being plenty of currency. There is a little business done with Southwestern banks, but by no means as large as it usually is at this season. At least five of the large banks have been out of the market for commercial paper this week, having full lines of loans, and this has lessened the demand, while the supply has not shown much improvement. Rates are 3½@3¾ per cent for sixty to ninety day endorsed bills receivable, 3¾@4½ per cent for four months commission house names, 4@4½ per cent for prime four months, 4½@4¾ per cent for prime six months and 5@6 per cent for good four to six months single names. It was announced yesterday that the members of the Government Bond Syndicate had received notice on Thursday that there would be a distribution of 34·4946 per cent of the capital contributed by them—30 per cent being on account of the principal and 4·4946 per cent representing the premium paid on the bonds. That payment leaves 30 per cent still due the members, and this balance, it is expected, will be retained for some time.

There has been no feature of importance in the European situation this week. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 9-16@⅝ of 1 per cent. The open market rate at Paris is 1½ per cent and at Berlin and Frankfort it is 1½ per cent. According to our special cable from London the Bank of England lost £37,954 bullion during the week, and held at the close of the week £38,096,054. Our correspondent further advises us that the loss was due to the import of £810,000 (of which £687,000 were bought, £102,000 were from Australia, £14,000 from India and £7,000 from France), to the shipment of £598,000 to the interior of Great Britain and to the export of £250,000, of which £200,000 were to the Cape and £50,000 to Roumania.

The foreign exchange market has been dull and generally strong this week and the majority of the leading bankers have maintained full rates for actual business in sterling, while other bankers, and particularly those who have dealt in the bills drawn against gold shipments, have quoted long sterling and cable transfers one quarter of a cent lower. The demand has been light and at the same time the supply has been small. The light inquiry can very readily be accounted for by the fact that only those who are compelled to remit will buy bills at the current rates. The inquiry from importers has in part been satisfied by the shipments of gold by Crossman & Bro., and some of the demand outside of that from the leading bankers has been met with these gold bills. The Syndicate have sold few bills, limiting their offerings to those absolutely required just before the closing of the mails. There have been a few security bills, some of which were said to have been drawn against the Louisville & Nashville loan, but these have been offset in some measure by a demand to remit for stocks sold for European account. The tone of the market on Monday was firm and rates for actual business in sterling were quoted at 4 89½@4 89¾ for long, 4 90½@4 90¾ for short and 4 90¾@4 91 for cable transfers—an advance of one quarter of a cent per pound for the latter and for sixty day bills compared with the close of last week and the highest rates yet recorded. On the following day some of the bankers made slight concessions in long sterling and it was then reported that offerings of futures against cotton and breadstuffs were more liberal; but upon inquiry this report could not be confirmed, and it was said that the easier tone reported resulted from the offerings of bills against intended shipments of gold. There was a withdrawal from the Sub-Treasury on this day of $100,000 by Nesslage & Fuller, bullion dealers, and of $250,000 by Hard & Rand, coffee importers, for shipment on the St. Louis, which sailed on the following day. On Wednesday W. H. Crossman & Bro. withdrew $1,000,000 gold from the Sub-Treasury for shipment on the Augusta Victoria sailing on the next day. But on Thursday while some bankers quoted the rates for actual business entirely unchanged others quoted long sterling and cable transfers one-quarter of a cent per pound lower. The market was dull. Yesterday there was no change and the close was very firm; Handy & Harman will ship $112,000 gold to-day, Hard & Rand $150,000 and Nesslage & Fuller $100,000, making $362,000 together. The following table shows the daily posted rates for sterling by the leading drawers.

		Fri., Aug. 2.	Mon., Aug. 5.	Tues., Aug. 6.	Wed., Aug. 7.	Thurs., Aug. 8.	Fri., Aug. 9

The market closed very firm on Friday at 4 90 for sixty day and 4 91 for sight. Rates for actual business in sterling were 4 89½@4 89¾ for long, 4 90½@4 90¾ for short and 4 90¾@4 91 for cable transfers. Prime com-

mercial bills were 4 89@4 89¼ and documentary 4 88½ @4 88¾.

In a subsequent article we review the gross earnings of United States railroads for the month of July, and show that in comparison with the poor results of last year there has been an increase of $5,357,586, or 15·97 per cent, on 98,433 miles of road. For the month of June the Atchison Topeka & Santa Fe (including the St. Louis & San Francisco and the Atlantic & Pacific, but not the Colorado Midland in either year) reports gross of $2,919,457 against $2,805,071, and net of $405,810 against $438,698; and the Southern Pacific (including the affiliated lines) gross of $3,912,345 against $3,728,109, and net of $1,082,618 against $1,088,333. We have referred above to the favorable statement of the Illinois Central. The Union Pacific Denver & Gulf for June has net of $14,026 against a deficit in July 1894 of $16,731; the St. Paul & Duluth, net of $35,348 against $42,720; the Toledo & Ohio Central, $41,487 against $16,474; the West Virginia Central & Pittsburg, $37,093 against $17,367; the Rio Grande Western, $70,511 against $49,011; the Philadelphia & Erie, $91,078 against $65,960; the Western New York & Pennsylvania, $103,334 against $43,074; the Savannah Florida & Western, $130,347 against $84,184; the New York Ontario & Western, $85,263 against $125,324; the Charleston & Savannah, $18,700 against $13,830; the Mexican National, $143,288 against $139,842; and the Detroit & Mackinac for May, $23,895 against $11,378.

ENGLISH AND AMERICAN RAILWAY PRACTICE.

One of the particulars in which those of our railroad officials who attended the recent International Railway Congress in London have derived important benefits has been in the clear insight they have been given of the working of the English railways. They already knew that the practice in the two countries differed in essential respects, but they have never before had such an opportunity for a close and careful study and inspection of the British roads—thanks to the courtesy and unfailing attention of their English hosts and the admirable arrangements which these had made to show their visitors from the various countries the physical characteristics and all the details of the running and operation of the English roads.

The conditions governing the construction and management of railways in the two countries are quite unlike, but the knowledge and information which the United States representatives have gained will nevertheless be very useful to them. That the result of their study will lead to any important modification of the general railroad practice in this country hardly seems probable. On account of the dissimilarity in conditions it would not be feasible to incorporate many of the features of the English roads in our own system. But the American officials in their tours of inspection followed with keen interest the minor details of railway practice on the other side, and in this way they have received suggestions which will no doubt be availed of and turned to advantage in the future. It would be useful and interesting if some of them could be induced to give their impression of the English methods, and to make comparisons with the methods in this country, noting points of similarity and points of difference. Analyses by practical men versed in the art of railroading, such as those in attendance at the Congress were, would possess great value, and would be read with avidity both in this country and in Europe.

We refer to the matter to-day because Mr. F. A. Delano, Superintendent of Freight Terminals of the Chicago Burlington & Quincy, has recently sent us a copy of a very meritorious paper on this subject which he read before the Western Railway Club a few months ago. Mr. Delano spent five weeks in England last summer, and the results of his observations are embodied in the paper referred to. He writes in an interesting way, avoiding technicalities and statistical tables, and the paper shows that he is at once a keen critic and a close observer. Mr. Delano does not essay to cover the ground as fully or in the same way as some of the existing treatises of greater pretensions, but in his paper of some twenty-five pages he has succeeded in furnishing a clear and sharp outline of the leading features and characteristics of the English system. It is the success attending Mr. Delano's effort that makes us wish that some of the American railroad men who participated in the proceedings of the late International Congress could be persuaded to give us the results of their studies and observations.

We have space to refer to only one or two special parts of the paper, which Mr. Delano modestly calls "Notes on English Railway Practice." He observes that English railways have developed slowly and surely against constant restriction, while ours had a "hot-house" growth, favored unwarrantably, and then were exposed to the severe "frost" of public criticism, re-

striction, interference and amounting in some cases even to virtual confiscation. The history of railway development in the United States is not alone in this respect he observes; a similar experience has attended the development of most branches of mercantile or manufacturing enterprises in America. An example at the present time is found in the phenomenally rapid growth of the electric street car systems. Every town has its electric cars now, and franchises are given away without restrictions, but the day of reckoning, Mr. Delano thinks, is sure to come, not only from the competition of the many lines but because the public will eventually begin making requirements and restrictions which can only be complied with at great cost.

Mr. Delano points out that while the general condition of English railway tracks is superior to the average condition in this country, it would be a mistake to suppose that the best track in this country is inferior to the best track in England. Speaking of freight rates, he says the conditions are so different from those in the United States that comparisons usually reduce themselves to matters of opinion on the part of the writer. The haul in England is very much less than with us, and the freight rate includes drayage at both ends of the route. This system of universal drayage is usually done with teams owned by the railway companies in the large cities, but not infrequently, and especially in smaller places, by contract, to specified teamsters. In all large cities each important railway company has a great many receiving stations at which packages, parcels or freight may be delivered and the companies must also be ready to send to consignors for freight. But after gathering the freight together in its freight house a company has complete control of how and when the freight shall be delivered, which admits of some important advantages over our system; thus the same warehouse or freight sheds may be used for the handling of in-freight part of the day and for out-freight at other times. This remark applies too in the matter of handling freight at destination, and altogether Mr. Delano thinks the cheapest way for the community at large to handle freight would be for the railroads of this country to adopt the English system and provide for the drayage at both ends, charging of course for the service performed. But does not Mr. Delano overlook an important objection to such a step. Would not the State legislatures and railroad commissions in the West attempt to regulate the drayage charges just as they have done the freight charges, and perhaps in many cases compel their abolition altogether?

One feature of railway traffic which in America offers most serious complications gives far less trouble in England, according to Mr. Delano, namely fluctuations in traffic. In the United States and especially with the Western roads the fluctuations in traffic are so great that it is impossible to have adequate facilities and sufficient competent, well-trained employees to take care of the maximum traffic, which occasionally lasts for two or three months, and not have a great superabundance in ordinary times. It is natural that in England, with a more densely settled country, excellent roads throughout, and far more diversified traffic, the fluctuations diminish and therefore assist in making the safe and successful operation of traffic less difficult.

The railway clearing house is one of the commendable features of the English system. Mr. Delano describes that institution as being a sort of gigantic pool, through the means of which moneys collected on joint rates, either for passenger or for freight, are divided on an agreed basis, each company remitting to the clearing house all earnings from joint billing or sale of tickets, deducting only its own proportion. The clearing house has not put an end to competition, but has prevented rate cutting and ruinous rate wars. Competition has been diverted in the direction of giving better facilities, faster time, privileges or the like, and it is found that this affords the soliciting agents all the scope that is necessary. To what Mr. Delano says we may add that the adoption of the clearing-house system in this country has been frequently advocated, and it would seem that in the end some such device will have to be resorted to if continued rate cutting, which is the bane of the American system, is to be prevented. Mr. Delano observes that incidentally and indirectly the clearing-house has done much towards keeping the railways in touch one with the other, assisting not infrequently toward the adoption of standard rates, codes of signals, &c. As a bureau of general statistics it does an immense work and affords a ready means of settling accounts between companies using each other's rolling stock.

The capitalization of the English railways is about 3½ times that of our own roads. The explanation is that the English railways have been built more permanently and expensively and have had to pay high Parliamentary costs and land damages, and finally have been capitalized for every cent which they have cost and have charged to capital account every improvement in Way and Works and Equipment. In this country, Mr. Delano truthfully says, we often lose sight of the fact that many of the railways in the United States have paid for betterments, amounting in some cases to complete reconstruction of their roads, entirely out of earnings, charging this expense to cost of operating instead of to capital account. In England it is perhaps true that there has been little if any stock watering, but it is also true that practically every expense outside of operating expenses has been charged to capital account.

One other point Mr. Delano makes is worth noting. He points out that in recent years the community at large in Great Britain, looking with envy at the prosperity of the railways, has made its influence felt in various parliamentary inquiries and by the passage of laws reducing the hours of labor on the railways, and finally by the passage of a law somewhat like our Inter-State Commerce law. Thus far, however, the railways have been more fortunate than ours in that they have been allowed to regulate competition to some extent by money pools and by contracts in regard to division of traffic, which are enforceable by law, and any long-and-short-haul clause Mr. Delano states has proved impossible on account of water competition at so many points.

ITALY AND THE ABYSSINIAN QUESTION.

The saying is an old one, *ex nihilo nihil fit.* The sentiment is equally old and equally true that from small and apparently insignificant causes great issues result. St. Petersburg is a long way distant from Magdala, or any of the more populous centres of Abyssinia; and the Italian capital is far removed from all of them. There is a little difficulty between Italy and Russia of which Abyssinia may be said to be the cause. That this difficulty should assume any dangerous proportions there is no immediate likelihood.

But there are so many cross purposes among the European nations, and there are on African soil so many complications in which the European Powers are interested, that what seems a trifle, by becoming involved in other matters or through the bad blood engendered from other causes might unexpectedly, and even suddenly, assume a character well fitted to inspire alarm.

We have had occasion frequently of late in these columns to refer to the policy of Russia and of France. We have seen evidences of its aggressiveness both in Africa and in Asia, and we have not been permitted to doubt that these two Powers, constituting the dual alliance, have been lending encouragement to a belief that they are preparing to measure their strength when the proper time comes with the Triple Alliance or, which is the same, the other great Powers. We are not of those who see war in every rustle of the diplomatic sails. On the contrary we can discover numerous and powerful reasons why the European Powers should dread a general outbreak of hostilities. There is no doubt unrest. There are many things which some of the Powers would like to see changed. There are concealed purposes. There are suppressed ambitions. But war is dreaded—dreaded because of its costliness, because of its destructiveness and because of the uncertainty of its results. While we do not see anything to encourage the feeling that actual war is imminent, we need not close our eyes to what may, without any impropriety, be called diplomatic strife. It is this kind of strife which constitutes the Abyssinian difficulty, and it is the possibility of its becoming mixed up with other and kindred matters which renders it especially worthy of our attention.

It is matter of common knowledge that since 1889 Abyssinia, by treaty arrangement, has been under the protection of Italy. According to that arrangement Menelek, King of Abyssinia, was to enter into no negotiations with other nations except through the agency of the King of Italy, and in the matter of industrial and commercial concessions preference was to be given to the Italians. Since 1889 the sphere of Italian influence has been greatly enlarged, having now a coast line of over 1,200 geographical miles, with undefined landward limits. To aid Abyssinia in the matter of opening up commercial routes, Italy came to the aid of Menelek with a loan of four million francs, the King pledging himself to use all the influence of his Government to suppress the slave trade. It now appears that Menelek has proved unfaithful, disregarding the terms of the treaty, and among other things ignoring his pledges in regard to the slave trade. This treaty arrangement between Italy and Abyssinia, it is to be borne in mind, received, directly or by implication, the sanction of all the great treaty-making Powers of Europe, England and Italy particularly having a perfect understanding and working in perfect harmony. So much is the Italian Government incensed at the conduct of King Menelek that the necessity of active, armed interference has been under serious consideration.

On July 25, reference having been made in the Italian Parliament to the state of affairs in Abyssinia, and to the peculiar attitude of Russia and France, Baron Blanc stated that all the Powers, with the exception of Russia and France, had recognized Italy's position in Abyssinia, and that these last had not protested. Menelek, he added, had flagrantly violated the terms of the protocol prohibiting the slave trade. He had no fear, however, for the success of the Italian colony in Abyssinia, and if the necessity should arise Italy would defend it with all the resources at her command. In the course of his address he made the reassuring statement that with regard to the entire Nile Valley and East Africa generally there was between England and Italy a complete understanding.

It is more than ordinarily suggestive that in these circumstances an ecclesiastical commission accompanied by certain civil dignitaries should arrive from Abyssinia in the Russian Capital, their ostensible object being to cultivate friendly relations with the Russian Church. In the circumstances it is not unnatural that the Abyssinian ecclesiastics should be made much of in the Russian capital and have been the recipients especially of many costly presents. This visit of the Abyssinians to St. Petersburg acquires some importance from the fact that a somewhat similar visit, although attended with very different results, was made in 1889 by Captain Atchinoff. Atchinoff's object was to insert the Russian wedge politically, but he attempted it under the guise of religion; and as his expedition proved an utter failure the Russian Government found it convenient to repudiate both him and his mission. No one can blame the Abyssinians for making a friendly visit to St. Petersburg, nor can any one with good reason blame the Russians for treating them kindly; but there is something intensely absurd in finding any close resemblance or any historic connection between the Church in Abyssinia and the Church in Russia. The one is a daughter of the Coptic Church of Egypt; the other is a daughter of the great Eastern Church, which broke off from that of Rome and shared the fate of the Byzantine empire.

There would appear to be more diplomacy in this movement than the Abyssinians can justly be credited with. It is not difficult to perceive that if they can be taught to believe that there is any relation of a special or historic kind between their Church and that of Russia a point will have been made in favor of the latter Power—a point which will tell against Italy. The Abyssinians will look upon the Russians as their brethren in the faith. Pilgrimages will become common. Ties of religion will beget political affinities. It is, though, more than doubtful whether common sense and the known facts of history could be overcome by any such deceptions on the one hand and unfounded beliefs on the other.

The Abyssinians' visit to Russia would not of itself merit serious consideration. Quite naturally, however, it is assumed that the scheme owes its origin to Russia or to France, or to both, more than to Abyssinia. This view may be erroneous, but the public finds it difficult to disconnect the visit from a certain state of feeling which at the present moment is felt to be common to France and Russia, and from certain other movements which appear, and are thought to point in the same direction.

SOCIALISM AND THE INEQUALITIES OF POSSESSION.

The sessions of the Summer School of Applied Ethics at Plymouth have this year been productive of more than the usual amount of thoughtful discussions. Where men who have made a specialty of social and economic problems come together, and present and discuss their views in a calm and rational way, the result is sure to be instructive and of benefit to the public; and it may be said of the meetings of the Summer School that they have enlisted

some of the brightest minds in the country among specially trained thinkers—the philosopher, the reformer, the economist and the college professor. It is true that the utterances and propositions often deal with the theoretical and unattainable rather than with the practical and available, but the speakers at any rate have digested their subjects, and what they say is worth hearing and considering. Thus, though we may not always approve of the doctrines advanced, the gatherings are of a totally different type from those where the demagogue and the agitator are the principal figures, bent on fomenting discord and strife and making people dissatisfied with the existing order.

Among the thoughtful "talks" at this year's sessions those of Prof. John B. Clark, of Amherst College, occupy a prominent place. Professor Clark's topic was the Natural Economic System, and in it he discussed Socialism and Trusts and the inequalities of wealth distribution. Professor Clark is soon to occupy the chair of Political Economy at Columbia College, and hence special interest attaches to his views and remarks. He lectured on five days, and while his subject was of course carefully considered, he spoke without manuscript; accordingly we have no complete report of his addresses. But the "Transcript" of Boston has been furnishing pretty full accounts of the proceedings, and to it we are indebted for our knowledge of what he said.

There are parts of Professor Clark's utterances to which we should take exception; yet the argument he makes is on the whole a very strong one, and it contains some striking passages which will appeal forcibly to thinking men and which deserve wide circulation. He shows clearly wherein the theory of Socialism falls to the ground. In purely academic discussions it may appear to have an advantage, but when we consider how it would work in practice we are forced to admit that it would not stand the test, but must result in failure. Prof. Clark thinks that the present system meets with the requirements of productivity, honesty, progressiveness and democracy. It has proven wonderfully productive and also wonderfully progressive. He says it is not claimed for Socialism, except by a labored and difficult argument, that it would be as productive as the existing system. It surely could not be more productive. Nor could it be as progressive; improvements would not, could not, be as fast as now, because there would not be the same incentive. Incidentally Prof. Clark points out that equilibrium is not progress, and that a condition without movement would be appalling. A static system might be a good one in itself, but it would inevitably produce universal discontent. No conceivable state would be so good that without progress it would not be bad; and none could be so bad but with progress it would not be good. Nothing could be worse than a static paradise but a static purgatory; and nothing could be better than a dynamic purgatory unless it was a dynamic paradise. The ideal social system must have nothing by which to anchor itself. To be a perfect system it must be forever in transit.

As far as wages are concerned, Prof. Clark well says that the future fate of the laborer depends upon the comparative rate of increase of labor on the one hand and of capital on the other. The same law would apply in Socialism. Government could not possibly give more than labor could create, whatever the fund. The Socialistic state is objectionable because of its inevitable effect on the wage paying capacity of the State. Under natural law capital has increased faster than labor, and consequently wages have increased. The rate of increase of population has diminished. Both tendencies increase wages. Provided natural law can work, he argues, one may take an exceedingly hopeful view of the future. There are, however, in his estimation, certain influences which interfere with natural working, and the reformatory energies of society must be directed toward preventing such interference. A second advantage of the present system is that by virtue of this guaranteed increase of wages the extremes of society are coming nearer together, notwithstanding the rich are growing richer. Nothing you can add to a millionaire's fortune, he says, will give so much to him as to give a working man $1 50 a day instead of $1 00.

Contrast this system, Prof. Clark goes on, with Socialism, and distinguish true Socialism from the nickel-plated article. Many measures called socialistic, he contends, might not take a single step toward Socialism. "We could give Government the control of express, telegraph and railroad interests and yet not have anything socialistic. You can not have Socialism without invoking the aid of Government in distribution. After the Government got the railroads, the wages would still be fixed by competition; any extra compensation would be a tip which the tax-payers would have to pay; but the rate of wages would depend upon the prevailing rate. Government would begin to be socialistic if, in paying, there were no reference to the rate of wages, but merely the earnings of the road were considered and any desired portion taken from capital. Then only would it be purely socialistic.

The reasoning here is clear enough, but does Prof. Clark regard it within the range of probabilities that if Government should operate the railroads, the express lines and the telegraphs that wages would or could "still be fixed by competition"? Is it not more likely—is it not certain, in fact—that they would be fixed by statute, and that having been fixed the only changes, whether the business was profitable or the reverse, would be in an upward direction. Does not the experience with the post office furnish a fair indication of what would happen. Roughly we may say the railroads and the express and telegraph companies give employment to a million men. Would any Congress of either political party ever dare to enact a measure reducing the pay of such a large body of voters? On the contrary, would not the constant temptation be to win their support and favor by legislative efforts increasing their pay? The post office employees form a small body alongside the vast army which Government control of the transportation and telegraph business would create, and yet if we would see how legislation affecting the interests of Government employees is regarded, we have only to note the action of those in the post office in meeting annually to honor the memory of a dead Congressman simply because he was instrumental in having a law passed increasing their pay. That act is a mere manifestation of human nature. But as in the case contemplated human nature would remain the same, the manifestation of good or ill will would come, we may be sure, in the shape of active support or opposition at the polls; furthermore, with such a large and numerous body engaged in it the movement would necessarily always be a very powerful one. To our mind the assumption of control of the railroads and the telegraphs by the Government would be a most

important step in State Socialism, and in his argument Prof. Clark, we think, furnishes himself the strongest of reasons against the taking of such a step.

Professor Clark also had some interesting things to say regarding trusts. In one of his lectures, according to the reports in the "Transcript," he objected to trusts because they were, he claimed, an interference with the mobility of labor and a means of mislocation of labor. He said that was their distinct object, to mislocate labor. This seemed a decidedly novel theory. But in a later lecture Professor Clark explained that the depression of wages is not a primary object of trusts; it is a result of their working. "Trusts depress wages by the exclusion of labor, which scatters elsewhere, lowering thus the wages in other fields, of which depression the trust inevitably avails itself The trust has an inherent power of absorption which it may practice on its own workmen. The disastrous effect is not on the market for goods but on the market for labor. Trusts do enhance prices a little but their chief effect is to depress wages." We need not endorse what Prof. Clark says on this point, while yet accepting his general conclusion that the existence of trusts does not force us to a retreat to State Socialism for a remedy. He makes a strong point when he says: "It is generally supposed that trusts are strong financially. On the contrary they are very weak. They are loaded down with establishments having poor plants. They may shut them up and pay the owners, and get it out of the public by extra prices, but this necessity shows financial weakness."

Perhaps the very best part of Prof. Clark's lectures was that where he spoke of the relation of the wage system to inequality of possession. The system cannot succeed without inequality. It is necessary for single persons to handle immense sums and gain considerable themselves. This means a large and prosperous middle class, not its suppression. Nor does it mean that the laborer will suffer, for the fact is that he will gain. It does mean, he asserts, great inequality. The poorest never will have much more than nothing, but the richest will grow richer to the end of time. He thinks great fortunes are tainted with fraud, and that it is desirable to remove the taint. But inequalities will continue and grow even if this taint is removed, for they will be amassed by production. He concluded his lectures with this admirable sentiment: "I rejoice in an abundant and diversified inequality. I want to live in a world of inequality. A state of equality would be flimsy and unendurable. It would be an essentially bogus virtue. The type of humanity that will enable a man to look on his neighbor with the slight affection that would depend on his being no better off than himself is not desirable. Personally, I want to live in a world where I am surpassed in every direction, and where there are innumerable wealthier people than myself, where envy is at least possible and where virtue has some obtacles. Then, and then only, will morals be worth anything, affection be living and wealth respectable."

In the foregoing Prof. Clark has expressed in a terse way the opinion of the great majority of thinking people. The existing order of society is founded on the inherent condition of human nature, and to change it (supposing that could be done) were to take a step backward. How many of us would put forth any effort if there were not an incentive for doing so; and if there were nothing to strive for and no obstacles to overcome what type of humanity would the race produce? It is the constant struggling against odds that brings out the best qualities in man. To say this is not to argue against advancement and improvement, but to argue in their favor. Reforms may well be encouraged in various directions; how to remove and to prevent the extension of inequalities not resting on right and justice, how further to ameliorate and improve the condition of the working classes, how to afford (as far as possible) equality of opportunity between all classes of the population—these are a few of the problems that might engage the attention of every one of us. In fact their consideration is a duty imposed upon us. But this is quite different from urging a plan of equality which would reduce all to a common level of mediocrity, removing every incentive to effort and to work, and distributing the products of industry without regard to merit or capability. Such a state of society, if it could be established, would be debasing, and would soon relegate the race back to barbarism again, because not founded on man's requirements and needs, and in conflict with the divine order of things.

RAILROAD GROSS EARNINGS IN JULY.

Very naturally we have a large gain in railroad gross earnings for July. Comparison is with the time of the great railroad strike last year, when during the first two weeks of the month some of the roads were completely tied up and therefore had no earnings and when nearly all roads suffered heavy losses from the same cause. As showing the magnitude and extent of the decrease on individual roads in that month of 1894, we may note that the Atchison System then suffered a loss of $1,331,721, the Northern Pacific a loss of $855,308, the St. Paul a loss of $814,130, the New York Central $768,229, the Illinois Central $577,618, the Rock Island $523,678, the Wabash $387,182, the Canadian Pacific $345,658, &c., &c.

In the aggregate our table in July 1894, covering 96,757 miles of road, showed $7,988,645 decrease, or 20·49 per cent, and this followed $1,765,527 decrease the year before. The gain the present year is proportioned to last year's large loss, but of course does not amount to a full recovery of it; it reaches $5,357,586 on 98,433 miles of road, or 15·97 per cent. For the different weeks of the month the results have varied widely, thus reflecting the part played by the strike last year. For the first week of July our tables showed 43·11 per cent increase, for the second week 30·34 per cent increase, for the third week only 5·65 per cent increase and for the fourth week 5·11 per cent increase. Last year in the third and fourth weeks a great deal of traffic delayed in the early part of the month came forward, thus making the earnings in those weeks larger than they otherwise would have been, and this accounts for the relatively small ratios of increase in the same weeks the present year. The following shows the monthly results back to 1891.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding	
July.	Miles.	Miles.	$	$	$

The roads the present year had the advantage of an extra working day in the month, July 1895 having contained only four Sundays, whereas July 1894 had five Sundays. Business revival, which continued to make steady headway, was also a favoring circumstance, but this benefitted chiefly the roads in the great manufacturing districts. In the Western agricultural States the roads still suffered from the effects of last season's crop shortage, and unfortunately in those States there are few manufacturing industries. To this crop shortage of last year there was also added the effect of the present year's shortage of winter wheat. The receipts of wheat at the Western primary markets were exceedingly small. Thus at Chicago the wheat deliveries for the four weeks ending July 27 were only 568,696 bushels this year against 1,547,883 bushels in the same four weeks of last year; at Toledo only 395,800 bushels against 2,450,000 bushels; at St. Louis 1,505,000 bushels against 2,926,382 bushels; at Duluth 1,242,500 bushels against 1,999,633 bushels, and at Minneapolis 959,830 bushels against 1,751,630 bushels. At the ten leading ports combined the receipts were less than 6 million bushels in 1895, against almost 12 million bushels in 1894, showing a reduction of 6 million bushels or fully 50 per cent. There was also a decrease in the receipts of flour; and the corn movement, which last year had dropped from 11,446,918 bushels to 5,084,314 bushels, this year further declined to 4,018,757 bushels. In oats there was an increase from 3,842,104 bushels to 7,196,541 bushels, but this sufficed to offset only a part of the loss in the other cereals, and altogether the grain movement was very small and the roads principally concerned were deprived of a large amount of revenue from that source. Below we show the details of the grain movement in our usual form.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING JULY 27 AND SINCE JANUARY 1.

	Flour (bbls.)	Wheat (bush.)	Corn (bush.)	Oats (bush.)	Barley (bush.)	Rye (bush.)

Since Jan. 1 1894	3,560,000	19,000,000	16,355,389	13,842,104	4,650,000	1,152,000

Chicago fared better than the other wheat-receiving markets, as almost the whole of the gain in oats occurred at that point. The following shows the movement for the even month, from which it appears that Chicago received 9,256,418 bushels of wheat, corn, oats, rye and barley combined in July 1895, against 7,447,781 bushels last year, but against 16,894,680 bushels in 1893 and 16,355,389 bushels in 1892. It will be noted from the same table that the movement of hogs was but little above the small movement of last year.

RECEIPTS AT CHICAGO DURING JULY AND SINCE JANUARY 1.

	July.			Since January 1.		
	1895.	1894.	1893.	1895.	1894.	1893.
Wheat, bush.	797,492	2,232,916	1,350,548	3,374,782	7,102,702	20,558,207

Live hogs, No.	302,750	350,187	410,947	4,477,677	4,343,087	3,310,301

In the South the cotton movement, which is never large at this season, amounted the present year to almost nothing, the receipts at all the Southern outports combined having been only 7,153 bales against 21,114 bales in July 1894 and 47,758 bales in July 1893. The gross shipments overland for the month were about 19,000 bales, against 16,000 bales.

Notwithstanding these various drawbacks, earnings the present year (the comparison being with such poor results last year) on the roads reported show, as we have seen, $5,357,586 gain. As the separate roads last year lost heavily, so this year they have only less conspicuous gains. The Northern Pacific reports $696,079 increase, the Atchison Topeka & Santa Fe $610,675 increase, the St. Paul $510,015, the New York Central $387,495, the Wabash $310,419, the Illinois Central $274,785, the Cleveland Cincinnati Chicago & St. Louis $259,090, the Louisville & Nashville $235,222, the Missouri Pacific $218,139, the Denver & Rio Grande $205,000, the Rock Island $158,508, the Wisconsin Central $156,956, the Southern Railway $154,643, the Chicago Great Western $107,593, &c. The following is a full list of all gains down to $30,000 and also all losses above that amount. These latter it will be seen simply comprise four roads, the Norfolk & Western $90,058, the Texas & Pacific $54,302, the New York Ontario & Western $35,161, and the Chesapeake & Ohio $30,829. The loss on the Ontario & Western we may suppose to be due to the condition of the anthracite coal trade; the other three are Southern roads, and one of them (the Norfolk & Western) has suffered from the strike of its coal miners.

PRINCIPAL CHANGES IN GROSS EARNINGS IN JULY.

Increases.		Increases.	
Northern Pacific	$696,079	Gt. Northern (3 roads)	$59,859
At. Top. & Santa Fé (4 roads)	610,675	St. Louis Southwestern	50,903
Chic. Mil. & St. Paul	510,015	Rio Grande Western	48,025
N. Y. Central	387,495	Mexican Central	39,260
Wabash	310,419	Col. Hap. & Ind. (4 roads)	38,850
Illinois Central	274,785	Mexican National	37,800
Cleve. Cin. Chi. & St. L.	259,090	Chic. Rock Isl. & Pac.	32,559
Louisv. & Nashville	235,222	Minn. & St. Louis	31,711

Pitts. & West. (4 roads)	94,750	Texas & Pacific	54,302
Cin. S. & Grand Trunk	75,323	N. Y. Ont. & West.	35,161
Grand Trunk	73,000	Ches. & Ohio	30,829
Burl. Ced. R. & Nor.	68,004		
Louisv. N. Alb. & Chi.	67,087	Total (representing 4 roads)	$210,350

* For three weeks only.

Southern roads last year had done better on the whole than others. The present year their showing is affected by that fact, and hence their gains are proportionately smaller than the gains in other sections. Aside from the Norfolk & Western and the Chesapeake & Ohio, seven small roads report diminished earn-

ings, and some of the leading companies, like the Louisville & Nashville, the Southern Railway and the Mobile & Ohio, report quite considerable amounts of gain.

EARNINGS OF SOUTHERN GROUP.

a Figures here for 1895 and 1894 are simply the totals of the earnings for the four weeks of the month as reported in the weekly return; the month's earnings usually exceed the weekly estimates quite considerably.
b Including Scioto Valley & New England and Shenandoah Valley for all the years.
* Figures for fourth week not reported; taken same as last year.
† Does not include the Elizabethtown Lexington & Big Sandy road in this year.
‡ Figures are approximate, same as for this year; actual earnings were larger

In the Southwest the distinctively grain-carrying roads, as for instance the Kansas City Fort Scott & Memphis, the Central Branch Union Pacific, the St. Joseph & Grand Island, have fallen behind in their earnings, and the Texas & Pacific, we have seen, also has a decrease. But such systems as the Atchison, the Missouri Pacific and the Denver & Rio Grande have made very substantial additions to the totals of their earnings last year.

Figures for fourth week not reported: taken same as last year.
† Includes the Kansas City Clinton & Springfield and the Current River for all the years except 1890.
‡ Colorado Midland deducted from all years except 1893, for which year we have been unable to obtain the figures separately.
a Figures here for 1895 and 1894 are simply the totals of the earnings for the four weeks of the month as reported in the weekly return; the month's earnings usually exceed the weekly estimates quite considerably.

In the Northwest all the larger roads record decided improvement over a year ago; a few of the smaller roads have trifling losses, chiefly because of the diminished grain traffic.

$ For four weeks ended July 27.
† Includes Rome Watertown & Ogdensburg for all the years.
* Figures for fourth week not reported; taken same as last year.

In the Middle Western States the small grain tonnage is responsible for a few losses in earnings, and some local disturbances at the coal mines in special districts have had a like effect in one or two instances. However in the whole of the Middle and Middle Western States there are only twelve roads which report lower earnings than in July 1894.

DAYS OF GRACE IN ILLINOIS.

In our issue of July 27th we referred to the action of several of the States in abolishing days of grace on promissory notes, bills of exchange, etc., and also furnished a statement showing the existing rule in that regard in each of the States. It appears that in addition to the other States mentioned, Illinois has recently passed a law repealing the provision allowing days of grace. Through the kindness of the First National Bank of Chicago we have been furnished a copy of this new statute, and in order to make our record complete we print it below:

AN ACT to amend sections 15 and 17 of an act entitled "An act to revise the law in relation to promissory notes, bonds, due bills and other instruments in writing," approved March 18, 1874; in force July 1, 1874. As amended by act approved June 17, 1891; in force July 1, 1891. Approved June 4, 1895; in force July 1, 1895.

Be it enacted by the people of the State of Illinois, represented in the General Assembly, That sections 15 and 17 of an act entitled "An act to revise the law in relation to promissory notes, bonds, due bills and other instruments in writing," approved March 18, 1874, in force July 1, 1871; as amended by act approved June 17, 1891, in force July 1, 1891; be and the same are hereby amended to read as follows, viz.:

Days of Grace:—SECTION 15. No promissory note, check, draft, bill of exchange, order, or other negotiable or commercial instrument, shall be entitled to days of grace, but shall be absolutely payable at maturity.

SEC. 17. *Holidays—Maturity of Negotiable Paper.*—The following days, to wit: the first day of January, commonly called New Year's Day, the twenty second day of February,

the thirtieth day of May, the fourth day of July, the twenty-fifth day of December, commonly called Christmas Day, the first Monday in September, to be known as Labor Day, the twelfth day of February and any day appointed or recommended by the Governor of this State or by the President of the United States as a day of fast or thanksgiving, are hereby declared to be legal holidays, and shall for all purposes whatsoever as regards the presenting for payment or acceptance, the maturity and protesting and giving notice of the dishonor of bills of exchange, bank checks and promissory notes, or other negotiable or commercial paper or instruments, be treated and considered as is the first day of the week commonly called Sunday. When any such holidays fall upon Sunday the Monday next following shall be held and considered such holiday. All notes, bills, drafts, checks or other evidence of indebtedness falling due or maturing on either of said days shall be deemed as due or maturing on the day following, and when two or more of these days come together, or immediately succeeding each other, then such instruments, paper or indebtedness shall be deemed as due or having matured on the day following the last of such days.

STOCK EXCHANGE CLEARING-HOUSE TRANSACTIONS. — The subjoined statement includes the transactions of the Stock Exchange Clearing-House from July 29 down to and including Friday, August 9; also the aggregates from January to July, inclusive, in 1895, 1894 and 1893.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, July 27, 1895.

The defeat of the Liberal party has been much more complete than any one anticipated. That it would be defeated was generally expected because of the retirement of Mr. Gladstone, the dissensions in the party, the alarm of the Church both in England and Scotland at the proposal to disestablish the Welsh and Scotch Churches, and the general revolt against the Liquor Local Veto Bill. But that so immense a Unionist majority would be returned the most sanguine Conservative did not hope for. The main difficulty of the new Government will be with the landlords and the farmers. They have suffered much from the long-continued agricultural depression, and they are expecting measures to improve their condition. But Lord Salisbury has already stated in the House of Lords that he has no panacea to propose, and how, therefore, he will be able to retain the support of the agricultural classes is not very clear. For the time being, however, Lord Salisbury need fear no effective opposition. He has a majority in the House of Commons as large as that which enabled Mr. Gladstone to disestablish the Irish Church, and he is practically absolute in the House of Lords. The really curious and instructive thing about the election is that the Independent Labor Party, the Socialists, the Temperance men and the Bimetallists all proved so utterly weak. It was a fight entirely between the two old parties.

Money is more abundant and cheaper than ever, if possible, and is likely to become even more so before long. It is understood that the 15 millions sterling net just borrowed by China in Paris is to be handed over without delay to Japan, and that Japan has instructed the greater part to be remitted at once to London. At the same time there is a large debt due from France to this country because of the purchases of gold shares, wool and the like, and because of a considerable amount of borrowing here in preparation for the Chinese loan. There will have, therefore, to be very large remittances from Paris to London, and it is believed that a considerable amount of gold will be shipped, although of course it is possible that the Bank of France may put every obstacle in the way of that. The general opinion here is that Japan has incurred a considerable debt on account of the late war and that it will pay off that debt immediately. The greater part of what remains is expected to be laid out in Europe in the purchase of ships and naval and military stores, and only a very small sum, therefore, is likely to be remitted in silver to Japan. But it is thought likely that some will be sent because of the heavy expenditure being incurred in Formosa. There are hopes that this large expenditure by Japan will improve the iron and steel trades here and also ship-building.

The silver market is weak, with a drooping tendency. There is great disappointment because so little silver is likely to be remitted to the Far East. Neither India nor China is buying, and, as already said, Japan is expected to purchase but little, while China is bound not to borrow again before the end of January. It is possible, therefore, that there may be a further fall in silver. Meanwhile all the Eastern exchanges are declining; but the India Council is selling its drafts fairly well, though at lower prices. It got on Wednesday only 1s. 1 3-32d. per rupee. It is, however, in favor of the Council that gold shipments from Bombay are beginning again.

Business on the Stock Exchange has been very quiet this week. The gold shipments from New York, though on a very small scale, yet have somewhat disquieted operators. Consequently the prices of American securities of all kinds go up and down with the movements in New York. Independent business here in the share market is almost stopped. There is a fair amount, however, of investment in good bonds, though certainly less than last week. Dealings in the South American department also are on a small scale, largely because the Brazilian loan for 6 millions sterling brought by the Messrs. Rothschild at the beginning of the week was only comparatively a success. The subscriptions in this country were small. There were, however, sufficient from the Continent to cover the whole amount offered.

In the international department there is much anxiety because of the state of Southeastern Europe and Armenia. The belief is general all over Europe that peace will be maintained; that all the great governments are not merely desirous of avoiding hostilities, but that they are decided to do everything possible to prevent them. Still, there are fears that it may be impossible altogether to keep in control Bulgaria, Servia and Greece, not to mention the Macedonians and the Armenians. There is great rivalry especially about Macedonia between Bulgaria on the one hand and Servia and Greece on the other; and there is little confidence now in the capacity or intelligence of the Bulgarian Government. The Sultan, likewise, though well-intentioned, is very narrow-minded and obstinate, and he insists upon keeping the whole government of the country in his own hands. Unfortunately he knows little of what is going on throughout the Empire

and therefore he is constantly making grievous mistakes. The new Grand Vizier, too, is a fanatical Turk, though an upright man of considerable capacity.

The fear, therefore, is very general that Europe may be kept in anxiety for the remainder of the year in spite of all the exertions of the Great Powers to maintain peace. There is in consequence decided weakness both in Vienna and Berlin. In Paris strong efforts are made to support the market, but for all that there is a good deal of apprehension there also, and those who are supporting the market are embarrassed by the difficulties of both Spain and Italy. Especially the great cost of the Cuban insurrection is almost certain to bring about a fall in Spanish funds. For the first time for many months, therefore, French selling of South African securities has largely exceeded the buying; and the selling too is on the part of the greater operators. The South African department is therefore unquestionably weak. Prices, it will be recollected, are extravagantly high; and so many people are absent, both from London and Paris, holiday-making that it looks as if there would be a decline for some weeks to come. There is, however, no unwieldy or very weak account open. A great break is hence not probable, but rather a slow sagging of prices.

The British railway dividends are fairly satisfactory—quite as good indeed as could have been expected. Yet the market is somewhat disappointed and British railway stocks are lower. In spite of that, however there are undoubted signs of a general improvement in trade, and especially the wool market continues very strong.

One other cause of disquiet is the acknowledged difficulties of some of the reconstructed Australian banks. A winding-up order has been granted in the case of the City of Melbourne Bank; and at a meeting held here on Wednesday it was intimated by the Official Receiver that the balance sheets issued for some time past by the directors do not accord with the bank books; and furthermore, that the directors have large overdrafts from the bank. A committee has been appointed to recommend what measures should be adopted. It is generally expected that the bank will be wound up and that at least three or four other banks will likewise have to liquidate. But there is no probability of any troubles here because of this.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1895. July 24. £	1894. July 25. £	1893. July 26. £	1892. July 27. £

Messrs. Pixley & Abell write as follows under date of July 25:

Gold.—Falling export demand, the Bank has received £388,000, which constitutes the bulk of the arrivals. £115,000 has been withdrawn, of which £ 0,000 goes to Rio and £50,000 to Alexandria. Arrivals: River Plate £17,000; China £19,000; South Africa £110,000; New York £14,000; West Indies £54,000; Bombay £10,000. Australia £275,000. Total £511,000.

Silver.—With very small demand and little on offer, the market has declined eighth to ¼d. At this rate the tone is steady. Arrivals: New York £172,000; West Indies £15,000. Total £187,000. Shipments: July 12th Bombay £61,000; Malta £5,000. Total £66,000.

Mexican Dollars.—Mexican Dollars have not recently been dealt in. The last price was 30¼d. Arrivals from New York £6,000. Shipments to Penang £43,050.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates. Bank Bills. Three Months	Four Months	Six Months	Trade Bills. Three Months	Four Months	Six Months	Interest allowed for deposits by Joint Stock Banks.	Disc't H'se At Call.	Disc't H'se 7 to 14 Days.

Total coinage	2,211,000	3,235,800	34,381,163	30,090 503

☞ In addition to the above there was executed at the Mint at Philadelphia $100,000 in 20 cent pieces for Ecuador.

Bonds Held by National Banks.—The following interesting statement, furnished by the Comptroller of the Currency shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositaries on July 31.

Description of Bonds.	U. S. Bonds Held July 31, 1895, to Secure—		
	Public Deposits in Banks.	Bank Circulation.	Total Held.
Currency 6s, Pac. RR...	$1,152,000	$12,278,000	$13,430,000
5 per cents, 1894	725,000	13,036,850	13,761,850
4 per cts., funded 1907..	11,843,000	149,424,600	161,267,600
4 per cents, 1895	575,000	10,490,500	11,065,500
2 per cts., funded 1891..	1,033,000	22,602,850	23,635,850
Total, ...	$15,328,000	$207,832,800	$223,160,800

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods August 1 and for the week ending for general merchandise August 2; also totals since the beginning of the first week in January.

Foreign Imports at New York.

For Week.	1892.	1893.	1894.	1895.
Dry Goods.....	$2,939,510	$2,828,673	$1,830,532	$3,150,726
Gen'l mer'dise.	13,765,030	7,622,151	8,647,758	6,096,108
Total.....	$16,704,540	$10,450,824	$10,478,290	$9,246,834
Since Jan. 1.				
Dry Goods.....	$74,906,749	$87,044,950	$49,544,403	$88,750,931
Gen'l mer'dise.	271,591,682	292,255,372	212,394,354	220,666,556
Total 31 weeks	$346,498,431	$379,300,322	$261,938,757	$309,417,487

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending August 6 and from January 1 to date:

Exports from New York for the Week.

	1892.	1893.	1894.	1895
For the week..	$6,345,406	$7,933,068	$7,738,762	$6,569,963
Prev. reported.	231,282,270	208,423,287	213,232,731	196,317,141
Total 31 weeks.	$237,627,676	$216,356,355	$220,971,493	$202,887,109

The following table shows the exports and imports of specie at the port of New York for the week ending August 3 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

Exports and Imports of Specie at New York.

WALL STREET, FRIDAY, AUGUST 9, 1895.—5 P. M.

The Money Market and Financial Situation.—Business in Wall Street during the week now closing has been of the usual mid-summer type. The few people who remain in town have ample time to discuss the present and prospective movement of gold, the splendid crop outlook, the demoralized anthracite coal situation and the future possibilities of the markets. At the moment there are no features of importance and the Street is awaiting developments.

Members of the Government Bond Syndicate have received notice that there will be a distribution to-day of between 34 and 35 per cent of the capital contributed for the operations of the Syndicate. This payment leaves a balance of 30 per cent still remaining to be distributed.

The market to-day for both bonds and stocks has been strong, and in some cases the advance is notable. Many of the grangers are higher and Manhattan Elevated has gained 3 points during the day's trading.

Money continues very abundant and rates are the lowest of the season.

The open market rates for call loans during the week on stock and bond collaterals have ranged from ⅜ to 1½ per cent. To-day's rates on call were 1 per cent. Prime commercial paper is quoted at 3½ to 4¼ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £37,954, and the percentage of reserve to liabilities was 57·85 against 57·76, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 1,425,000 francs in gold and 900,000 francs in silver.

The New York City Clearing-House banks in their statement of Aug. 3 showed a decrease in the reserve held of $339,000 and a surplus over the required reserve of $40,917,175 against $41,996,575 the previous week.

Foreign Exchange.—The market for foreign exchange has been dull but firm. Drawings against future shipments of grain and cotton have appeared, but not in sufficient amount to affect rates. It is reported that some bills have been sold against gold shipments. The total shipments of gold during the week amount to $1,712,000, of which $462,000 goes to-morrow.

To-day actual rates of exchange were as follows: Bankers sixty days sterling, 4 89½@4 89¾; demand, 4 90¼@4 90½; cables, 4 90¾@4 91.

Posted rates of leading bankers are as follows:

Aug. 9.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 90	4 91
Prime commercial	4 89 @ 4 89½	.....
Documentary commercial	4 88½ @ 4 89	.....
Paris bankers' (francs)	5 15⅛ @ 5 13¾	5 13¾ @ 5 13⅛
Amsterdam (guilders) bankers	40⅝ @ 40⅞	40⅞ @ 40⅝
Frankfort or Bremen (reichsmarks) b'kers'	95⅝ @ 95¾	95⅝ @ 95⅝

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $3 00 premium commercial $1 00 premium; Chicago, 15c. per $1,000 premium; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $31,000 5s, coup., at 115⅛ to 115¼; $12,000 5s, reg., at 115 to 115⅜; $13,500 4s, coup., at 123 to 123¼, and $37,800 4s, reg., 1907, at 112¼ to 112⅝. Closing prices were as follows:

Coins.—Following are current quotations in gold for coins:

Sovereigns	$4 90 @ $4 95	Fine silver bars	— 66½@ — 67
Napoleons	3 90 @ 3 95	Five francs	— 90 @ — 95
X X Reichsmarks	4 78 @ 4 85	Mexican dollars	— 53½@ — 54½
25 Pesetas	4 80 @ 4 88	Do uncom'cial	— — @ — —
Span. Doubloons	15 50 @15 75	Peruvian sols	— 49 @ — 52
Mex. Doubloons	15 50 @15 75	English silver	4 85 @ 4 92
Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @ — 75

State and Railroad Bonds.—Sales of State bonds at the Board include $130,000 Tenn. settlement 3s at 90½ to 91; $37,000 Virginia fund. debt 2-3s of 1991 at 63⅞ to 63; $4,000 Alabama Class A at 109½, and $5,000 North Carolina con. 4s at 104¾.

The market for railroad bonds has been generally steady to firm under limited transactions.

The Atchisons have been the most active and are well supported. There has been a liberal movement of Ches. & Ohio issues, which close fractionally lower than our last quotations. Clev. Lor. & Wheeling bonds are evidently in favor with investors and were bid up on Tuesday. Duluth & I. R. are in demand, as no more are to be issued, and recent judicial decisions are favorable to the company. They advanced nearly 2 points on Wednesday.

U. S. Cordage 1sts have continued to move upward, as considerable amounts of them have been deposited under the reorganization plan. Other active issues include Col. & 9th Ave., Lex. Ave. & P. F., Mo. Kan. & Tex., Mob. & Ohio, No. Pacific, Or. Short Line, Wabash, Un. Pacific, Tex. & Pacific, St. L. Southwest, Reading and Southern Railway bonds.

Railroad and Miscellaneous Stocks.—The stock market has been dull, even for a mid-summer dull period. Changes in quotations are generally without significance, and fluctuations have been within narrow limits. There is reported to have been some selling of stocks for the foreign account, which, if true, may explain the fact that some of the leading grangers, Louisville & Nashville and the Southern Railway shares have been weak. On the other hand, Central of New Jersey, Lackawanna and Reading are fractionally higher, and Manhattan Elevated has advanced nearly 5 points. Every day of favorable weather now foreshadows increased earnings in the near future for the corn-carrying roads, and all the Southwestern shares are strong.

The industrials have been less active and generally more steady than usual. The highest and lowest for Am. Sugar during the week are 115¼ and 112¾, and it closes at 114⅞. Chicago Gas has gained about 3 points.

Distilling has been steady. U. S. Leather has continued weak, and the preferred has dropped 2 points. General Electric has developed some activity and advanced over 2 points on various rumors and theories in regard to its business and prospects.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

ROADS.	Latest Earnings Reported.			Jan. 1 to Latest Date.	
	Week or Mo.	1895.	1894.	1895.	1894.
		$	$	$	$

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

* After deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in June was $66,918, against $57,925 last year, and for six months to June 30 $485,568, against $434,746; after adding earnings received from Federal Government net from January 1 to June 30, 1895, was $185,568, against $512,414. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

ANNUAL REPORTS.

Mobile & Ohio Railroad.

(For the year ending June 30, 1895.)

In advance of the publication of the annual report, the CHRONICLE is furnished with the following official statement made by President J. C. Clarke under date of August 1:

	1895.	1894.	1893.
Total receipts	$3,309,949	$3,332,091	$3,358,471
Total expenses	2,194,486	2,044,054	2,277,994
Net earnings	$1,115,503	$1,309,037	$1,080,477
Interest charges and rentals	1,034,354	1,031,323	1,042,217
Surplus	$81,149	$171,714	$38,260

"The expenses, as above, include taxes and insurance, and all other expenditures, in each year, except the principal of the car trust paid during the year, which item has been provided for by disposition of bonds in the Treasury for that purpose.

"The rigid economies, which, owing to the disturbed condition of business generally throughout the country in 1893-94, were obligatory, and made it prudent in that year to restrict all expenditures to such as were requisite to secure safety and reasonable maintenance—this policy made a more liberal expenditure necessary during the past year, which has resulted in fully restoring the general condition of the property and equipment, in addition to which among and included in the above expenses for 1894-5 are extraordinary expenditures amounting to upwards of $40,000, represented in part by the net cost of 2,000 tons steel rail and of an iron bridge over the Okatibbeha River.

"The company in June, 1895, desiring to liquidate its floating indebtedness, which its current earnings had not enabled it to do because of the demand upon it to meet maturing car trusts and the cost of new equipment, which since 1885 have amounted to $1,300,000, determined to and did sell to a syndicate, subject to the same being offered to the stockholders at the purchase price, $1,750,000 of the general mortgage bonds, a part of the bonds in its treasury, the issue of which, by the agreement of 1888, had been authorized for the purpose of funding the floating indebtedness of the company, and "to provide the means by which the necessary additions and improvements to the property may continue to be made. An option was given to the stockholders to purchase these bonds, and the holders of 70 per cent of the stock availed of the offer so made."—V. 60, p. 1059.

Buffalo Rochester & Pittsburg Railway.

(For the year ending June 30, 1895.)

The following statement has been compiled from the official reports:

Years ending June 30.	1894-5.	1893-4.
Total earnings	$4,622,278	$5,795,376

GENERAL INVESTMENT NEWS.

Ann Arbor Ry.—The Metropolitan Trust Co. of New York will be the trustees for the new $7,000,000 mortgage to be authorized by the Ann Arbor Ry. Co., the successor to the reorganized Toledo Ann Arbor & North Michigan. The new bonds are being engraved and it is expected will be ready for delivery during the fall. The bonds are for 100 years and bear 4 per cent interest, which is payable quarterly. The requirements of the reorganization plan will take $6,332,000 of the bonds and $3,657,000 of the $4,000,000 preferred stock. A further issue of the bonds will be used in the purchase of equipment and terminals at Toledo. The old stock will shortly be given an opportunity to subscribe to the stock in the new company, which has not yet been formally organized. Litigation between the receiver and Post, Martin & Co. is pending as to the amount due the latter for equipment furnished the old company. The amount involved is somewhere between $60,000 and $100,000.

Baltimore & Washington Boulevard Electric Ry.—Columbia & Maryland RR.—A contract was awarded Wednesday to E. D. Smith & Son, of Philadelphia, for building the Columbia & Maryland Electric Railroad between Baltimore and Washington. The contract is for building the track and roadbed from terminus to terminus. The road will be thirty-six miles long, and extend from Howard and Saratoga streets, in Baltimore, to a point on North Capitol Street, in Washington. It will be double-tracked, with eighty-pound T rails laid on oak ties and stone ballast. The work of construction is to begin as early as possible, and it is expected that by September 1 the contractors will be under active headway.—V. 61, p. 151.

Bellaire Zanesville & Cincinnati.—Suit has been filed in the Court of Common Pleas, Belmont County, Ohio, by the Farmers' Loan & Trust Co., the trustees, to foreclose the first consolidated mortgage. Judge Briggs, on June 28, appointed J. K. Geddes, Zanesville, O., as Receiver. A reorganization plan will be prepared before the road goes to sale. There are $250,000 prior lien bonds to which the above mortgage is subject.—V. 61, p. 36.

Central RR. & Banking Co. of Georgia—Augusta & Savannah RR.—The stockholders of the Augusta & Savannah RR., at Savannah, have decided by a unanimous vote to accept the offer of the Georgia Central RR. Reorganization Committee of 5 per cent on the capital stock. Under the old lease 7 per cent was paid. There were represented 6,700 out of the 10,220 shares.

The foreclosure of the consolidated mortgage of the Central RR. & Banking Company it is expected will be made at an early date, and the securities of the new company be ready for delivery by November.—V. 61, p. 111, 197.

Chicago Peoria & St. Louis Ry.—St. Louis Alton & Terre Haute RR.—We have received from Mr. George Foster Peabody, chairman of the board of directors of the St. Louis Alton & Terre Haute RR., the following letter:

"I notice in your issue of August 3 a reference to some unfounded rumors associating the Illinois Central with this line in certain negotiations with the C. P. & St. L. I should

be glad if you would correct the statement, inasmuch as the Illinois Central has no relations whatever with any negotiations of this company."—V. 61, p. 195.

Chicago & South Side Rapid Transit.—In accordance with a resolution passed by the board of directors July 24, 1895, a special meeting of the stockholders of this company is called for Tuesday, September 3, for the purpose of considering measures to be taken to discharge the interest on first mortgage bonds which was due April 1, 1895, and also the interest on extension bonds due July 1, 1895. The semi-annual statement which accompanied this call shows a gain over the same period for last year, yet the earnings are still far from sufficient to meet this indebtedness.

The comparison of the earnings and operating expenses is shown by the following table:

SIX MONTHS TO JUNE 30.	1895.		1894.
Earnings—			
Passenger	$361,622		$339,419
Rents	2,705		4,100
News and advertising privileges	10,047		6,964
Miscellaneous	417		50
Total earnings	$377,791		$350,533
Operating expenses—			
Maintenance of way and structures	$17,878		$19,942
Maintenance of rolling stock	17,110		15,025
Conducting transportation	185,066		224,640
General expenses	60,348		46,400
Total oper. expenses	(74·3 p. c.) $280,402	(87·4 p. c.)	$306,007
Net earnings	$97,389		$44,526
Taxes	25,005		.....
Six months' interest on bonds	162,500		.....

V. 51, p. 26.

Cleveland Canton & Southern Railroad.—Notice is given to *Coshocton & Southern* bondholders by P. W. Smith, C. W. Plummer and O. Prescott, Committee, that after August 15, 1895, no bonds will be received by the bondholders' committee under the agreement of Jan 25, 1895, except on such terms as may be consented to by the committee. More than two-thirds of the bonds have been deposited in accordance with said agreement.—V. 61, p. 68.

Columbus & Hocking Coal & Iron.—The Reorganization Committee, consisting of M. L. Scudder, Henry B. Ely, trustee of the estate of William Astor, and George Sherman, Vice-President of the Central Trust Company, call for deposit of bonds with the Central Trust Co. They believe foreclosure is unavoidable.—V. 61, p. 195.

Delaware Lackawanna & Western RR.—The lessee reports earnings of leased lines in New York State for the quarter and six months ending June 30 as follows:

	Gross earnings.	*Net earnings.*	*Interest, taxes, etc.*	*Balance, surplus.*
3 *months end. June* 30—				
1895	$1,993,241	$1,075,934	$616,249	$459,685
1894	2,277,592	1,100,631	631,583	469,048
6 *months*—				
1895	$3,660,410	$1,838,238	$1,241,493	$596,760
1894	3,683,949	1,642,676	1,245,831	396,845

—V. 60, p. 835.

Distilling & Cattle Feeding.—Arguments on the application for an injunction to prevent the reorganization committee from bidding at the coming sale of distilleries were heard on Tuesday before Justice O'Brien. Decision was reserved.—V. 61, p. 195.

Fitchburg RR.—Earnings for the quarter and the 12 months ending June 30 have been reported as follows:

	Gross earnings.	*Net earnings.*	*Interest, taxes, etc.*	*Balance, surplus.*
3 *months end. June* 30—				
1895	$1,821,341	$522,584	$365,644	$156,940
1894	1,701,818	509,912	384,263	125,649
12 *months*—				
1894-95	$7,243,703	$2,272,938	$1,518,115	$754,823
1893-94	6,865,155	2,061,244	1,543,948	517,296

—V. 60, p. 967.

Kentucky & Indiana Bridge.—The receivers of this company have been ordered by the Louisville Trust Company, trustee, to pay out of the funds in their hands the amount due on the coupons of first mortgage bonds, which fell due March 11, 1895, with interest at 6 per cent. The payment is to be made as soon as practicable.—V. 60, p. 1105.

Knoxville Electric Railway.—The sale of this railway to the reorganization committee composed of a majority of the bondholders has been confirmed by Judge Clark. Bids were reopened on the rapid transit line. W. G. McAdoo, Jr., representing the bonds held in trust by the American Loan & Trust Company, raised the bid from $18,500 to $20,000.

Referring to the bill filed by George W. Henderson, receiver of the Knoxville Electric Railway, against the Union Trust Company of Philadelphia, to recover $247,000 because of the alleged diversion of said sum from corporate purposes, W. G. McAdoo, Jr., former President of the railway company, has made the following statement to the Southern Associated Press:

> The sole claim in the case is that the agreement between the trust company and myself, that out of the $350,000 of bonds $200,000 should be employed in the purchase of the old street railways of Knoxville, was illegal. There is no charge that any of the bonds were applied to my personal use. The $200,000 in question were used in paying the owners of the old horse-car lines in Knoxville for their stock, from which it not only received no profit, but to which I added more than $20,000 to pay the purchase price of $220,000. The remaining $150,000 of bonds were used to improve the property. The recovery sought from the trust company is based on purely technical grounds. There is absolutely nothing in the whole transaction which in any way is discreditable to me.
>
> This whole question has been thoroughly sifted in the United States Circuit Court of Knoxville in a similar action against the Union Trust Company, the decision of the Court being against the claim and in favor of the trust company. V. 61, p. 196.

Lake Erie & Western RR.—Northern Ohio Ry.—Pittsburg Akron & Western RR.—The Northern Ohio Railway Co. has been organized to take over the Pittsburg Akron & Western, recently sold in foreclosure. The road extends from Delphos, O., to Akron, O., 166 miles. The new company will be leased in perpetuity to the Lake Erie & Western, which company will own the stock and guarantee as to principal and interest $2,500,000 first mortgage 5 per cents issued at the rate of $15,000 per mile. The lessee is to receive $1,000,000 in cash from the proceeds of the new issue of bonds, all of which is to be expended on the roadbed and for equipment of the leased line. The acquisition of the Northern Ohio Railway will give the Lake Erie & Western Company access to the freight-producing regions of the Mahoning Valley and the Pittsburg, the Allegheny and the McConnellsville coke regions. The management of the Lake Erie & Western Company is confident that the expenditures to be made upon the new line will bring it up to a condition of efficiency that will make it entirely self-sustaining.—V. 60, p. 562.

Lake Manawa Street Railway (Council Bluffs).—Application for a receiver for this company has been filed.

Louisville & Nashville RR.—This company has listed on the New York Stock Exchange $2,019,000 additional Unified fifty-year 4 per cent gold bonds, making total amount listed $15,011,000. Of this amount $17,000 have been canceled, leaving amount on list $14,994,000.—V. 61, p. 196.

New York Chicago & St. Louis RR.—Earnings for th quarter and the six months ending June 30 have been reporte as follows:

	Gross earnings.	*Net earnings.*	*Other income*	*Interest, taxes, etc.*	*Balance.*
3 *months end. June* 30—					
1895	$1,414,551	$245,740	$1,946	$288,364	def.$40,678
1894	1,240,071	171,231	1,569	285,050	def.112,250
6 *months*—					
1894-95	$2,920,897	$527,596	$3,684	$574,200	def.$42,930
1893-94	2,538,073	322,779	3,732	568,557	def.242,046

—V. 60, p. 795.

New York & Harlem Street Railway Lines—Storage Battery.—The Fourth and Madison Avenue street car lines in New York City, which are owned by the New York & Harlem Railroad Co., it is announced, are soon to be operated by means of storage batteries Chloride accumulators are to be used of a kind which, it is said, are already in use in Paris, France, and in Birmingham, England. Trips of 70 miles are made with one charging of the battery. The batteries for the New York cars, now under construction, will be suspended under the center of the car, the tray containing them being readily detachable for the purpose of charging by means of an elevator beneath the track. A car can thus be loaded and unloaded in about half a minute.. Any car body, it is said, is adapted for use in this service, so that a company adopting the system can use its present car bodies.

New York New Haven & Hartford RR.—Notice is given that owners of convertible debenture certificates are entitled to subscribe at par for additional convertible debenture certificates, to be issued by said company Oct. 1, 1895, in the proportion of one-quarter of the amount of their holdings Sept. 1, 1895.—V. 61, p. 113.

New York Lake Erie & Western RR.—It is generally understood that the plan of reorganization has been practically decided upon, and that its simultaneous promulgation here and abroad is likely to be made in the near future. The cash requirements of the plan are to be underwritten by a syndicate, in which London bankers will take a prominent part.—V. 60, p. 1105.

New York Susquehanna & Western.—This company is reported to have extended for seven years about $300,000 car trust notes which were incurred last winter in the purchase of new rolling stock. This was one of the sources of embarrassment to the company earlier this year.—V. 60, p. 1059.

Norfolk & Western RR.—The London Reorganization Committee, under date of July 25, issued the following circular to the security holders: "In response to numerous inquiries from security holders, the committee consider it desirable to publish the following information regarding the position of the company and the prospects of its reorganization. At the instance of the committee a thorough investigation of and exhaustive report on the accounts of the company for the last three years has been made by the well-known accountants, Messrs. Price, Waterhouse & Co., the result of which, save some modifications of minor importance, is considered by the committee as confirming the accuracy of the company's reports and accounts. Copies of this report are at the disposal of security holders on application to the Secretary, care of Messrs. Brown, Shipley & Co. The question of the reorganization of the property on a safe and permanent basis has been receiving the earnest attention of the committee, and the negotiations with the New York and Amsterdam committees, as well as with representatives of other large foreign interests, justify the belief that a plan of reorganization can be submitted for the approval of security holders as soon as the affairs of the company are in a sufficiently settled condition. In this connection the committee wish to call your attention to the fact that they have been confronted by the unexpected difficulty of a serious strike, which has for the time being stopped work on the majority of the coal properties along the company's lines. It is a well-known fact that coal forms an important part of the company's traffic, and the outcome of this strike, involving as it does the question of the rates which the railroad company will in future receive for the carrying of coal, will, therefore, have an important bearing

on the future earning capacity of the railroad. The strike has now lasted since May 1st, but reports from the United States speak hopefully of an early though only gradual resumption of work by the strikers. Until, however, this has actually taken place, and there has been time to ascertain the probable effect of the strike on the company's coal traffic, it would be impossible to fix with a sufficient degree of certainty what would be a safe limit of future fixed charges, which must be the first consideration of any reorganization plan. Security holders may rest assured that no unnecessary delay will take place in putting a plan of readjustment before them; but under the circumstances above described the committee consider it to the interest of the security holders to postpone the publication of a reorganization plan in order to avoid the danger of either putting fixed charges on the property beyond the limit of safety, or on the other hand of imposing undue sacrifices on holders. Meanwhile the receivers have obtained authority from the Court, under date March 23, 1895, to provide for the prompt payment of the coupons of the general mortgage bonds and old divisional lien bonds, the New River division first mortgage bonds and the Scioto Valley first mortgage bonds."

—The Secretary of the Norfolk & Western Bondholders' Committee, 15 Wall Street, has made a statement in which he says: "The question of a reorganization of the property on a safe and permanent basis has been receiving the earnest attention of the committee, and the negotiations with the London and Amsterdam committees as well justify the belief that a plan of a reorganization can certainly be submitted for the approval of security holders within a few months." The report of Messrs. Price, Waterhouse & Company, the public accountants, has been issued in pamphlet form and can be obtained from A. H. H. Earnshaw, 15 Wall Street, New York, and also from the London Committee.—V. 60, p. 874.

Northern Pacific Railroad.—Proceedings were begun in Seattle on Wednesday before Judge Hanford in the Federal Court of the Washington District by Silas W. Pettit, general counsel for the Northern Pacific RR. Co., representing President Ives, to have receivers Oakes, Payne and Rouse removed. Mr. Ives charged in his affidavit that the receivers were influenced by Edward D. Adams, and that they were working with Henry Villard. He alleged that the Wisconsin Court in appointing the receivers had no jurisdiction, as the Northern Pacific never had any property or interests in the Eastern district of that State. Judge Hanford will make an order for the receivers to show cause on next Friday why they should not be removed.

Brayton Ives, President of the Northern Pacific Railroad, says: "The application is founded chiefly on the ground that the court at Milwaukee is without jurisdiction in the matter, not a mile of the road being in that district, and on the contrary the receivers as shown by their records.

Receiver Henry C. Payne, who arrived at Spokane, Wash., on Thursday, in company with Judge Jenkins of Milwaukee, is quoted as speaking regarding the application for removal of the receivers as follows:

"This is the same old trouble—throwing over old straw between Ives and the Adams interests. The question is purely one of law. We are charged, I see, with paying off debts which should not be preferred. The truth is we have paid all some preferred debts by order of the court, but you may be sure we have not paid anything we were not required to pay.

"The receivers are also charged with standing in with Mr. Adams, chairman of the reorganization board. Now it is true that Mr. Adams has given the receivers very strong financial support. He has advanced $2,000,000 to the receivers, and naturally they have tried to work in harmony with the people who own the property, and who are entitled to consideration. But Mr. Adams does not control the receivers and does not direct their policy. As a matter of fact, the receivers do not approve of his plan to unite the interests of the Northern Pacific and Great Northern. I consider the proposed union of interests as against public interests, not to be countenanced by the public."

Mr Payne also said:

"The receivers have recently entered upon a new policy in regard to the disposal of the lands to actual settlers. They desire the advent of immigration and the settlement of the country. The lands will accordingly be sold to purchasers of this class at prices for tillable tracts that will be close to the Government prices.

"The receivers have made applications for authority to enter upon extensive improvements of the road, and Judge Jenkins before granting the desired authority expressed a purpose to travel over the line and judge for himself as to the need of the proposed changes."—V. 61, p. 198.

Northern Pacific RR.—Great Northern Ry.—A press despatch from Chicago, August 7, says that in a reported interview with President J. J. Hill of the Great Northern Railway at St. Paul, Mr. Hill is represented as saying:

There are no negotiations whatever. That part is all over. The next thing to be done is for the Northern Pacific security holders to reorganize their property. This they must and will do for themselves. After the reorganization is effected then comes whatever we propose to do. If we secure control of the Northern Pacific it will be because we have a right to it. We shall do absolutely nothing until the property is reorganized.—V. 61, p. 27, 196.

Northwestern Elevated—Columbia Construction.—The stockholders of the Columbia Construction Company have received circulars asking them to accede to a change in the original agreement made with the company and to accept in lieu of that an agreement to deliver to them preferred stock at 75 instead of bonds at 66⅔. It is said the large subscribers to Columbia construction stock have about all come in under the new scheme and have subscribed to their pro rata of new stock.—V. 61, p. 153.

Oregon Railway & Navigation.—At Portland, Or., in the suit of the Farmers' Loan & Trust Company for foreclosure of the consolidated mortgage, Judge Bellinger of the United States Circuit Court allowed the bill. A decree of foreclosure will be entered.—V. 61, p. 152.

Oregon Short Line & Utah Northern RR.—Union Pacific R'y.—At Helena, Mont., Aug. 8, in the United States Circuit Court, Judge Hiram Knowles rendered a decree of foreclosure against the Oregon Short Line & Utah Northern under the consolidated mortgage. The decree is confirmatory of the order of the Court in Oregon.

Holders of Oregon Short Line *first 6s* who desire to participate in the benefits to be derived from co-operation with the Martin committee are notified that they may deposit their bonds with the Central Trust Co., New York, or the Old Colony Trust Company, Boston, until August 15 1895, on payment of a penalty of $20 a bond.—V. 61, p. 113, 197.

Philadelphia Reading & New England RR.—Earnings for the quarter and the six months ending June 30 have been reported as follows:

3 months end. June 30	*Gross earnings.*	*Net earnings.*	*Interest, taxes, etc.*	*Balance.*
1895	$187,660	$50,076	$36,054	sur. $14,022
1894	170,855	52,517	34,945	sur. 17,572
6 months—				
1894-95	$350,195	$93,045	$70,758	sur. $22,287
1893-94	305,208	60,256	69,889	def. 9,633

—V. 60, p. 837.

Pittsburg Shenango & Lake Erie.—As previously announced (See V. 60, p. 872), this company has arranged to operate a steam car ferry across Lake Erie connecting its line with the Grand Trunk Ry. system. For this service the first ferry boat "Shenango No. 1," built at a cost of $175,000, was successfully launched at the yards of the Craig Ship Building Company in Toledo, Ohio, on Tuesday.—V. 60, p. 872.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE *since* the last edition of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

Texas Trunk RR.—This property was sold at public outcry at Dallas, Tex., Aug. 6, and purchased for $250,000 by R. S. Lovett. It is said to have been bought in the interest of C. P. Huntington of the Southern Pacific. The road extends from Dallas to Kemp, a distance of 52 miles.—V. 60, p. 437.

Toronto Ry.—A cablegram from London, August 7, says that the total applications for the new first mortgage 4½ per cent bonds of this company amounted to £371,000. All the bonds have been allotted. The new loan is for £323,000, of which £250,000 was to be issued in Canada and the rest in London.

United States Cordage.—Under the *company's* plan, yesterday was the last day for deposits with the Manhattan Trust Company of first mortgage bonds with penalty of $2 50 each, guaranteed stock with first instalment of $5 a share and 25 cents penalty, preferred stock with first instalment of $2 50 and 25 cents penalty, and common stock with first instalment of $1 25 a share and 25 cents penalty.

The *protective* committee has extended until August 16 the time for deposit of bonds. Unofficially it is reported that this committee already represents $2,500,000 out of the $6,500,000 outstanding bonds. The committee states that it has not abandoned its undertaking.—V. 61, p. 198.

Valley of Ohio.—Messrs. Brown Bros. & Co. are buying the first mortgage bonds which have been deposited under the reorganization plan. Each $1,000 bond receives par for the principal and interest at 7 per cent from Dec. 15, 1891, to June 15, 1895, and interest at 6 per cent on the defaulted interest for the same period. From June 15 to date of settlement 4 per cent interest is paid on the amount due June 15 under this settlement. This is equivalent to about 137½ for the bonds.—V. 61, p. 198.

Westinghouse Electric & Manufacturing.—An agreement has been effected between the Baldwin Locomotive Works and the Westinghouse Electric & Manufacturing Company for the manufacture of electric locomotives. An officer of the Westinghouse Company says: "This is a working arrangement for the joint manufacture of electric locomotives. The Baldwin Company will manufacture the part of the locomotives that they are accustomed to make, and the Westinghouse Company the electric part of the engines. We foresee a demand for electric motors, and we think we have perfected an arrangement that will enable us to take advantage of that demand."—V. 61, p. 153.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, August 9, 1895.

General trade conditions show slow but steady improvement. There is a quicker movement of seasonable goods, and in many cases buyers are placing contracts for staple commodities for fall and winter delivery. One or two important industries are still disturbed by labor troubles, but during the week several previously prevailing strikes were settled upon basis of increased wages to workmen. Speculation in leading articles of merchandise is cautious and involves few positive new ventures of magnitude. Somewhat increased purchases of grain have been made upon export orders. Average crop conditions are looked upon as having undergone very little variation during the week. Latest information indicates a low yield of winter wheat in many localities, but spring wheat gives promise of a good yield. Corn maintains previous generally excellent indications, and there is a tendency to increase estimates for oats. The domestic rice crop is reported in unusually satisfactory condition.

Early in the week the market for lard on the spot was dull and prices declined, but subsequently business became more active and nearly all of the loss was recovered, closing steady at 6·55c. for prime Western, 6·10@6·25c. for prime City and 6·90c. for refined for the Continent. The speculation in the local market for lard futures was dull and during the first half of the week prices declined, but later the improved demand for "cash" stimulated a demand from "shorts" to cover contracts and the loss was recovered.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September....c.	6·42	6·35	6·30	6·35	6 50	6·55

Pork has sold moderately well but at lower prices, closing at $11 25@$11 50 for mess, $12 50@$12 75 for family and $12@$14 for short clear. Cut meats have had only a very limited call, but prices have held steady, closing at 7c.@7½c. for pickled bellies, 12@10 lbs. average, 9¼c.@9½c. for pickled hams and 5¾c. for pickled shoulders. Beef has been quiet but steady, closing at $7 50 for extra mess, $9@$10 50 for packet, $11 @$12 50 for family and $16 50@$17 50 for extra India mess. Beef hams have declined, closing at $16 50. Tallow has been firmer, closing at 4⅛c.@4¼c. Lard stearine has been steady, closing at 8¼c.@8½c. Oleo stearine has been quiet, closing at 6¼c. Cotton seed oil has declined, closing at 27c.@28c. for prime yellow and 26¾c.@27c. for off-grade yellow. Butter has been fairly active and steady, closing at 13c.@20c. for creamery. Cheese has declined, but the close was steady at 5½c @8½c. for State factory, full cream. Fresh eggs have been moderately active and steady, closing at 14c.@14½c. for choice Western.

Coffee has shown less general animation, but kept well in hand and a firm market preserved for desirable quality. Rio quoted at 16¼c. for No. 7, good Cucuta 19¼c. and standard Java 27¼@27¾c. For future delivery fair animation was shown, with prices mostly inclined upward, but the close is quiet.

The following were the final asking prices:

Aug.....15·35c	Nov.....15·35c.	Feb.....15·10c.
Sept.....15 50c.	Dec.....15·30c.	March.....15·05c.
Oct.....15 50c.	Jan.....15·20c.	April.....

Raw sugars found continued good demand, about exhausting current offerings, and further fractional gain was made in values. Centrifugals quoted at 3 5-16c. for 96-degrees test and Muscovado at 3c. for 89-degrees test. Refined sugars more active and firm in tone; granulated, 4⅝c. Teas dull and easy.

For Kentucky tobacco there has been very little inquiry, but prices held steady; sales 100 hhds. Seed leaf tobacco has been in limited request at steady prices. Sales for the week were 1,750 cases as follows: 200 cases crop 1892, Wisconsin Havana, 13@14½c.; 850 cases crop 1893, Zimmer's, 12@15c.; 250 cases crop 1892, Pennsylvania Havana, 13@14c.; 100 cases crop 1893, New England Havana, 7@12c.; 200 cases crop 1892, New England Havana, 19@25c.; 500 cases crop 1894, New England Havana, 16@18c., and 150 cases sundries, 5@25c; also 550 bales Havana, 65c.@$1 15, and 400 bales Sumatra, 50c.@$3 in bond.

The speculative dealings in the market for Straits tin have continued quiet and the changes in prices have been unimportant, closing steady at 14·20c. Ingot copper has made a slight further advance and the close was firm at 12c. for Lake. Lead has weakened a trifle, but the close was steady at 3·50@3·52½c. for domestic. Spelter has advanced sharply, and the close was strong at 4·10c. for domestic. Pig iron has been fairly active and firm at $11 00@$14 50 for domestic.

Refined petroleum has been steady, closing at 7·10c. in bbls., 4·60c. in bulk and 7·50c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have been dull, closing at 1·30c. bid. Spirits turpentine have been quiet but steady at 27@27¾c. Rosins have been steady, closing at $1 50@$1 57½ for common and good strained. Wool has sold moderately well at firm prices. Hops have been quiet and easy.

COTTON.

FRIDAY NIGHT, August 9, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 2,137 bales, against 1,760 bales last week and 2,734 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,867,827 bales, against 5,924,575 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,943,252 bales.

Speculation in cotton for future delivery at this market has shown moderate proportions. Unfavorable reports regarding condition of plant were circulated with some freedom and served to sustain a slightly bullish feeling, but operators as a rule were inclined to postpone fresh ventures until the appearance of monthly crop report from Government Bureau. Saturday's deal was fair and prices secured a net gain of 7 points, stimulated by a less favorable exhibit in our weekly crop summary than had previously been calculated upon. On Monday 10 points gross and 4 points net advance was shown, and Tuesday gained 1 point net, the business during both days proving light and principally local. After three days' suspension of trading during bank holidays, Liverpool reopened on Wednesday fairly active and stronger, which gave temporary stimulus here, but only 3 points were gained and, general demand failing, final rates were at 1 point net loss. Yesterday about 3 points net recovery was secured in consequence of covering by local shorts. To-day's market was very slow, with very limited fluctuations and no new feature. Cotton on the spot found fair home demand early in the week, but spinners subsequently refused to follow an advance made in cost. Middling uplands close at 7 1/16c.

The total sales for forward delivery for the week are 549,300 bales. For immediate delivery the total sales foot up this week 6,263 bales, including 1,350 for export, 3,213 for consumption —— for speculation and 1,700 on contract. The following are the official quotations for each day of the past week—August 3 to August 9.

Rates on and off middling, as established Nov. 22, 1865, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1 1/4	on	Good Ordinary	c. 1 1/2	off.
Middling Fair	5/8	on	Good Middling Tinged	Even
Strict Good Middling	1/8	on	Good Middling Stained	7/16	off
Good Middling	6/16	on	Middling Stained	7/16	off
Strict Low Middling	1/16	off	Strict Low Middling Stained	9/16	off
Low Middling	7/16	off	Low Middling Stained	1 1/8	off.
Strict Good Ordinary	1 3/16	off.			

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	6	6 1/16	6 1/16	6 1/16	6 1/16	6 1/16

* Louisville figures "net" in both years.
† This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 3,460 bales and are now 16,193 bales *less* than at same period last year. The receipts at all the towns have been 5,344 bales *less* than same week last year and since Sept. 1 are 1,771,200 bales *more* than for same time in 1893-94.

Quotations for Middling Cotton at Other Markets.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Aug. 9	Closing quotations for middling cotton on—

Receipts from the Plantations.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
July 5.....	16,384	10,119	3,795	125,780	79,386	64,724	6,771	3,920	[illegible]
" 12.....	15,762	5,910	5,866	120,466	76,577	58,762	10,448	3,101	.. ..
" 19.....	11,091	3,812	2,676	110,269	73,105	56,304	894	340	218
" 26.....	10,205	3,921	2,734	97,788	65,945	53,396	.....	.....	.....
Aug. 2	10,713	3,944	1,760	91,651	62,859	47,202	4,576	858	.....
" 9.....	9,243	5,732	2,137	84,667	59,935	43,742	2,259	2,808	.....

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,854,234 bales; in 1893-94 were 5,908,344 bales; in 1892-93 were 5,026,743 bales.

2.—That although the receipts at the outports the past week were 2,137 bales, the actual movement from plantations was only —— bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 2,808 bales and for 1893 they were 2,259 bales.

Overland Movement for the Week and since Sept. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Aug. 9 and since Sept. 1 in the last two years are as follows:

August 9.	1894-95.		1893-94	
	Week.	Since Sept. 1.	Week.	Since Sept. 1
Shipped—				
Via St. Louis	1,641	941,385	1,886	615,748
Via Cairo	8	337,233	463	233,199
Via Hannibal	.....	545	.....	13,756
Via Evansville	.....	3,817	.....	7,406
Via Louisville	181	190,091	1,019	132,705
Via Cincinnati	76	178,189	[illegible]	108,252
Via other routes, &c	123	141,946	104	130,018
Total gross overland	2,029	1,793,206	3,562	1,241,084
Deduct shipments—				
Overland to N. Y., Boston, &c..	447	576,360	666	301,804
Between interior towns	8	32,966	3	21,908
Inland, &c., from South	1,225	82,937	845	104,380
Total to be deducted	1,680	692,263	1,514	428,092
Leaving total net overland*..	349	1,100,943	2,048	812,992

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 349 bales, against 2,048 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 287,951 bales.

In Sight and Spinners' Takings.	1894-95.		1893-94	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Aug. 9.....	2,137	7,867,827	5,732	5,924,575
Net overland to Aug. 9.....	349	1,100,943	2,048	812,992
Southern consumption to Aug. 9..	10,000	740,000	6,000	675,000
Total marketed.....	12,486	9,708,770	13,780	7,412,567
Interior stocks in excess.....	*3,460	†13,593	*2,924	†16,231
Came into sight during week.	9,026	.....	10,856	.....
Total in sight Aug. 9.....	.....	9,695,177	.....	7,396,336
North'n spinners tak'gs to Aug. 9..	2,328	2,040,976	18,150	1,577,585

* Decrease during week. † Less than September 1.

It will be seen by the above that there has come into sight during the week 9,026 bales, against 10,856 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,298,841 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening indicate that there have been light showers in some sections of Texas the past week, but the precipitation was as a rule insufficient and more moisture is needed. In a few localities along the Atlantic there has been too much moisture, but in others rain is desired. Elsewhere in the main the conditions have been favorable. There are complaints of rust and shedding from districts in Georgia, Florida and Arkansas.

Galveston, Texas.—We have had rain on three days of the past week, the rainfall reaching ten hundredths of an inch. The thermometer has averaged 85, ranging from 78 to 88.

Huntsville, Texas.—There has been rain on one day of the week, the precipitation reaching twenty-six hundredths of an inch. The thermometer has ranged from 68 to 96, averaging 82.

Palestine, Texas.—It has rained on one day of the week, the rainfall being two hundredths of an inch. Average thermometer 82, highest 98 and lowest 66.

Dallas, Texas.—The warm, dry weather is causing cotton to open very freely in localities over Southern and Western Texas. At some points the stalk is fruiting nicely while in others squares are not so plentiful. The plant is beginning to need rain in many districts, especially on uplands, although the light showers on Wednesday and Thursday were of some benefit. Very little cotton has been gathered, as the crop is late. It is believed that picking will not be general until the latter part of August. Dry weather all the week. The thermometer has averaged 81, the highest being 98 and the lowest 64.

San Antonio, Texas.—We have had only a trace of rain during the week. The thermometer has averaged 88, ranging from 72 to 104.

Luling, Texas.—We have had rain on two days during the week, with a precipitation of fifty-two hundredths of an inch. The thermometer has ranged from 72 to 102, averaging 87.

Columbia, Texas.—There has been only a trace of rain the past week. Average thermometer 84, highest 96, lowest 72.

Cuero, Texas.—It has rained very lightly on one day of the week, the precipitation being inappreciable. The thermometer has averaged 88, the highest being 102 and the lowest 74.

Brenham, Texas.—Rain has fallen on one day of the week, to the extent of sixteen hundredths of an inch. The thermometer has averaged 86, ranging from 72 to 100.

Belton, Texas.—There has been rain on one day of the week, the rainfall being seven hundredths of an inch. The thermometer has ranged from 78 to 102, averaging 90.

Fort Worth, Texas.—We have had no rain during the week. Average thermometer 82, highest 99, lowest 64.

Weatherford, Texas.—We have had dry weather all of the past week. The thermometer has averaged 82, the highest being 100 and the lowest 64.

New Orleans, Louisiana.—Rain has fallen on five days of the week, the precipitation being one inch and forty-six hundredths. The thermometer has averaged 80.

Shreveport, Louisiana.—There has been rain on one day of the week, the precipitation reaching six hundredths of an inch. The thermometer has ranged from 69 to 95, averaging 82.

Columbus, Mississippi.—The heavy rain on Thursday over a considerable area will do much good. The plant is blooming and fruiting well. There has been rain on two days of the past week, the rainfall being one inch and fifty-nine hundredths. Average thermometer 83, highest 105, lowest 63.

Leland, Mississippi.—Rain has fallen during the week to the extent of twenty-four hundredths of an inch. Thermometer has averaged 79·7, the highest being 99 and the lowest 66.

Meridian, Mississippi.—Telegram not received.

Little Rock, Arkansas.—There has been rain on two days of the past week, the precipitation reaching thirty-seven hundredths of an inch. The thermometer ranged from 65 to 90, averaging 76.

Helena, Arkansas.—Cotton does not look promising. Corn on the other hand is very abundant. We have had light rain on four days of the week, the rainfall being twelve hundredths of an inch. Average thermometer 76, highest 91 and lowest 64.

Memphis, Tennessee.—The weather has been dry and warm all the week. Excellent weather for cotton and rapid progress is being made in cleaning the fields of grass and weeds. The thermometer has averaged 72 3, the highest being 89 9 and the lowest 62 2.

Nashville, Tennessee.—There has been but a trace of rain the past week. The thermometer has averaged 76, ranging from 58 to 95.

Mobile, Alabama.—Crop reports are not favorable. Complaints of poor fruitage continue. We have had rain on five days of the week, the rainfall being three inches and twenty-nine hundredths. The thermometer has ranged from 71 to 99, averaging 79.

Montgomery, Alabama.—There has been rain on two days during the week, the rainfall being eighteen hundredths of an inch. Average thermometer 80, highest 89, and lowest 71.

Selma, Alabama.—The crop is suffering for rain in some localities. We have had rain on one day of the week, the rainfall being five hundredths of an inch. The thermometer has averaged 80, the highest being 91 and the lowest 69.

Madison, Florida.—Considerable shedding is reported. It has rained on three days of the week, the rainfall reaching one inch and fifty hundredths. The thermometer has averaged 79 and ranged from 69 to 92.

Columbus, Georgia.—Rain has fallen on three days of the week to the extent of eighty-five hundredths of an inch. The thermometer has ranged from 73 to 92, averaging 82.

Savannah, Georgia.—We have had rain on five days of the week, the precipitation reaching five inches and thirty-five hundredths. Average thermometer 80, highest 93 and lowest 70.

Augusta, Georgia.—There has been rain on four days of the week, the precipitation reaching two inches and eighty-eight hundredths. The thermometer has averaged 79, the highest being 91 and the lowest 67.

Albany, Georgia.—Cotton has been injured badly, it is claimed, by shedding, rust and blight. The crop will be much smaller than last year in this section and very late. We have had rain on four days of the week, the precipitation reaching two inches and twenty-eight hundredths. The thermometer has averaged 82, ranging from 72 to 97.

Charleston, South Carolina.—There has been rain on four days of the week, the rainfall reaching two inches and forty-one hundredths. The thermometer has ranged from 71 to 88, averaging 80.

Statesburg, South Carolina.—We have had rain on three days of the week, the precipitation reaching one inch and seventeen hundredths. Average thermometer 76·1, highest 86, lowest 64.

Greenwood, South Carolina.—The rain this week has been light and partial, and cotton has deteriorated. We have had rain on three days of the past week, the rainfall reaching fifty hundredths of an inch. The thermometer has averaged 77, the highest being 88 and the lowest 66.

Wilson, North Carolina.—Rain has fallen on two days of the week to the extent of ninety hundredths of an inch. The thermometer has averaged 78, ranging from 62 to 88.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock August 8, 1895, and August 9, 1894.

		Aug. 8, '95.	Aug. 9, '94.
		Feet.	Feet.
New Orleans	Above zero of gauge.	4 3	3·7
Memphis	Above zero of gauge.	9 4	4 0
Nashville	Above zero of gauge.	3·7	1 8
Shreveport	Above zero of gauge	23 9	2 0
Vicksburg	Above zero of gauge	17 2	5·4

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to August 8.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Contin't.	Total.	Great Britain.	Contin't.	Total.	This Week.	Since Sept. 1.
'94-5	.....	1,000	1,000	26,000	518,000	544,000	8,000	1,509,000
'93-4	.....	.....	.....	47,000	827,000	874,000	10,000	1,772,000
'92-3	1,000	7,000	8,000	44,000	803,000	847,000	7,000	1,726,000
'91-2	.....	.....	.....	69,000	828,000	897,000	6,000	1,740,000

According to the foregoing Bombay appears to show a *decrease* compared with last year in the week's receipts of 2,000 bales and an *increase* in shipments of 1,000 bales, and the shipments since Sept. 1 show a *decrease* of 330,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Contin't.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1894-95...	.....	2,000	2,000	8,000	36,000	44,000
1893-94...	.....	1,000	1,000	20,000	86,000	106,000
Madras—						
1894-95...	.....	1,000	1,000	9,000	12,000	21,000
1893-94...	.....	.....	.....	31,000	21,000	52,000
All others—						
1894-95...	.....	3,000	3,000	26,000	92,000	118,000
1893-94...	.....	4,000	4,000	39,000	123,000	162,000
Total all—						
1894-95...	.....	6,000	6,000	43,000	140,000	183,000
1893-94...	.....	5,000	5,000	90,000	230,000	320,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1894, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1894-95.		1893-94.		1892-93.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	1,000	544,000	.....	874,000	8,000	847,000
All other ports.	6,000	183,000	5,000	320,000	2,000	161,000
Total.....	7,000	727,000	5,000	1,194,000	10,000	1,008,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co. of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, August 7	1894-95.	1893-94.	1892-93.
Receipts (cantars*)—			
This week	.....	2,000	.....
Since Sept. 1	4,538,000	4,933,666	5,143,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool	2,000	275,000	1,000	306,000	4,000	311,000
To Continent†	2,000	346,000	7,000	343,000	4,000	347,000
Total Europe	4,000	621,000	8,000	649,000	8,000	658,000

* A cantar is 98 pounds.
† Of which to America in 1894-95, 43,360 bales; in 1893-94, 24,886 bales; in 1892-93, 37,665 bales.

This statement shows that the receipts for the week ending Aug. 7 were —— cantars and the shipments to all Europe —— bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is firm for yarns and dull for shirtings. The demand for China is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.					1894.				
	32s Cop. Twist.		8¼ lbs. Shirtings.		Cott'n Mid. Uplds	32s Cop. Twist.		8¼ lbs. Shirtings.		Cott'n Mid. Uplds

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (August 9) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

Receipts to Aug. 9.	1894-95.		1893-94.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894
Savannah	....	64,261	....	54,178	368	925
Charleston	....	5,339	33	2,245	24	339
Florida, &c.	....	5,139	....	3,571	....	735
Total	....	74,759	33	59,994	392	1,999

The exports for the week ending this evening reach a total of 79 bales, of which 79 bales were to Great Britain, —— to France and —— to Reval, and the amount forwarded to Northern mills has been —— bale. Below are the exports for the week and since September 1 in 1894-95 and 1893-94.

Exports from—	Week Ending Aug. 9.			Since Sept. 1, 1894.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n	Fr'nce &c.	Total.	Week.	Since Sept. 1

Total	79	.....	79	35,080	5,650	40,740	.....	34,913
Total 1893-4	17	.....	17	32,623	4,686	37,309	50	22,475

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore, Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Aug. 9 at Savannah, for Floridas, all nominal. Charleston, Carolinas, all nominal.

EXCHANGES.—The following exchanges have been made during the week:

·14 pd. to exch. 900 Oct. for Jan.
·07 pd. to exch. 2,600 Aug. for Oct.
·08 pd. to exch. 200 Aug. for Oct.
·06 pd. to exch. 100 Aug. for Oct.
·09 pd. to exch. 1,000 Oct. for Dec.
·22 pd. to exch. 100 Aug. for Jan.
·14 pd. to exch. 700 Oct. for Jan.
·09 pd. to exch. 100 Oct. for Dec.
·05 pd. to exch. 100 Sept. for Oct.
·14 pd. to exch. 1,600 Jan. for Oct.
01 pd. to exch. 100 Oct. for Nov.

JUTE BUTTS, BAGGING, &C.—The demand for jute bagging on the spot has been only fair during the week under review, but deliveries on account of previous orders have been large. Prices are unchanged at 4⅛c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4⅜c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5¼c. for 2¼ lbs. f. o. b. at New York. Jute butts have been dull on the spot at 1⅛c. for paper quality, 1½c. for mixing and 1¾c. for bagging quality.

THE EXPORTS OF COTTON from New York this week show a decrease compared with last week, the total reaching 993 bales, against 1,213 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1894, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1894.

LOUISIANA COTTON REPORT.—The report of the Louisiana State Board of Agriculture on the condition of cotton August 1 was issued on the 7th inst. as follows:

Some parishes report a slight improvement as fields are clear of grass at last, while in others the crop is not yet laid by. In Concordia Parish cotton is shedding very much, is sappy and is not fruiting well. Picking will commence about October 1. De Soto Parish reports rust and caterpillars. East Carrollton Parish advices say the plant is small, not fruiting and late. Even with a favorable season and late frost do not believe one half crop will be made. In Natchitoches Parish caterpillars are numerously reported on all plantations, and in Richlands Parish joints are too long; hence poorly fruited.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 4,403 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales
NEW YORK—To Liverpool, per steamers Aurania, 109 ..... Runic, 31 Sea Island	140
To Bremen, per steamer Aller, 35	35

June-July												

BREADSTUFFS.

FRIDAY, August 9, 1895.

For wheat flour the market has had very little change. Business has been slow as buyers generally have been holding back waiting for the new crop, but prices have held steady, particularly for the winter-wheat grades, due to the small crop movement. City mills have been quiet but steady. Rye flour has sold slowly, but prices have been without change and steady. Corn meal has been in light request and prices have been lowered 5c. per bbl. in sympathy with a decline in corn. To-day the market for wheat flour was quiet and unchanged.

Early in the week the market for wheat futures was fairly active and prices made fractional advances on reports of unfavorable weather conditions for the crop in France and in response to stronger advices from the Continent. Subsequently, however, weather advices from Europe were more favorable and this, with selling by the West, prompted by expectations of an increased crop movement at the Northwest, caused a decline. In the spot market business was quiet early in the week, but later there was a demand from shippers at steady prices. The sales yesterday included new No. 2 red winter at 1 5/8c. over September f. o. b. afloat; No. 1 hard was quoted at 4c. over September f. o. b. afloat. To-day the market was fractionally higher on reports of unsettled weather in the United Kingdom. The spot market was weaker and at the concessions shippers were limited buyers. The sales included No. 2 red winter at September price delivered; No. 1 hard was quoted at 4 3/8@4c. over September f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

The trading in the market for Indian corn futures has been fairly active, but at steadily declining prices, due to general selling, prompted by decidedly favorable crop prospects at the West and weaker foreign advices. In the spot market shippers have been active buyers, their purchases for the week amounting to about 1,750,000 bushels; but prices have declined with futures. The sales yesterday included No. 2 mixed at 46 3/8@46 1/2c. in elevator, 47 1/4@47 1/2c. delivered and 23/4@3c. over September f. o. b. afloat; also white at 1 5/8c. over September f. o. b. afloat. To-day the market was fairly active and higher on buying by "shorts" to cover contracts. In the spot market shippers were fairly good buyers at higher prices. The sales included No. 2 mixed at 46 7/8@47 1/4c. in elevator, 48@48 1/4c. delivered and 3 1/4@3 3/8c. over September f. o. b. afloat.

May delivery.....c.	40 1/8	39 7/8	39 1/8	38 3/4	38 3/4	39

Oats for future delivery have been moderately active, but at declining prices, due to free offerings, prompted by favorable crop prospects and in sympathy with the weakness of corn. In the spot market business has been fairly active, and for new crop prices have declined. The sales yesterday included No. 2 mixed at 25c. in elevator and No. 2 white at 28@28 1/4c. in elevator. To-day the market was quiet and unchanged. The spot market was firmer. The sales included No. 2 mixed at 25 1/2c. in elevator and No. 2 white at 28 1/2c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., August 9, 1895.

The cotton goods market shows remarkable strength in face of a generally quiet demand, as although there has been more doing this week than last, buying is still far from active. The upward movement in bleached cottons has made further progress, with a second advance within ten days reported in Lonsdale 4-4 bleached, and the impression prevails quite generally that ere many weeks pass yet another rise will have to be recorded. Brown goods show a hardening tendency also in some directions and printed cotton fabrics are stiffening. The condition of the market pratically renders it independent of the course of raw material, but still any influence exercised by the latter has been in favor of sellers. Men's-wear woolens in light weights have shown signs of weakness, some agents receding more or less from their opening prices, owing to volume of sales proving disappointing. The local jobbing trade has been more active during the past week than since the season opened, and from outside distributing centres a good fall business is reported, and this is confirmed by the many requests for quick shipment of supplies on existing orders. The general financial conditions are reported good, collections being with few exceptions satisfactory.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending August 5 were 7,289 packages, valued at $328,274, their destination being to the points specified in the table below:

NEW YORK TO AUG. 5.	1895. Week.	1895. Since Jan. 1.	1894 Week.	1894 Since Jan. 1.
Great Britain	146	3,246	70	3,485
Other European	27	1,778	22	2,061
China	2,439	33,401	7,307	63,609
India	39	3,673	7	5,137
Arabia	1,705	15,952	889	15,126
Africa	1,195	5,686	407	5,060

Total	7,289	122,741	11,544	141,347
China, via Vancouver*	....	15,350	2,490	16,788
Total	7,289	138,091	14,034	158,135

*From New England mill points direct.

The value of the New York exports for the year has been $5,510,755 in 1895 against $7,262,556 in 1894.

Bleached cottons have again been the feature of greatest interest, owing to an unexpected advance in Lonsdale 4-4 bleached to 7¾c. per yard. This movement has not been followed to any extent by other makes, but conditions appear to be all in favor of a higher general level prevailing before the close of the month. There has been no material change in brown sheetings, although occasional advances in both coarse and fine yarn goods show the tendency of the market. Brown drills, ducks and osnaburgs are very firm, with a moderate demand. Wide sheetings are generally regarded as a disappointment, as they continue dull and without improvement in price. Colored cottons show signs of greater firmness, particularly in denims, for which there is a better demand and less disposition on the part of leading sellers to meet it. Ticks, checks and stripes and plaids firm but quiet. Cotton flannels and blankets advanced slightly in one or two makes and very firm throughout. There has been no change in kid-finished cambrics or other linings. Business in printed fabrics improving, fair re-orders coming in for dark fancies and specialties in dress and shirting styles. Indigo blues and shirting prints sold up and prices of American lines will be advanced ¼c. on the 15th inst. Other regular prints firm. Staple ginghams are very firm and selling fair; dress ginghams quiet. Print cloths have advanced to 2 15-16c. flat for extras, with good sales thereat. Odd goods firm on the basis of 4⅛c. for 88½-inch 64 squares.

Stock of Print Cloths—	1895. Aug. 3.	1894. Aug. 4.	1893. Aug. 5.
At Providence, 64 squares	189,000	325,000	182,000
At Fall River, 64 squares	63,000	609,000	366,000
At Fall River, odd sizes	108,000	201,000	
Total stock (pieces)	360,000	1,135,000	548,000

WOOLEN GOODS.—Business in this department has been quiet and mostly confined to the better grades of fancy worsteds, the primary demand for other descriptions being largely exhausted. A disagreeable feature has appeared in the all-wool division of men's-wear light weights in the shape of concessions from opening prices by some agents who have been disappointed with the results of their sales up to date, and there is considerable irregularity noticeable in makes ranging around $1 per yard. Worsted fabrics do not share in this weakness, as they have relatively done better than woolens. Cloakings are in improving request in rough-faced styles chiefly, whilst overcoatings rule quiet. There is a good re-order demand for woolen and worsted dress goods, particularly in bright fabrics, and prices are firm. Flannels and blankets very firm, with moderate sales.

FOREIGN DRY GOODS.—A good general business in imported merchandise has been done at second hands, but the primary market has ruled generally quiet. Dress goods continue very firm, particularly in mohair and bright wool varieties. Silks also firm. Men's-wear fabrics for spring well sold, but current demand quiet.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending August 8, and since January 1, 1895, and for the corresponding periods of last year are as follows:

	Week Ending Aug. 9, 1894. Pkgs.	Week Ending Aug. 9, 1894. Value.	Since Jan. 1, 1894 Pkgs.	Since Jan. 1, 1894 Value.	Week Ending Aug. 8, 1895 Pkgs.	Week Ending Aug. 8, 1895 Value.	Since Jan. 1, 1895. Pkgs.	Since Jan. 1, 1895. Value.
IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1895 AND 1894.

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopedia of information respecting Municipal Debts.

MUNICIPAL BOND SALES IN JULY.

The aggregate amount of new municipal bond issues sold during the month of July is shown by our table below to have been $15,289,660. The total output in July, 1894, was $8,015,257; in July, 1893, it was $1,691,600, and in July, 1892, it was $4,139,100. Heavy as the sales for last month were they do not quite reach the amount marketed in June, which was $15,907,441. Prices have continued high for all of the most desirable issues, and many of the lists of bids reported have been unusually long.

In the following table we give the prices which were paid for July loans to the amount of $15,180,160, issued by 66 municipalities. The aggregate of sales for which no price was reported is $109,500 and the total sales for the month $15,289,660. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

* Sold on a 3·51 per cent interest basis.
† Sold at a few dollars over par for 4½s per cent interest bonds.

California Irrigation Bonds.—At a recent meeting of local holders of California irrigation bonds in San Francisco it was decided to appeal from the decision of Judge Ross, in which he declared the Wright Irrigation Law unconstitutional. Securities to the amount of $1,200,000 were represented and it was voted to establish a fund for the purpose of securing attorneys and paying the expenses of an appeal from the decision. Among the bondholders present were several representing German and Swiss capitalists.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Ballard School District, No. 50 King Co., Wash.—Proposals will be received until September 2, 1895, by John W. Maple, County Treasurer, for the purchase of $18,000 of coupon school district funding bonds. The securities will be dated October 1, 1895; interest at a rate not exceeding 6 per cent will be payable semi-annually, and the principal will mature September 30, 1915, both principal and interest to be payable at the County Treasurer's office or at the State's Fiscal Agency, New York, at the option of the purchaser. The bonds will be ready for delivery October 1, 1895.

The total debt of the district is at present $38,000, including $20,000 of bonds, the remaining $18,000 to be paid from the proceeds of the above-mentioned issue. Its assessed valuation for 1894 was $983,550. The valuation of improved real estate belonging to the district, including school buildings, is $20,625; valuation of school furniture, $2,100. The population, according to local figures, is 4,000.

Bayfield County, Wis.—A proposition from the Washburn Iron River & Western Railroad, asking for a subscription of county bonds to the capital stock of the new road, was rejected by the County Board.

Bayfield, Wis.—A proposition to issue bonds in aid of the Washburn Iron River & Western RR. has been voted down.

Binghamton, N. Y.—The proposition to issue paving and sewer bonds was defeated on August 1 by a majority of 48 votes.

Brownton, Minn.—Water-works bonds to the amount of $6,000 were voted on July 29.

Buffalo, N. Y.—Proposals will be received until August 15, 1895, by Erastus C. Knight, City Comptroller, for the purchase of $359,331 33 of 3½ per cent tax loan bonds. The securities are to be dated August 1, 1895, interest will be payable semi-annually on February 1 and August 1, and the principal will mature August 1, 1900, both principal and interest to be payable at the office of the City Comptroller, or at the Gallatin National Bank, New York, as the purchaser may desire. Proposals must state the price per one hundred dollars; also at which place it is desired to have the bonds made payable.

The city's bonded debt on May 1, 1895, less bonds held in sinking funds, was $11,782,214 85. Since that date there have been issued $250,000 of 3½ per cent one to twenty year Buffalo school bonds. The assessed valuation for 1895 is $220,064,300.

Caroline County, Md.—On August 6, 1895, this county sold $10,000 of 5 per cent bonds to the Guardian Trust & Deposit Company, of Baltimore, at 101½ and accrued interest. The securities are dated April 1, 1895, and interest is payable semi-annually on April 1 and October 1. The total amount of bonds offered for sale was $15,000, maturing at the rate of $1,000 yearly in from 6 to 20 years.

Charles County, Md.—Court-house bonds of this county to the amount of $20,000 will be sold August 13. The loan will bear interest at the rate of 5 per cent.

Chicago, Ill.—Proposals will be received until August 19 by O. D. Wetherell, City Comptroller, for the purchase of $500,000 of 5 per cent warrants.

Cleveland, Ohio.—In accordance with an application made by the Emigrant Industrial Savings Bank of New York to exchange $95,000 of 4 per cent coupon bonds of the city of Cleveland for registered bonds of a like amount, the City Council has authorized the issuance of one $95,000 registered bond. The details of the new bonds will be the same as those of the old securities.

Clinton, Ill.—The people of Clinton will vote August 16 on issuing $6,000 of water-works bonds.

Columbus, Ga.—Bonds to the amount of $300,000 will probably be issued for a water-works system.

Dallas, Tex.—Water bonds of Dallas, Tex., to the amount of $100,000 have failed to receive the approval of the Attorney-General, who claimed that sufficient provision for the payment of principal and interest had not been made. It is reported by the Dallas *News* that the completion of the water-works system will be provided for by direct tax levy.

Duquesne, Pa.—It is reported that $75,000 of 4½ per cent water-works bonds offered for sale August 7 have not been disposed of. The securities are to be dated September 1, 1895, interest will be payable on March 1 and September 1 at the First National Bank of Duquesne, and the principal will mature at the rate of $5,000 yearly from Sept. 1, 1900, to Sept. 1, 1914.

Elyria, Ohio.—W. H. Park, City Clerk, reports to the CHRONICLE that the people of Elyria will probably vote at the fall election in November on issuing $100,000 of bonds to purchase the present system of water-works, but that the majority against the proposition will be large. The City Clerk also states that a water route to Lake Erie, eight miles distant, is now being surveyed, and that the people will probably be called upon to vote on an issue of about $200,000 of bonds for this project, which proposition is likely to carry by a large majority. If these last-mentioned bonds are authorized they will run from 5 to 25 years.

Fairfax, Minn.—A vote taken July 30 on issuing $4,500 of water-works bonds resulted in favor of the proposition.

Fostoria, Ohio.—The citizens of Fostoria will vote August 20 on issuing $30,000 of sewer bonds.

Fulda, Minn.—Proposals will be received until September 2, 1895, by Robert Hyslop, Village Recorder, for the purchase of $1,000 of 6 per cent water-works bonds. Interest will be payable annually and the principal will mature in ten years.

Geneva School District, N. Y.—On August 6, 1895, this district sold $32,000 of school bonds to the Ithaca Savings Bank on a 3¾ per cent basis. There were in all ten bidders. The securities are dated May 1, 1895, interest is payable semi-annually on May 1 and November 1, and $2,500 of the principal will mature May 1, 1898, $2,000 yearly from May 1, 1899, to 1904, $3,000 yearly from May 1, 1905 to 1909, and $2,500 on May 1, 1910, both principal and interest to be payable at the First National Bank of New York.

Hamilton County, Ohio.—A list of bids received on Aug. 7 for $60,000 of 4 per cent one to ten-year Cincinnati, Oakley and Madison Avenue bonds is as follows: S. Kuhn & Sons, $60,000 and accrued interest; Atlas National Bank, $60,050; German National Bank, $60,069; Western German Bank, par, accrued interest and a premium of $75; Farson, Leach & Co., Chicago, par, accrued interest and $165 premium.

Haverhill, Mass.—Bids will be received until August 14 for the purchase of $60,000 of sinking fund water bonds. The loan bears interest at the rate of 4 per cent and becomes due in 1922.

Henry County, Mo.—A call has been made for the payment of 5 per cent Henry County bonds described as follows:

Numbers 7, 8, 9, 10, 11, 12, 14, 20, 21, 24, 25, 26, 27, 28, 30, 32, 34, 35, 36, 37, 38, 39, 40, 41, 42, 45, 46, 49, 50, 51, 52, 53, 54, 55, 56, 57, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 76, 77, 78, 79, 82, 83, 84, 85, 86, 87, 88, 89 and 90, for $1,000 each, dated July 5, 1887.

Numbers 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389 and 390, for $500 each, dated July 5, 1887.

Numbers 479 to 578 inclusive, except Nos. 502, 503, 504, 505, 530, 531, 559, 563, 568, 569 and 570, for $1,000 each, dated May 1, 1888.

Numbers 579, 580 581, 582, 583, 584, 585, 586, 587, 588, 589, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 617, 618 and 619, for $500 each, dated May 1, 1888.

The bonds will be paid September 3, 1895, either at the National Bank of Commerce, New York, or at the office of the Wm. C. Little Investment Company, St. Louis, Mo., or if it is desired by the holders to exchange the old 5 per cent bonds for the new 4½ per cent funding bonds recently authorized by the County Court, at 102, which is considered to be the market price, the exchange may take place on the above-mentioned date at the office of the Wm. C. Little Investment Company, St. Louis, Mo. Interest on the old bonds and the right to exchange them for the new securities will cease September 3, 1895.

Hillsborough County, N. H.—On July 31, 1895, the county of Hillsborough sold $35,000 of 4 per cent refunding bonds to Dietz, Denison & Prior at 101·0517. The securities are to be dated September 1, 1895, interest will be payable annually on September 1 and the principal will mature September 1, 1910.

Nine bids were received for the loan as follows:

	Bid.
N. W. Harris & Co.	101·0418
Blodget, Merritt & Co.	101·0389
Dietz, Denison & Prior	101·0517
George A. Fernald & Co	101·0443
Brewster, Cobb & Estabrook	101·0303
E. H. Rollins & Sons	101·0441
R. L. Davis & Co	101·03197
W. J. Hayes & Sons	101·0473
Ellen M. Davis, for one $500 bond	101·025

Houston, Tex.—The Business League of Houston, Tex., of which Judge Norman Kittrell is President, has decided in favor of issuing city paving bonds to the amount of $1,000,000. The loan was recently recommended by a special committee of the Common Council. The league suggests that $200,000 of 40-year bonds be issued annually for five consecutive years. It has been urged by several associations of Houston citizens that water and light be included in the line of improvements to be provided by the city, and the Common Council has voted to postpone action on the bond question until a committee shall have conferred with the water and light companies in reference to purchasing their plants.

Lebanon, Ohio.—Bids will be received until September 17 for the purchase of $50,000 of 5 per cent water-works bonds, the loan to become due in from 2 to 27 years.

Lillian Irrigation District, Neb.—Proposals will be received until August 15, 1895, by P. L. Metcalf, Secretary of the Board of Directors, for the purchase of $33,000 of 6 per cent bonds. Interest will be payable semi-annually, and the principal will mature in instalments in from 11 to 20 years from date, both principal and interest to be payable at the office of the State Treasurer.

Louisville, Ky.—J. M. Terry, City Treasurer, reports to the CHRONICLE that the ordinance authorizing the Mayor to borrow $312,803 at 4 per cent to pay outstanding warrants, now bearing interest at the rate of 6 per cent, will not be passed.

Mechanicsville, N. Y.—The people of this municipality have voted in favor of constructing a sewerage system at an estimated cost of $40,000, for which purpose bonds will probably be issued.

Milwaukee, Wis.—On August 6, 1895, the city of Milwaukee sold $100,000 of 5 per cent city hall bonds and $100,000 of 5 per cent street improvement bonds to Messrs. Blake Bros. & Co., for $225,700 and accrued interest. The securities are dated July 1, 1895; interest is payable semi-annually, and the principal will mature at the rate of 5 per cent annually, the date of maturity being specified on each bond. Sixteen bids were received for the securities as follows:

	Amount Bid.
U. S. Mortgage & Trust Co.	$225,100 00
W. J. Hayes & Sons	222,543 75
Farson, Leach & Co	221,500 00
Mason, Lewis & Co.	223,340 00
S. A. Kean & Co	219,500 00
Blair & Co.	225,125 00
Blodget, Merritt & Co.	223,580 00
R. L. Day & Co	224,574 00
W. I. Quintard	222,060 00
Storrs & Smith	223,000 00
Brewster, Cobb & Estabrook	224,800 00
Blake Bros. & Co	225,700 00
Street, Wykes & Co.	225,140 00
E. H. Rollins & Co.	224,180 00
E. H. Gay & Co.	224,611 00
Cushman, Fisher & Co.	224,608 00

Monroe County, Fla.—An election which took place in this county August 6 to vote on issuing $500,000 of road bonds resulted in favor of the proposition by almost a unanimous vote.

Mt. Sterling, Ohio.—Proposals will be received until September 2, 1895, by John W. Hanawalb, Village Clerk, for the purchase of $10,000 of water-works bonds and $6,000 of electric-light bonds. The securities will be dated September 2, 1895, interest will be payable semi-annually on March 1 and September 1, the water-works bonds to mature at the rate of $500 yearly from September 1, 1900, to September 1, 1909, and then at the rate of $500 semi-annually from March 1, 1910, to September 1, 1914, and the electric-light bonds at the rate of $500 annually from September 1, 1903, to September 1, 1914. The waterworks bonds were authorized by a vote of 180 to 52 and the electric-light bonds by a vote of 174 to 59.

The village has at present only a floating debt of $450. Its assessed valuation for 1895, which is one-half of actual value, is $357,000; total tax rate (per $1,000), $24 45.

New Mexico.—Five per cent Territorial bonds to the amount of $65,000 have been sold to Messrs. Farson, Leach & Co.

Newton, Mass.—It is reported that on August 5, 1895, the city of Newton sold $60,000 of 4 per cent coupon water bonds to N. W. Harris & Co. at 108 715 and accrued interest. Ten bids in all were received. The securities are dated August 1, 1895, interest is payable semi-annually on February 1 and August 1 at the National Revere Bank, Boston, or at the office of the City Treasurer, and the principal will mature August 1, 1925.

It is also reported that Newton will issue $300,000 of 4 per cent 40-year street bonds.

Passaic, N. J.—School bonds of Passaic to the amount of $48,000 have been authorized by the Council. The loan will be dated August 1, 1895, will bear interest at the rate of 4½ per cent, payable semi-annually, and $1,000 of the amount will mature August 1, 1899, and $3,000 annually thereafter.

Perry, N. Y.—Water works bonds to the amount of $40,000 were voted on August 2. The loan will bear interest at the rate of 4 per cent, payable semi-annually in March and September at New York, and will become due in 20 or 30 years.

Perry has at present no debt of any kind, and its assessed valuation for 1895, which is from 30 to 50 per cent of actual value, is $800,000; total tax rate (per $1,000) $15·95. The present population, according to local figures, is 2,000.

Philadelphia, Pa.—The last of Philadelphia's 3 per cent loan, amounting to $1,200,000, was sold this week, and the plan of offering the securities to the public at par in small denominations has proved more successful than was expected. When the plan was adopted Mayor Warwick announced that the sale would be kept open until the first Thursday in September. The amounts subscribed for each day are reported by the City Treasurer as follows:

July 24	$2,700	August 2	$121,400
July 25	15,300	August 3	160,200
July 26	81,700	August 5	20,600
July 27	53,900		$813,900
July 29	75,800	Previously awarded	386,100
July 30	53,000		
July 31	112,800	Total	$1,200,000
August 1	146,400		

Interest on the loan is to be at the rate of 3 per cent, and will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $60,000 yearly from December 31, 1905, to December 31, 1924. The securities are free from all taxes.

The City Comptroller has divided the proceeds of the loan as follows: $350,000 for main sewers, $100,000 for water mains, $100,000 for gas mains, $140,000 for new school buildings, $110,000 for new fire and police stations and $500,000 for improved pavements.

It is reported the plan of sale by popular subscription will be tried again in case the $6,000,000 of 3 per cent subway bonds are not all taken when first advertised.

Pittsfield, Mass.—Proposals will be received until August 26, 1895, by E. R. Kennedy, City Treasurer, for the purchase of $90,000 of 4 per cent water bonds. The securities will be dated September 1, 1895, interest will be payable semi-annually on March 1 and September 1, and the principal will mature at the rate of $5,000 annually from date, both principal and in-

terest to be payable in gold coin at the National Bank of Redemption, Boston, Mass.

Portland, Ore.—It is reported that this city has sold $80,000 of 5 per cent gold bonds to Messrs. Farson, Leach & Co.

Richmond Hill, N. Y.—Proposals will be received until August 26, 1895, by Alrick H. Man, President of Board of Trustees, for the purchase of $65,000 of 4 per cent village bonds. The securities will be dated September 1, 1895, interest will be payable semi-annually on March 1 and September 1, and $6,000 of the principal will mature yearly from September 1, 1916 to 1920, inclusive, and $7,000 yearly from September 1, 1921 to 1925, inclusive. Fifty thousand dollars of the amount will be issued for macadamizing streets, $10,000 for erecting a village hall and $5,000 for fire department supplies. The village has no other funded debt.

Ripon, Wis.—An election held July 30 on issuing $20,000 of 20-year bonds, to be given to the State in case the home for the feeble-minded is located at Ripon or vicinity, resulted in favor of the proposition by a vote of 498 to 67.

Roanoke, Va.—School-house bonds of Roanoke to the amount of $12,000 are under consideration.

Rockville, Conn.—Proposals will be received until August 15, 1895, for the purchase of $50,000 of 4 per cent sewer bonds. These securities are part of an authorized issue of $150,000.

Roseau County, Minn.—Proposals will be received until October 28, 1895, by the Board of County Commissioners for the purchase of $10,000 of 6 per cent coupon county bonds. The securities will be dated October 28, 1895, interest will be payable annually, and the principal will mature in 10 years.

San Antonio, Tex.—On July 29, 1895, the city of San Antonio sold $300,000 of 6 per cent 10-20 year funding bonds at 100·95 and $200,000 of 10-40 year sewer bonds at 102·06945. Both loans were awarded to the First National Bank of Chicago.

Tazewell County, Ill.—Four per cent county bonds to the amount of $10,000 have recently been sold.

Toronto, Ont.—A press dispatch from London, Aug. 7, says: Messrs. Hambro & Son to-day invited tenders for £251,500 city of Toronto general consolidated loan 3½ per cent debentures. The minimum price is placed at 99. The loan is redeemable in 1929. The lists closed at 2 o'clock this afternoon. The applications for the loan amounted to twice the amount desired. The average price offered was 99⅜. Applicants who offered 99½ and above will receive a full allotment.

Waller County, Tex.—Six per cent gold bonds of this county to the amount of $25,000 have recently been sold to Farson, Leach & Co.

West Chicago, Ill.—Improvement bonds to the amount of $40,000 have been sold, the loan to bear interest at the rate of 6 per cent.

Wilkinsburg School District, Pa.—On July 27, 1895, this district sold $50,000 of 4 per cent coupon school bonds to William M. Bell at 104·5 and accrued interest. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1 at the First National Bank of Wilkinsburg, and the principal will mature at the rate of $2,000 yearly, beginning July 1, 1900.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our State and City Supplement Some of these reports are wholly new and others cover items of information additional to those given in the Supplement and of interest to investors.

MISCELLANEOUS.

1850. 1895.
The United States Life
Insurance Co.
IN THE CITY OF NEW YORK.
This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the true principles of success is the adaptation of good forms of insurance and the payment of a fair policy to with the Insured and his Agents. These essentials in an eminent degree, not hampered by that conservatism which, in the best sense is safeguard of the policy holder. Its contracts are incontestable after two years. They are free of restrictions prevailing generally in other policies of extended insurance, at the option of the policy holder. It gives ten days' grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

COMMISSIONER'S SALE.—In the Circuit Court of the United States for the Eastern District of Texas, at Galveston. The Farmers' Loan & Trust Company, Trustee, Complainant, vs. the Houston & Texas Central Railway Company, Charles Dillingham and George E. Downs, defendants. No. 227 Chancery Docket.

Notice is hereby given that in pursuance of the decree entered in the above entitled cause on the 5th day of March, 1885, at the regular March term of said Court in the City of Galveston, Texas, I, the undersigned Master Commissioner, thereby designated, shall, on the 3d day of September, 1885, that being the first Tuesday of said month of September, or on the day to which I may adjourn such sale, at twelve o'clock noon, in front of the Court House door of McLennan County, in the City of Waco in the State of Texas, make sale at public auction as an entirety to the highest bidder therefor of all the mortgaged premises and property, real, personal and mixed, rights and franchises, wherever situated, mentioned in said decree and thereby directed to be sold, viz:

The railway of the Houston & Texas Central Railway Company, known as the Waco & Northwestern Division beginning at a point on the main line of said railway company in the town of Bremond, in Robertson County, Texas, passing through the County of Falls, and running to the town of Ross in McLennan County in said State, a distance of about fifty-eight miles, together with all sidetracks, turn-outs, rolling stock, equipment and materials, all right of way and tracks, depot and shop grounds, tenements, hereditaments, rights and franchises, including all the property, real and personal pertaining to the operation of the said fifty-eight miles of railway, and including any and all rights in, to or in respect to the franchise to build to the Red River and thence to the northern boundary line of said State; and also all and singular the portion of the land grant donated by the State of Texas to aid in the construction of the Waco & Northwestern Railroad or said Waco & Northwestern Division covered by said mortgage as specified therein and remaining unsold at the date of entry of said decree, which portion of said land grant consists of about two hundred and twenty-three thousand six hundred and twenty-two and twenty-eight hundredths (223,622 28) acres, all situated in the following-named Counties in the State of Texas, and more particularly described as follows: All of the lands described by Patent No. and Volume No. are patented by the State of Texas to the Houston & Texas Central Railway Company, as assignee of the Waco & Northwestern Railroad Company, and all lands described by Certificate No. and Survey No., which numbers follow the words "Cert." and "Survey" in the following description, are not patented, but are located by virtue of land Certificates issued to the said Waco & Northwestern Railroad Company, and when land is stated to be in two or more Counties it means that part of it is in each:

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, August 10, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a decrease in the aggregate exchanges of a little more than eighty-four million dollars, and at New York the loss is fifty-two and a half millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 17·6 per cent. Compared with the week of 1893 the current returns record an excess of 18 per cent and the loss from 1892 is 8·9 per cent. Outside of New York the gain over 1894 is 8·8 per cent. The excess over 1893 reaches 31 per cent, but making comparison with 1892 the decrease is seen to be 7·6 per cent.

THE FINANCIAL SITUATION.

Gold exports, the exchange market and the Syndicate operations have continued to be the engrossing topic in financial circles. Indeed there is such a general absence of leading operators from the Street and such a holiday character to the markets that this outflow of gold attracts perhaps more attention than it otherwise would. It is well to remember that the outflow is wholly natural. Under the existing conditions of trade the fact that the movement is not larger is evidence of the entire absence of distrust and of the general confidence felt in the future. Yesterday the Bureau of Statistics made public the trade figures for July; they show a merchandise balance against the United States, including silver, of $13,129,000, as will be seen in our usual statement given lower down in this article. The August figures will probably be even less favorable than those for July. Such results indicate a need for gold exports, for although the security movement was fairly free in July, in August it naturally has been less of a feature; and it is erroneous to suppose that the Syndicate in issuing exchange is, or ever has been, putting its own credit at risk, or has ever attempted to dam up a natural flow. People of their stamp do not do business on such principles.

The Syndicate turned over to the Treasury on Tuesday $1,350,000 of gold in exchange for legal tenders and on Wednesday $1,650,000 more of that metal. This was done to reimburse the loss to the gold reserve occasioned by withdrawals for export. These sums, with $2,000,000 deposited in the Sub-Treasury July 27, make $5,000,000 gold which has thus been supplied for that purpose. It is understood that the Syndicate will continue thus to protect the Treasury to the fullest possible extent. The supposition is that the gold deposited is part of the sum resulting from the contributions of participating banks and bankers in the bond purchase, those participating being required by the Syndicate to place under its control double the amount in gold needed for the payment of the American half of the bonds; it is said likewise that there is still left of this fund about 9½ million dollars. All the talk about another bond issue is mere idle gossip so far as the present outlook is concerned and not worthy of consideration. Of course the President would not hesitate to take such action whenever the occasion requires, but there is nothing at the moment indicating a present or future need. Before the middle of September the trade situation will have changed materially, and with it the question of gold exports will be turned into a question of gold imports.

Business revival continues, and the accounts are becoming steadily more favorable. In the iron trade, which at once reflects and at the same time controls to a great extent general business prosperity, the increased activity is well shown in the "Iron Age's" monthly record of furnaces in blast. The "Age" finds that the number of active furnaces was increased by 15 during the month, and that there was a net addition to the weekly product of 9,331 tons. There are now 200 furnaces in blast, against only 171 three months ago, and the capacity per week stands at 180,525 tons against only 156,554 tons. On the 1st of May 1893, before the panic had developed, the weekly product was a little larger than at present, being 181,551 tons, but there have been few periods in our history when so much iron was being turned out as at this moment. The "Age" says that owing to the many delays incident to getting plants which had long been idle into actual operation, the productive capacity during July was not increased as much as the numerous announcements of resumption had led one to suppose. At the same time the majority of the blast furnaces now wheeling into line as producers are of relatively moderate capacity, many of them making only 1,500 to 2,000 tons per month, which is about a week's work for the large modern plants. The "Age" notes, however, that since the 1st of the current month a sufficient number of stacks has been started to bring the totals up to a "record-killing pace." A particularly encouraging feature in this large production is that it is not being accompanied by any accumulation of stocks, but on the contrary by a diminution of them. For August 1 the total of the stocks is given as only 460,990 tons, against 549,068 tons July 1, 648,132 tons June 1 and 780,729 tons May 1, showing a steady and uninterrupted decrease. As a matter of fact the accounts from all branches of the iron trade are in the highest degree favorable, and the situation is well summed up in the "Age's" introductory remark in reviewing the market for the week, when it says: "Those who habitually hunt for clouds on the horizon must go outside of the iron trade now." The activity is the more significant, as the railroads, which constitute such important consumers, have not entered the market yet to any very great extent. When the present bright prospects for the grain harvests shall be definitely assured, we may expect the railroads will buy with greater freedom than for some years past, thus furnishing a further stimulus to the prevailing activity.

The crop outlook is such as to promise a continuation and further development of the present trade revival. The Department of Agriculture at Washington has issued its usual monthly report, and it shows a further improvement of 3 points during July in the condition of corn, making the average the first of August as high as 102·5. This is the average for the whole country. For some of the large producing States the averages are placed still higher; Illinois for instance 106, Iowa 107, Missouri 115, Texas 113, etc. We do not know when we have had a previous season where the averages were so uniformly high—certainly not within any recent year. To show how different the situation in these particulars is from a year ago, we have only to contrast the present average of 102·5 with that of 69·1 in 1894, and to note that Iowa last year had an average of but 45, Kansas 49 and Nebraska but 33. The following will furnish a comparison with preceeding years for the leading producing States.

CONDITION OF CORN.

States.	1895.		1894.		1893.		1892.		1891.	
	Aug. 1.	July 1.	Aug. 1.	July 1.	Aug. 1.	July 1.	Aug. 1.	July 1	Aug. 1.	July 1.

Av'ge U.S.	102·5	99·3	69·1	95·0	87·0	93·2	82·5	81·1	90·8	92·8

Since the 1st of August there have been complaints of continued dry weather in one or two States, and this may possibly lower the general average a trifle, but it is safe to say that the crop is so far advanced now that serious damage can come only from a premature killing frost. Barring such a calamity the product is almost certain to be the very largest which we have ever seen in this country, and according to present appearances fully a thousand million bushels in excess of the small yield of last year. Not only however is the prospect for corn exceedingly bright, but most of the other crops also afford indications of very good results. As expected, the spring-wheat condition was reduced somewhat during the month, but even after the reduction it is still reported at 95·9. In oats there has been an advance of 1·3 points, making the general average 84·5; and in fact with the exception of cotton and winter wheat all the leading crops promise large yields. The following will furnish a general survey of the crop situation for the last seven years.

August 1.	1895.	1894.	1893.	1892.	1891.	1890.	1889.
Corn	102·5	69·1	87·0	92·5	90·9	73·3	94·8
Spring wheat	95·9	67·1	67·0	87·3	95·5	83·2	81·2
Spring rye	84·0	79·8	78·5	89·8	89·6	86·6	95·4
Oats	84·5	76·5	76·3	88·2	90·5	70·1	92·3
Barley	87·2	69·3	84·6	91·1	93·8	82·8	90·6
Potatoes	87·7	74·0	86·0	86·8	96·5	77·4	94·2
Cotton	77·9	91·6	80·4	62·3	98·9	89·5	89·3
Tobacco	82·7	74·9	82·2	88·4	88·5	69·2	84·4
Timothy	60·9	75·6	89·6	93·2	90·9	93·6	94·5
Buckwheat	85·2	82·3	88·8	92·9	97·3	90·1	95·2
Rice	84·1	91·0	....	....	....	....	....

It will be noted from the foregoing that the spring-wheat condition at 95·9 is almost 30 points higher than in either of the two preceding years, when the averages were respectively only 67·1 and 67·0. And this crop of course is now beyond the point where it can be damaged by frost, as in most sections the harvest is under way.

Money on call representing bankers' balances has again loaned this week at ½ of 1 per cent in moderate amounts, but the bulk of the business has been at 1 per cent and very few loans have been made at any higher rate. Banks and trust companies quote 1 per cent as the minimum and they find it difficult to place their money even at this rate; consequently large amounts are daily left over unemployed. Some of the banks decline to make time contracts except for very short periods, for which there is little or no demand, and the inquiry for time money is chiefly confined to dates maturing at or beyond the end of the year. Rates are 1½ per cent for thirty days, 2 per cent for sixty days, 2½ per cent for ninety days to four months and 2½@3 per cent for five to seven months on good marketable security. Banks having facilities for extensive re discounting report a very light business with the South and the Southwest, owing to the late movement of cotton, but they are pretty liberally re-discounting for banks in the extreme Northwest who are supplying funds for elevator companies; and also for banks in the West who are meeting inquiries for moving the crops. There has been a good demand for city paper from near-by points and the local supply shows some increase. Bank and trust company officials who have returned from their vacations manifest a disposition to take paper at full rates and the outlook is reported to be good for a better business in paper. Rates are 3½@3½ per cent for sixty day to ninety day endorsed bills receivable; 3½@4½ per cent for four months' commission house; 4@4½ per cent for prime four months; 4½@4¾ per cent for prime six months, and 5@6 per cent for good four to six months' single names.

There is no feature of importance in the European financial situation. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London ⅝ of 1 per cent. The open market rate at Paris is 1 per cent and at Berlin and Frankfort it is 1½ per cent. According to our special London cable the Bank of England gained £940,198 bullion during the week and held at the close of the week £39,036,252. Our correspondent further advises us that the gain was due to receipts from the interior of Great Britain of £156,000 and to imports of £784,000, of which £778,000 were bought in the open market and £6,000 imported from Paris.

The tone of the market for foreign exchange was quite firm on Monday and rates were maintained at 4 89½@4 89¾ for long, 4 90½@4 90¾ for short and 4 90¾@4 91 for cable transfers. It was announced early in the day that William H. Crossman & Bro. would ship $1,500,000 and Nesslage & Fuller $150,000 on the Lahn, sailing for Europe on the following day. On Tuesday Arbuckle & Co., coffee importers, withdrew from the Treasury $750,000 and Nesslage & Fuller $150,000 for export on Wednesday. Late in the afternoon the Bond Syndicate turned over to the Treasury $1,350,000 gold in exchange for legal tenders and on Wednesday $1,650,000 more was so turned over. During Wednesday Handy & Harman arranged for the shipment of $200,000 smelters' bars; Nesslage & Fuller withdrew from the Treasury $150,000 and W. H. Crossman & Bro. took $1,000,000 for export on Thursday. Wednesday the exchange market grew a shade easier in consequence of a lighter demand, and on Thursday it was quoted heavy at a reduction of one-quarter of a cent per pound sterling for actual business, though at the same time some bankers regarded the market as fairly steady and almost without feature, with the conditions the same as those which had prevailed for the previous week. Yesterday Nesslage & Fuller engaged $200,000 for shipment to-day and Hard & Rand $100,000, while Hardy & Harman will ship $100,000 in smelters' bars, making $400,000 altogether to go. The following shows the daily posted rates of exchange by the leading bankers:

	Sight	91	91	91	91	91	91

The market closed dull and steady on Friday at 4 90 for sixty day and 4 91 for sight. Rates for actual business in sterling were 4 89½@4 89¾ for long, 4 90½@4 90¾ for short and 4 90¾@4 90¾ for cable transfers. Prime commercial bills were 4 88½@4 89 and documentary 4 88½@4 88¾. The Bureau of Statistics at Washington has this week, as stated above, issued the return of the country's foreign trade for July, and we give the figures below in our usual form.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.
In the following tables three ciphers (000) are in all cases omitted.

	1895.			1894.

* Excess of imports.

The Cleveland Cincinnati Chicago & St. Louis has issued its statement for June and the fiscal year this week. For June the gross is reported $1,181,743 against $1,021,065, and the net $260,396 against $263,375. For the twelve months the gross is $13,625,027 against $13,034,049, and the net $3,370,960 against $3,283,545. Fixed charges for 1894-5 were somewhat larger than in the preceding year, being $2,844,706 against $2,759,172, and after deducting these charges there was a balance to credit of income in 1894 5 of $526,254 against $524,374. Thus the final result shows but little change. But in the case of one of the company's leased lines, there has been a very decided change. We refer to the Peoria & Eastern, whose returns have been quite remarkable all through the year. This road reports for June gross of $198,256, against $116,984, and net earnings of $50,754 against $3,614 in 1894. For the twelve months the gross is given at $1,811,740 against $1,609,806, and the net at $463,937 against $177,189. This very noteworthy increase in the net earnings has worked a complete transformation in the company's affairs, and while last year the company showed a deficiency of $264,431 below the amount needed to meet fixed charges, the present year there is a surplus of $22,318 above the charges. The importance of the change to the Cleveland Cincinnati Chicago & St. Louis will appear when we say that in case of a deficiency that company has to make it good by advances, which can only be repaid out of the surplus earnings of subsequent years.

The Denver & Rio Grande also has a very good return for June and the fiscal year. For June gross is $579,573 against $501,868, and net $258,400 against $156,849. For the twelve months gross is $6,916,840 against $6,476,044, and net $2,925,629 against $2,503,492. The increased net in 1895 leaves a surplus above the fixed charges of $528,690, against a surplus of only $87,661 in 1893 4. The Union Pacific is now likewise making improved returns. The addition to gross in June was not large, being only $29,847, but as this was accompanied by a reduction of $318,182 in expenses, net this year for the month is $683,097, against only $335,068. For the six months ending June 30 gross shows a falling off of $888,661, while expenses have been reduced $1,559,357, leaving net of $3,201,262 in 1895 against only $2,530,565 in 1894.

EFFECT OF FREE COINAGE ON THE GOLD PRICE OF SILVER.

In a short article with reference to Mr. Ashley's views on free silver (Chronicle, August 3, 1895, page 181), we stated that if free silver coinage by the United States alone "had any effect upon the price of silver it would be to depreciate its gold value." Then lower down in the same article we added: "If any friend of silver thinks we are in error, and that silver would appreciate in the contingency mentioned, he is free to send us his views, and we promise to publish them and to answer them too."

On the 5th of August Mr. Raoul, President of the Mexican National Railroad Company, wrote, stating that he wanted to avail himself of the invitation we had given and sent us under the same date the letter we print below, containing eight questions. As we had simply promised to "publish" and "answer" the

"views" of any friend of silver who chose to send us his views on the single point we raised, we did not think Mr. Raoul's letter met the conditions. His questions, it will be seen, start with the general principles regulating price, raise the whole subject of international bimetallism, call for a full discussion of the trade of all silver-using countries, and finally come down to free silver in the United States. Furthermore, they are questions interviewing us and asking our reasons for the assertion we made instead of a statement of his own reasons for holding the opposite opinion. Under these circumstances we wrote Mr. Raoul in substance as above, asking him to relieve us from our promise, as the offer we made had not brought out anything for us to answer, but simply a request for a general treatise by us on the silver question, which the offer by no means contemplated.

We have received a reply to our request, claiming that the questions conform to our offer and expressing a desire to hold us to it. We consequently waive the exception we took to the form of the letter and publish it below, making our answers as brief as possible while endeavoring fully to reply to such portions of the letter as bear upon the issue we raised.

NEW YORK, August 5, 1895.

Editor Financial Chronicle:

DEAR SIR—In your issue of August 3d, at the conclusion of the article "Mr. Ashley on Free Silver," you express the opinion that the free coinage of silver by the United States alone would, if it had any effect upon its price, depreciate its gold value, and you add: "If any friend of silver thinks we are in error and that silver would appreciate he is free to send us his views, and we promise to publish and to answer them, too; the latter, we think, we can do to his complete satisfaction."

While I am no more the friend of silver than of gold I believe them both essential as the money metals of the world and both equally practicable for that purpose, and that silver has been very unfairly treated and to the detriment of those nations that have so treated it, and that free coinage will appreciate its gold price in proportion to the number and commercial importance of the countries adopting it. I therefore avail myself of your invitation and respectfully my views in the form of questions, involving points which heretofore have seemed clear to me, but which are by no means so if the opinion you express is financially sound.

[Here follow the questions which we omit in this place and give with our answers below.—ED. CHRONICLE.]

I venture to say that your promised complete answer to these questions will not only interest and enlighten me, but also very many serious and patriotic people, who are earnestly studying the subject, who recognize the importance as well as the difficulties of it, and who, while they attach great weight to everything you put forward, and respect your conclusions, do not always see their way clear to agree with them.

Yours truly,

W. G. RAOUL.

Questions of Mr. Raoul and answers:

1. Is not price always relative to supply and demand?

Answer. If by "always" you mean generally, we would say yes; if you mean always, we would say no.

2. Is not the demand for gold and silver from two sources only, one their use in the arts, the other their use as money?

Answer. No. Silver is a commodity now, and under the low price its uses have widened. Moreover you will have to include a speculative demand. This was a very important and controlling feature of the market in 1889-'90-'91.

3. Is it not a fact that by far the largest demand is created by their use as money, about 10 per cent only of the world's production is left being consumed in the arts—say about 30 per cent of the gold and 8 per cent of the silver?

Answer. If you mean that there is more silver coined each year than used otherwise, we should agree with you.

4. Did not the discontinuance of the use of silver as legal tender money by the leading commercial nations of the earth decrease the demand and consequently the price of that metal, and why would not gold have declined in the same way, as measured in silver, had the world's mints been closed against it and left open to silver, except to the extent its larger proportionate use in the arts would have shifted that tendency?

Answer. We are of the opinion that the most conspicuous reasons for the decline in silver in 1873 and following years have been (1) breaking the connection between gold and silver by Germany and soon thereafter by France and the Latin Union, thereby taking away from silver the support which interchangeability with gold had given to the value of silver bullion so far as to keep in check the decline in silver bullion, which decline was before that date already in progress; (2) to the sales by Germany of its discarded silver; (3) to the loss to the silver market of the demand for coinage from Germany and subsequently from the Latin Union; (4) to the greatly increasing supply in the production of silver; (5) to a gradually developing loss of faith in the future recovery of the value of that metal induced by the long-continued decline in price added to the continually increasing production, notwithstanding the decline in value, and which loss of faith became well-nigh universal among the intelligent classes when India closed its mints; and (6) to the course pursued by the United States with reference to silver, first under the law of 1878 and subsequently under the 1890 law—action which, so long as the policy was continued, presaged disaster to the silver market.

5. Why would not the restoration of the money use of silver by those nations which have closed their mints to it restore the demand and its price, and would not its restoration as legal money by one or more of those nations restore *pro tanto* the demand and price?

Answer. Our answer to number 4 clearly shows that it would not and why. For additional suggestions affording light on the same point, see reply to question No. 7.

6. Why would not free coinage by the United States give this country an immense advantage over all gold standard countries in its trade with the silver-using countries and thus enlarge the field for our manufactures, and would not this increased activity in commerce between the United States and the silver-using countries—South America, Mexico, China, Japan, etc.—enlarge the use and consequently the demand and price of silver?

Answer. We know no reason why free coinage by the United States alone would give this country an immense or any advantage over gold standard countries; on the contrary we know many reasons which support the belief that free coinage by the United States alone would result in a greater disaster to our industries than they have ever suffered, and that recovery would only be through a restoration of gold payments.

7. When we see that the price of silver has fallen instantly with every legislative act lessening its use, notably and lastly the closing of the Indian mints, upon what theory do you predict its further fall upon legislative enactment enlarging its use?

Answer.—Our answer to question number 4 shows that in the progress of years the influences operative in effecting the decline in the price of silver have been so varied and numerous that the problem of the restoration of value has become involved in almost inextricable difficulties. Not to mention other obstructions, note the increased annual production of silver since the work of demonetization began, for the absorption of which free coinage suggests no adequate provision. Moreover, question No. 7 is based upon the idea and assumes that the price of the bullion after free coinage by the United States alone was established would rise, whereas if it did, and as soon as it did, the present commercial uses would contract and production would further increase, so that there would be a still larger supply pressing on the market for sale, and silver would decline again. There is no room for doubt on this point, because we tried the experiment in 1890 and experienced just the results here referred to.

But we are writing with reference to the price of silver in case of the adoption of free coinage in the United States alone; that is the question we raised in our article that called out our correspondent's letter. Mr. Raoul's contention is that the experience of 1890 does not fit the case of free coinage because as soon as our mints are opened all unused silver on the market would be turned into dollars. He gives no reason whatever for his supposition. We are to-day on a gold basis and our mint is open to the free coinage of gold, and yet all the gold afloat does not go to the mint. When the free coinage of silver is established in this country we shall be on a silver basis and silver bullion will be turned into dollars in obedience to the same principles and influences gold is now, and only when the owner of the bullion finds that to be the more profitable way to dispose of his product. Does any one imagine that with the price of silver in gold one-eighth of a cent or any smaller fraction higher in its relation to commodities than silver dollars are, that the mints would get the bullion for coinage?

Or take the monetary conditions as they rule to-day. Currency is a drug. If the country was on a silver basis there would be no demand for more silver dollars. In that case prices of commodities would rise in silver and silver bullion would decline in gold just as fast as bullion was carried to the mint to be turned into dollars. Indeed, silver in large amounts would never be pressed for coinage unless a need for dollars existed, because when there was no need silver would, in the nature of things, command a better price in bullion than in dollars; and if the coinage did not stop whenever that need was over-supplied, the values of commodities in the United States would rise in silver and the gold price of the bullion in London would correspondingly or to a greater degree decline.

Thus the idea of our silver friends becomes a mere figment. The picture as their thought paints it is a large and ever widening stream of silver pouring into the mint and a larger and wider river of dollars flowing out with special branches for bringing each member of the silver party and his bank account under the beneficent influence of its fertilizing and enriching current. Cold facts leave nothing of this idea except a mint, with its doors wide open to be sure, but with no force other than the ordinary, natural, commercial forces to set or keep the imaginary current in motion—neither gold nor silver flowing in or out faster or longer than the business of the country impelled it.

8. It is true, and as might have been expected, silver continued to decline after both the Bland and Sherman acts, but is there not a totally different principle involved between a limited purchase act, which piles up large quantities of silver as a stored commodity, unconsumed in the useful arts, and unused in any proper sense, and menacing the market by the possibility of its future sale as bullion, and laws that establish its free coinage as a settled policy of a government, thus distributing it or its representative certificates for permanent circulation in a country whose commerce and territory are so extensive as ours, and so capable of further largely extending the use of silver by trade with the silver-using countries, which the free coinage of silver would so greatly stimulate?

Answer—We have in our answer to No. 7 said perhaps all that it is necessary to say with reference to the point raised in this last question. And yet a few additional words seem desirable, as there are more points of contact than this question admits between the operation of the acts of Congress mentioned and the proposal of free coinage of silver by the United States alone. In our belief there is a difference of form and a difference in substance between these two methods; but so far as the price of silver is concerned the old plan is decidedly the more favorable.

Under what Mr. Raoul calls the Sherman act, passed in 1890, the Secretary of the Treasury was *forced* to purchase 4,500,000 ounces of silver every month, or 54 million ounces a year—that is, about one-third more than the total net product of the United States in 1889. The plan consequently promised to take off the market every year an amount much larger than any possible surplus had the market supply remained as in the year last named. Here, then, under the conditions as to production, etc., prevailing at the time of the enactment of the 1890 law we have constructively a continuous corner established in silver, and it would have been an effective corner if supply had not increased. No such continuous demand as we have shown can follow a free coinage enactment.

To be sure, it was an unfavorable feature under the 1890 law that the bullion which the Secretary was required to buy must be piled up in the Treasury rather than ground into powder and given to the winds. But is it not equally unfavorable that the dollars coined under the free coinage scheme are likewise to be piled up in the Treasury? We already have 423¼ million of those dollars on hand besides the 1890 bullion. Now if a free silver system should work as Mr. Raoul thinks it would work, the Government would have at least 100 million more of these dollars piled up then every year, for we all know they will not circulate. Why should that change in form make this growing mass any less of a menace to the silver market than the old silver dollars and the bullion have been. The mere circumstance that the Government's dollar stamp was on the metal, that it was put there under a free-coinage law, could certainly make no substantial difference; and the fact that silver certificates might have been issued for them would be immaterial since paper money had been issued for the bullion and for the earlier silver dollars. Why then should there not be with each new dollar added to this old pile an added risk, if that was true and Mr. Raoul admits it was, of the old method? Of course if there was an added risk that risk would act as it did in 1890 and subsequent years to depress the silver market.

INVESTMENTS OF THE TRUST COMPANIES.

As the record of a most important body of financial institutions, the annual and semi-annual statements of the trust companies of this State always possess a great deal of interest. This time the developments and events of the last six months give to the returns for the first of July additional interest. We published the summaries of the various companies in New York and Brooklyn (in comparison with the figures for the corresponding dates of 1894 and 1893) in the Chronicle of July 20, pages 114, 115 and 116, and Chronicle of July 27, page 154, and the returns are also all brought together in the issue of our Investors' Supplement for July 27. From these returns the changes in the case of the separte companies are easily traced. The State Banking Department at Albany (through Mr. Charles M. Preston, the Superintendent of Banking) has now furnished the aggregates for the whole State, and they will repay careful study.

The first point to attract attention is the continued expansion in the business of these institutions. We all know that they have had a wonderful growth in the

recent past, and particularly in the last two or three years. But it would have occasioned no surprise if during the past six months there had been no further increase—that is if for the time being their business had remained stationary if it did not actually recede. While money was commanding full interest rates, thus giving profitable employment to the funds of the trust companies, it was plain enough that with the inducements those institutions offered their operations must steadily widen. But in the conditions which have prevailed the current year, when money on call most of the time commanded only 1 per cent per annum and large amounts remained unemployed even at that rate, the situation was materially changed. The opportunity for profit to the companies was, through the change, lessened, and many of them have made no active effort to attract new deposits, but on the contrary in a number of cases have sought to discourage them. The interest rate allowed on a good many accounts (though more particularly the less desirable ones) has been lowered, and in fact officers of some of the companies have been heard to say that they did not want any further deposits —they could not find employment for the money they already had.

Nevertheless there has, during the six months, been a very marked addition to the business of the trust companies. Taking aggregate resources as the measure of the change, the addition has been 30 million dollars—that is, the total has risen from 365 million dollars to 395 million dollars. And the deposits show pretty nearly the same amount of increase, standing at 313¼ million dollars July 1, against 285¾ million dollars January 1. In the following we show the resources on the 1st of January of each year back to 1891 and also the figures for the 1st of July of the present year.

AGGREGATE RESOURCES OF THE TRUST COMPANIES OF NEW YORK STATE.

July 1, 1895	$395,552,991	Jan. 1, 1893	$335,707,740
Jan. 1, 1895	365,419,729	Jan. 1, 1892	300,765,575
Jan. 1, 1894	341,466,011	Jan. 1, 1891	280,688,769

Thus we see that there was steady expansion even during the panic and the period of financial and commercial depression; and during the 4½ years since January 1 1891 the increase has been almost 115 million dollars, the total having risen from 280 million dollars to 395 million. The deposits of course tell a like story. Here is their record.

AGGREGATE DEPOSITS OF THE NEW YORK TRUST COMPANIES.

July 1, 1895	$313,422,322	Jan. 1, 1893	$264,295,042
Jan. 1, 1895	285,741,744	Jan. 1, 1892	234,462,697
Jan. 1, 1894	266,092,955	Jan. 1, 1891	211,320,275

In the four and a-half years the deposit line has gone up over 102 million dollars, or nearly 50 per cent, the deposits now being 313 million dollars, against 211 million dollars at the beginning of 1891. Of the increase of 102 million dollars, 27¾ million dollars, as already stated, occurred within the last six months. This latter increase is especially noteworthy for the reasons already given. It is worth pointing out, too, that the amount of said increase is larger than the coincident increase in the deposits of our New York Clearing-House banks, which reported a total of $553,847,800 January 5 1895 and of $569,873,200 July 6 1895, an addition of only 17 million dollars. In this instance, however, it is important to remember that the operations of the Government Bond Syndicate have disturbed the normal bank movements during the last six months. This is well indicated by the great drop which occurred in the aggregate of the bank deposits after the making of the contract, the total having got down to only about 500 million dollars the first week of April against 553 millions January 5, from which, as we have seen, there was an increase again to 569 millions. We know that the Syndicate did hold a large amount of money outside of the banks at one time. Subsequently considerable parts of this were returned. How much was still so held the first week of July is a matter merely of conjecture, as the members of the Syndicate have very naturally been unwilling to disclose the details of their operations.

It is possible that some of the funds withdrawn from the banks went into the trust companies. Still, as we have seen, the business of these latter kept steadily increasing, even in the years preceding, and reasons can be found for the further increase in 1895 without recourse to the theory that the Syndicate operations must be held responsible for them. If the trust companies cannot, in view of the difficulty of putting their funds out at remunerative rates, offer the same inducements that they did a few years ago, and some of them are unwilling to see their deposits further materially expanded at the present time, the terms that they do allow must yet be considered very liberal and quite tempting to those having large amounts of money which they cannot invest in the ordinary way. We have referred above to the fact that the companies reduced the rate of interest on some of their accounts. That movement, it is proper to say, has not been confined to the last six months, but has been in progress a much longer period of time. We find, however, that they are paying *some* interest, large or small, on a much heavier proportion of the whole of their deposits. For example, out of 313¼ million dollars deposits July 1 all but 23¼ million dollars was receiving interest, whereas out of only 285¾ millions January 1, over 30 millions was receiving no interest. In these times when money on call is almost unlendable, even a one per cent interest rate (which is the rate the trust companies pay on some of their accounts) possesses attractions. As a matter of fact, though, probably 2 per cent is paid on the bulk of the deposits. In special cases 3, 4 and even 5 per cent is allowed. Some of the larger companies, among them the Central Trust and the Mercantile Trust, report no accounts bearing more than 3 per cent interest. But on the other hand both the Union Trust and the United States Trust report the rate varying from 1 per cent up to 4 per cent, and the Farmers' Loan & Trust and the New York Life & Trust report the range 1 to 5 per cent. We may suppose that the highest rate is paid only in special instances and only on very desirable accounts, and yet even with that qualification it is difficult to see how there can, under present conditions, be any profit in an account bearing 5 per cent interest.

Pretty nearly all the companies have contributed to the increase of 27¾ millions in the deposits for the six months, but the Central Trust has enlarged its total in a particularly marked way, its deposits being up from $23,501,357 January 1 to $32,496,445 July 1, a gain of 9 million dollars. The highest rate of interest paid by this company we have seen is 3 per cent. The Union Trust between the same dates has increased its deposits from $30,718,226 to $34,684,906, the United States Trust from $36,212,505 to $37,791,911, the Farmers' Loan & Trust from $27,501,352 to $30,059,809, the United States Mortgage Company from $4,710,792 to $7,671,575, the New York Security & Trust from $9,041,369 to $11,507,979, the Metropolitan from $6,760,333 to $8,770,504, and the Knickerbocker from $7,400,832 to $9,841,870. The Mercantile Trust forms an exception to the rule, its deposit

line having been reduced from $28,820,306 to $23,086,597.

Having larger amounts of deposits to provide for with each succeeding year, how are the trust companies finding employment for their funds. We have already referred to the difficulty there is in putting money out at call at remunerative rates. To the trust companies this has been a very important matter, involving a material change in the methods of earning a return on their moneys. The favorite method with those companies for investing the larger part of their funds has been to loan them out on collateral, either on time or on call, and the returns show that two or three years ago it was customary to keep nearly 60 per cent of their entire resources employed in that way. This was not only a favorite method, but it possessed obvious advantages. The companies got a good return for their money, and at the same time the money was kept within easy reach for use in an emergency. But since speculation on the Stock Exchange has fallen off, and there has been no great demand for loans, and rates have declined to steadily lower extremes, the companies have been forced to turn a portion of their collateral loans into other channels. They still keep a large part of their means employed in that manner, but the proportion now is less than 40 per cent, whereas a few years ago, as already stated, it was nearly 60 per cent. There has likewise been a considerable decrease in the absolute amount of loans on collateral. The change in that particular is well shown in the following.

LOANED ON COLLATERAL BY TRUST COMPANIES.

July 1, 1895	$154,958,366	Jan 1, 1893	$196,321,422
Jan. 1, 1895	148,953,820	Jan. 1, 1892	173,552,829
Jan. 1, 1894	147,794,024	Jan. 1, 1891	166,685,758

During the last six months, it will be observed, the companies again extended their loans some six millions, but even with that increase the amount out on collateral is 41½ million dollars less than two and a-half years ago, on January 1 1893, when the total was 196 1 3 million dollars, against only 155 million dollars now. Hence the managers of the trust companies have had a task doubly difficult. On the one hand they had through the growth of their business a greatly increased amount of money to earn a return on and on the other hand they could employ less of it profitably in the old way. How they met the problem is shown by the following record of the so-called stock investments for the same period of time as the other figures above.

STOCK INVESTMENTS OF TRUST COMPANIES.

July 1, 1895	$103,895,812	Jan. 1, 1893	$57,185,649
Jan. 1, 1895	97,555,798	Jan. 1, 1892	51,132,239
Jan. 1, 1894	65,998,230	Jan. 1, 1891	47,180,478

In this case there has been an increase through the whole period, but particularly marked during the last two and a-half years, when the loans on collateral underwent such a material contraction. Since January 1 1891 the stock investments have risen from 47 millions to nearly 104 millions, and since 1893 they have risen from 57 millions to 104 millions, the latter an addition of 47 million dollars. Hence as against a decrease of 41½ million dollars in loans during the last two and a-half years there has been an increase in the stock investments in amount of 47 million dollars.

The nature of these "stock" investments should not be misunderstood. It has been supposed in certain quarters that the increase in this item meant that the trust companies had been purchasing freely of railroad stocks and bonds, taking low-priced and low-grade securities thrown over by the general public. But there has been no foundation for this supposition. In the first place the term "stock" as here used has no narrow or restricted meaning. The designation is that employed by the State Banking Department at Albany, and it covers all classes of investments in both stocks and bonds. In the second place, the trust companies as a body are very conservatively managed, and therefore are not likely to invest largely in any but the highest grade of railroad securities, and these we know are scarce and command exceptional prices. Entirely apart from this, however, we showed in an article in our issue of March 2, 1895, that the increase had not been in railroad stocks, but mainly in United States Government securities, with some increase in municipal stocks and bonds also. The reader is referred to that article for a complete analysis of the figures. We will only recall here that the Government made two separate issues of bonds last year, each for 50 million dollars, and that the trust companies were active bidders for the same, these furnishing them just the opportunity they desired for investing their funds. With reference to the further increase during the last six months we cannot speak so definitely, as several of the companies do not give the full details for the first of July. However, as far as we have the figures they show that the tendency noted has continued unchanged.

In view of the difficulty of securing temporary employment for money, we should expect to find that the trust companies were holding much larger amounts of cash uninvested than in the earlier years. That is precisely what the figures show. The following gives the cash on hand and on deposit with the banks at each date. The amount now is larger than on January 1, 1895, but several millions smaller than on January 1, 1894.

CASH IN HAND AND ON DEPOSIT.

July 1, 1895	$67,623,408	Jan. 1, 1893	$35,033,016
Jan. 1, 1895	61,206,703	Jan. 1, 1892	33,932,847
Jan. 1, 1894	74,365,781	Jan. 1, 1891	26,584,978

There is one other item in the investments of the trust companies which is deserving of a little attention. We refer to the loans on personal security. These loans have hitherto played a very minor part in the business of the companies, but the item is now showing marked growth, as will appear by the following:

LOANS ON PERSONAL SECURITY.

July 1, 1895	$32,750,541	Jan. 1, 1893	$19,698,925
Jan. 1, 1895	22,791,215	Jan. 1, 1892	17,210,145
Jan. 1, 1894	22,636,957	Jan. 1, 1891	9,755,643

The total is not very large as yet, but there has been an increase in it during the last six months of 10 million dollars. This increase is particularly noteworthy because the expansion in the aggregate resources of the companies during the six months was 30 million dollars, and it hence becomes evident that one-third the whole amount is represented by the addition to that class of investments. In the main such loans simply cover notes or bills receivable. In fact, several of the institutions report the item as "bills purchased" or "bills receivable." Only a few of the companies have gone into such loans to any great extent, but the fact that the business is confined to these companies invests the increase with especial significance. The United States Trust has the largest amount, and reports $11,669,568 of bills July 1 1895, against only $8,090,769 January 1. The New York Life & Trust reports $9,307,110 of loans on personal security now, against only $6,473,302 January 1, and the Farmers' Loan & Trust $4,560,000 against only $926,500 January 1. These three companies hence account for 25½ millions ($25,536,678) of the 32¾ millions of loans on

personal security reported by all the trust companies of the State, and they account for the whole of the ten million dollars increase for the six months, as the aggregate for the same three companies on January 1 1895 stood at only $15,490,571. We have said that the fact that it is mainly two or three companies that make these loans in large amounts gives additional significance to the increase taking place. The reason obviously is that it shows that these companies have gone into the buying of paper as a regular branch of their business.

GOLD MINING IN 1895.

Gold mining is in a general way well known to be proceeding on an enlarged scale. The returns we have received within a week or two respecting the first six months of 1895 enable us to show approximately the extent of the increase during that period. According to the information at hand the work is being prosecuted at almost every gold-mining centre with greater vigor, not only in the United States, but in Africa, Australia, India—in fact, as said, in about all countries where the precious metal is found to any great extent.

Chief interest is felt with reference to the progress making in Africa, since within the last eight years that country has risen from a very unimportant position until now practically it leads the world as a gold producer. The major portion of Africa's gold yield comes, of course, from the Witwatersrand District, but adjacent territory as well as fields on the West coast are being rapidly developed.

In the Witwatersrand District the yield during each month of 1895, from January to June inclusive, exhibits a marked gain over the corresponding month of 1894. The aggregate for the half-year, as the subjoined statement indicates, is 140,332 ounces (or nearly 14½ per cent) more than for the like period a year ago.

	1895.		1894.		1893.
	Ounces.	*Value.*	*Ounces.*	*Value.*	*Ounces.*
January	177,464	£667,444	143,314	£514,095	108,374
February	166,296	579,515	151,470	522,588	94,152
March	184,915	636,643	165,872	569,205	111,574
April	180,123	641,142	169,745	584,429	112,073
May	194,550	669,792	169,774	584,311	118,911
June	200,961	691,457	172,162	574,571	122,907
Total 6 mos	1,113,509	£3,885,973	973,247	£3,450,082	668,071

It is perhaps well to state that the official reports from this district are always made in ounces valued at about £3 10s.; reducing the figures to *fine* ounces we find the result for the half-year of 1895 to be 900,695 *fine* ounces, against 788,663 *fine* ounces for 1894. For the calendar year 1894 the aggregate output of these mines was 1,637,773 fine ounces, or a little more than double the result for the first six months; but if we merely apply to last year's production the percentage of increase already indicated (14½ per cent), it would give us approximately 1,900,000 fine ounces as the yield for 1895. In view of the constant development from month to month thus far in the year this total would seem to be well within the probabilities.

For the remaining districts of South Africa it is impossible to obtain at this time as complete information as for Witwatersrand, but we have been able to compile the figures for a number of the more important mines, and, with one exception, reference to which will be subsequently made, they show as gratifying results as those given above. The statistics we have secured cover mines in the DeKaap Field, which lies to the northeast of Witwatersrand, and the Lydenburg District situated a short distance to the north of DeKaap. These two fields rank next in importance to Witwatersrand and contain some very good properties. The figures for the half-year we have obtained cover three mines in Lydenburg and one in DeKaap and they make the following comparison with 1894:

	1895. *Ounces.*	1894. *Ounces.*
Lisbon-Berlyn, New Clewer, Transvaal Gold (Lydenburg)	4,137	2,065
	8,832	9,962
	16,225	13,000
Moodies-De Kaap	4,545	3,434
	34,739	28,461

It will be observed that the Lisbon-Berlyn mines have increased their output over 100 per cent compared with the half-year of 1894, and that the aggregate of all records a gain of 6,278 ounces, or 22 per cent, during the same period. The production of the Sheba mine at Barbeton, in the DeKaap Field—one of the heaviest producers in Africa—is omitted from the above compilation because the figures would be misleading unless proper explanation be made. For the first six months of 1894 the yield from the Sheba reached 42,250 ounces, but for the corresponding period of 1895 only 15,191 ounces were produced. Even the returns for January and February of this year made it clear that production was on a smaller scale than a year ago, and that under ordinary conditions there would be an appreciable falling off for the year. But in March the mine was flooded, forcing to a large extent the suspension of operations, since which time the yield has been very materially curtailed, the loss for the half-year, as above indicated, reaching 27,059 ounces, or nearly 65 per cent.

To the southwest of Witwatersrand in the Potchefstroom district lies the Buffelsdoorn mine. On this property development has been very rapid, the yield for the six months of 1895 aggregating 27,202 ounces, against 16,786 ounces for the first half of 1894, or an increase of over 60 per cent. Incomplete returns from many other mines in Africa furnish evidence of the same general character as those here given and in connection therewith seem to warrant the conclusion that the gain in production over 1894 outside of Witwatersrand will reach a higher percentage than in that district. In fact we cannot see at this writing how Africa's contribution to the world's supply of gold in 1895 can fall below 2,300,000 fine ounces, against 1,951,911 fine ounces in 1894, or an increase of 348,089 fine ounces.

From Australia only scattered returns have thus far reached us. From these we gather that the results for the half-year in West Australia have been somewhat disappointing; that is, they show a much smaller increase over the last half of 1894 than was promised when the new year began. The remaining six months are expected, however, to largely exceed in yield the corresponding period of 1894 and thus bring the year's production closely up to the output in Africa. In 1894 the aggregate for the Australian mines was 2,020,180 fine ounces, or a gain of 18 per cent over 1893. The same rate of increase in 1895 cannot be predicated upon the reports current to-day: an addition though of 10 per cent over 1894 will be a safe estimate, bringing the 1895 figures up to 2,200,000 fine ounces against a total of 2,020,180 fine ounces in 1894.

In the United States a considerable gain seems also assured. The Cripple Creek region of Colorado will without doubt increase its yield. Practical miners are greatly in demand throughout the district and many inexperienced hands are being used because others cannot be obtained. It is asserted that there are now some 9,000 men at work in the mines in the Cripple Creek district, or fully three times as many as a year ago.

Elsewhere in Colorado much is being done in the further development of old mining properties and opening up of new leads. Further West, in Utah and Idaho, and to the North, in Montana, the production of gold is also increasing. Within the past month rich finds have been reported in Utah and Idaho, which, with the new energy applied in working other mines, should serve to add materially to the 1894 output of those States. Our information from California, and in fact all States where gold is found in paying quantities, is of the same general character. Altogether it seems probable that the total production of the United States will not be less, and probably more, than $43,500,000, or about 2,100,000 fine ounces, against 1,910,813 fine ounces, valued at $39,500,000, in 1894.

India has of late become more prominent as a producer of gold. The output of the East Indian mines last year was but little greater than in 1893, but this year production is developing, and for 1895 a material gain is assured. To show the extent of the increase we have prepared the subjoined statement, covering the results for each month, January to June, inclusive, for the last four years. The compilation includes the Champion, Ooregum, Mysore, Nundydroog, and two or three smaller mines.

	1895. Ounces.	1894. Ounces.	1893. Ounces.	1892. Ounces.
January	19,425	17,026	16,844	11,674
February	19,110	15,803	16,656	11,780
March	19,901	16,080	17,463	11,579
April	19,991	15,551	18,287	11,813
May	20,428	16,543	17,922	12,488
June	20,269	15,459	16,879	11,847
Total 6 months	119,124	96,462	104,051	71,181

These figures cover only part of the properties being developed in British India, their yield in 1894 being only about fifty per cent of the aggregate production of that country for the period named. But we may perhaps assume that they furnish a fair indication of the progress being made in the far East.

From other countries our information is meagre. All except Russia are small producers. The few facts known indicate that the revival in gold mining is well nigh universal. It is therefore probably safe to assume that the total production of the mines outside of Africa, Australia and the United States will exceed that of 1894 by about 10 per cent and reach nearly 3,200,000 fine ounces. For the convenience of the reader we bring together the foregoing estimates for he calendar year 1895. It will be seen that they make the aggregate of the world's gold production in the current year 9,800,000 fine ounces, valued at $202,583,640, or an increase over 1894 of a little less than 12 per cent. We take the occasion to revise our 1894 figures, which, as stated last February, were largely estimated, and though at the time they were in excess of the popular belief, later facts show they were only about 39,000 fine ounces too large. Using the 1894 revised results and our own totals for the previous two years we have the following comparative summary:

	(Estimated.) 1895.	1894.	1893.	1892.
Africa	2,300,000	1,951,911	1,381,128	1,150,519
Australia	2,200,000	2,020,180	1,711,892	1,638,238
United States	2,100,000	1,910,813	1,739,323	1,597,098
Other countries	3,200,000	2,898,110	2,829,734	2,655,967
Total ounces	9,800,000	8,781,014	7,662,077	7,041,822

The indicated yield for 1895 is 9,800,000 fine ounces, the value of which at $20·6718 per fine ounce would be $202,583,640, or 1,018,986 fine ounces greater than in 1894, equal to about 12 per cent. The gain in 1894 over the preceding year was 1,118,937 fine ounces, or 14½ per cent. Taking into consideration all the information at present received, together with the general truth everywhere observable that mining is being prosecuted with great activity, an estimated increase in yield of 12 per cent compared with the preceding year seems much more likely to be an under estimate than an over estimate.

ELECTRIC POWER ON STEAM ROADS.

There is no question of deeper interest or of wider concern than that bearing on the changes which are likely to result in the operation of our transportation lines from the introduction of electricity as a form of motive power. On the one hand the managers of the steam roads are confronted by the fact that the trolley roads have cut deeply into their local or suburban passenger traffic, and that this competition will have to be met in one way or another. On the other hand the question presents itself whether if electricity is suitable for tractive power in the case of the street railways the same form of traction may not with advantage—that is with economy—be applied to the steam roads, not only in those cases where there are trolley competitive lines but in the general operation of the steam roads.

In the present stage of electrical development it can not yet be affirmed how far the adoption of electricity is going to be justified by the results. The arrangement just entered into between the Westinghouse Electric Company and the Baldwin Locomotive Works for the joining of forces in the manufacture of electric locomotives and electrical equipment shows that the opinion prevails that there is going to be an active demand for this kind of machinery and that the field of usefulness of electricity in the operation of our transportation lines is expected to expand and develop. Again, the steps taken by the New Haven road in equipping its Nantasket Beach line electrically, by the Pennsylvania Railroad in introducing electricity on its Mount Holly branch, and by the Baltimore & Ohio in using electric locomotives in its Belt Line tunnel, as well as the experiments under way at Chicago and other points, demonstrate that the managers of the steam roads are keenly alive to the necessities of the situation and are not likely to be caught napping. So far the plans in all these cases have worked satisfactorily, though the time during which the arrangements have been in operation has been short. Assuming that the new schemes will prove entirely successful, it by no means follows that that will constitute an unqualified argument in favor of the general substitution of electricity on steam roads. For in all these cases the conditions are to some extent exceptional, and therefore the test in other instances where the conditions are not the same might yield different results.

Connected with the discussions of the question there has been a good deal of idle theorizing and speculating as to what the indirect effects of the change from steam to electricity would be, should it be made. For instance we find the "Boston News Bureau" saying in one of its issues this week, apropos of the talk of an extended electrical development in the steam railroad field: "What development along this line may mean for Boston's copper-mining interests may be judged from the fact that if the steam roads of the United States were to be equipped as the Nantasket Beach Branch has been equipped, the entire production of all the American copper mines for the next ten years would be required to furnish the copper." Without wishing to pose as prophets, we think we risk nothing

when we say that there is little likelihood that the copper producers will be called upon to meet such an extraordinary demand as that suggested for some time to come.

Perhaps the most careful analysis of the general subject which has yet appeared has been that undertaken by Dr. Louis Duncan, the President of the American Institute of Electrical Engineers, at the recent meeting of that body at Niagara Falls. Dr. Duncan stands very high in the profession and his address has been widely copied. He began by pointing out that the reports of the earnings of the railroad companies in the United States show that, after paying fixed charges, only a small amount of net profit remains to be applied to dividends on the stock. Any general decrease in earnings, even if it be only a small percentage of the total amount, will wipe out the narrow margin that is now applied to dividends, and the absorption by the electric lines of the local travel formerly conducted by the steam lines, he thinks, promises to do this. He says at first the managers of the larger steam roads ignored the growth of their electrical rivals, but the time has come when such a course is no longer feasible, and they are beginning to face the difficulty and to carefully study the situation.

Dr. Duncan shows that there are two very distinct sides to the question of transportation, the passenger side and the freight side, and that their requirements for good service are very different. In the case of the passenger travel the receipts of a road are increased by running trains at short intervals and at high speed, and these are conditions peculiarly favorable to electricity. On the other hand, in the case of the freight traffic, the conditions of greatest economy are reached when trains of a maximum weight are hauled by a single locomotive. The tendency in late years has been in the direction of increasing the size of the locomotive, the capacity of the cars, and the length of the trains. The decreased cost per ton mile for freight transportation has shown the wisdom of the change. On one of the larger roads the cost of transportation per ton mile decreased in twenty years from 1·15 cents to 0·56 cent, and on another road the decrease between 1864 and 1893 was from 1·900 cents to 0·447 cent. In attempting to carry on traffic of this kind, says Dr. Duncan, by electrical locomotives operated from a central station, it is found that we are at a great disadvantage because of the irregular service necessitated by the freight traffic and the unequal distribution of the load along the line.

In the case of the passengers the number of passengers per train mile on the steam roads has diminished; taking one of the roads referred to above in the freight traffic the diminution has been from 79 passengers per train mile to 59. Comparing the freight and the passenger transportation therefore Dr. Duncan finds that the two types of traffic have gone in opposite directions during the twenty years. The amount of freight transported per train mile has more than doubled, and the expense has decreased more than one-half. The passengers per train mile on the other hand have decreased, and the expenses have changed only a slight amount, notwithstanding the great economies that have been put in force in the interval. Passenger traffic has come in the direction in which electricity is the most economical for transportation. Freight traffic, on the contrary, has gone in the direction where electricity becomes most costly. Dr. Duncan considers many other phases of the general question, and he finally sums up his conclusions under six distinct heads: (1) The tendency of passenger transportation on the steam lines has been in the direction of the greatest electrical economy, while the tendency of the freight transportation has been in the direction of the least electrical economy. (2) It will not pay any through line with considerable traffic, having two tracks, to equip their main tracks electrically. (3) With four-track roads, it will pay to equip all of the tracks electrically, unless a considerable portion of the business is through passenger traffic. (4.) It will pay all the larger roads either to equip a number of their branch lines electrically or to control competing electric lines. (5.) In order to remain on a dividend-paying basis, it is imperative that most of the two-track lines either build additional tracks or control the electrical roads that parallel them. (6.) Believing that ultimately all of the traffic will be done by electricity, it is imperative that the managers of steam roads keep constantly in touch with electrical progress.

As the opinions of an expert, these conclusions are entitled to considerable weight. For ourselves, however, we must be permitted to say that a great deal more light is needed on one very important point affecting the whole question, namely the relative and absolute economy to be effected by the use of electricity. Experience thus far affords no positively reliable guide on that point. It is evident, moreover, that the profits of the electric roads are in many cases not proving what was expected. Only a year or two ago it was thought that the trolley roads were veritable bonanzas. But already the numerous failures and receiverships tell the story of disappointed hopes and unfulfilled expectations. The failures may be due to bad or speculative financiering, or may be due to a larger operating cost than had been counted on, or again they may be due to the traffic having fallen short of what it was supposed likely to be.

The question what the permanent cost of operating the electric roads is going to be is a very important one. It is true some of the roads are being operated at an exceptionally low ratio of expenses to earnings. But can this low ratio be maintained? With cars, plant and equipment now the cost of renewals and repairs at first would necessarily be small. When these items of expense increase, is there likely to be a corresponding saving in other directions? It seems to us everything hinges on this question of operating cost. Until that point therefore has been clearly and definitely established the transformation from steam to electricity, we may suppose, will be conducted with considerable caution, except in those instances where the advantages of electricity are clear and indisputable.

FALL RIVER MILL DIVIDENDS.

The results of the operations of the cotton-manufacturing establishments at Fall River for the third quarter of 1895 have been quite satisfactory, making a more favorable exhibit so far as dividends are concerned than any quarter for some time past. Thirty-four corporations, with a combined capital of $30,578,000, are represented in the subjoined statement, only two of which—the Barnaby Manufacturing Company and Metacomet Manufacturing Company—have passed their dividends. The aggregate amount paid in dividends by the thirty-four corporations has been $369,875, or an average of 1·80 per cent on the capital invested, whereas in 1894 the average dividend was only 1·25 per cent. The current favorable exhibit has been possible in the face of low prices for about all descriptions of goods, owing to the fact that mills were well supplied with the raw material, purchased at low prices. In addition to the total distributed above two mills—

the Border City Manufacturing Company and the Sagamore Mills—have declared extra dividends of 10 per cent and 8 per cent respectively, bringing the total amount paid out during the quarter up to $541,875. These extra dividends are not included in our tables.

Third Quarter 1895 and 1894.	Capital.	Dividends 1895. P. C.	Dividends 1895. Amount.	Dividends 1894. P. C.	Dividends 1894. Amount.	Increase or Decrease

Totals	$20,578,000	1·80	$369,875	§1·25	$260,200	+109,675

† On capital of $400,000. § On capital of $20,878,000.
a Also extra dividend of 10 per cent. b Also stock dividend of 8 per cent.

Combining the above results with those for the half-year (published in the CHRONICLE of May 18, page 859) we have the following exhibit for the nine months. With regard to these figures it is sufficient to say that thirty-five corporations distributed in dividends in the nine months of the present year $1,035,675, or an average of 4·80 per cent, against $882,600, or 4·11 per cent, in the like period of 1894. In 1893 and 1892 the exhibit was more satisfactory than in the current year.

Totals	$21,578,000	4·80	$1,035,675	4·11	$882,600	+153,075

The outlook for the future at this writing seems to be very encouraging. The mills as a rule are full of work, and in a number of instances spinning capacity is being increased.

IMPORTS, EXPORTS AND IMMIGRATION FOR JULY.

The Bureau of Statistics has issued a detailed statement of the foreign commerce and immigration of the country for the month of July, 1895 and 1894, and for the seven months ending July 31, in 1895 and 1894, as follows:

MERCHANDISE.

	July.	7 mos. end. July 31.
1895.—Exports—Domestic	$55,194,769	$434,577,283
Foreign	1,405,896	8,888,577
Total	$56,600,665	$443,465,860

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Aug. 3, 1895.

A portion of the proceeds of the Chinese loan has already been remitted from Paris to London to the credit of the Japanese Government. No gold has been sent, nor is it likely to come for a considerable time. The remittance has been made partly by the sale of French Treasury bills in London and partly by drawing upon the large balances held here by several of the great French banks. It is understood that the money will be paid out almost immediately, as Japan has been buying actively both ships and naval stores. The remittances have been stopped for the moment, but they will be made gradually, as circumstances favor. In consequence the supply of money here is greater than ever and rates are likely to continue very low for some months.

The silver market is dull with a downward tendency. On Wednesday, indeed, it was strengthened by the unexpectedly large applications for India Council drafts. Only 50 lakhs were offered and the applications exceeded three crores, or six times as much. The Council, however, refused to sell below 1s., 1 5-32d. per rupee, and it disposed altogether of about 48¼ lakhs. The price was higher than had been anticipated, and this for the moment has supported the silver market. But the general belief here is that the price of silver will go lower. A very large amount has been held here for some months in the belief that China would buy; and more is to arrive this month from the United States. Unless, therefore, Japan buys more than is expected there is almost sure to be a decline in the price. But the opinion is that Japan will not buy much. India is buying very little, and China for the time being is not buying at all.

The elections are practically ended and the Government victory is more complete than anybody anticipated. The elections, however, have not excited as much interest at home as might have been expected. On the Continent they have made a good impression, the general feeling being that Lord Salisbury at the Foreign Office will make the influence of this country felt abroad and so will strengthen the causes working for peace. Upon the whole a more favorable view is taken now both upon the Continent and here at home of international political prospects. It is understood that the Sultan has yielded to the Powers and that important reforms are to be introduced in Armenia. It is also understood that the Czar is exerting his personal authority both in Servia and Bulgaria to prevent a serious outbreak in Macedonia. The latest news is that the Turkish military authorities are proceeding with more judgment than they usually display in such matters—that they are not allowing the troops to commit outrages and that they are not unnecessarily shedding blood, but that by occupying the villages they are cutting off the supplies of the insurgents. It is hoped, therefore, that the outbreak will be put down before long. If so, the belief in all the great European capitals is that Russia has pledged herself not to interfere in the matter. But it is essential that order should be restored without delay. There is likewise a better feeling respecting the relations between Russia and Japan. Japan is certainly making great efforts to increase her navy, and the belief is universal that she will lay out nearly the whole of the indemnity money for that purpose. But she will not be prepared to fight Russia for some time yet, her hands being occupied in Formosa; and it is not thought likely that Russia will assume the aggressive.

We are now entering the slackest period of the whole year. To-day the Stock Exchange here is closed, and Monday will be a Bank Holiday. On Thursday the monthly liquidation began in Paris and will end on Tuesday evening. After that it is expected that most of the great capitalists will leave Paris for the seaside. Usually August and the first half of September are times of exceeding dulness in Paris. Here likewise all the leading operators have either left or are preparing to leave. But although the holiday season has begun business has continued wonderfully good, and quotations have been well maintained all through the week. There is some slight decline in consols and other first-class securities; but there has been a recovery in British railway stocks, and the activity in the South African market and in the Western Australian department has continued up to the end.

In the American department the investing public is still holding aloof and professional operators are not doing much. The market therefore moves entirely in response to New York; there is as yet no initiative here. But undoubtedly much more interest is felt here than for a long time past in that market. The amount of unemployed money is so great, the difficulty of finding good investments is so insuperable, and the prices of all really sound stocks are so high, that people are looking about for some means of employing their money remuneratively. The American market is of course by far the largest and heretofore has been the most profitable. If therefore the public here could see reason to believe that sound money would be maintained there is no doubt that the market would become exceedingly active. Our people, however, are unable to judge at this distance what is the real strength of the Silver Party. The belief is growing that the Silver Party is losing ground; but as yet the public is afraid to act on that belief. That the trade in the United States is improving everybody recognizes; and that there is much change for the better in many other respects is likewise admitted. But the condition of the currency is still looked upon with apprehension.

Matters are decidedly improving in Argentina. The news from Chili is also fairly good. But the belief is very strong here that several of the reconstructed Australian banks will have to be wound up. At a meeting in the Colonies about a month ago the representatives of all the banks recommended that the right of issue should be taken over by the governments, and this is believed to indicate that the bankers fear that the notes of many of the banks may be refused unless the Government comes to their assistance.

The wool auctions have ended even better than they began. The American buying has been on a very great scale; so has the English. The Germans and French at first purchased very sparingly, but during the last week or two they also bought on a very large scale, and the result was that prices were at the end even better than at the beginning, and that the market was decidedly harder.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1895. July 31.	1894. Aug. 1.	1893. Aug. 2.	1892. Aug. 3

* August 9.

Messrs. Pixley & Abell write as follows under date of Aug. 1:

Gold—The Bank has purchased all arrivals, in the entire absence of demand, the total so purchased being £503,000. During the week £1,000,000 has been withdrawn, of which £100,000 has been sent to the Cape. Arrivals: Bombay, £43,000; South Africa, £237,000; total, £280,000. Shipments to Bombay, July 25, £5,000.

Silver—The slow drop has continued until to-day was touched, when with a good sale of India Council Bills, which were largely applied for, prices moved a trifle somewhat better to-day. The bar is closes steadily at 30½d. Arrivals: New York, £250,000; Chili, £20,000; total, £270,000. Shipments to Bombay, £5,000.

Mexican Dollars—Little has been done in these coin, which have been quoted a fraction under the silver price.

The quotations for bullion are reported as follows:

Commercial and Miscellaneous News

NATIONAL BANKS.—The following information regarding national banks is from the Treasury Department:

NATIONAL BANKS ORGANIZED.

5,011—The Forest City National Bank, Forest City, Iowa. Capital, $50,000. C. J. Thompson, President; G. S. Gilbertson, Cashier.

5,012—The First National Bank of Mannington, West Virginia. Capital, $60,000. James H. Furbee, President; William H. Furbee, Cashier.

5,013—The First National Bank of New London, Wisconsin. Capital, $50,000. L. D. Moses, President; S. T. Ritchie, Cashier.

CORPORATE EXISTENCE EXTENDED.

2,228—The Spencer National Bank Spencer, Mass., until June 12, 1915.

2,289—The Metropolitan National Bank of Boston, Mass., until June 12, 1915

2,292—The City National Bank of Gloucester, Massachusetts, until July 15, 1915.

2,287—The Farmers' National Bank of Pekin, Illinois, until July 19, 1915.

2,293—The National Bank of Slatington, Pennsylvania, until July 21, 1915.

2,304—The Western National Bank of York, Pennsylvania, until July 22, 1915.

2,306.—The Merchants' National Bank of Waterville, Maine, until August 4, 1915.

CHANGE OF TITLE.

3,538—The Southern California National Bank of Los Angeles, California, title changed July 22, 1895, to "The Merchants' National Bank of Los Angeles."

IN LIQUIDATION.

4,069.—The Citizens' National Bank of Tacoma, Washington, has gone into voluntary liquidation, by resolution of its stockholders, dated July 19, to take effect July 27, 1895.

INSOLVENT.

3,930—The First National Bank of Ida Grove, Iowa, heretofore in voluntary liquidation, is insolvent, and was on June 4, 1895, placed in the hands of George A. Stone, Receiver.

2,985—The Merchants' National Bank of Seattle, Washington, is insolvent, and was on June 19, 1895, placed in the hands of Charles H. Baker, Receiver.

4,382—The Union National Bank of Denver, Colorado, is insolvent, and was, on August 2, 1895, placed in the hands of William S. Nelson, Receiver.

4,680.—The Superior National Bank, Superior, Wis., is insolvent, and was on August 6, 1895, placed in the hands of Gilbert G. Thorne, Receiver.

4,796.—The Puget Sound National Bank of Everett, Washington, is insolvent, and was on August 7, 1895, placed in the hands of Louis K. Church, Receiver.

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods August 8 and for the week ending for general merchandise August 9; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894.	1895.
Dry Goods	$2,916,331	$2,116,033	$1,903,439	$3,078,992
Gen'l mer'dise.	10,480,541	6,161,532	6,214,441	7,234,466
Total	$13,396,872	$8,277,565	$8,117,880	$10,313,458
Since Jan. 1.				
Dry Goods	$77,823,080	$89,160,983	$51,447,843	$91,829,923
Gen'l mer'dise.	282,072,223	298,416,904	218,608,795	227,901,022
Total 32 weeks	$359,895,303	$387,577,889	$270,056,638	$319,730,945

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending August 13 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893.	1894.	1895.
For the week	$9,224,504	$8,412,483	$8,240,367	$6,111,882
Prev. reported	237,627,676	216,356,355	220,971,493	202,887,109
Total 32 weeks	$246,852,180	$224,768,838	$229,211,860	$208,998,991

The following table shows the exports and imports of specie at the port of New York for the week ending August 10 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	$2,044,100	$13,431,268	$1,674	$14,781,813
France	.....	12,302,073	.....	4,603,988
Germany	.....	5,800,086	.....	1,527,191
West Indies	.....	7,514,646	235	412,711
Mexico	.....	.....	1,177	41,407
South America	52,700	955,054	37,688	299,467
All other countries	.....	261,488	.....	66,230
Total 1895	$2,096,800	$40,264,615	$40,834	$21,732,807
Total 1894	965,000	83,133,862	553,624	11,405,405
Total 1893	6,002	68,694,497	13,214,991	25,076,727

Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	$892,700	$21,300,348	.....	$49,246
France	.....	.....	.....	3,451
Germany	2,545	16,142	.....	5,160
West Indies	223	135,129	44,640	239,257
Mexico	.....	399	50	355,351
South America	4,150	695,292	13,580	498,920
All other countries	.....	19,077	.....	18,136
Total 1895	$899,618	$22,166,387	$58,250	$1,169,531
Total 1894	778,195	21,152,260	30,929	1,071,493
Total 1893	499,578	19,828,370	77,726	2,362,610

Of the above imports for the week in 1895 $18,052 were American gold coin and $636 American silver coin. Of the exports during the same time $2,055,900 were American gold coin.

FOREIGN TRADE OF NEW YORK—MONTHLY STATEMENT.—In addition to the preceding tables, made up from weekly returns, we give the following figures for the full months, also issued by our New York Custom House. The first statement covers the total imports of merchandise.

IMPORTS INTO NEW YORK.

Month.	1895.			1894.		
	Dry Goods.	General Merchandise.	Total.	Dry Goods.	General Merchandise.	Total.
	$	$	$	$	$	$
January	17,660,312	28,777,708	46,438,020	8,976,930	26,993,965	35,970,895

—The New York agent of the Hong Kong & Shanghai Banking Corporation has received a telegram from the head office in Hong Kong stating as the result of the half-year ending the 30th June last that a dividend has been declared of £1 5s. per share, $500,000 added to the reserve fund (making that fund stand at $5,500,000) and $300,000 carried forward to the credit of the new profit and loss account.

Breadstuffs Figures Brought From Page 291.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Aug. 10, 1895, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley	Rye
	Bbls. 196 lbs	Bush. 60 lbs	Bush. 56 lbs	Bush. 32 lbs	Bush. 48 lbs	Bush. 56 lbs
Chicago	46,453	301,086	1,192,439	1,324,250	11,750	32,866
Milwaukee	36,000	81,250	11,700	141,900	12,000	27,600

—Attention of investors is called to the offering in another column by Jacob Rubino of $200,000 Duluth & Iron Range first mortgage 5 per cent bonds. The net earnings of the Duluth & Iron Range last year were three times its fixed charges. The shipments of ore this season will be 2,000,000 tons as against 1,300,000 last season. The bonds would appear to be amply secured both by the property covered and large surplus earnings.

—Messrs. Redmond, Kerr & Co., the well-known dealers in investment securities, propose in future to make a special feature of guaranteed stocks. Circulars describing in detail their offerings are issued from time to time and it will be sent to any address upon application at their offices, either 41 Wall st., New York, or 421 Chestnut St., Philadelphia.

—Messrs. N. W. Harris & Co. will furnish a special circular on a Kansas City street railway issue on application at their New York office, 15 Wall Street.

—Various Reading issues are advertised this week by Mr. F. J. Lisman, 10 Wall St. Mr. Lisman's specialty is inactive railway securities.

WALL STREET, FRIDAY, AUGUST 16, 1895.—5 P. M.

The Money Market and Financial Situation.—The condition of the foreign exchange market, the exports of gold and the Government treasury gold balance have been the chief topics of interest in banking and financial circles during the week.

The action of the Bond Syndicate in depositing $3,000,000 of gold in the Sub-Treasury was favorably regarded, showing the interest of the Syndicate in maintaining the Government gold reserve.

While business at the Stock Exchange has been dull, it is notable that investment bonds and stocks are readily absorbed when offered. And the fact that the bids for a block of $4,000,000 of railroad bonds offered by a prominent banking house were largely in excess of the amount reflects the general interest and confidence in such investments.

All the latest reports from the West indicate that the corn and spring-wheat crops will both be very large, and the benefits which will accrue to that section of the country can hardly be over-estimated.

New York banks report considerable inquiry for money for crop-moving purposes but the actual demand is yet limited.

The open market rates for call loans during the week on stock and bond collaterals have ranged from ¾ to 1 per cent. To-day's rates on call were ¾ to 1 per cent. Prime commercial paper is quoted at 3¼ to 4¼ per cent

The Bank of England weekly statement on Thursday showed an increase in bullion of £940,198, and the percentage of reserve to liabilities was 58·51 against 57·85, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 1,275,000 francs in gold and 125,000 francs in silver.

The New York City Clearing-House banks in their statement of Aug. 10 showed a decrease in the reserve held of $2,133,200 and a surplus over the required reserve of $38,940,775 against $40,917,175 the previous week.

Foreign Exchange.—Foreign exchange has continued firm through the week. Commercial offerings have been limited in amount and the demand is met in part by bills drawn against gold exports. The total amount of gold shipped during the week is $4,300,000, of which $400,000 goes out to-morrow.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 89¼@4 89½; demand, 4 90¼@4 90½; cables, 4 90½@4 90¾.

Posted rates of leading bankers are as follows:

Aug. 16.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 90	4 91
Prime commercial	4 88¾@4 89	.....
Documentary commercial	4 88¼@4 88½	.....
Paris bankers' (francs)	5 16¼@5 15 9/16	5 15@5 14 5/16
Amsterdam (guilders) bankers	40 5/16@40 3/8	40 7/16@40 1/2
Frankfort or Bremen (reichmarks) b'kers'	95 5/8@95 11/16	95 15/16@96

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $2 00 premium; commercial 75c. premium; Chicago, 25c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $97,500 4s, reg., at 112¼ to 112½, and $34,000 5s, coup., at 115⅛ to 115¼. The following are closing prices:

Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @ — 75

State and Railroad Bonds.—State bonds have been dull. Sales at the Board include $12,000 Tenn. settlement 3s at 91¼ to 91¾; $4,000 No. Carolina con. 4s at 105; $5,000 Louisiana con. 4s at 99; $1,000 Virginia 6s defd. trust certificates, stamped, at 6¼, and $1,500 Virginia fund. debt 2-3s of 1991 at 63¾.

Railroad bonds have been firm under limited offerings.

The features are Ore. Ry. & Nav. Co. 5s, Or. Short Line 6s and Ore. Short Line & U. N. con. rects., which have advanced from 2 to 5 points. Other bonds which have advanced about 1 point include L. N. A. & Chic. cons., Phila. & Reading gen. 4s, S. A. & A. Pass. 4s and Chic. & E. I. gen. 5s.

Some of the No. Pacific issues, Sav. & Western and Southern Ry. bonds have been weak, and declined. Other active issues in which changes are unimportant include the Atchisons, Ches. & Ohio, Mo. Kan. & Tex., Reading and Rio Grande Western bonds.

Railroad and Miscellaneous Stocks.—The market for stocks has continued dull and chiefly of a professional character. Some of the leading railway shares are fractionally higher than they were last week, but changes are generally unimportant.

Efforts were made on Wednesday to depress the grangers on reports by the Weather Bureau of a cold wave in the Northwest, but they met with poor success. The coal stocks have been strong on the theory that the coal situation will soon receive the attention which it so much needs.

Central of N. J. has advanced over a point and Del. & Hud. Canal and Reading are fractionally higher than they were last week.

N. Y. Sus. & Western has been more active than usual, and both the common and preferred have advanced over a point. There was a sharp rise in New York & New England on Thursday, which was attributed to an effort to cover a short interest, and a report that the control and future policy of the company will soon be announced. Manhattan Elevated has failed to retain the advance which was noted last week and has dropped to 114½.

The industrial list has been generally steady. American Sugar has fluctuated between 115⅞ and 113⅞ on limited sales. Am. Tobacco has been weak on reported competition in business, and declined from 112½ at the close last week to 107¼. Distilling has been strong notwithstanding the efforts to prevent the sale of its property and probable future litigation. General Electric has lost 1 point of the 2 points gained last week. Chicago Gas and U. S. Leather shares have been dull, but are fractionally higher than our last quotations.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending AUGUST* 16, *and since JAN.* 1, 1895.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Roads.	Latest Earnings Reported.			Jan. 1 to Latest Date	
	Week or Mo	1895.	1894.	1895.	1894.

Western New York & Pennsylvania Railway.

(Year ending June 30, 1895.)

This *railway* company took possession of the old *railroad* of the same name in March, 1895. The new company has issued a general mortgage for $10,000,000. The Auditor explains that the interest on these bonds to June 30 is not included in the charges, as it was provided for out of assessments on the stock at the time of reorganization. The interest charges below do not include any interest on the old second mortgage bonds. Interest charges on the new general mortgage bonds for the current fiscal year 1895-96 will amount to $200,000, being at the rate of 2 per cent.

Troy City Railway.

(Report for the year ending June 30, 1895.)

Earnings for the late fiscal year, compared with the previous year, have been as follows:

Year ending June 30—	1895.	1894.
Gross earnings	$454,076	$422,517
Operating expenses	229,565	206,466
Net earnings	$224,511	$216,051
Other income	1,913	2,896
Net income	$226,424	$218,947
Interest, taxes, etc.	119,532	118,595
Balance, surplus	$106,892	$100,352

GENERAL BALANCE SHEET JUNE 30, 1895.

Assets.		*Liabilities.*	
Cost of road and equipment	$2,008,714	Capital stock	$2,000,000
Stocks and bonds of other corporations	724,372	Stock of leased roads	764,000
Other pers. and t'nvest-ments	2,260,000	Funded debt	2,000,000
Supplies on hand	54,241	Loans and bills payable	186,000
Due on open accounts	8,090	Interest due and accrued	24,575
Cash on hand	37,915	Miscellaneous	414
		Profit and loss, surplus	136,313
	$5,092,332		$5,092,332

On Dec. 31, 1894, loans and bills payable were $66,650.—V. 60, p. 969.

Metropolitan Street Railway Co. of Kansas City, Mo.

(Report for the year ending June 1, 1895.)

President C. F. Morse has made the following statement, which embodies a report of earnings for the year ending June 1, 1895. A map of the company's lines appears in our STREET RAILWAY SUPPLEMENT.

The company has recently acquired the principal street railways of Kansas City and thereby controls the surface railway business of that place. It now owns 114·1 miles of single track railway, of which 64·5 miles are worked by cable, 28 miles by electricity and 12·8 miles with horses. The capital stock is $5,[illegible],000 and its authorized funded debt is $[illegible],000, of which about $1,000,000 is to remain in the treasury for future requirements.

The combined earnings, expenses and fixed charges of the railways now owned for the year ending June 1, 1895, were as follows:

Gross earnings	$1,544,160
Operating expenses, including taxes and insurance	906,941
Net earnings	$637,219
Fixed charges, including interest on all mortgage bonds and on floating debt	365,920
Surplus earnings	$271,299

In addition to the lines of surface railways, the company has acquired practically all the stock of the Kansas City Elevated Railway Co., in consideration for which it has guaranteed $500,000 6 per cent bonds and $2,500,000 4 per cent bonds of that company. This guaranty is an obligation of the Metropolitan Street Railway Co but is not a lien on the property. The results of the operation of the Elevated Railway Co. are not included in the above statement.

Kansas City from its hilly character is an excellent street railway city, as is evidenced by the fact that the gross earnings for the entire system upon which the bonds are a mortgage were over $12,637 per mile of single track for the year 1894. It is confidently expected that the consolidation of the street railways of Kansas City will result in increased gross

earnings and reduced operating expenses. For the year ending June 1, 1894, the total interest charges will be $379,800.

The issue of consolidated bonds is limited to $8,500,000, and is secured by a mortgage on the whole Metropolitan system. It is a first mortgage on important parts of the system which have cost $3,069,847, subject only to a lien of $300,000, maturing in 1897. The proceeds of the bonds sold will pay off the floating debt and provide funds for the improvements at present needed. There will remain in the treasury about $1,000,000 bonds for future use, and in the hands of the trustees $4,550,000 to retire the same amount of existing bonds at maturity. The company has paid dividends every year since its incorporation except one.

The physical condition of the property is good. No unusual expenditures will be required for some time to come, though, if conditions are favorable, it is probable that steps may be taken before long to convert certain horse lines into electric lines. The $1,000,000 of bonds reserved in the treasury of the company will furnish more than enough funds for equipping the present horse lines with electricity.

By recent action of the City Council of Kansas City, Missouri, all franchises now controlled by the Metropolitan Street Railway Co. in that city, including that of the Elevated Company, have been extended to 1925, or fifteen years beyond the maturity of the consolidated mortgage bonds.—V. 60, p. 1104.

GENERAL INVESTMENT NEWS

Albany (Street) Ry.—Earnings for the quarter and the twelve months ending June 30 have been reported as follows:

3 mos. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1895	$137,039	$59,162	$1,172	$22,201	$38,133
1894	114,963	47,000	2,599	21,652	27,947
12 months—					
1894-95	$492,968	$169,280	$4,837	$92,713	$81,404
1893-94	424,352	170,134	4,040	88,419	85,755

—V. 60, p. 672.

Appleton Edison Electric.—A. L. Smith, President of this company, was on August 8 appointed its receiver in foreclosure proceedings instituted by the New York Security & Trust Company, the trustee under a $75,000 mortgage. The water power was cut off July 15 and since then no cars have been run, and the lighting of the city, for which the company had the contract, has been done only in part.

Atchison System—Atlantic & Pacific RR.—At Albuquerque, N. M., Aug. 15, Judge Collier handed down his decision in the application for a separate receiver for the Atlantic & Pacific, part of the Santa Fe Railroad system, refusing to grant the petition. The Court said:

"A summary of facts shown on this hearing are that prior to either of said companies going into the hands of receivers, they and other railroads, nearly all of which are also in the hands of receivers courts, constituted a transcontinental railroad system, which had built up for itself an enormous business, and that defendant company, for which receivers were appointed by this court, was primarily built by the aid of the other two companies, to form with them a through line to the Pacific Coast. It is also shown that of itself and independent of such connection as has subsisted between it and one of these companies, the Atchison, it could not be maintained as a going concern, that if it were entirely divorced from the Atchison system it would be worthless unless capital should build other connections for it."—V. 61, p. 111.

Atchison Topeka & Santa Fe.—The following official statement shows the deposits of bonds under the reorganization plan at the several depositaries up to August 14, 1895:

Gen. mort. 4s, total issue, $129,320,776 54. Deposits:		* 2d mort. As and incomes, total issue, $79,191,107. Deposits:	
New York	$26,954,500	New York	$12,345,500
Boston	30,137,000	Boston	18,114,500
London	38,862,000	London	38,466,500
Amsterdam	31,340,500	Amsterdam	9,311,000
Total deposits	$127,294,000	Total deposits	$78,237,500
Second mort. 8s, total issue $10,000,000. Deposits:		Stock, total issue, 1,020,000 shares. Deposits:	
			Shares.
New York	$100,500	New York	376,762
Boston	174,500	Boston	291,015
London	9,054,000	London	278,130
Amsterdam	644,000	Amsterdam	50,300
Total deposits	$9,973,000	Total deposits	996,207

* Second mort. As $77,937,500; income bonds of Oct. 15, 1889, $1,253,607.

—V. 61, p. 195.

Boston & Albany RR.—Earnings for the quarter ending June 30 have been reported as follows. Results for the fiscal year were given in the Chronicle, p. 195.

3 months end. June 30—	Gross earnings.	Net earnings.	Interest, taxes, &c.	Balance, surplus.
1895	$2,288,315	$523,737	$137,468	$386,269
1894	2,164,714	832,880	139,737	693,143

—V. 61, p. 195.

Boston & Maine RR.—Earnings for the quarter and the 12 months ending June 30 have been reported as follows:

3 mos. end. June 30.	Gross earnings.	Net earnings	Interest, taxes, &c.	Balance, surplus.
1895	$4,329,565	$1,006,129	$930,788	$75,341
1894	4,008,356	1,501,026	901,676	599,350
12 months.				
1894-95	$17,308,080	$5,523,669	$4,144,639	$1,379,031
1893-94	16,277,846	5,576,872	4,169,080	1,407,792

The gross earnings include other income. Dividends and sinking fund charges for the year amounted to $1,306,746 in 1894-5, against $1,388,318 in 1893-94, leaving balance carried to profit and loss $72,285, against $19,479.—V. 61, p. 68.

Brooklyn Elevated RR.—Earnings for the quarter ending June 30 have been reported as follows. Statement of earnings for fiscal year ending June 30, 1895, will be found on a previous page.

3 mos. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1895	$524,597	$243,622	$1,764	$214,786	$30,600
1894	469,068	207,380	1,093	207,913	560

—V. 61, p. 195.

Buffalo Rochester & Pittsburg Ry.—Earnings for the quarter ending June 30 have been reported as follows. Results for the fiscal year were given last week.

3 months end. June 30—	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, Deficit.
1895	$727,254	$151,584	$12,957	$201,682	$37,141
1894	420,403	12,034	10,606	212,972	190,332

—V. 60, p. 834.

Central Railroad of New Jersey.—The Chronicle is authoritatively informed that this company has negotiated a sale of $1,750,000 of its general mortgage 5 per cent bonds. This disposes of the last issue that is available, the balance being held in trust to provide for prior bonds when due.—V. 60, p. 656.

Chesapeake & Ohio Canal.—In execution of authority conferred upon the Board of Public Works by the act of 1892, notice is given that sealed proposals are invited prior to 12 o'clock noon October 11 for the purchase of the entire interest of the State of Maryland in this canal company both as creditor and stockholder.—V. 61, p. 68.

Chester Valley RR.—The Pennsylvania Company for Insurance on Lives & Granting Annuities, trustee of the mortgage given by the Chester Valley Company in April, 1888, to secure an issue of bonds to the extent of $500,000, has filed a bill in equity in the Common Pleas Court, Philadelphia, asking for the appointment of a receiver and the foreclosure of the mortgage.

Chicago Peoria & St. Louis RR.—St. Louis Alton & Terre Haute.—At Springfield, Ill., August 15, Judge Allen in the United States Circuit Court ordered the sale of the Chicago Peoria & St. Louis Railroad on September 14. The road will be sold in three parcels—the first including the line from Pekin to Havana and Jacksonville, the second being the line from Havana to Springfield, $250,000 of stock in the Peoria & Pekin Union Railway and the line from Springfield to East St. Louis, and the third is the line proposed to be built from Havana to Rock Island. No bid of less than $250,000 for the first parcel, $200,000 for the second and $50,000 for the third will be accepted, but the property will be offered and sold as one piece if a greater price than the aggregate for the three parcels can be obtained.—V. 61, p 239.

Chicago St. Paul Minneapolis & Omaha—Superior Short Line.—The Superior Short Line, comprising about 40 miles of track and terminal property in the cities of Duluth and Superior, and which has heretofore been owned in the interest of the Chicago St. Paul Minneapolis & Omaha, has been formally merged into the system and its 5 per cent bonds for $1,500,000 assumed by the Omaha, in whose treasury they are held. Important improvements in the way of docks and increased terminal facilities, involving a cost of some $250,000, are being made.—V. 60, p. 1057.

Chicago & South Side Rapid Transit RR.—The address and amount of holdings of each holder of *extension bonds* of this company are desired by L. Z. Leiter, 81 South Clark Street, and Wm. B. Walker, 225 La Salle Street, Chicago, who propose to see what can be done toward protecting the bonds, in view of the pending reorganization.—V. 61, p. 240.

Cicero & Proviso Street Ry. (Chicago).—A mortgage for $2,500,000 has been filed by this company to secure 2,500 bonds, of which 971 reserved to retire at maturity the present first mortgage for $740,000.

The Secretary of the company is quoted as saying:

Of the remainder $500,000 will be held in the treasury, to be issued when needed, and the rest will be sold now, and the proceeds used in extending and improving our lines. The extensions will take in Cicero, Maywood, River Forest, Harlem and Proviso. We will also increase our power plant to three times its present capacity. Some months ago the directors of the company authorized an increase of the capital stock from $1,000,000 to $2,500,000, and this new stock will also be issued soon. No guaranty of bonds is contemplated.—V. 60, p. 259.

Cincinnati Lebanon & Northern Ry.—Earnings of this company for the fiscal years ending June 30 on thirty miles of road have been as follows:

Years end June 30.	Gross earnings.	Operating expenses.	Net earnings.
1894-5	$130,743	$80,272	$50,471
1893-4	127,339	79,357	47,982

—V. 60, p. 176.

Davenport & Rock Island Ry.—As previously reported, this road is financially embarrassed. A meeting of the stockholders has therefore been called for August 15 at Davenport, Iowa, "to approve the disposition of the property to a new company that shall be organized to take up the present floating debt." The notice of the meeting says:

It is the purpose to give each stockholder the privilege of taking such proportion of the stock of the new company as his present holdings bear to the old company. If the stockholders do not care to take the stock, the creditors are willing to take the stock at par, in lieu of their claims. The property earned last year nearly $12,000 over and above interest on all claims, but it is only necessary to explain that our railroad lies in three cities, each of which was anxious to outdo the other in street improvements, which not only burdened us with a tax of $165,856 for street improvements, but demanded the replacing of our tracks with new rails and ties. This, of course, meant heavy additional expense which amounted to about $131,007. These special assessments are now maturing, and provision must be made for pay-

ment. The road and rolling stock are in first-class physical condition, and as the manufacturing interests are now all busy there should be an improvement of receipts.—V. 61, p. 112.

Detroit Bay City & Alpena—Detroit & Mackinac.—Messrs. J. P. Morgan & Co. announce that they are now prepared to deliver the new securities upon surrender of reorganization certificates.—V. 60, p. 711.

Distilling & Cattle Feeding.—The injunction to prevent the Reorganization Committee from bidding for the portion of the property offered at the auction sale on Wednesday was dissolved by Justice O'Brien. Accordingly Levy Mayer, on behalf of the committee, renewed the bid contained in the decree of $9,800,000, and at this price the property was knocked down to him, there being no other bidders. In reviewing the bid Mr. Mayer said:

"I renew this bid on condition that the receiver prosecute the suits for over $1,000,000, as provided in the decree just read, and also on condition that all of the other terms of the decree be carried out to the letter."

The property purchased embraces the seventeen distilleries selected by the Reorganization Committee, as follows:

Shufeldt, of Chicago, the Star and Crescent distillery, of Tazewell County, Ill., the Central, of St. Louis; the St. Paul, of Dakota County, Minn., the Riverdale, of Chicago; the Hamburg, Tazewell County, Ill.; the Northern, of Peoria; the Manhattan, of Peoria; the Monarch, of Peoria; the Great Western, Woolner and Peoria distilleries, all of Peoria, the Willow Spring distillery, of Omaha; the Consolidated, of Cincinnati; the Maddux Hobart, of Hamilton County, Ky.; the Wabash, of Terre Haute, and Latonia, of Cincinnati.

The sale is made subject to the following conditions:

The property sold shall be subject to the trust lien to secure the payment of whatever sums shall be adjudicated to be due to the holders of a certain issue of $1,000,000 of bonds, secured by a trust deed to the Central Trust Company of New York, dated June 1, 1893, in a suit instituted by Gen. McCulla against Joseph B. Greenhut and others, which suit seeks to set aside the issue of $1,000,000 of bonds. The trust lien also secures the payment of such rebate vouchers as the Court shall finally order to be paid.

The Reorganization Committee must pay in cash only such proportion of the sum of $9,800,000 as the total number of shares of the Distilling & Cattle Feeding Company not owned or controlled by the Reorganization Committee bears to the total capital stock of the company, but it must pay the balance of the purchase price from time to time as required by any Court having jurisdiction, to the extent that it shall be necessary to enable the receiver to pay, in addition to the cost of administration, such of the claims filed as shall, upon final hearing, be ordered paid by the Court.

The new company, which will be called the American Spirits Manufacturing Company, was incorporated under the laws of Illinois. The objecting stockholders are still attempting to put obstacles in the way of the Reorganization Committee.—V. 61, p. 240.

Duluth Mississipi River & Northern RR.—A press dispatch from Duluth says that this company has filed a mortgage for $2,500,000 to the Central Trust Company of New York as trustee. The proceeds of the bonds will pay for building the line from Swan River on the Duluth & Winnipeg RR northerly to certain iron mines; in 1894 rails had been laid for a distance of 35 miles. The company's office is at Saginaw, Mich. At last accounts A. W. Wright was President.

Erie Telegraph & Telephone.—This company has declared the regular quarterly dividend of one per cent, payable August 19. For the six months from Jan. 1 to June 30 the earnings have been as follows:

Jan. 1 to June 30—	Sub-Cos. gross.	Proper. of divs. due Erie Co.	Erie dividends paid.	Erie surplus.
1895	$520,176	$120,863	(2 p. c.) $96,000	$24,863
1894	504,483	117,493	(2 p. c.) 96,000	21,493

Surplus of sub-companies over expenses and dividends was $23,910 in 1895 against $20,469 in 1894.—V. 59, p. 701.

Georgia & Alabama Ry.—Receivers Hawkins and Hambleton have this week delivered into the possession of the Georgia & Alabama Railway Co., which will hereafter operate it, the entire property of the Savannah Americus & Montgomery Railway, extending from Montgomery, Ala., to Lyons, Ga., a distance of 265 miles. President John Skelton Williams has announced the following general officers: Vice-President and General Manager, Cecil Gabbett; Treasurer, J. Wilcox Brown; Secretary, W. W. Mackall; Auditor and Acting Assistant Treasurer, W. H. Macfarland; General Freight and Passenger Agent, A. Pope.

The Vice President and General Manager, Cecil Gabbett, was formerly General Manager of the Central Railroad of Georgia system in the days of its prosperity, but retired from office of his own volition when the Central Railroad system fell into the hands of the Richmond Terminal syndicate. The General Freight and Passenger Agent, Mr. Pope, is well known in railroad circles, he having been prominent in developing the business of the Atlantic Coast Line system.—V. 61, p. 196.

Harvey Transit Company.—The Atlantic Trust Company has brought suit for foreclosure of a mortgage for $150,000 ($135,000 outstanding) against the Harvey Transit Company, which operates a street railway in Harvey, Ill. The interest due February, 1895, went to default.

Houston City Street Ry.—A member of the bondholders' committee has favored the CHRONICLE with interesting particulars regarding the status of this company, which was placed in the hands of John H. Kirby, of Houston, as receiver, on July 11. The receiver was appointed upon request of the bondholders' committee, which represents a large majority of the 6 per cent bonds, and also of O. M. Carter, the company's President. The company has outstanding $137,000 of 7 per cent and $1,250,000 of 6 per cent bonds; interest on the former loan is fully paid and the principal can be called and paid on reorganization. On the 6 per cents there will be four coupons in default on Sept. 1, 1895. The floating debt due is now all paid. Some damage claims are unsettled and a claim for paving is in suit. Cash on hand Aug 1, 1895, was some $23,000. The committee has not considered a plan of reorganization and will not until accurately informed by the receiver of the actual gross receipts.—V. 61, p. 112.

Little Rock Hot Springs & Texas RR.—This is a projected line extending from Little Rock, Ark., south westerly, crossing the St. Louis Iron Mountain & Southern Railway at Benton, thence westerly through Hot Springs to the Western Arkansas State line to a junction with the St. Louis & San Francisco and the Choctaw Coal & Railway Co at Wister, in the Indian Territory, with a branch from a point near Benton to Pine Bluff, Ark., in all a distance of about 200 miles. The road is graded from Benton to Hot Springs, 30 miles, and it is expected will be ready for operation in time for the coming winter business. Mr. Uriah Lott, formerly President of the San Antonio & Aransas Pass road, is the projector of the enterprise, which is being built by private capital. No bonds have yet been authorized.

Long Island Traction.—The interest due August 1 on the *collateral trust notes* was not paid.—V. 61, p. 112.

Louisville & Nashville RR.—This company reports actual results for the year ending June 30 as follows:

	1895.	1894.	Changes.
Gross earnings	$19,275,894	$18,974,337	Inc. $301,557
Operating expenses	12,277,773	11,863,785	Inc. 413,988
Net earnings	$6,998,121	$7,110,552	Dec $112,331
Charges	5,583,064	5,665,636	Dec. 82,572
Balance	$1,415,157	$1,444,916	Dec $29,759
Other income	363,273	272,288	Inc. 90,985
Total	$1,778,430	$1,717,204	Inc. $61,226
Total deductions	1,077,845	164,713	Inc. 913,132
Surplus	$700,585	$1,552,491	Dec. $851,906

As between this and the advance statement published in greater detail in the CHRONICLE of July 13, page 69, the changes are insignificant, the actual surplus for the year being $700,585, against an estimated surplus of $733,494.—V. 61, p. 240.

Manhattan (Elevated) Railway, N. Y.—Earnings for the quarter ending June 30 have been reported as below. Results for the fiscal year are given on a preceding page.

3 mos. end. June 30—	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1895	$2,452,847	$1,054,441	$259,021	$714,663	$379,799
1894	2,455,665	1,045,544	204,178	656,419	593,303

—V. 60, p. 1059.

Marietta & North Georgia RR.—At the receiver's sale on August 10 there were no bidders for any of the property except the bridge over the river at Knoxville. This was purchased by Lenoir Bros., of Lenoir City, for $40,000.—V. 60, p. 1049.

Memphis & Charleston.—The receivers have issued in pamphlet form a report for the six months ending December 31, 1894. This report shows that 1,000 tons of 75-lb. steel rail had been purchased; that 14,543 ties had been placed in the track, and that 20 miles of track had been fully ballasted with gravel and 50 miles refilled. The earnings were:

6 months to Dec 31.	Gross earnings.	Net earnings.	Interest on bonds.	Balance, deficit.
1894	$808,749	$171,589	$188,340	$14,750
1893	675,806	156,139	... ...	.....

[The last half of the year, however, is the period of greatest earnings. For the full *year* ending June 30, 1895, the gross earnings were $1,502,273, against $1,274,818 for 1893-94, and net earnings $174,348, against $208,262.] On Dec. 31, 1894, the interest on bonded debt due and unpaid aggregated $783,360. Since then an additional $188,340 of interest has matured and coupons of July 1, 1895, to a total of about $158,000 have been paid. The other floating liabilities Dec. 31, 1894, were: Bills payable—East Tennessee Virginia & Georgia Ry. loan with interest, $139,565; due receivers, $129,567; unpaid vouchers, etc., $18,104.—V. 61, p. 196.

Mexican Central Railway.—The following statement which appeared in the Boston *Herald* has been officially verified for the CHRONICLE:

	—Mexican Currency.—		—American Currency—		
6 mos.	Gross earn'gs.	Net earn'gs.	Net income.	Int. 1st mort.	Deficit.
1895	$4,603,911	$1,917,074	(*)$1,002,510	$1,153,006	$150,489
1894	4,293,951	1,376,950	.....	(†)	432,343

(*)Equivalent of net in U. S. currency at 51·6c., $988,981; net miscellaneous credit $13,529; total net as above $1,002,510.

The *Herald* says:

If the income of the subsidy trust fund for the half-year, $72,693 be deducted, the deficit would amount to only $77,796. The subsidy trust fund July 1, 1895, amounted to $3,443,278. In addition to this there are the $5,597,000 of priority bonds held by the trustees as an investment for the further protection of the mortgage bonds. The company made no draft upon the subsidy fund to meet the July coupons, not wishing to disturb the loans, and preferring to make one draft at the end of the year, if it becomes necessary. The above exhibit is decidedly encouraging, and indicates that the company is likely soon to earn its interest charges. Silver is now fully 2 cents higher than the above average. Gross earnings promise well.—V. 60, p. 1146.

Milwaukee & Lake Winnebago RR.—Wisconsin Central RR.—The Milwaukee & Lake Winnebago, of the Wisconsin Central system, has recently filed amendments to its charter providing for an additional issue of stock to the amount of $1,280,000, and for a new issue of divisional first mortgage

bonds amounting to $1,000,000, bearing 6 per cent interest and payable in thirty years. These securities will provide funds for constructing a new line to Lake Michigan, and ferry-slips, docks, etc., and the boats for a car ferry across Lake Michigan. The new railroad will be about forty-seven miles in length, extending from Neenah in an easterly direction to Menasha, and thence to Manitowac, Wis., on Lake Michigan. The terminals at that town will, it is estimated, cost about $500,000. The eastern terminus of the car ferry across Lake Michigan will be at Ludington, Mich., where connection will be made with the Flint & Pere Marquette.—V. 61, p. 111.

Mobile & Spring Hill Railway—Mobile Light & Railway.—The report recently current that the Mobile Light & Railway Company had been placed in receiver's hands was incorrect, the company's officials stating its finances to be in first class condition. The road really embarrassed was the Mobile & Spring Hill Railway, which is advertised to be sold at auction Sept. 2 to satisfy a judgment.—V. 61, p. 27.

New York Lake Erie & Western RR.—Those informed decline to give the facts regarding the reorganization plan, but state positively that the details circulated by the daily press are incorrect. The plan will be published in about thirty days.—V. 61, p. 240.

New York & New England RR.—Earnings for the quarter and the six months ending June 30 have been reported as follows:

3 *mos. end. June* 30.	*Gross earnings.*	*Net earnings.*	*Interest, taxes, etc.*	*Balance.*
1895	$1,566,826	$510,437	$459,549	sur. $50,888
1894	1,348,263	295,010	474,314	def. 176,304
6 months—				
1894-95	$2,864,655	$807,012	$922,618	def. $115,606
1893-94	2,473,256	505,412	933,856	def. 428,444

Loans and bills payable on June 30, 1895, were $675,000, same as on Jan. 1; interest due and overdue on funded debt, $1,264,390, against $726,085 on Jan. 1; receivers' certificates, $604,080, against $480,000 on Jan. 1.

The balance sheets of June 30, 1895 and 1894, compare as follows:

GENERAL BALANCE SHEET JUNE 30.

Assets.	1895.	1894.
Cost of road	$35,209,450	$35,038,349
Cost of equipment	5,343,785	5,311,566
Cash	454,249	147,305
Due from agents	528,854	465,082
Traffic balances due	165,703	252,543
Due from others	1,261,663	1,240,780
Materials and supplies	416,862	349,642
Dividend No. 13, payable May 1, 1892	128,275	128,275
Taxes and expenditures undistributed	155,015	96,341
Deficit	1,753,880	1,737,546
Total	$45,417,736	$44,767,429
Liabilities.		
Stock, common	$20,000,000	$20,000,000

Receivers' certificates	604,030	.....
Credit balances	157,882	187,344
Interest and rentals not due	47,691	157,420
Total	$45,417,736	$44,767,429

—V. 61, p. 196.

Northern Ohio.—Lake Erie & Western.—At Columbus Ohio, August 14, the Northern Ohio Railway was incorporated with a capital stock of $4,230,000 to operate a railroad between Delphos and Akron, 165 miles. The new company acquired the property of the Pittsburg Akron & Western Railway, which was sold at a foreclosure sale. The amount of stock is the same as that of the old company. A mortgage for $4,000,000 has been authorized, but only $2,500,000 bonds will now be issued, the provision for the remainder being for certain possible extensions under which the reserved bonds may be issued at $15,000 a mile. Of the bonds now to be issued, $1,000,000, being at the rate of $6,000 a mile, will be spent upon the property. The Lake Erie & Western guarantees the bonds in consideration of the important connections it will have from the alliance.—V. 61, p. 240.

Oregon Shore Line & Utah Northern.—The Oregon Short Line 6 per cent bondholders' committee, R. C. Martin, Chairman, gives notice that the Central Trust Co. of New York and the Old Colony Trust Co. of Boston will continue to receive bonds on payment of a penalty of $20 until August 31, after which date no bonds will be received, except upon such terms as the committee may determine.—V. 61, p. 241.

Peoria Decatur & Evansville Ry.—The *second mortgage* bondholders' committee, M. L. Scudder, chairman, has extended until Aug. 31 the time for deposit of bonds. The committee now represent a majority of the bonds and have applied for their listing on the New York Stock Exchange. See advertisement on another page.—V. 60, p. 1106.

Philadelphia & Reading RR.—Brigantine Beach RR.—The Philadelphia & Reading RR. Co. which has been operating the Brigantine Beach RR. from Brigantine Junction near Pomona to Brigantine, 15 miles, since it was built, notified the bondholders through their representative, Mr. George H. Cook, that they proposed to withdraw their rolling stock and discontinue operating the road after August 6. The Beach road is about 14 miles long and is bonded for $350,000, but does not pay expenses.—V. 60, p. 1144.

Pittsburg & Birmingham Traction.—The report submitted at the annual meeting this week showed: Gross earnings, $384,561 (including miscellaneous earnings of $35,799); operating expenses, $218,735; net earnings, $165,826; interest on bonds, $109,700; rentals, $12,317; taxes, $16,000; commission, $5,800; balance, surplus for year, $22,009. The earnings in July, 1895, are reported as $4,000 more than in July, 1894.

Pittsburg Monongahela & Wheeling.—This company has been organized to build a railroad from Monongahela City to Wheeling, W. Va., a distance of about 50 miles. A mortgage will be authorized, but the amount has not yet been determined upon. W. G. Dacey, of New York, is the President of the company.

Port Royal & Western Carolina.—Judge Simonton in the United States Circuit Court at Charleston, S. C., August 9, ordered the foreclosure sale of this road on October 17. The foreclosure suit, which has been pending for several months, was brought against both the Augusta & Knoxville and Port Royal & Western Carolina.—V. 60, p. 607.

Queen Anne & Kent County—Philadelphia Wilmington & Baltimore.—This road is to be sold at Sheriff's sale on Sept. 10 to satisfy judgments held against the property by the Pennsylvania Railroad. The line is about 26 miles long, extending from Townsend to Centerville, Md., and has been operated as a part of the Delaware division of the Philadelphia Wilmington & Baltimore. The Pennsylvania Railroad will probably purchase the property at the sale on Sept. 10.—V. 60, p. 347.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE *since* the last edition of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

Richmond Street Ry., Richmond, Ind.—A decree of foreclosure has been obtained against this company by the Union Trust Company of St. Louis, trustee of a mortgage upon which the principal and interest due amount to $238,117. The sale will take place in September.

Riverside Park Railway (Sioux City).—An order has been made for the foreclosure sale of this street railway under a mortgage to the Baltimore Loan & Trust Company.

Rochester Southern RR.—Lehigh Valley.—The Rochester & Honeoye Valley RR. and the Rochester & Southern RR. were consolidated this week as the Rochester Southern Railroad Company. The capital is $800,000. The line has been completed from Honeoye Fall as far as Hemlock Lake, 15 miles. It will be a feeder for the Lehigh Valley system.—V. 60, p. 837; V. 61, p. 112.

St. Cloud (Minn.) Street Car.—Arthur S. Huey has been appointed receiver of this company, a mortgage for $125,000 to the St. Paul Title Insurance & Trust Company, as trustee, being in default.

St. Louis Cape Girardeau & Fort Smith Ry.—The St. Louis *Globe-Democrat* says:

The appointment of Eli Klotz as receiver by Judge Green at Ironton does not affect the position of Louis Houck as receiver of the St. Louis Cape Girardeau & Ft. Smith Ry. An appeal was taken under a statute passed by the last Legislature, whereby Mr. Houck retains the receivership under appointment of January, 1894, by Judge Riley, at Jackson, until the case is decided by the Supreme Court.

Second Avenue (Street) RR. of New York.—Earnings for the quarter and the twelve months ending June 30 have been reported as follows:

3 *mos. end. June* 30.	*Gross earnings.*	*Net earnings.*	*Other income.*	*Interest, taxes, etc.*	*Balance, surplus.*
1895	$252,168	$58,254	$625	$25,341	$33,538
1894	277,914	65,368	625	33,073	32,920
12 months—					
1894-95	$954,963	$220,048	$2,500	$129,428	$93,120
1893-94	1,013,460	218 695	4,673	131,885	91,483

—V. 60, p. 607.

South Brunswick Terminal.—At Brunswick, Ga., Aug. 6, this road, connecting Waynesville and South Brunswick, a distance of 16 miles, together with all its wharf property and rolling stock, was sold on a mortgage foreclosure in which $500,000 was involved. It was bid in for $50,000 by H. S. Redman, representing Judge Hiram B. Steele and John B. Kerr, who in turn represent a syndicate of New York capitalists.

South California Motor Road (San Bernardino, Cal.)—This property was sold in foreclosure August 10, it is said, to the Pacific Improvement Company for $167,100. This road runs from San Bernardino to Riverside, a distance of twelve miles.

Steinway Railway (of Long Island City).—This company reports gross earnings for the three months ending June 30, 1895, as $73,842; operating expenses, $38,835; net earnings, $35,007. The balance sheet of June 30, 1895, showed:

Assets—		*Liabilities*—	
Cost of road etc.	$4,101,872	Capital stock	$2,500,000
Cash and other assets	114,365	First mortgage	1,500,000
		Bills payable	128,086
		Open accounts	59,418
		Profit and loss, surplus	28,633
Total	$4,216,037	Total	$4,216,036

Stuttgart & Arkansas River Ry.—At Little Rock, Ark., in the United States Court, on August 2, the Farmers' Loan & Trust Co. of New York applied for a receiver for the Pine Bluff & Eastern Railway and for the Stuttgart & Arkansas River Railway on the grounds that interest on the bonds had been in default since January, 1893, and that there were heavy judgments against the two railways. The case will be heard August 12 before Judge Parker at Fort Smith. President Gullette of the two railroads is said to be confident of defeating the motion.

Syracuse Binghamton & New York RR.—Earnings for the quarter ending June 30 have been reported as follows. Statement for the late fiscal year is given on a previous page:

3 months ending June 30—	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1895	$332,537	$191,260	$43,405	$147,855
1894	267,695	147,457	44,905	102,552

—V. 60, p. 838.

Trunk Lines Rates.—A meeting of the Eastern Trunk Line Committee was held this week. Concerning it Commissioner George R. Blanchard dictated the following official statement:

"The meeting held to-day, which was the most largely attended of the series, was an adjournment of the meetings held at the Oriental Hotel and Trunk Line offices in this city July 23-26. The proposed agreement discussed at the former dates was taken up, and after considerable discussion was unanimously referred to a further meeting of the Presidents of all interested lines, to be convened in this city about the middle of September. Pending the reference to and action by the September meeting, which may still further considerably modify the paper, it is an evident impropriety to make known the details of the arrangement or the particulars in which it differs from the present agreement, and no facts other than the above can be communicated."

Union Pacific Ry.—Judge Cornish, Master in Chancery, acting for the Court, filed at Omaha on the 9th inst. a report concurring in the recommendation of the receivers for the payment of past-due principal and interest on the Equipment Trust bonds. The Court will probably not act on the matter until some time after September 10th. The details as to the amount of principal and interest in default on the Equipment bonds "A" "B" and "C" are as below:

PRINCIPAL IN DEFAULT.		INTEREST IN DEFAULT.	
A, Oct., 1894	$75,000	A, Oct., 1894	$7,175
B, Apr., 1894	250,000	A, Apr., 1895	5,875
B, Oct., 1894	211,000	B, Oct., 1894	21,000
C, Apr., 1892	74,000	B, Apr., 1895	21,000
C, Apr., 1893	74,000	C, Oct., 1893	12,075
C, Apr., 1894	74,000	C, Apr., 1894	12,075
C, Apr., 1895	74,000	C, Oct., 1894	11,225
		C, Apr., 1895	11,225
Total	$789,000	Total	$103,250

—V. 61, p. 197.

United States Leather.—A Boston holder of this company's stock addressed a letter to President Hoyt, asking why unsettled liabilities for property purchased were not set forth in the annual report of the company; also whether the late rise in values has increased liabilities for the property purchased in 1893, and how assent to increased stock had been obtained. President Hoyt replied in part as follows:

1st.—The unsettled items could not have been set forth in the annual report because of the uncertain and questions which would arise from surveys, measurements and estimates then going on.

2d.—The late rise in values has not affected liabilities for property bargained for in 1893. The basis of valuation was fixed at that time.

3d.—The assent of stockholders to the proposed increase of stock was obtained by subscription papers which were handed or sent to the most active stockholders, and whom we also thought decided or hesitated to sign. The pro rata increase of two shares of new for one of outstanding stock, and the several filed in Trenton contain signatures of stockholders in excess of 75 per cent of the extent of $44,000,000 of preferred and $13,000,000 of common.—V. 61, p. 198.

Union Traction Company—Philadelphia Street Railway Consolidation.—Messrs. L. H. Taylor & Co. of Philadelphia have issued a circular concerning the pending consolidation from which the following statements are taken:

The new company will begin business with clean books, with cash and other free assets amounting to about $10,000,000, and with exclusive franchises of very great present value and of a prospective worth which is incalculable. These franchises cover not only the streets now in use by the companies, but also many others on which no tracks have been laid. We believe that the combination has been effected on an equitable basis.

The Union Traction Company will pay to the Philadelphia Traction Company in excess of the highest dividend hitherto earned by the latter company $500,000; to the Electric Traction Company, interest on the 4 per cent certificates $582,000; to the Peoples Traction Company, interest on the 4 per cent certificates $608,000. No dividends have been paid by the Peoples or Electric, and from this statement it is seen a total of $1,790,000 is to be paid in the way of charges by the Union Traction Company in excess of dividends hitherto paid by the three companies.

The capitalization of the Union Traction system and the fixed charges (estimated) for the first fiscal year ending September 30th, 1896, will be:

CAPITALIZATION.		FIXED CHARGES.	
Constituent Companies—		Guaranteed rentals	$2,135,000
Capital stock	$57,891,200	Guaranteed interest	580,000
Funded debt	11,675,000	Rent. Ph. Tract. Co.	1,600,000
Union Traction Co.—		Interest, coll. tr. 4s	1,139,400
Capital stock	30,000,000	Taxes, all compan's	600,000
Collateral trust 4s	29,735,000		$6,104,400
	$129,301,800	Less rent. & int. rec.	215,000
Less stocks in trust	21,000,000	Total net charges	$5,889,400
Total net capital'n	$108,301,800		

The questions remain: Can the new company earn this amount net? Can it earn anything in addition to apply to dividends on its $40,000,000 capital stock? We believe that it can and will do both. The number of passengers carried by all the lines in 1877 was 91,400,000; this increased in 1884 to 116,000,000; in 1888 to 151,000,000; in 1891 to 169,000,000; in 1893 to 182,000,000. Since the opening of 1894 all the conditions of street railway travel have been entirely changed by the introduction of the trolley system. The substantial increase in receipts did not begin, however, until March or April of 1895, by which date a large portion of the trolley plant had been installed and a number of the suburban lines opened. The gains thus far are unprecedented, and reports place the number of paying passengers carried by the roads in the Union Traction system at upwards of 240,000,000 for the year ending September 30, 1895. This is an increase of about 10 per cent for the Philadelphia Traction, 60 per cent for the Electric and 100 per cent for the Peoples. Completion of the extensions now in progress will round out the system to an immensely remunerative whole. Comprehensive changes in the routes within the city and a readjustment of the transfer system will also increase receipts without sustaining the facilities for satisfactory travel. It is authoritatively stated that the current rate of earnings of the Peoples Traction and the Electric Traction indicate net returns about equal to the interest on the collateral trust 4 per cents; so that practically these two companies will not be a charge upon the consolidated system. Without consolidation and in competition the Philadelphia Traction Company would, on natural increase of business, add $500,000 to its net receipts applicable to dividends during the fiscal year. The requirement is therefore that a combined system of 420 miles of street roads, without competition, shall earn net in order to meet charges only $1,000 more than the companies in the system could earn if working independently and in competition with each other.

Estimating the increase in receipts for the year ending Sept. 30, 1896, at not less than 20 per cent, the gross earnings of the Union Traction Company for the year will amount to $12,650,000. The operating expenses under present conditions and management do not exceed 50 per cent for all the lines. The most conservative managers of the old companies estimate that the charges for the first year, exclusive of rentals, interest and taxes, will not exceed 30 per cent, thus leaving net receipts of $6,325,000 with which to meet fixed charges not exceeding $5,889,400.

Too much reliance cannot, of course, be placed on conclusions which are based on estimates of this kind, but they are interesting as showing the manner in which an intelligent firm of brokers, viewing the consolidation from the outside, reason concerning it.

The time for assenting to the plan of consolidation by the Electric and People's shareholders expired Thursday and of the Electric Company's stock about 164,000 out of 175,000 shares had assented and of the Peoples 192,984 shares out of 200,000. The charter of the new Union Traction Company is expected to be obtained next week, and the new consolidation will afterwards be perfected, the final act being the lease of the Philadelphia Traction Company, which will be authorized by its shareholders late in September.—V. 61, p. 197.

United States Cordage.—Notice is given to holders of the 7% so-called "Boston Cordage" notes that said notes will be purchased, on or before Aug. 29, at par and interest on presentation at the Old Colony Trust Co., Boston, in case any of the holders desire to sell.—V. 61, p. 241.

Washington County RR.—The towns in Washington County, Me., which voted against giving aid to this road propose to test the constitutionality of the act allowing the county to subscribe for the preferred stock of the company.—V. 61, p. 198.

Washington & Georgetown RR.—Rock Creek Ry.—Capital Traction.—The two first-named street railway companies propose to consolidate under the name of the Capital Traction Company, with a capital stock of $12,000,000. The Washington & Georgetown Company is also said to have decided to issue $500,000 in bonds to complete the extension now in progress.

A circular has been issued by trustees of the estate of B. H. Bartol, announcing that the estate's holdings of stock, bonds and privileges of this company will be sold at auction in New York on Tuesday next. It is understood the trustees are opposed to the proposed consolidation.

Western New York & Pennsylvania Ry.—Earnings for the quarter ending June 30 have been reported as follows. Results for the fiscal year are given on a previous page, to which we refer for explanation of the interest charges.

3 mos. end. June 30—	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance.
1895	$817,950	$232,506	$6,074	$149,780	sur $88,890
1894	653,434	146,012	30	168,174	def. 22,132

—V. 60, p. 1151.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, August 16, 1895.

Operations in bulk parcels of merchandise have fallen off somewhat during the week. Extremely hot weather and the absence of many merchants upon vacation trips served as quieting influences upon business. In the jobbing division of trade, however, fair animation is reported and information at hand from various portions of the country indicates a disposition on the part of tradesmen to make fair investments in all staple commodities. Speculative ventures in leading staples attract only moderate attention from the outside trading public. Export demand for cereals is considered satisfactory. No deterioration in general crop conditions has been reported. At points east of the Mississippi River corn is in need of rain, but in other localities maintains former good promise. Oats and spring wheat are doing well, and there is a slight increase in movement of winter wheat from farmers' hands. Cured meats are dull and easy in tone, in consequence of favorable outlook for large corn crop.

For lard on the spot there has been very little demand, and during the first half of the week prices declined, but subsequently part of the loss was recovered, and the close was steady at 6·50c. for prime Western, 6·15c. for prime City and 6·85c. for refined for the Continent. There has been no speculation in the local market for lard futures and prices have followed the West, closing slightly lower.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September.....c.	6·45	6·42	6·37	6·35	6·45	6·50

For pork the demand has been very limited, but prices have been well held, closing steady at $11 25@$11 75 for mess, $12 50@$12 75 for family and $12@$14 for short clear. Cut-meats have been quiet but steady, closing at 7c.@7½c. for pickled bellies, 12@10 lbs. average, 5½c.@5¾c. for pickled shoulders and 9c.@9½c. for pickled hams. Beef has been without change, closing at $7 50 for extra mess, $9@$10 50 for packet, $11@$12 50 for family and $16 50@$17 50 for extra India mess. Beef hams have been quiet, closing at $16 50. Tallow has advanced and the close was firm, with sales at 4⅜c. Lard stearine has been dull at 8c.@8½c. Oleo stearine has further declined, closing at 6⅛c. Cotton-seed oil has declined, closing at 27c. for prime yellow and 26½c.@27c. for off grade yellow. Butter has been quiet, but the close was steady at 18c.@20c. for creamery. Cheese has been quiet but steady for the choice grades, closing at 5½c.@8½c. for State factory full cream. Fresh eggs have been in good supply and prices have declined, closing at 13c.@13½c. for choice Western.

Coffee has found somewhat irregular demand, and with more pressure to realize upon an improving average of quality advantages were mainly with buyers. Rio quoted at 16¼c. for No. 7, good Cucuta 19¼c. and standard Java 27¼@27½c. For future delivery trading was irregular, but average tone weak, holders inclining to realize under influence of heavier crop movement. The close is a shade firmer.

The following were the final asking prices:

Aug.....15·35c	Nov.....15·20c.	Feb.....14·95c.	
Sept.....15·35c.	Dec.....15·20c.	March.....14·90c.	
Oct.....15·45c.	Jan.....15·05c.	April.....	

Raw sugars sparingly offered and less active, but generally held firmly at former rates. Centrifugal quoted at 3 5-16c. for 96 degrees-test and muscovado at 3c. for 89 degrees-test. Refined sugars slow of sale, closing generally dull; granulated quoted 4⅝c. Other staple groceries generally quiet.

The demand for Kentucky tobacco has continued quiet but prices have held steady; sales 175 hhds., principally for export. Seed leaf tobacco has sold slowly but no decided changes have been made in prices; sales for the week 1,150 cases, as follows: 50 cases 1892 crop, Wisconsin Havana, 13@14c.; 100 cases 1893 crop, Wisconsin Havana, 7@9c.; 50 cases 1891 crop, Gebhart's, private terms; 50 cases 1892 crop, Little Dutch, 12c.; 200 cases 1893 crop, Pennsylvania Bs, 12@13c.; 150 cases 1894 crop, New England Havana, 18@20c; 150 cases 1892 crop, New England Havana, 30@35c.; 300 cases 1893 crop, New England Havana, 8@12c., and 100 cases 1892 crop, Onondaga, 10@12c.; also 450 bales Havana, 80c.@$1 20, and 300 bales Sumatra, 50c.@$3 in bond.

In the market for Straits tin the speculation has been quiet, and prices have weakened slightly in response to easier foreign advices, closing steady at 14·10c. Ingot copper has continued to advance and the close was steady at 12·25c. for Lake. Lead has been without important change and the close was steady at 3·52½c. for domestic. Spelter has further advanced, and the close was strong at 4·15@4·20c. for domestic. Pig iron has sold fairly well at steady prices.

Refined petroleum has been unchanged, closing at 7·10c. in bbls., 4·60c. in bulk and 7·50c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have declined, closing at 1·26c. bid. Spirits turpentine has been quiet but steady, closing at 27@27¾c. Rosin has been without important change, closing at $1 50@$1 55 for common and good strained. Wool has been quiet but steady, and hops have been dull and weak.

COTTON.

FRIDAY NIGHT, August 16, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 1,749 bales, against 2,137 bales last week and 1,760 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,869,576 bales, against 5,931,788 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,937,788 bales.

Speculation in cotton for future delivery at this market has been upon a more liberal scale and under exciting conditions. On Saturday the receipt of the monthly crop statement from the Government Bureau disclosed an estimated condition very much below previously entertained views of operators and served to create an immediate covering stampede among the shorts, prices advancing 16@17 points during the short session of the day. Monday opened with a further sharp advance of 16@18 points, upon the stimulus of additional covering, some investment buying and strong advices from Europe, but before the close the tone eased away somewhat. Tuesday's market was generally easier, previous covering having largely eliminated the short interest and some longs manifesting a desire to liquidate, under which there was a net decline of 9 points. Wednesday's dealings were principally subject to local manipulation, causing great irregularity in prices, but after 12 points advance the net gain at the close was only 4 points. Yesterday business was moderate, with tone generally easy and 2 points net loss made. To-day there was further decline of 607 points under less favorable foreign accounts and reports of beneficial rains in Texas. Cotton on the spot advanced in sympathy with contracts and found fair demand. Middling uplands quoted at 7 9-16c.

The total sales for forward delivery for the week are 1,054,600 bales. For immediate delivery the total sales foot up this week 4,379 bales, including 200 for export, 3,679 for consumption — for speculation and 500 on contract. The following are the official quotations for each day of the past week—August 10 to August 16.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1 1/4 on.	Good Ordinary	c. 1 1/4 off.
Middling Fair	7/8 on.	Good Middling Tinged	Even.
Strict Good Middling	1/2 on.	Strict Middling Stained	1/2 off.
Good Middling	5/16 on.	Middling Stained	7/16 off.
Strict Low Middling	1/4 off.	Strict Low Mid. Stained	25/32 off.
Low Middling	7/16 off.	Low Middling Stained	1 1/4 off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Aug. 16), we add the item of exports from the United States, including in it the exports of Friday only.

☞ The imports into Continental ports the past week have been 14,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 460,247 bales as compared with the same date of 1894, an *increase* of 241,444 bales over the corresponding date of 1893 and a decrease of 126,691 bales from 1892.

At the Interior Towns the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns.	Movement to August 16, 1895. Receipts. This week.	Receipts. Since Sept. 1, '94.	Shipm'ts This week.	Stock Aug. 16.	Movement to August 17, 1894. Receipts. This week.	Receipts. Since Sept. 1, '93	Shipm'ts This week.	Stock Aug. 17.

* Louisville figures "net" in both years.

The above totals show that the interior stocks have *decreased* during the week 2,028 bales and are now 15,225 bales *less* than at same period last year. The receipts at all the towns have been 5,227 bales *less* than same week last year and since Sept. 1 are 1,765,973 bales *more* than for same time in 1894-95.

Quotations for Middling Cotton at Other Markets.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Aug. 16	Closing Quotations for Middling Cotton on—

Eufaula	7	Natchez	6 7/8	Shreveport.....	6

Receipts from the Plantations.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
July 12. ...	15,762	5,910	5,866	120,466	76,577	58,762	10,448	3,101	.. ..
" 19.....	11,091	3 812	2,676	110,269	73,105	56,304	894	340	218
" 26.....	10,205	3,921	2,734	97,788	65,945	53,396	.....	.....	.....
Aug. 2.....	10,713	3,944	1,760	91,651	62,859	47,202	4,576	858	.....
" 9	9,243	5,732	2,137	84,067	59 935	43,742	2,259	2,808	.....
" 16.	12,248	7,213	1,749	79,179	56,939	41,714	6,760	4,217	.....

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,853,955 bales; in 1893-94 were 5,912,561 bales; in 1892-93 were 5,083,503 bales.

2.—That although the receipts at the outports the past week were 1,749 bales, the actual movement from plantations was only —— bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 4,217 bales and for 1893 they were 6,760 bales.

Overland Movement for the Week and since Sept. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Aug. 16 and since Sept. 1 in the last two years are as follows:

August 16.	1894-95.		1893-94	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	2,054	943,439	1,559	617,307
Via Cairo	143	337,376	232	233,431
Via Hannibal	.....	545	.....	13,756
Via Evansville	.....	3,817	.....	7,406
Via Louisville	206	190,297	994	133,699
Via Cincinnati	122	178,311	300	108,552
Via other routes, &c.....	94	142,040	75	130,093
Total gross overland	2,619	1,795,825	3,160	1,244,244
Deduct shipments—				
Overland to N. Y., Boston, &c .	510	576,870	1,587	303,391
Between interior towns.....	107	33,673	5	21,913
Inland, &c., from South.....	1,312	84,249	450	104,830
Total to be deducted	1,929	694,192	2,042	430,134
Leaving total net overland* ..	690	1,101,633	1,118	814,110

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 690 bales, against 1,118 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 287,523 bales.

* Decrease during week. † Less than September 1.

It will be seen by the above that there has come into sight during the week 10,411 bales, against 12 335 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,296,917 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph this evening from the South indicate that the weather has been very warm as a rule during the week. Very litte rain has fallen anywhere in the Southwest, and generally moisture is much needed. There is also complaint of insufficient rainfall from points in Tennessee. On the other hand, in a few localities along the Gulf and Atlantic there has been rather too much rain. In Texas cotton is beginning to open rapidly in consequence of the warm and dry weather, but picking is not expected to become general until towards the close of the month. Damage from boll worms is claimed in the vicinity of Shreveport and shedding is reported from some districts of Texas and Mississippi.

Galveston, Texas.—We have had but a trace of rain during the week. The thermometer has ranged from 77 to 94, averaging 86.

Palestine, Texas.—Dry weather has prevailed all the week. Average thermometer 84, highest 98, lowest 70.

Huntsville, Texas.—It has rained during the week, but to an inappreciable extent. The thermometer has averaged 85, the highest being 98 and the lowest 73.

Dallas, Texas.—The warm and dry weather of the past week has caused cotton to open very rapidly. Some picking is going on, but crop gathering will not be general until towards the close of the month. Shedding is reported in a number of districts. A good rain is needed for cotton, more particularly on uplands, as the past week's showers have been local and insufficient, and have done little good. There has been rain on two days during the week, the precipitation being twenty-three hundredths of an inch. The thermometer has averaged 87, ranging from 72 to 102.

San Antonio, Texas.—Rain has fallen during the week, but too lightly to measure. The thermometer has ranged from 72 to 100, averaging 86.

Luling, Texas.—We have had rain on one day during the week, the precipitation being thirty-three hundredths of an inch. Average thermometer 86, highest 100, lowest 72.

Columbia, Texas.—There has been only a trace of rain during the week. The thermometer has averaged 84, the highest being 98 and the lowest 70.

Cuero, Texas.—We have had dry weather all the past week. The thermometer has averaged 87, ranging from 74 to 100.

Brenham, Texas.—There has been no rain during the week. The thermometer has ranged from 74 to 100, averaging 87.

Belton, Texas.—Dry weather has prevailed all the week. Average thermometer 87, highest 100, lowest 74.

Fort Worth, Texas.—We have had rain on two days of the week, the rainfall being fifteen hundredths of an inch. The thermometer has averaged 86, the highest being 101 and the lowest 72.

Weatherford, Texas.—There has been rain on two days during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 86, ranging from 72 to 100.

New Orleans, Louisiana.—We have had rain on four days of the week, the rainfall reaching one inch and nine hundredths. Average thermometer 82.

Shreveport, Louisiana.—It is reported that boll worms have done much damage. Moisture is badly needed for cotton and gardens. There has been rain on one day of the past week, the precipitation reaching one hundredth of an inch. The thermometer ranged from 71 to 91, averaging 84.

Columbus, Mississippi.—Too much rain in some localities has injured corn and caused cotton to shed. There has been rain on five days of the week, to the extent of three inches and forty-five hundredths. The thermometer has averaged 82, the highest being 99 and the lowest 70.

Leland, Mississippi.—We have had rain during the week, to the extent of one inch and ten hundredths. The thermometer has averaged 79·5, ranging from 69 to 92.

Meridian, Mississippi.—Telegram not received.

Little Rock, Arkansas.—We have had rain on one day of the week, the precipitation reaching eighty hundredths of an inch. Average thermometer 81, highest 91 and lowest 72.

Helena, Arkansas.—Some planters state that their crops of cotton are one-third less than last year. There is but little bottom crop. This has been the warmest week of the season. It has been showery on two days of the week, the precipitation reaching forty-six hundredths of an inch. The thermometer has averaged 82, the highest being 94 and the lowest 70.

Memphis, Tennessee.—The weather has been hot and dry, with the exception of light showers on two days in the early part of the week. The crop needs moisture. The precipitation reached ten hundredths of an inch. The thermometer averaged 81, ranging from 70·6 to 92·8.

Nashville, Tennessee.—There has been rain on two days of the past week, the precipitation reaching twelve hundredths of an inch. The thermometer has ranged from 96 to 92, averaging 80.

Mobile, Alabama.—Crop reports are unfavorable. Plants are poorly fruited, the bottom crop very short and the middle crop doubtful. Our first bale was received on August 14 from Wilcox County, Ala. It classed strict low middling, weighed 472 lbs. and sold for ten cents per pound. We have had rain on six days of the week, the rainfall reaching one inch and seven hundredths. Average thermometer 80, highest 89 and lowest 72.

Montgomery, Alabama.—There has been rain on six days of the week, to the extent of two inches and nine hundredths. The thermometer has averaged 80, the highest being 89 and the lowest 71.

Selma, Alabama.—Cotton on good land is improving where rains have fallen. On thin lands there is no improvement. It has rained on two days of the week, the precipitation reaching nine hundredths of an inch. The thermometer has averaged 80, ranging from 70 to 88.

Madison, Florida.—Telegram not received.

Columbus, Georgia.—We have had rain on six days of the week, to the extent of two inches and seventy-nine hundredths. Average thermometer 79, highest 88 and lowest 70.

Savannah, Georgia.—The week's rainfall has been fifty-two hundredths of an inch, on five days. The thermometer has averaged 82, the highest being 92 and the lowest 72.

Augusta, Georgia.—It has rained on five days during the week, to the extent of seventy-seven hundredths of an inch. The thermometer has averaged 81, ranging from 73 to 93.

Albany, Georgia.—Telegram not received.

Charleston, South Carolina.—Rain has fallen on three days of the week, the precipitation being seventy-eight hundredths of an inch. Average thermometer 82, highest 89 and lowest 74.

Stateburg, South Carolina.—Crops are in good condition. It has rained on four days of the week to the extent of fifty-eight hundredths of an inch. The thermometer has averaged 80, the highest being 89 and the lowest 73.

Greenwood, South Carolina.—Telegram not received.

Wilson, North Carolina.—We have had rain on two days during the week, with a precipitation of one inch and forty hundredths. The thermometer has ranged from 73 to 94, averaging 83.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock August 15, 1895, and August 16, 1894.

		Aug. 15, '95.	Aug. 16, '94.

Vicksburg	Above zero of gauge.	14·8	3·8

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to August 15.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week. Great Brit'n.	Shipments this week. Contin't.	Shipments this week. Total.	Shipments since Sept. 1. Great Britain.	Shipments since Sept. 1. Contin't.	Shipments since Sept. 1. Total	Receipts. This Week.	Receipts. Since Sept. 1.
'94-5	.....	2,000	2,000	26,000	52,000	548,000	9,000	1,518,000
'93-4	.....	4,000	4,000	47,000	1,000	878,000	8,000	1,780,000
'92-3	.....	.....	.....	44,000	803,000	847,000	6,000	1,732,000
'91-2	.....	1,000	1,000	69,000	529,000	598,000	2,000	1,743,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 1,000 bales and a *decrease* in shipments of 2,000 bales, and the shipments since Sept. 1 show a *decrease* of 332,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week. Great Britain.	Shipments for the week. Contin't.	Shipments for the week. Total.	Shipments since Sept. Great Britain.	Shipments since Sept. Continent.	Shipments since Sept. Total
Calcutta—						
1894-95	.....	.....	.....	8,000	36,000	44,000
1893-94	.....	.....	.....	20,000	86,000	106,000
Madras—						
1894-95	1,000	..	1,000	10,000	12,000	22,000
1893-94	.....	1,000	1,000	31,000	22,000	53,000
All others—						
1894-95	3,000	2,000	5,000	30,000	94,000	123,000
1893-94	2,000	2,000	4,000	41,000	125,000	166,000
Total all—						
1894-95	4,000	2,000	6,000	47,000	142,000	189,000
1893-94	2,000	3,000	5,000	92,000	233,000	325,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1894, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1894-95. This week.	1894-95. Since Sept. 1.	1893-94. This week.	1893-94. Since Sept. 1.	1892-93. This week.	1892-93. Since Sept. 1.
Bombay	2,000	546,000	4,000	878,000	...	847,000
All other ports	6,000	189,000	5,000	323,000	13,000	174,000
Total	8,000	735,000	9,000	1,201,000	13,000	1,021,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, August 14	1894-95.	1893-94	1892-93.
Receipts (cantars*).....			
This week....	.....	.....	.....
Since Sept. 1.	4,538,000	4,933,666	5,143,000

	This week	Since Sept. 1.	This week	Since Sept. 1.	This week	Since Sept. 1.
Exports (bales)—						
To Liverpool.....	.....	274,000	5,000	311,000	2,000	313,000
To Continent†.....	3,000	350,000	6,000	349,000	2,000	349,000
Total Europe.....	3,000	624,000	11,000	660,000	4,000	662,000

* A cantar is 98 pounds.
† Of which to America in 1894-95, 43,410 bales; in 1893-94, 27,054 bales; in 1892-93, 38,365 bales.

This statement shows that the receipts for the week ending Aug. 14 were —— cantars and the shipments to all Europe 3,000 bales.

Manchester Market.—Our report received by cable to night from Manchester states that the market is firm for both yarns and shirtings. Orders are coming in more freely from China. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

Sea Island Cotton Movement.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (August 16) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

Receipts to Aug. 16	1894-95.		1893-94.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894
Savannah.....	8	64,269	....	54,178	368	843
Charleston.....	....	5,359	....	2,245	24	339
Florida, &c.....	....	5,139	....	3,571	....	735
Total.....	8	74,767	....	59,994	392	1,917

The exports for the week ending this evening reach a total of —— bales, of which —— bales were to Great Britain, —— to France and —— to Reval, and the amount forwarded to Northern mills has been 8 bales. Below are the exports for the week and since September 1 in 1894-95 and 1893-94.

Exports from—	Week Ending Aug. 16.			Since Sept. 1, 1894.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1
Savannah...	....	.....	.....	18,085	2,441	20,526	8	29,252

Total 1893-4	.....	.....	.....	32,623	4,686	37,309	82	22,557

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore, Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Aug. 16 at Savannah, for Floridas, all nominal. Charleston, Carolinas, all nominal.

European Cotton Consumption to August 1.—We have received to-day by cable Mr. Ellison's cotton figures brought down to August 1. The revised totals for last year have also been received and we give them for comparison. Spinners takings in *actual* bales and pounds have been as follows:

October 1 to August 1.	Great Britain.	Continent.	Total.
For 1894-95.			
Takings by spinners...bales	2,857,000	3,955,000	6,812,000
Average weight of bales.lbs	501	478	487·7
Takings in pounds.....	1,431,457,000	1,890,690,000	3,322,147,000
For 1893-94.			
Takings by spinners...bales	2,866,000	3,780,000	6,646,000
Average weight of bales.lbs.	477	463	469·1
Takings in pounds.....	1,367,411,000	1,750,413,000	3,117,824,000

According to the above, the average weight of the deliveries in Great Britain is 501 pounds per bale this season, against 477 pounds during the same time last season. The Continental deliveries average 478 pounds against 463 pounds last year, and for the whole of Europe the deliveries average 487·7 pounds per bale against 469·1 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 400 pounds.

Oct. 1 to Aug. 1. Sales of 400 lbs. each, 000s omitted.	1894-95.			1893-94.

In April.....	82,0	98,0	180,0	80,0	93,0	173.0
In May.....	82.0	98,0	180,0	80,0	93.0	173,0
In June	82,0	98,0	180.0	80,0	93,0	173,0
In July	82.0	98,0	180.0	80.0	93.0	173.0

The foregoing shows that the weekly consumption is now 180,000 bales of 400 pounds each, against 173,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have decreased 15,000 bales during the month and are now 269,000 bales greater than at the same date last year.

Jute Butts, Bagging, &c.—Jute bagging has been without features of special importance the past week. Current business has been of only fair volume, but prices are unchanged at 4⅛c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4½c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5¼c. for 2¼ lbs f. o. b. at New York. Jute butts have been quiet on the spot at 1⅛c. for paper quality, 1⅛c. for mixing, and bagging quality nominal in the absence of stock.

COTTON CROP CIRCULAR.—Our Annual Cotton Crop Review will be ready in circular form about Thursday, the 5th of September. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

THE AGRICULTURAL DEPARTMENT'S AUGUST REPORT.—The following statement, showing the condition of cotton, was issued by the Department of Agriculture on August 10:

The August report of the Statistician of the Department of Agriculture shows a reduction in the condition of cotton during the month of July from 82·3 to 77·9, or 4·4 points. This is the lowest average for August ever reported, being two and a-half points lower than the average for August 1893.

The reason for low condition generally given by correspondents is excessive moisture, though in South Carolina drouth seems to be the principal cause of injury. There is much complaint of grass and not a little of rust, blight, worms and insect enemies of the plant.

The State averages of condition are: Virginia 81, North Carolina 74, South Carolina 81, Georgia 87, Florida 92, Alabama 81, Mississippi 83, Louisiana 71, Texas 71, Arkansas 89, Tennessee 89.

Collecting the three month's figures of the present season, and comparing them with the reported condition for the same months of last season, we have the following results:

States.	1895.			1894.		
	June.	July.	August.	June.	July.	August.
Virginia	....	....	81	....	....	....
North Carolina	61	74	74	84	91	95
South Carolina	72	84	81	83	89	96
Georgia	82	88	87	76	78	85
Florida	82	93	92	92	93	93

Average	81·0	82·3	77·9	88·3	89·6	91·8

FALL RIVER MILL DIVIDENDS.—In our editorial columns to-day will be found an article showing the results of operations of Fall River Mills during the third quarter and first nine months of 1895.

DOMESTIC EXPORTS OF COTTON MANUFACTURES.—Through the courtesy of Mr. W. C. Ford, Chief of the Bureau of Statistics, we have received this week a statement showing the exports of domestic cotton manufactures for June and for the twelve months ended June 30, 1895, with like figures for the corresponding periods of the previous year, and give them below:

Quantities of Manufactures of Cotton (colored and uncolored) exported to—	Month ending June 30.		12 mos. ending June 30.

NEW GEORGIA COTTON.—The first bale of new cotton raised in Georgia was received at Savannah on Monday, August 12, by W. W. Gordon & Co., from J. W. Worsten, Dawson, Ga. It classed good middling and sold for 7½c. per pound. Last year the first Georgia bale reached Savannah on August 11 and in 1893 on July 29.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1894, and in previous years, have been as follows:

Monthly Receipts.	Year Beginning September 1					
	1894.	1893.	1892.	1891.	1890.	1889.
Sept'mb'r	518,762	377,408	405,355	676,823	732,236	561,710
October..	1,622,604	1,311,269	1,135,473	1,532,426	1,365,231	1,325,358
Novemb'r	1,607,662	1,272,776	1,125,855	1,376,909	1,145,416	1,257,520
Decemb'r	1,497,560	1,239,738	930,029	1,215,144	1,195,063	1,116,928
January .	938,197	687,028	436,457	885,162	859,978	709,960
February	533,398	330,504	291,648	558,355	535,273	410,044
March. ..	532,254	257,163	241,750	376,400	427,702	213,697
April	372,770	217,600	202,158	251,522	296,132	110,053
May.....	135,135	126,011	129,905	192,895	196,018	57,362
June	61,441	65,998	95,692	101,161	101,834	25,191
July	22,295	31,783	61,525	49,852	43,962	13,715
Total...	7,865,138	5,917,278	5,055,837	7,097,149	6,900,846	5,792,487
Per'tage of tot. port receipts July 31..	98·90	98·86	99·02	98·69	98·58	

This statement shows that up to July 31 the receipts at the ports this year were 1,947,860 bales more than in 1894 and 2,809,301 bales greater than in 1893. By adding to the totals to July 31 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years.

	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.

NEW ALABAMA COTTON.—The first bale of new Alabama cotton was received at Mobile on Wednesday, August 14. It was raised by T. B. Farish, of Sedan, Wilcox County, weighed 472 pounds classed strict low middling and sold for 10 cents per pound. Last year the first bale reached Selma August 10, or four days earlier. In 1893 the first arrival was at Ozark on August 2. In 1892 Dothan received the first bale on August 3 and in 1891 the first arrival was at Selma on August 6.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 11,728 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamer Celtic, 200	200
To Hull, per steamer Otaki, 200	200
To London, per steamer Ontario, 48	48
To Havre, per steamer La Normandie, 6	6
To Marseilles, per steamer Britannia, 1	1
To Bremen, per steamers Lahn, 16 ... Crave, 39	55
To Antwerp, per steamer Scotswark, 100	100
To Barcelona, per steamer Pio IX., 50	50
NEW ORLEANS—To Liverpool, per steamer Barbadian, 6,121	6,121
To Havre, per steamer Cedar Prince, 2,511	2,511
To Hamburg, per steamer Valesia, 25	25
To Genoa, per steamer Pascan Prince, 862	862
To Naples, per steamer Pascan Prince, 130	130
PORT ROYAL—To Liverpool, per steamer Louisianian, 765	765
BOSTON—To Liverpool, per steamers Cephalonia, 236 upland and 8 Sea Island ... Philadelphian, 241 ... Bachelo, 86 ... Bavarian, 42	613
BALTIMORE—To Liverpool, per steamer Queensmore, 40	40
To Bremen, per steamer Munchen, 1	1
Total	11,728

The particulars of these shipments, arranged in our usual form, are as follows:

BREADSTUFFS.

Friday, August 16, 1895.

There has been very little change in the market for wheat flour. Buyers were very few and indifferent operators, as the near approach of the new crop naturally has a tendency to keep them out of the market for the present. For the winter grades, particularly the better brands, prices have ruled steady, owing to the smallness of the crop movement. Rye flour has been quiet but steadily held. Corn meal has sold slowly, but for the choice grades prices have held steady. To-day the market for wheat flour was quiet and unchanged.

During the week under review the market for wheat futures has been exceedingly tame and prices have weakened under dull and easier foreign advices, continued favorable prospects for the spring crop and absence of speculative interest. In the spot market shippers have shown increased interest and moderate sales have been made, but at lower prices. The sales yesterday included No. 1 hard at 3¾@4c. over September f. o. b. afloat and No. 1 Northern at 2¾@3c. over September f. o. b. afloat; No. 2 red winter was quoted at 1½c. over September f. o. b. afloat. To-day the market was dull, and in the absence of sustaining features prices further declined. The spot market was quiet and easier. The sales included No. 1 hard at about 3¾@4c. over September f. o. b. afloat; No. 2 red winter was quoted at 1½c. over September f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

December delivery.....c.	74⅞	73¼	74¼	73⅜	74	73⅛
May delivery.....c.	78¼	76¾	77¾	76⅞	77⅛	76⅛

The speculative dealings in the market for Indian corn futures have been moderately active and prices have declined under free offerings, prompted by the continued favorable crop prospects. There have been, however, occasional rallies on some buying by "shorts" to cover contracts, stimulated by predictions of frosts that have always failed to materialize and some talk of damage by drouth. In the spot market shippers have been fairly active buyers, and owing to a limited supply held in the local market prices have ruled comparatively steady. The sales yesterday included No. 2 mixed for early loading at 46¾@47c. f. o. b. afloat and for next week's delivery at 3c. over September f. o. b. afloat. To-day the market closed fractionally higher on buying by "shorts" to cover contracts, stimulated by "frost" talk. The spot market was quiet owing to light supplies, and prices were firm. The sales included No. 2 mixed at 3½c. over September delivered.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	45⅜	43⅜	43⅞	43¼	43⅜	43⅞
October delivery.....c.	44	42⅛	42⅝	42⅛	42⅝	42¾
May delivery .....c.	38¾	37¼	38	37¾	38	38⅛

Oats for future delivery have been quiet and somewhat irregular. The nearby deliveries have held steady with the spot market, but the distant months have declined under favorable crop accounts and in sympathy with the weakness of wheat and corn. In the spot market business has been fairly active and prices have advanced slightly. The sales yesterday included No. 2 mixed at 25½@26c. in elevator and No. 2 white at 28@29c. in elevator. The market to-day was moderately active and firmer, with "shorts" buying to cover contracts. The spot market was firmer. The sales included No. 2 mixed at 26@26¼c. in elevator and No. 2 white at 29c. in elevator.

Agricultural Department's August Report.—The report of the Department of Agriculture for August 1 respecting cereal crops was issued on August 10 as follows:

The report of the Statistician of the Department of Agriculture on the 10th of the month relates to conditions as they stood on the 1st of

the month. Thus understood the returns show an improvement in the condition of corn about the points during the month of July of from 99·3 to 102·5.

The averages for some of the large and principal States are: Ohio 89, Kentucky 113, Indiana 104, Illinois 102, Iowa 107, Missouri 115, Kansas 98, Nebraska 96, Virginia 102, North Carolina 95, Georgia 108, Alabama 99, Mississippi 94, New York 98, Pennsylvania 90, Texas 116.

The condition of spring wheat has fallen since last report 6·3 points, being 86·9 against 103·2 on the month of July. The conditions by States is: Minnesota 89, Illinois 93, Wisconsin 87, Michigan 102, Iowa 111, Kansas 60, Nebraska 19, South Dakota 91, North Dakota 104, Washington 75, Oregon 94, California 74.

The condition of oats has advanced 1·3 points since last report, being 84·4 against 83·2 July 1.

Spring rye condition is 84 against 77 in July last, while barley has fallen to 87·2 from 91·9 in July, tobacco to 82·7 against 85·9 at that date and 74·9 in August 1894. Rice is 84·1, last year 91. Apples 71·2 against 44·0 last year, peaches 53·3 against 22·3 last year. Buckwheat has an acreage of 90·6 per cent of last year and condition 85·2. Area under hay 91·3 per cent of 1894, condition of timothy 69·9 against 78·0 last year; product of clover 66·7 against 72·1 and quality of clover 87·3 against 90·2 a year ago. Condition of pasture 77·8; last year 92. Irish potatoes condition 87·7, a fall of nearly four points from 91·5 in July.

EXPORTS OF BREADSTUFFS, PROVISIONS, COTTON AND PETROLEUM.—The exports of these articles during the month of July and the seven months, for the past three years have been as follows:

* Including cattle and swine in all quantities and years.

NOTE.—All the above figures are based on the monthly preliminary returns issued by the Bureau of Statistics, and cover about 95 per cent of the total exports of breadstuffs, oil, and provisions, and nearly 100 per cent of cotton.

☞ For other tables usually given here see page 269.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., August 16, 1895.

The rapid advance in the price of raw cotton since last report has caused manufacturers to adopt an even more conservative policy than they have lately pursued in taking orders for staple cottons for future delivery, and to some extent this has restricted business during the week, particularly in brown goods. The Eastern mills are as a rule less reserved than the Southern, the latter, according to current reports, being mostly short of raw material. Buyers in general show less alarm than the manufacturers, but some large operators have endeavored to effect large purchases, with little success attending their efforts, and actual trading has been moderate. Various scattered advances have been reported in brown, bleached and colored goods in numbers quite sufficient to indicate the prevailing tendency. There has also been an advance of 1-16c. in print cloths, bringing "extras" up to a 3c. basis, and this has had a strengthening influence on prints, the demand for which has been good, and several advances are reported. The woolen goods departments have been quiet, with continued irregularity in light-weight woolens for men's wear. Good results are again reported in the jobbing trade here and elsewhere.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending August 12 were 5,072 packages, valued at $221,219, their destination being to the points specified in the table below:

NEW YORK TO AUG. 12.	1895.		1894	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	41	3,247	278	3,763

Central America	231	6,985	63	4,993
South America	1,444	37,203	1,985	29,654
Other Countries	130	4,548	369	2,106
Total	5,072	127,813	3,601	144,949
China, via Vancouver	....	15,350	....	16,789
Total	5,072	143,163	3,601	161,736

* From New England mill points direct.

The value of the New York exports for the year has been $5,771,934 in 1895 against $7,480,922 in 1894.

Brown drills and sheetings are frequently 1/8c. per yard dearer to buy than a week ago, but open advances have not been numerous. Some bids for good quantities have been put forward and mostly rejected, but the general demand has not been active. Several lines of denims have been advanced in price and the tendency generally is against buyers, both in these and in tickings, stocks being light and some important tickets well sold ahead. Other coarse colored cottons have ruled generally quiet but a firm tone prevails. In bleached cottons the market still tends upwards and advances of 1/4c. have been reported in "Fruit of the Loom," "Farmers' Choice," "Forget-Me-Not," "Fearless" and other popular 4-4 makes; 64 squares are against buyers and occasionally 1/8c. higher; the advance in print cloths strengthens these; it also strengthens kid-finished cambrics, which are now firm on the basis of 3 1/2c. for 64 squares. Other linings very firm. Cotton flannels and blankets are strong and difficult to secure. In printed fabrics indigo blues and shirtings have sold heavily and have been generally raised 1/4c. per yard. An occasional advance is also reported in low-grade fancies, with dark fancies in good condition all round. Dress ginghams are slow; napped fabrics in fair request. Staple ginghams very firm, with light ready supplies. Print cloths have advanced to 3c. for extras, being 1-16c. up from last week; there have been fair sales thereat and the market is steady at the close. Odd goods also 1-16c. higher.

Stock of Print Cloths—	1895. Aug. 10.	1894. Aug. 11.	1893. Aug. 12.
At Providence, 64 squares	134,000	327,000	183,000
At Fall River, 64 squares	44,000	615,000	398,000
At Fall River, odd sizes	82,000	227,000	
Total stock (pieces)	280,000	1,169,000	581,000

WOOLEN GOODS.—The irregularity in prices of men's-wear light-weight woolens reported last week has again been noticeable in both plain and fancy lines in medium grades. The demand has been poor, orders being scattered and of small individual volume. Some cancellations are already recorded as the result of reduced prices in competing lines. The situation in worsted goods is relatively satisfactory; some fair orders have been recorded in high-grade fancies, and prices are generally steady. A good demand is reported in cloakings, both plain and fancy, but overcoatings have been dull. Union and cotton-warp cassimeres and satinets have frequently been well sold, but current demand is light. Plain all-wool dress goods are in fair re-order demand, as are both plain and fancy worsteds, mohairs and lustrous wool fabrics, at firm prices; but soft wool fancies are quiet. Flannels are very firm, as are blankets, with a moderate re-order demand. Carpets firmer.

FOREIGN DRY GOODS.—At first hands the market for foreign merchandise has been quiet, but jobbers report a good business. Prices are firm in leading departments such as dress goods, silks, linens, and hosiery and underwear.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending August 15, and since January 1, 1895, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1895 AND 1894.

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

More Forgeries of Municipal Bonds.—We have received this week reports of the discovery of another attempt to sell forged municipal securities. The forger is one Charles T. Coleman, alias Vincent D. Pierce, of Palmyra, Mo. He offered Messrs. Farson, Leach & Co., of Chicago, $8,000 of 10-20 year city bonds of Palmyra. As the laws of Missouri do not authorize the issuance of 10-20 year bonds the firm made an investigation and found them to be spurious.

It is also reported that the same man endeavored to sell $12,000 of forged bonds of Tipton, Mo., to Messrs. Gaylord, Blessing & Co., of St. Louis.

Bond Proposals and Negotiations.—**We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.**

Allegheny, Pa.—It is reported that on Tuesday of this week Comptroller James Brown, of Allegheny, forwarded a letter to the parties who were awarded $800,000 of 4 per cent city bonds on July 2d, notifying them that if the money for the purchase is not forthcoming within ten days the award will be withdrawn. If the purchasers do not respond the loan will be awarded to Messrs. Rudolph Kleybolte & Co., of Cincinnati, who were the next highest bidders.

Alton, Ill.—The School Board of Alton is considering the advisability of issuing bonds for $10,000. It is reported that the loan will probably be authorized.

Augusta, Kansas.—An advertisement has recently been published asking the holders of railroad aid bonds of this city and township to immediately correspond with John A. Eaton, attorney-at-law, Winfield, Kansas.

Battle Creek, Mich.—It is reported that on Aug. 12, 1895, the city of Battle Creek sold $30,000 of 5 per cent water extension bonds to Mason, Lewis & Co. at 113·17 and accrued interest. Interest on the securities will be payable semi-annually in New York, and the principal will mature at the rate of $10,000 yearly on Sept. 1, 1915, 1916 and 1917.

Belmont, Mass.—Water-works extension bonds of this town to the amount of $8,000 have recently been sold. The loan matures in 30 years.

Belmont, Wis.—Proposals will be received until October 30, 1895, by Samuel 1. Stein, Village Treasurer, for the purchase of $3,000 of 5 per cent water-works bonds, the loan to mature at the rate of $300 yearly from November 1, 1896, to November 1, 1905. Interest will be payable annually.

Bradford, Mass.—Water-works bonds to the amount of $81,000 and electric-light bonds to the amount of $50,000 have been voted.

Brooklyn, N. Y.—It is reported that on August 12 the city of Brooklyn sold $218,000 of school bonds at 105·09; $32,000 of school bonds at 104·85; $50,000 of Twenty-Sixth and adjacent wards sewer bonds at 104·35, and $25,000 of consolidated stock issued for the construction of the new East River bridge at 105·09. The securities were all awarded to the United States Mortgage & Trust Company of New York. Sixteen bids in all were received, aggregating nearly $2,000,000. Interest on the loans at the rate of 3½ per cent is payable semi-annually on January 1 and July 1 and the principal will mature January 1, 1925, both principal and interest to be payable in United States gold coin. The securities are exempt from all taxation except for State purposes.

Buffalo, N. Y.—On August 15, 1895, the city of Buffalo sold $359,331 32 of 3½ per cent tax loan bonds to Joseph E. Gavin, of Buffalo, at 100·715 and accrued interest. The securities are dated August 1, 1895, interest will be payable semi-annually on February 1 and August 1, and the principal will mature August 1, 1900. Five bids were received for the loan as follows:

	Bid.
Joseph E. Gavin, Buffalo, N. Y.	100·715
W. J. Hayes & Sons, Cleveland, O.	100·27
John A. Donaldson, Buffalo, N. Y.	100·17
Western Savings Bank, Buffalo, N. Y., for $100,000	100·50
James H. Rand, Tonawanda, N. Y.	100·00

Casper, Wyo.—Proposals will be received until Aug. 24 by George B. McCalmont, Mayor, for the purchase of $23,000 of water-works bonds.

Charleston, S. C.—City Treasurer J. O. Lea will receive bids until September 20 for $90,000 of 5 per cent city bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature October 1, 1925. The bonds will be of the denomination of $500 each.

Further particulars regarding this offering will be found in the Treasurer's official advertisement elsewhere in this Department.

Chicago, Ill.—City Comptroller O. D. Wetherell will receive bids until August 19 for $500,000 of 5 per cent one-year city warrants issued in anticipation of taxes. If the price received for these securities is satisfactory, $2,000,000 more of the same will be put upon the market.

Cincinnati, Ohio.—An injunction has been served by the Supreme Court forbidding the trustees of the sinking fund of Cincinnati to issue $2,973,000 of 3·65 per cent refunding bonds, bids for which were to be received August 15. The securities were to be dated August 1, 1895, interest to be payable semi-annually on February 1 and August 1, and the principal to mature August 1, 1945, with an option of call after August 1, 1925, both principal and interest to be payable in gold coin in New York. They were to be issued to refund outstanding loans for $236,000, $237,000, $500,000 and $2,000,000.

Cleveland, Ohio.—On August 15, 1895, the City of Cleveland sold $200,000 of 4 per cent coupon water works bonds to E. H. Rollins & Son for a premium of $9,320 26. The securities are to be dated October 1, 1895; interest will be payable semi-annually, and the principal will mature October 1, 1905, both principal and interest to be payable at the American Exchange National Bank, New York.

Twelve bids in all were received for the loan as follows:

	Amount Bid
E. H. Rollins & Sons, Boston	$209,320 26
W. J. Hayes & Sons, Cleveland	209,114 00
United States Mortgage & Trust Co., New York	208,410 00
R. L. Day & Co., Boston	208,358 00
Blodget, Merritt & Co., Boston	208,340 00
Storrs & Smith, New York	208,130 00
N. W. Harris & Co., Chicago	208,193 33
Frederick Taylor & Co., New York	208,020 00
W. I. Quintard, New York	207,603 00
Lamprecht Bros. & Co., Cleveland	207,517 50
Rudolph Kleybolte & Co., Cincinnati	206,260 00
The Cleveland Trust Co., Cleveland	201,999 00

The city's total debt on July 1, 1895, was $10,573,606, of which $1,805,874 was water debt; sinking funds, $2,470,809; net debt, $8,102,797.

Columbus, Ga.—An election will be held at Columbus, December 14, 1895, to vote on issuing $300,000 of water-works bonds. The bonds, if authorized, will be dated January 1, 1896, and will mature January 1, 1926. Interest at the rate of 4½ per cent will be payable semi-annually on January 1 and July 1 at the City Treasury, both principal and interest to be payable in gold coin.

The city's bonded indebtedness is at present $475,000. Its assessed valuation for 1895 is $12,500,000.

Coos County, N. H.—It is reported that this county has sold $50,000 of 4 per cent bonds to E. H. Rollins & Sons at 102·77. The securities run from 5 to 14 years.

Cowley County, Kansas.—An advertisement has recently been published asking the holders of railroad aid bonds of Cowley County to immediately correspond with John A. Eaton, attorney-at-law, Winfield, Kansas.

Dallas, Texas.—The Mayor of Dallas has been authorized by the Council to issue a note for $40,000.

El Dorado, Kan.—An advertisement has recently been published asking the holders of water-works or sugar bonds of this city to immediately correspond with John A. Eaton, attorney-at-law, Winfield, Kan.

Essex County, N. J.—D. H. Johnson, Chairman of the Finance Committee of Essex County, reports to the CHRONICLE that the balance of the $2,500,000 loan offered for sale July 30, at which time only $1,000,000 was disposed of, will not be sold this year. Mr. Johnson states that an understanding to this effect was had with Messrs. Vermilye & Co. when they purchased the above-mentioned portion of the loan. The price received for the securities sold was 100·77. The bonds are dated Aug. 1, 1895, interest at the rate of 3·65 per cent is payable semi-annually, and the principal will mature at the rate of $500,000 every fifth year from Aug. 1, 1915, to Aug. 1, 1965, both principal and interest to be payable in gold coin.

Evanston, Ohio.—Proposals will be received until September 12, 1895, by Wm. H. Krapp, Village Clerk, for the purchase of $8,516 10 of 6 per cent sewer bonds. Interest will be payable semi-annually and the principal will mature in ten years, both principal and interest to be payable at the Atlas National Bank, Cincinnati, Ohio.

Fern Bank Special School District, Ohio.—Bids will be received until September 9, 1895, by Horace W. Woodruff, Clerk, northwest corner Third and Main streets, Cincinnati, Ohio, for the purchase of $4,000 of 5 per cent 15-year school district bonds.

Greensburg, Kansas.—In a dispatch to the New York *World*, an ex-member of the Kansas Legislature is quoted as saying that the population of the town of Greensburg has dwindled from 1,500 five years ago to 125. "The bonded indebtedness of the city incurred in the establishment of water-works, electric lighting and other internal improvements is $45,000. Farmers have bought up the majority of the houses and moved them away, and the handful of people that still remain refuse to pay taxes. The outstanding bonds are worthless."

Haverhill, Mass.—On August 14, 1895, the City of Haverhill sold $60,000 of sinking fund water bonds to W. J. Hayes & Sons, of Boston, at 107·18. The loan bears interest at the rate of 4 per cent and becomes due in 1922. Eleven bids in all were received, as follows:

	Bid.
W. J. Hayes & Sons, Boston	107·18
L. H. Gay & Co., Boston	107·15
R. L. Day & Co., Boston	106·949
Blodget, Merritt & Co., Boston	106·69
Lyon, Gardiner & Prior, Boston	106·471
E. H. Rollins & Sons, Boston	106·47
N. W. Harris & Co., Boston	106·215
Geo. A. Fernald & Co., Boston	106·13
Brewster, Cobb & Estabrook, Boston	106·05
J. W. Longstreet & Co., Boston	105·92
Blake Bros. & Co., Boston	105·27

Itasca County, Minn.—Below we give a list of the bids received on August 6 for the purchase of $88,000 of county funding bonds and $60,000 of county court-house bonds.

	Amount Bid.
N. W. Harris & Co., for both issues	$148,135 00
Farson, Leach & Co., for both issues	148,101 20
J. L. Wells, Jr., for court-house bonds	61,200 00
St. Anthony Falls Bank, for $70,000 court-house bonds	10,205 00
Lumbermen's State Bank of Grand Rapids, Minn., for court-house bonds	60,000 00

Both loans bear interest at the rate of 6 per cent, that on the funding bonds payable annually at the office of the County Treasurer and that on the court-house bonds semi-annually. The funding bonds will be dated September 1, 1895, and will mature at the rate of $20,000 every five years and $28,000 in thirty years from date, and the court-house bonds will be dated September 1, 1895, and mature September 1, 1915. All of the bonds will be payable in gold.

Jamestown, N. Y.—Proposals will be received until Aug. 26, 1895, by John Conway, President of Board of Public Works, for the purchase of $26,500 of 5 per cent certificates of indebtedness, payable in equal sums in one, two, three, four and five years after date, and $13,000 of 4 per cent paving bonds, payable in fifteen years after date. Interest on both loans will be payable semi-annually.

Lancaster, Pa.—This city is about to issue a four per cent loan amounting to $120,000 for the purpose of paying off its indebtedness to the county.

Laurel, Md.—Bids will be received for the purchase of $21,000 of 5 per cent bonds. Interest will be payable semi-annually and the principal will mature in ten and twenty years.

NEW LOANS.

$90,000

City of Pittsfield, Mass.

4 Per Cent Gold Water Bonds.

OFFICE OF THE CITY TREASURER.

PITTSFIELD, MASS., August 1st, 1895.

In pursuance of the vote of the City Council approved by the Mayor July 31, 1895, and under authority of Chapter 450 of the Acts of the Legislature of this year, the undersigned, Treasurer of the City of Pittsfield, will receive until MONDAY, August 26, at 2 P. M., sealed proposals for the whole or any part of Ninety Thousand Dollars Water Bonds, said bonds will be dated September 1st, 1895, be payable in the Berkshire County National Bank, Pittsfield, Mass., and will bear interest at the rate of four per cent per annum, payable semi-annually on the first days of September and March.

Principal and interest will be paid in gold coin of the United States of the present standard of fineness and weight at the Berkshire County National Bank, Pittsfield, Mass. If registered bonds are desired the purchaser will be required to state the denominations in which he desires the bonds issued.

Further information can be obtained from the undersigned. No proposal will be considered unless accompanied by a certified check for two per cent of the amount bid for, payable to the order of the City Treasurer.

McKeesport, Pa.—A call has been made for the payment of $21,000 of water extension and improvement bonds of McKeesport issued in 1884 and numbered from 5 to 25, inclusive. Interest on these securities will cease September 30.

Middlesex County, Mass.—Proposals will be received until to-day by J. Henry Read, Chairman of County Commissioners, for the purchase of $100 000 of 4 per cent coupon public building bonds. The securities are to be dated June 1, 1895, interest will be payable semi-annually on June 1 and December 1, and the principal will mature at the rate of $10,000 yearly from December 1, 1896, to December 1, 1905.

Newton, N. H.—It is reported that the theft of $10,000 of town bonds which were redeemed in 1885 has recently been discovered.

New York City.—Proposals will be received until August 22, 1895, by Ashbel P. Fitch, Comptroller, for the purchase of $200,000 of 3 per cent registered gold assessment bonds, to be issued for the improvement of Park Avenue above One Hundred and Sixth Street. Interest will be payable semi-annually on May 1 and November 1 at the Comptroller's office, and the principal will mature November 1, 1901, both principal and interest to be payable in gold coin.

Niagara Falls, N. Y.—The citizens of Niagara Falls will vote August 28 on appropriating $30,000 for water-works extension and $9,000 for a new bridge, for which purposes bonds will probably be issued.

North Branch School District No. 32, Minnesota.—Proposals will be received until August 22, 1895, by F. L. Foote, District Clerk, for the purchase of $6,000 of 6 per cent school bonds. Interest will be payable annually on July 1, and the principal will mature at the rate of $500 yearly from July 1, 1896, to July 1, 1907.

North Des Moines Independent School District, Iowa.—Proposals will be received until August 24 by R. O. Green, Treasurer, for the purchase of $20,000 of 5 per cent 10-year school building bonds. The successful bidder will be required to furnish blank bonds.

North Tonawanda, N. Y.—On August 6, 1895, the village of North Tonawanda sold $52,000 of 4 per cent paving bonds to I. W. Sherrill, of Poughkeepsie, at 100¾. There were a dozen or more bidders from New York, Boston, Cleveland, Buffalo, etc. The bids ran up to 103⅜ for 5 per cent bonds and 101⅜ for 4½ per cent bonds. The securities are to be dated September 1, 1895, interest will be payable semi-annually on March 1 and September 1, and the principal will mature at the rate of $6,000 each year on September 1, 1896 and 1897, and $5,000 yearly thereafter. Principal and interest are payable at the Bank of America, New York City. The assessed valuation of the village for 1895, which is about one-half of the actual value, is $4,533,924. The population, according to local figures, is between 9,000 and 10,000.

Oxford, Iowa.—Bonds of this town have been voted for water works.

Pittsfield, Mass.—Proposals will be received until August 26, 1895, by E. H. Kennedy, City Treasurer, for the purchase of $90,000 of 4 per cent water bonds. The securities will be dated September 1, 1895, interest will be payable semi-annualy on March 1 and September 1, and the principal will mature at the rate of $5,000 annually from date, both principal and interest to be payable in gold coin at the National Bank of Redemption, Boston, Mass.

The official advertisement of this loan will be found elsewhere in this Department.

Pontiac, Mich.—Bonds for a sewerage [illegible] to cost $25,000 have been proposed, but O. H. Linabury, City Clerk, reports to the CHRONICLE that the matter of issuing the securities has been deferred till some future time.

Rankin, Pa.—W. H. Gordon, borough clerk, reports to the CHRONICLE that an election to vote on issuing $50,000 of sewer bonds will be held Aug. 27.

Richmond, Wis.—Bridge bonds of this town to the amount of $2,750 have been voted.

Solvay, N. Y.—A vote taken August 7 on issuing bonds for water-works resulted in favor of the proposition.

Spartanburg, S. C.—The people of Spartanburg will vote on issuing bonds for sewers.

Stockton, Pa.—Bonds to the amount of $70,000 have been authorized by the Town Council for general improvements.

Vancouver, Wash.—At a recent meeting of the Vancouver City Council a resolution was passed directing the City Clerk to call for bids for bonds to the amount of $20,000 to be received September 2. These bonds will be for the purpose of funding that much of the existing warrant indebtedness of the city. The notice will contain three propositions, namely: $20,000 due in 20 years, $10,000 redeemable in 10 years, and $10,000 in 20 years, or $5,000 in five years, $5,000 in ten years, $5,000 in 15, and $5,000 in 20 years. The bonds are to be dated September 15, 1895, and must be sold at par, interest not to exceed 6 per cent.

Warren, Ill.—Proposals will be received until August 24 for the purchase of $7,200 of water-works bonds, the loan to bear interest at the rate of 5 per cent and to run twenty years.

Westwood, Ohio.—Proposals will be received until September 16, 1895, by Robert A. Armstrong, Village Clerk, for the purchase of $13,600 of 5 per cent sidewalk bonds, dated September 2, 1895, and payable September 2, 1925; $20,000 of 5 per cent water-works bonds, dated July 1, 1895, and payable July 1, 1915, and $4,428 60 of 6 per cent Beechwood Avenue bonds, dated September 16, 1895, and payable at the rate of [illegible] from one to ten years. Interest on the sidewalk and water-works bonds will be payable semi-annually For One Year Beechwood Avenue bonds annually, both principal and interest of all the loans to be payable at the Atlas National Bank, Cincinnati.

Yonkers, N. Y.—Proposals will be received until August 26 1895, by the Board of Water Commissioners for the purchase of $40,000 of 4 per cent water bonds. The securities will be dated September 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature April 1, 1912. The bonds will be delivered September 3, 1895

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Kansas.—Following is a statement regarding the financial condition of the State of Kansas on July 1, 1895, which has been corrected by means of a special report from Otis L. Atherton, State Treasurer.

LOANS— NAME AND PURPOSE.	Interest— P. Ct.	Payable.	Principal— When Due.	Outstand'g.
Capitol bonds, 1867	7	J & J	July 1, 1897	$100,000
Do 1868	7	J & J	July 1, 1898	150,000
Do 1869	7	J & J	Jan. 1, 1899	70,000
* Funding, 1888	4	J & D	Dec. 1, 1908	18,000
Do 1889	4	J & J	July 1, 1909	85,000
* Insane asylum, 1868	7	J & D	June 1, 1898	20,000
* Military fund, 1869	7	J & J	Jan. 1, 1899	89,000
Penitentiary, 1867	7	J & J	July 1, 1897	100,000
Do 1868	7	J & J	July 1, 1898	50,000
† Public improvement, 1866	7	J & J	July 1, 1896	70,000

* All in School Fund. † A portion held by School Fund.

PAR VALUE OF BONDS.—The bonds held by the public are all for $1,000 each.

INTEREST is payable in New York at the National Bank of the Republic.

TOTAL DEBT on July 1, 1895, was $752,000, of which $496,000 was held by the State funds.

ASSESSED VALUATION.—The State's assessed valuation and tax rate have been as follows in the years named:

Years.	Total Equalized Valuation.	State Tax p. $1,000	Years.	Valuation.	State Tax.
1895	$[illegible]	$4 25	1886	$277,113,323	$4 10
1894	247,501,722	3 90	1885	248,846,811	4 01
1893	[illegible]	3 05	1884	240,020 391	4·50
1892	[illegible]	3 00	1883	240,184 189	4·30
1891	[illegible]	4 25	1882	160,170,761	5·50
1890	[illegible]	4 25	1876	133,532,218	5·50
1889	300 814,073	4 20

MISCELLANEOUS.

1850. 1895.
The United States Life Insurance Co.
IN THE CITY OF NEW YORK.
This old and [illegible] Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the true province of science is the adaptation of good forms of insurance and the payment of a liberal profit towards both the Insured and the Agents. These essentials it possesses in an eminent degree, and [illegible] feel assured in that connection which is the best [illegible] and of the policy-holder. Its contracts are non-contestable after two years. They are [illegible] providing generous [illegible] for either partial or final surrender. Insurance in force, [illegible] of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

Legal Notices.

COMMISSIONER'S SALE.—In the Circuit Court of the United States for the Eastern District of Texas, at Galveston. The Farmers Loan & Trust Company, Complainant, vs. the Houston & Texas Central Railway Company, Charles Dillingham Texas Central Railway Company, et al., Defendants. No. 22, Chancery Docket.

Notice is hereby given that in pursuance of the decree entered in the above entitled cause on the 5th day of March, 1895, at the regular March term of said Court by the City of Galveston, Texas, I, the undersigned Master Commissioner, thereby designated, appointed and selected, will, on the 1st day of September, 1895, that being a day on the first Tuesday of said month of September, or on the day to which I may adjourn such sale, at twelve o'clock noon, in front of the Court House door of McLennan County, in the City of Waco in the State of Texas, make sale at public auction as an entirety to the highest bidder therefor of all the mortgaged premises and property, real, personal and mixed, rights and franchises, wheresoever situated, mentioned in said decree and thereby directed to be sold, viz:

The Waco & Northwestern Railroad, in Robertson County, Texas, passing through the County of McLennan Falls, and running to the Town of Ross in McLennan County in said State, a distance of about fifty-eight miles, together with all side-tracks, turn-outs, rolling stock, depot and shop grounds, tenements, hereditaments, tracks and franchises, including all the appurtenances, rights and privileges, belonging to the operation of said railroad, and all property, real and personal, pertaining to the operation of said fifty-eight miles of railway, and including the said railroad, and all rights in, to or in respect to the grading and right-of-way of said railroad from the Brazos River and thence to the Rio Grande River, and all the lands granted by the State of Texas to the Waco & Northwestern Division of the Houston & Texas Central Railway Company, as assignee of the Texas Central Railway Company, and all lands described by Certificate No. and Survey No., which numbers follow the words "Cert." and "Survey" in the following description, are not patented, but are located by virtue of land Certificates issued to the said Waco & Northwestern Railroad Company, and when land is stated to be in two or more Counties, it means that part of it is in each:

In WILBARGER COUNTY, in Block H.

POST OFFICE BOX 958. **NEW YORK.**

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, August 24, have been $907,550,993, against $936,829,667 last week and $792,448,117 the corresponding week of last year.

Clearings, Returns by Telegraph.	Week Ending August 24. 1895.	1894.	Per Cent.
New York	$419,719,449	$354,910,730	+18·3
Boston	68,921,923	59,814,662	+14·6
Philadelphia	50,544,123	44,427,548	+13·8
Baltimore	9,879,388	9,570,057	+ 3·3
Chicago	68,718,959	67,214,276	+ 2·2
St. Louis	17,738,230	15,259,033	+16·2
New Orleans	4,253,949	3,994,483	+ 6·5
Seven cities, 5 days	$639,202,780	$554,999,120	+15·2
Other cities, 5 days	120,302,471	110,011,614	+ 9·4
Total all cities, 5 days	$759,535,251	$665,010,734	+14·2
All cities, 1 day	148,015,742	127,437,383	+16·1
Total all cities for week	$907,550,993	$792,448,117	+14·5

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, August 17, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of a little less than six million dollars, but at New York the gain is eight millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 12 per cent. Compared with the week of 1893 the current returns record an excess of 26 per cent and the loss from 1892 is 10·8 per cent. Outside of New York the gain over 1894 is 5·4 per cent. The excess over 1893 reaches 34·2 per cent, but making comparison with 1892 the decrease is seen to be 9·6 per cent.

Clearings at—	Week ending August 17. 1895.	1894.	1895. P. Cent.	1893.	1892.

STREET RAILWAY EARNINGS.

Attention is directed to the very extensive tabulations of the monthly earnings of street railways which we give to-day in our department on Railroad Earnings. Only a few weeks have elapsed since we began active work in procuring monthly and weekly returns of the earnings of street railways, the same as we have been doing for so many years in the case of the steam roads, and hence it is very gratifying to be able to state that our tables to-day include 59 roads making reports of gross earnings and 53 roads making returns of both gross and net, either monthly or quarterly. The statements will be found on pages 320 and 321. We need hardly say that no effort will be spared to still further extend the list from week to week hereafter.

THE FINANCIAL SITUATION.

The prominent event the current week has been the reduction in the rates for foreign exchange, the first reduction in the posted rates since July 30th. The change referred to followed continued exports of gold, which up to Thursday night reached $3,100,000, and the deposit of $2,000,000 of that metal in the Treasury in New York by the Morgan-Belmont Syndicate, with $700,000 more deposited in Boston for transfer to New York, but still held for Syndicate account. This reduction in rates has of course lessened the profits of exporters of gold, and yet the further amount of $1,100,000 was taken yesterday for shipment to-day. In some quarters the feeling is quite decided that the demand for remittance is becoming less urgent, and that moderately free offerings of bills would be likely to bring about a further reduction which would make gold exports hazardous if not unprofitable. The immediate cause of the decline was a supply of bankers' bills against some of the above shipments and larger offerings of cotton futures at lower figures.

There are features which have hitherto not responded to the improved outlook that are this week giving signs of progress. Among these is an increasing movement of currency to the interior. Some banking houses having large correspondence report a wider and larger inquiry for re-discounts not only from an increasing portion of the South but likewise and especially from the Northwest. This latter is encouraging, for it confirms reports of improving business in that large section, where, up to a late date, operations have been so restricted. Of course these shipments of currency have as yet had very little effect on the money market. The banks hold such a large surplus and the amounts of currency freed by the Syndicate's returns of cash to those institutions participating in that contract have been so considerable that until the movement to the interior becomes more urgent it cannot have any decided influence on the market rates. Still we must not lose sight of the fact that all the currency we have now was fully occupied at this time in 1892. If so, why should it not be again in use when the bountiful harvests which have now so nearly been made shall be gathered and be in process of distribution? Such crops cannot fail to quicken into new life the vast districts that depend upon these agricultural results, and as soon as that happens money can no longer go begging at one per cent.

The July statement of earnings of the Chicago & North Western Railway Company also affords evidence of the growing activity of business and at the same time furnishes a striking illustration of the decided change for the better which has already taken place in the earnings of some of the Western roads, even before they are receiving the benefits of this year's large grain crops. The statement shows a gain in gross earnings as compared with the same month of the year preceding in the large sum of $435,343. Of course comparison is with the period of the great railroad strike last year, when earnings were very heavily reduced. But the fact must not be overlooked that the road is still suffering from the effects of last season's crop shortage. What a serious matter that was in its case will be understood when we say that in Nebraska, where nearly a thousand miles of its tributary lines are situated, the crop failure was so complete that portions of the population were left in an actually destitute condition. Hence it has been not merely a loss in the grain tonnage that has followed from the crop shortage, but a general impairment of business in the same section resulting from the diminished purchasing power of the people living there.

We cannot state what the exact amount of loss in earnings was last year, because the mileage had been increased by the addition of the Milwaukee Lake Shore & Western. But we may say that the earnings now, at $2,643,541 for this year, with the Lake Shore & Western included, are nearly the same as for July 1893, before that road was embraced in the accounts, the total then having been $2,669,422. From our knowledge of the earning capacity of the Lake Shore & Western, we should judge that on the same basis of mileage the gross revenues the present year would show a loss from those of two years ago of from $300,000 to $350,000, or say about 10 per cent. Obviously this is a very small ratio of decrease, considering that in 1893 passenger earnings were swelled by the travel to the World's Fair, and considering also that this year's crops have not begun to count in the grain movement, the corn crop not yet having reached maturity, and the harvesting of the spring-wheat crop being only recently begun. The conclusion then would seem clearly warranted from these facts that in anticipation of the good effects to result from the large crops general business has already materially expanded in the Western country.

Here in the East, of course, where manufacturing industries abound, the roads are unquestionably feeling the effects of the revival of business activity. The Baltimore & Ohio has issued its statement for the month of July, and reports a gain of $92,832 in gross earnings and of $87,714 in net earnings. The increase extends to both the Eastern and the Western lines, but the greater part of it has occurred on the lines west of the Ohio River. For the combined system the gross is only $192,993 less than two years ago at the time of the World's Fair, and the net $130,753 less. If we go back to 1892, we find the gross now at $1,919,078 compares with $2,086,556 and the net at $556,123 compares with $525,320. In other words, the loss in gross from three years ago is only about 8 per cent, while the net is actually somewhat better than at that time. As the general average of rates is very much lower now, it is evident that the volume of business can not be greatly less than in the year mentioned.

In England this week some noteworthy records of fast time have been made. On the other side of the

ocean rivalry between the different roads does not take the form of cuts in rates, but leads to efforts to excel in the matter of speed and service and accommodations. There has long been active competition and rivalry between the Great Northern and the London & Northwestern, both having lines to Scotland. In 1888 this rivalry took a very spirited form, and we noted at the time the speed records made by the two roads. Latterly another trial of the same kind has been in progress, each road seeking to surpass the other in reducing the time between London and Aberdeen. The result has been the breaking of all previous records and a very remarkable display of speed. On one day the Great Northern covered the distance, which in its case is 527 miles, in eight hours and forty minutes, and the London & Northwestern made the trip over its route of 540 miles in eight hours and fifty-five minutes. In other words, the Northwestern made 540 miles in 535 minutes and the Great Northern 527 miles in 520 minutes. This is in both cases over a mile a minute for the whole trip. In this country we can point to much higher rates of speed for short distances, but for a long journey the achievement here noted is quite unexcelled. It shows what a high state of development the art of railroading has attained in Great Britain, and to what perfection roadbed and track have been brought that such a record should be possible.

Money on call, representing bankers' balances, has loaned generally at 1 per cent at the Stock Exchange. No transactions have been recorded at a lower rate and only a few, and for small amounts, at any higher figure. Banks and trust companies find it difficult to loan money even at this rate, and they quote one per cent as the minimum. There is a disposition to hold rates for time contracts firmly at 1½ per cent for thirty days, 2 per cent for sixty days, 2½ per cent for ninety days to four months and 2½@3 per cent for five to seven months, and a few transactions have been made at 2½ per cent for four and 3 per cent for six months, but the demand for shorter dates is small and the offerings for periods extending beyond the end of the year are not liberal. A better inquiry for re-discounts from the South is reported to us, and particularly from Texas, Georgia, Tennessee, and North and South Carolina, but as yet nothing has been done for New Orleans or Mobile bankers. The demand from the extreme Northwest is especially good, and it is believed that the enormous crops of spring wheat which will be raised in some of those States will result in a greater demand later on. In one locality in the Red River Valley a banker reports a yield of wheat of 38 bushels to the acre, which indicates the character of the crop in that section. The local demand for paper is not large, and some of the buyers among the banks appear to be holding off for better rates. The supply of new names is not increasing, though this is the season when the borrowing should be good for the spring business. Quotations for paper have improved and they are now firm at 3½@4 per cent for sixty to ninety-day endorsed bills receivable, 3½@4½ per cent for four month's commission house, 4½ per cent for prime four months, 4½ per cent for prime six months and 5@6 per cent for good four to six months single names, some of which are readily taken.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reported discounts of sixty to ninety-day bank bills in London dearer early in the week at 11-16 of 1 per cent, but yesterday the rate was ⅝ again. The open market rate at Paris is 1½ per cent, and at Berlin and Frankfort it is 1¾ per cent. According to our special cable from London the Bank of England gained £1,385,489 bullion during the week and held at the close of the week £40,421,741 against £39,886,099 August 30 last year, which was the highest ever recorded. Our correspondent further advises us that the gain was due to receipts from the interior of Great Britain of £318,000 and of imports of £1,067,000, of which £953,000 were bought in the open market, £51,000 were imported from Australia, £49,000 from India and £14,000 from France.

This week the tone of the foreign exchange market has been easier than for any time since the end of July. The most decided influence upon the market was the offering of bills early in the week against the shipments of gold last week, and a lighter demand, much of the inquiry for remittance having been satisfied by these shipments, and intending remitters holding off in the expectation of getting bills at a lower rate later in the week. It was reported that cotton and grain futures were more freely offered, and that this was a reason for the easier feeling in the market. Quotations for actual business in sterling on Monday were 4 89½@4 89¾ for long, 4 90½@4 90¾ for short and 4 90¾ 4 90⅞ for cable transfers, and some of the latter against gold shipments were offered at 4 90½, but only 4 90¾ was bid. On Tuesday Oelrichs & Co. sent $100,000 and Handy & Harman shipped $50,000 gold on the Spree, and it was then announced that Hoskier, Wood & Co. would send $1,750,000, Nesslage & Fuller $100,000 and W. H. Crossman & Bro. $1,000,000 on the following day. The bills against those shipments, and especially those drawn by Hoskier, Wood & Co., who were remitting for new 4 per cent bonds sold here, were freely offered, and the tone of the market grew easier, though it was not as yet quotably lower except for cable transfers, which were sold at 4 90¾. On Wednesday the demand for remittance was light; there was no disposition to buy bills. In the afternoon sales of long sterling were reported at 4 89, of short at 4 89½ and of cable transfers at 4 90. Brown Bros. reduced their rates for long to 4 89½ and for short to 4 90½. On Thursday holders of bills were apparently desirous of selling, offerings of cotton and grain futures were at fractionally lower rates, and the tone was quoted by some bankers as easy, though others claimed that it was steady. There was no special demand, as is usually the case on Thursdays, and in some quarters a slightly nervous feeling on the part of holders was reported. Yesterday the tone in the afternoon was decidedly weak. Nesslage & Fuller shipped $100,000 on Thursday. Yesterday Hoskier, Wood & Co. withdrew for shipment to-day $600,000, Nesslage & Fuller $100,000, Handy & Harman $150,000 and Hard & Rand $250,000, making the week's shipments $4,200,000. On Tuesday the Morgan-Belmont Syndicate deposited $2,000,000 gold in the Sub-Treasury at New York in exchange for legal tenders and yesterday they deposited $700,000 at Boston, but it was subsequently announced that this latter was for transfer to New York, and that the gold is still held for the Syndicate's account, to be used hereafter as occasion may require. The following table shows the daily posted rates for sterling by the leading drawers.

The market closed weak on Friday at 4 89½@4 90 for sixty-day and 4 90½@4 91 for sight. Rates for actual business in sterling were 4 88¾@4 89 for long, 4 89¾@4 90 for short and 4 90@4 90¼ for cable transfers. Prime commercial bills were 4 88¼@4 88½ and documentary 4 87¾@4 88.

We have referred above to the gain in gross and net earnings for July reported by the Baltimore & Ohio. The Pittsburg Cincinnati Chicago & St. Louis, one of the lines in the Pennsylvania Railroad system, for the same month reports $170,999 increase in gross and $72,116 increase in net. The Nashville Chattanooga & St. Louis shows gross of $375,565 for July 1895, against $350,674 for July 1894, and net of $150,155 against $141,994, and the San Francisco & North Pacific gross of $82,360 against $77,670, and net of $33,897 against $32,324.

		July Earnings. 1895.	1894.	1893.	1892.

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

Note.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is, the latest reported figures.

THE NEED FOR BETTER FREIGHT RATES.

With many it has been an accepted article of faith in recent years—in contemplating the great decline in freight rates which has occurred on our railroad lines within the last decade—that rates had at length got so low that there was little likelihood they could go much lower. This belief possibly will explain the indifference with which the reports of the demoralization in rates, which have been so frequent of late, have been received. Study of the annual report of the Chesapeake & Ohio, however, received this week, is calculated to shake confidence in the accuracy of this belief. The report itself we review in a separate article on another page, but the decline in rates is such a striking feature of the recent history of this road, and the effects of the continued fall are so marked in its case, that we print here the road's traffic movement for the last four years, with the revenue derived from it. The figures are for the company's fiscal year ending June 30.

Year—	Tons carried one mile.	Mills per ton per mile.	Gross Revenue.
1892.....	1,359,657,261	5·36	$7,284,386
1893.....	1,479,487,919	5·11	7,565,511
1894.....	1,387,891,879	4·78	6,630,201
1895.....	1,720,788,501	4·25	7,304,816

The 1895 tonnage was thus much the largest of any of the years. Nevertheless while the company carried 1,720 million tons one mile in 1895, against 1,359 million tons in 1892, an increase of nearly 30 per cent, the larger traffic yielded less than one-half of one per cent additional gross revenue—that is, while the company moved 361 million tons more freight one mile in 1895 than in 1892, it got only $20,000 more gross revenue from this larger tonnage. The explanation is very simple. The average freight rate was 20 per cent less in 1895 than it had been only three years before, in 1892.

The further decline in this instance is particularly noteworthy because the start is from a very low average, the rate in 1892 having been only a little over half a cent per ton per mile—to be exact, 5·36 mills. Yet in the three years since then there has been a drop each year, and for 1895 the average was only 4¼ mills per ton mile—425 thousandths of a cent. Hitherto it has been supposed that an average of half a cent per ton per mile for the entire tonnage of a system, high class and low class, through and local, must be regarded as a minimum—as bed rock. But it is evident from the experience of the Chesapeake & Ohio—and the experience of that road is simply typical of the experience of other roads similarly situated—that the minimum has already been materially lowered, that a half a cent rate per ton mile can no longer be regarded as exceptional, and that with a continuation of the present tendency we shall soon reach a figure of only a third of a cent per ton per mile—that is, a point where a road must carry three tons of freight one mile in order to earn one cent! As a matter of fact, the Chesapeake & Ohio is carrying much freight on which it does not realize even as much as that; for instance on coal transported to the seaboard it received in the late year an average of only 2·93 mills. Even on the coal tonnage elsewhere than to the seaboard the average was but 3·86 mills.

It will no doubt be said that the Chesapeake & Ohio is a large coal carrier, hence high rates on it are out of the question, and furthermore that on the coal transported to the seaboard it has to meet competition more than ordinarily intense. We admit that some of the features in the Chesapeake & Ohio case are exceptional, but the question is not one of high rates but of exceptionally low rates and a steadily declining tendency at

that. Observe that even on its general merchandise tonnage the company realized an average no better than 5·26 mills per ton mile; and furthermore that the decline in rates has been general, and has not been confined to any one class of freight. Thus taking simply the last two years, the average on coal to the seaboard decreased from 3·20 mills to 2·93 mills, on coal elsewhere than to the seaboard from 4·43 mills to 3·86 mills, and on freight other than coal from 5·66 mills to 5·26 mills.

In this general decrease we see revealed the downward tendency which the whole body of railroads in the United States has experienced. Only in few instances do the averages approach the small figures of the Chesapeake & Ohio, but the roads have all suffered in the same way, and their rates are each year dropping to lower figures. An officer of the Chesapeake & Ohio notes that if the tonnage of 1895 had been carried at the rate received in 1892, the difference in net earnings would have been over $1,900,000, or more than 3 per cent on the capital stock of the company. This illustrates strikingly the difficulties railroad officials have to contend against. The Chesapeake & Ohio was reorganized a few years ago on a basis of reduced fixed charges; at the same time its physical and financial condition was greatly improved, and it was given one of the best managements in the country. This management now takes pride in pointing to the fact that the company in the late year was able to earn all its fixed charges. And well it may, for certainly to come out with a balance on the right side of the account in such a year as the last, and with an average freight rate on the entire tonnage of 4·25 mills per ton per mile, is a most marvelous achievement. That the undertaking was not an easy one is evident from the fact that the Norfolk & Western, lying a little to the south of the Chesapeake & Ohio, with the same class of tonnage and having the same problems to meet, was forced to the wall.

President Ingalls in speaking of the further decline in the rate on "tidewater coal" in the late year says: "So far it has been impossible to make such an adjustment of this business as to get a fair rate." This remark might well be applied to the rate situation generally. It is because it has been impossible to make "an adjustment" of the traffic—that is, to apportion it in a satisfactory manner among the different roads—that rates are not maintained on a remunerative basis, and are becoming less and less satisfactory.

Of course Congress is mainly at fault in denying to the railroads the privilege of entering into contracts which can be enforced in the courts. But it seems to us that the time has now arrived when the roads must themselves devise and apply a corrective. If no aid can be got from the legislative body, then the managers must go ahead and solve the problem somehow without such aid.

No one official by himself can accomplish much, but collectively the managers have it in their power to effect a change. We are aware that many efforts have been made in this direction in the past, and that they have all failed of success. But the trouble has now reached a pass where some way of improving the situation must be found.

In one particular the work is being greatly simplified by the course of events. With business reviving and large crops assured, the question is no longer one of tonnage but simply one of rates. The problem resolves itself into this one element, shall the large business which is in sight be carried at fairly remunerative rates or at unremunerative rates. We see that in the case of the Chesapeake & Ohio, if an average no higher than that of 1892, namely only about half a cent per ton per mile, could be realized, the company would earn a surplus of 3 per cent for its stock. With most other roads a small addition to the rate would make an equally marked difference in net results.

This small addition to rates could in the great majority of cases be secured by simply enforcing schedule tariffs, instead of cutting under them. The managers of the trunk lines are taking the necessary steps to prevent further cutting, and the managers in other parts of the country should fall in line and adopt a similar course. The alternative is further demoralization, and the loss of the bright prospects which present conditions hold out for the railroad interest.

THE ANTARCTIC CONTINENT AND THE GEOGRAPHICAL CONGRESS.

One of the principal features of the International Geographical Congress, the sittings of which have just been brought to a close in London, was the appearance of the young Norwegian, M. Borchgrevink, who gave an account of his experiences during a visit recently made to the regions of the Antarctic. There can be no doubt that fresh interest has been given to the entire subject of Antarctic exploration by M. Borchgrevink's simple but most interesting statement; and it will not be at all wonderful if, as the result, there should be a revival of South Polar enterprise.

It is now fifty-four years since Sir James Clarke Ross discovered and named Victoria Land—an immense land mass, situated between 71° and 78° south latitude. He sailed along the ice-bound coast for days, and succeeded in effecting a landing on what is known as the North Island. The mainland as seen by Ross presented a continuous mountain range, some of the peaks rising to the height of 12,000 feet, two of them being perceptibly volcanic, one of these in full blast. This last he named Erebus, the other Terror, after the ships which composed the expedition. Since that time there have been several expeditions to the south; but although some of them have been fairly successful, we have had no evidence that any human eye had seen Erebus in flame or any part of Victoria Land. Borchgrevinck is the first who has positively verified the discoveries of Ross. Not only so. He is the first who has since succeeded in effecting a landing on the North Island, and in standing with his own men where Ross and his men stood so many years ago. Not yet satisfied, Borchgrevink, a few days later, landed at Cape Adair, on the mainland, he and his men being the first human creatures who ever set foot on what may without any impropriety be called the Antarctic Continent. Its exact bulk of course can only be guessed at; but according to the most reliable scientific authorities it is not under 8,000,000 square miles, about twice the size of Europe.

It appears that the expedition of which Borchgrevink was in command owed its origin and support to a Norwegian—Commander Svend Foyn. It consisted of but one ship, a whaler, named the Antarctic. It left Melbourne on September 20, 1894. After a somewhat rough experience, the daring seamen crossed the Antarctic circle on December 26. On January 16 they sighted Cape Adair, and obtained a full view of the mainland, west and south, as far as the eye could reach. On the 18th they landed on North Island, and gave

three cheers for Sir James Clarke Ross and for Commander Foyn. On the 23d they crowned their efforts by going ashore on the mainland at Cape Adair. Borchgrevink verified much of Ross's experience; and with his single ship it must be admitted he was often in a much worse plight. On the 6th of November 1894, in latitude 58 degrees 14 minutes and longitude 165 degrees 35 minutes, an immense barrier of ice was sighted, extending from east to northwest from 40 to 60 miles. With the beginning of the year they found themselves surrounded on all sides by great ice fields. Marine animals were seen in abundance. On North Island they found themselves resisted by whole armies of penguins, who covered the soil and rent the air with their screams. The island consisted of volcanic vesicular lava, rising in the southwest into two pointed peaks of about 300 feet. The highest of these some of the crew ascended, and about 30 feet above the sea level discovered vegetation on the rocks.

At Cape Adair, where they found the penguins as numerous, as bellicose and as noisy as on North Island, the average temperature of the water in January and February was about freezing point. It is Borchgrevink's opinion that this is the one place which future expeditions should make their headquarters or base of operations. At this point neither ice nor volcanoes seem to have raged. It offers many advantages for making meteorological observations; and from such a source knowledge is much needed in regard to the Antarctic. Borchgrevink is quite sanguine that with a properly equipped expedition much might be accomplished in the South Polar Circle. Meteorology, geology, geography, botany and zoology—all these branches of science would be certain to benefit; and there is evidence that mineralogy also might find some fresh illustration. If it could be found possible to winter at Cape Adair, Ski-Canadian shoes, sledges and dogs might succeed in opening up to us a new world. It is gratifying to know that such men as Dr. Newmayer, of Hamburg, and Dr. John Murray of the "Challenger" bore testimony to the value of the work accomplished by the young Norwegian explorer. Borchgrevink is willing to head a properly equipped expedition. The presumption is that the needed money will be forthcoming. An expedition patronized by one or more of the governments, and headed by such men as Nansen and Borchgrevink, could hardly fail to bring back some satisfactory knowledge of the South Polar Continent.

THE CHESAPEAKE & OHIO REPORT.

If any proof were needed to show that the Chesapeake & Ohio under its present management and as the result of its reorganization a few years back has been placed on a sound basis, and holds a thoroughly advanced position, it would be furnished in the results of operations for the last two years. These have been years to put the staunchest of properties to the test—years of great depression in business, of unsettled financial and commercial conditions, and of many other adverse features. Yet in both those years the road has earned its fixed charges, with a small balance of earnings left over.

Under ordinary circumstances the ability to earn fixed charges in the case of a road reorganized with that express end in view, would not be deemed very remarkable or call for any special remark. But the circumstance as to rates under which this was done renders the achievement a notable one, and furthermore fixed charges are larger now than at the time of the reorganization. In the reorganization it was recognized that in order to develop the coal and mineral traffic in active competition with other lines, the road must be placed in condition to move freight at very low rates. But the word "low" then did not mean what it now means. At that time an average of half a cent (or five mills per ton mile) was considered exceedingly low, and we doubt whether it was then thought likely that the average on the road's entire tonnage, coal as well as merchandise, would drop materially below that figure. In fact the rate ruled above half a cent per ton mile in all the years after reorganization until the last two. Even in 1893 the average was still 5·11 mills, but in 1894 it dropped to 4·78 mills and for 1895 has now got down to 4·25 mills. The Chesapeake & Ohio thus enjoys the distinction of having earned its fixed charges in a year of unfavorable business conditions and on an average freight rate of only 4¼ mills per ton mile. An average of 4¼ mills for the whole tonnage implies, of course, very much lower rates on part of the tonnage, and on its tidewater coal shipments the road realized less than 3 mills per ton mile—actually only 2·93 mills.

We have commented on this decline in rates in a previous article and will only say here that as the Chesapeake & Ohio report is issued with great promptness and we have none of the reports of the other roads as yet for the same fiscal year, we cannot affirm positively that the average of 4¼ mills is the lowest for any road in the country; if, however, there are any exceptions among important systems they must be very few. On the Norfolk & Western, a competing coal carrier, the average for the calendar year 1894 was 4·51 mills, and that road, as is known, has been forced into the hands of receivers. On the Beech Creek, operated by the New York Central, the average for the year ending June 30 1894 was reported at 4·2 mills, or about the same figure as that now reached on the Chesapeake & Ohio, but the Beech Creek's tonnage is almost entirely coal, the ordinary traffic forming only about 6 per cent of the whole. On the Pennsylvania the average per ton per mile on the so-called lines east of Pittsburg and Erie for the late calendar year was 5·85 mills, and on the Philadelphia & Erie, which forms part of these Eastern lines, the average was 4·68 mills. On the Lake Shore in the same year the average was 5·72 mills.

President Ingalls says that nothing but the extraordinary cheapness with which the road can handle freight has enabled it to carry its immense tonnage with profit at the extremely low rates noted. And that furnishes the secret of the company's successful working. By the great improvement effected in road bed and track since the reorganization, by reducing grades, by using heavier locomotives and larger cars, the property and plant have been raised to such a high plane of physical perfection that the transportation cost has been very largely reduced and brought down to a minimum. This cheapening in the cost of doing the work, if there had not come coincident with it the great decline in rates noted, would have placed the company in a very fortunate condition, where it could look forward to the time when the payment of dividends was within the range of early possibilities. For instance, as noted in our previous article, had the company in 1895 been able to obtain merely the rates of three years ago, its net would have been about $1,900,000 better than it has actually turned out to be. As it is, the saving in cost has been

fortunate in another way—in enabling the company to maintain solvency at rates so low as to bankrupt some other roads.

The effect of the improved physical condition is seen in the greatly increased train-loads which the road has been enabled to move. In the late year there was a further increase in this train-load from an average of 301 tons to 315 tons. As recently as 1890 the train-load was only 225 tons. There are some small roads where the load is even heavier than for the Chesapeake & Ohio; for instance, on the Beech Creek the average for the fiscal year 1893-4 appears to have been over 500 tons. But, as showing how high the C. & O. average at 315 tons is, we may note that on the Lake Shore the lading of trains in the late calendar year averaged only 267 tons and on the New York Central for the year 1893-4 but 249 tons.

As to the general results for the year, the road's passenger traffic fell off by reason of the depression in business. In the freight tonnage there was a very marked increase. The increase was largely in the item of coal and followed from the absence of the strikes at the mines, which were such a marked feature of the previous year. It is noteworthy, however, that the freight tonnage in 1895 was larger than that of 1893, the comparison being 5,671,200 tons, against 5,508,045 tons. In the freight revenues, while there is a large increase over last year, the total is over a quarter of a million dollars less than in 1893, this being due to the decline in rates. The road was operated for 67 per cent of the earnings, and had net of $3,131,503, against $3,016,981 in 1894. The charges were $3,112,797, leaving a surplus of $18,706. President Ingalls states that the policy of maintaining and improving the property was continued during the year, and he notes that the company was extremely liberal in its expenditures for maintenance of equipment, having expended for maintenance of freight cars alone $587,619, or over $42 per car; on locomotives $341,246, or nearly $1,080 per locomotive; and on passenger cars $170,462, or over $800 per car. As heretofore, he says, all improvements which were not a distinct addition to the earning capacity of the property have been charged to expenses, and the aggregate charges to capital account for the year amounted to only $315,109.

Twelve months ago the company had nearly two million dollars of bills payable outstanding, against which it held a somewhat larger amount of its 4½ per cent bonds in its treasury. The sale of $2,835,000 bonds during the year enabled it to extinguish this debt. The company still has $499,000 of bonds in its treasury, including $177,000 received since the close of the fiscal year. The management think that there will be no occasion to dispose of any of the company's securities during the current year, except possibly in reimbursement of payments of the principal of car trusts and equipment notes recently paid or falling due during the year. It is estimated that the fixed charges the present year will be only $11,248 larger than in the late year. While the company has no bills payable outstanding for its own purposes, it is liable for $175,000 incurred for the purchase of an equal amount of Chesapeake & Ohio Steamship bonds, which bonds when sold are expected to liquidate this liability.

As illustrating the conservative policy pursued in the management of the property, one paragraph in the report deserves very prominent mention. This paragraph informs us that the directors have decided to carry in a special account the discount upon the bonds sold during the year, and to charge off the proportion applicable to each year during the life of the bond. The amount to be written off for the fiscal year was not large, being only $7,132, but the event is noteworthy as marking a new departure in railroad financiering. The general practice heretofore on the part of the railroads has been to charge the discount to capital account instead of to profit and loss.

RAILROAD NET EARNINGS FOR JUNE AND THE HALF-YEAR.

The striking fact which a review of the gross and net earnings of United States railroads for the first six months of 1895 brings out is that, notwithstanding many of the prevailing conditions were unfavorable, yet on the whole the period was a better one than the first half of 1894. Our statement comprises 177 roads, operating 119,163 miles of line, and these roads show an increase of $13,134,181 or 3·56 per cent in gross and of $7,297,471 or 7·12 per cent in the net. At the same time sight should not be lost of the fact that the comparison is with exceptionally poor earnings last year, and that while it is pleasing to be able to record an improvement in results, the recovery on the whole is small alongside of last year's tremendous losses. But this merely emphasizes, the fact that the conditions the present year were far from being all that could be desired.

The situation last year was about as bad as it well could be, and the railroads suffered from a combination of adverse factors and events without a parallel in our history. The depression in trade and business following the panic of 1893 was further intensified by the tariff uncertainties and the weakened condition of the United States treasury, necessitating a large issue of Government bonds. The farming classes suffered from the low price of wheat, while the low price of silver affected adversely the silver-mining industry. Then we had the great strike of the bituminous coal miners, which compelled many manufacturing establishments to close up and brought the iron industry in certain sections almost to a standstill. Besides all this, there were the Coxey disturbances, the strike on the Great Northern Railroad, the general railroad strike towards the end of June, the floods in Pennsylvania, the floods in the North Pacific States, the rate disturbances, etc., etc.

As a result of these various adverse influences and conditions, our compilation of earnings for the six months of last year showed a loss of no less than $68,790,061 or 16·39 per cent in gross earnings, and of $23,595,036 or 19·59 per cent in net earnings. Under ordinary circumstances we should have expected these extraordinary losses of last year to be followed the present year by hardly less noteworthy gains. But the change in the general industrial situation was not decided enough for that, and while a good many of the disturbing factors of the previous year were absent, there were other adverse developments which offset the gain on that account. It is not needful to go into all the details here since we reviewed the situation in our article on the gross earnings for the half-year in the issue of July 13. We may say, however, that business revival made only slow headway until the last two months—in January it was held in check by the critical state of the United States Treasury, and after the Syndicate contract in February recovery did not become very pronounced until April or May, when however a decided impetus was given to the recuperative forces

at work, the iron trade especially showing signs of great activity. Then the crop failure of last year was a depressing influence of wide moment. It caused a great falling off in the grain movement and diminished the purchasing power of large portions of the population—in certain sections the people were destitute and had to be given assistance.

The severe winter was likewise an adverse factor, both here in the East and in the West. The cold weather extended into the South, and in Florida killed the orange crop, so that the roads in that State lost the traffic in oranges as also the traffic in early vegetables; there were two freezes in that State, one last December and another early in February, which latter killed the second crop of early vegetables. Southern roads also suffered from a falling off in the shipments of fertilizers, occasioned by the fact that owing to the low price of cotton, planters were not able to spend money freely for that purpose. Still another drawback in the situation was the demoralization of rates nearly all over the country. While there were no conspicuous labor troubles like those of 1894, the Norfolk & Western, which had escaped involvement in the previous year's strike, had a strike of its own in 1895. Besides the falling off in grain, the live-stock movement underwent contraction. In the anthracite coal trade the conditions remained very unsatisfactory.

It is these circumstances that explain why after a loss of 68¾ million dollars in gross and 23½ million dollars in net earnings last year the recovery the present year has been only about 13 million dollars in gross and 7¼ million dollars in net.

January 1 to June 30. (177 roads.)	1895.	1894.	*Increase.*	
			Amount.	*Per Cent*
Miles of road	119,163	118,796	367	0·31
	$	$	$	
Gross earnings	381,778,437	368,644,256	13,134,181	3·56
Operating expenses	271,962,899	266,126,189	5,836,710	2·19
Net earnings	109,815,538	102,518,067	7,297,471	7·12

While last year there was such a heavy loss in both gross and net, it cannot be said that this followed very large gains in the years preceding, at least not as far as the net is concerned. The following carries the comparisons back for a series of years:

Year and number of roads.	*Gross Earnings.*			*Net Earnings.*		
	Year Given.	*Year Preceding.*	*Increase or Decrease.*	*Year Given.*	*Year Preceding.*	*Increase or Decrease.*
Jan. 1 to June 30.	$	$	$	$	$	$
1890 (150)	345,272,509	309,773,591	+35,498,918	105,190,424	93,289,063	+11,901,361
1891 (182)	387,696,261	380,381,063	+7,317,198	116,917,553	113,331,921	+3,585,632
1892 (190)	448,515,806	416,936,311	+31,579,495	131,071,945	124,464,710	+6,607,235
1893 (181)	438,662,810	423,542,661	+15,120,149	126,821,797	125,563,963	+1,257,834
1894 (170)	350,945,696	419,735,757	−68,790,061	96,846,247	120,441,283	−23,595,036
1895 (177)	381,778,437	368,644,256	+13,134,181	109,815,538	102,518,067	+7,297,471

An encouraging feature in the exhibits the present year has been the fact that the returns for the later months were very much better than those for the earlier months. This has been due in some measure no doubt to the improvement in trade, but in the main follows from the fact that comparison was with poorer results in 1894, the returns last year having steadily grown worse from month to month with the development of new adverse conditions. The following is a summary of the exhibits for each of the six months. It will be observed that in January, February and March the gain in gross was less than 2 per cent each month, while the gain in net was in excess of 3 per cent in only one month, namely January. On the other hand in April the gain in gross was 4·55 per cent, in May 6·95 per cent, and in June 4·28 per cent, while the gain in net was respectively 11·82, 21·79 and 11·73 per cent.

NOTE.—The number of roads included in January was 138; in February 135; in March 137; in April 141; in May 132; in June 134.

Nothing was more noteworthy about the returns last year than the very remarkable losses in earnings shown by many of the separate roads and systems. This year naturally we have some quite considerable gains, though these are proportionately very much less striking than the 1894 losses. For instance the Pennsylvania has a gain of $5,213,817 in gross and of $1,853,498 in net, but last year it had $12,273,606 loss in gross and $3,699,591 loss in net. On the other hand, some of the grain-carrying roads, on account of the failure of last season's crops, suffered further large losses in 1895 after their very large losses in 1894. Notable instances are the Union Pacific, which this year has $888,661 decrease in gross, in addition to $5,161,815 decrease last year; the St. Paul, which has $1,138,017 decrease in addition to $2,532,089, and the Burlington & Quincy, which has $1,286,230 decrease in addition to $3,815,869. It is worth remarking that in not a few instances the further losses in gross in 1895 were attended by such a considerable saving in expenses as to leave the net better than in 1894, notwithstanding the diminution in gross. Thus the Union Pacific, with $888,661 decrease in gross, has $670,696 increase in net; the St. Paul, with $1,138,017 decrease in gross, has $316,591 increase in net, &c., &c. The following shows all the gains and losses down to $200,000 in the case of the gross and down to $100,000 in the case of the net. It will be observed that the losses come chiefly from grain-carrying and Southern roads.

† The net on Eastern lines increased $774,638 and on Western lines $1,078,860. * For five months.

When the roads are arranged in groups or geographical divisions, according to their location or the nature of their traffic, it is found that there are two groups which show a loss in both gross and net—namely, the Northwestern and the Southern, the one reflecting last season's poor grain crops and the other the unfavorable conditions prevailing in the South. The Pacific group has a loss in gross but an increase in net, owing to the great saving in expenses effected by the Union Pacific and the Canadian Pacific. The New England group, with $1,606,584 increase in gross, has $285,592 decrease in net, but this follows from the heavy betterment outlays made by some of the roads, particularly the Boston & Maine and the Boston & Albany.

There is considerable uniformity in the ratios of gain in net by a number of groups; thus the Trunk lines have 9·01 per cent increase, the anthracite coal roads 9·27 per cent increase, the Middle States roads 9·98 per cent increase and the Pacific Coast group 9·58 per cent increase. For the Middle Western group the increase is 26·57 per cent, but this is due mainly to the exceptionally good statement of the Illinois Central. For the Southwestern group the increase in net is 15·84 per cent, and all the roads have participated in it with the exception of the Fort Scott & Memphis and three minor lines. The following is a summary showing the results for all the different groups. A full detailed statement, giving the results for each road separately in all the different groups, is printed at the end of this article.

Section or Group.	Gross Earnings.		Net Earnings.		
	1895.	1894.	1895.	1894.	Inc. or Dec.
Jan. 1 to June 30	$	$	$	$	$

Mexican (4	9,617,264	9,356,228	3,779,396	3,060,284	+719,112
Tot. (177 roads)	384,778,447	376,544,256	119,813,339	102,518,067	+17,295,271

MILEAGE.—The mileage for the above groups is as follows: New England, 3,262 miles against 3,188 miles in 1894; Trunk lines, 23,419 against 23,354; Anthracite coal, 3,380 against 3,380; Middle States, 3,093 against 3,093; Middle Western, 10,593 against 10,572; Northwestern, 16,745 against 16,535; Southwestern, 13,748 against 14,017; Pacific Coast, 23,632 against 23,526; Southern, 17,161 against 17,039; Mexican, 4,090 against 4,090; grand total, 119,163 against 118,796.

A few words as regards the showing for the month of June by itself. The gain in gross for that month, as already said, is 4·28 per cent, and in net 11·73 per cent. This is not as good as the showing for May, when we had 6·95 gain in gross and 21·79 gain in net. But it should be remembered that the month had an extra Sunday in 1895, and therefore one business day less, and furthermore that comparison is with somewhat better results last year than was the case in May, the loss in net for June 1894 having been $4,516,741 against $6,253,373 in May 1894. The following shows the June results back to 1890.

Year and Number of roads.	Gross Earnings.			Net Earnings.		
	Year Given.	Year Preceding.	Increase or Decrease.	Year Given.	Year Preceding.	Increase or Decrease.
June	$	$	$	$	$	$
1895 (177	49,168,356	44,245,542	+4,922,814	14,274,344	12,777,732	+1,496,624
1894 (178	46,944,242	45,387,350	+1,556,892	12,777,732	14,294,473	—1,516,741
1893 (176	46,387,350	34,712,875	+11,674,475	14,294,473	16,702,175	—2,407,702
1892 (172	34,712,875	33,157,734	+1,555,141	16,702,175	16,774,899	—72,724
1891 (152	33,157,734	31,782,546	+1,375,188	16,774,899	16,208,752	+566,147
1890 (139	31,782,546	30,406,384	+1,376,162	16,208,752	14,571,824	+1,636,928

When we come to analyze the June statement, the prominent feature is found to be the unfavorable exhibit made by the anthracite coal roads. This is due however not to the unsatisfactory condition of the anthracite coal trade but to the fact that in June 1894 the shipments of anthracite, on account of the strike at the bituminous mines, had been extraordinarily large. There are some decreases in both gross and net in other sections too, but speaking generally the gains are much more conspicuous and much more numerous than the losses.

PRINCIPAL CHANGES IN GROSS EARNINGS IN JUNE.

a This is roughly one-half of earnings for full year 1894, and on it we have based the changes for the present year.
b Not counted in footings, because included in earnings of the system under which this road appears.
c Figures and comparisons for this road are for five months ended May 31, the June returns not being ready yet.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of July, and they are presented below, together with the figures for the preceding months, thus completing the results for the seven months of the calendar year 1894. The imports of gold were decidedly less than in June, the amount received reaching only $51,730, of which $9,330 was in coin; and of silver there came in $136,090, of which $128,955 was bullion. There has been received during the seven months a total of $1,011,262 gold and $1,105,446 silver, which compares with $502,599 gold and $1,271,918 silver in 1894. The shipments of gold during July reached $80,481, mostly coin, and the heaviest monthly total of the year, and the exports of silver have been $238,875 coin and $560,000 bullion. For the seven months the exports of gold have been $228,530, against $512,037 in 1894, and $6,867,881 silver has been sent out, against $6,508,277 in 1894. The exhibit for July and the seven months is as follows:

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Aug. 10, 1895.

The only incident affecting the money market this week is the suspension of the City of Melbourne Bank. This is one of the institutions that failed in the beginning of 1893 and was reconstructed. From the very first it was regarded as certain here that the reconstruction would not work, for the management had been altogether too bad. The bank not having earned the interest it promised to pay to the depositors, some months ago the Chairman arrived in this country to negotiate with the depositors for a reduction of the interest. After several interviews meetings were held at which the proposal of the directors was rejected. On the other hand the depositors proposed a plan of their own which would have given them complete control of the bank. This, however, the shareholders refused. It was decided, therefore, to wind up, and on Wednesday the bank closed its doors in Melbourne. Altogether its liabilities amount to nearly 4 millions sterling. What the assets really are nobody knows, as every one admits that the nominal valuation is altogether excessive. The suspension is not likely to have much influence here, as it has been looked for for a long time past. Of course it may create alarm in the Colonies and further events may affect our market. For the present, however, the suspension is rather regarded as removing a danger from the market. Unemployed money here is as abundant as ever; the supply, indeed, is increasing, as little is doing at this season of the year.

The silver market is weak and dull. China is not buying; there is no sign as yet, at all events, that Japan will buy much, and India is doing very little. The tendency, therefore, is rather to sell than to buy. The India Council, however, continues to dispose of its drafts very successfully. On Wednesday it offered 50 lakhs of rupees and sold the whole amount at 1s. 1 5-32d. per rupee.

As we have now entered upon the holiday season, and most operators have left the city, the stock markets are inactive. In the American department selling preponderates, partly because of the gold shipments from New York and partly because of the anticipated heavy assessment on Erie shares. The price of Erie shares has fallen and probably will fall further if the assessment is to be 12 dollars per share, as is understood here. The most general opinion here is that a considerable amount of gold will have to be shipped from New York because of the recent large imports into the United States, and also because as soon as the new bonds are available it is expected that they will be bought by American bankers. The issue of them began on Thursday. At the same time there is an impression that the shipments of gold will not last very long and that business will grow much larger towards the end of the year.

The South American department is likewise quiet. The excitement in Brazil over Trinidad appears to have subsided; but the negotiations for a settlement in the province of Rio Grande have not yet come to an end. Nothing, consequently, is doing in Brazilian securities. Little is doing in Chilian, although it is reported that the Government is successfully carrying through the conversion. In Argentina trade is undoubtedly improving, and the railway companies are all doing better. But the vote of 10 million dollars, gold, for extraordinary naval and military preparations has unfavorably impressed the market here and consequently business has been somewhat checked. In the Colonial department the failure of the City of Melbourne Bank is disregarded and business is fairly good, though quiet.

Outside of South African gold shares very little is doing on the Continental bourses. The massacre of missionaries in China and the unsettled state of Southeastern Europe are deterring operators. Every one believes that peace will be maintained; but it is feared that alarm may be created by the attitude assumed by Russia towards Bulgaria and by the negotiations or pourparlers that are going on between Roumania and Austria-Hungary. The King of Roumania is visiting the Emperor Francis Joseph, and it is reported that he wishes to formally enter the Triple Alliance. The market for gold shares, however, keeps wonderfully good in spite of the time of year and the unfavorable influences affecting other departments. Paris more particularly is buying on a very large scale; and as several of the great South African magnates are just now returning to London it is generally believed that new enterprises on a great scale are to be launched and that everything possible will be done to improve the market. Prices, therefore, have made a further advance during the week.

From a report just published by the *Times* it appears that several of the British crops have deteriorated during the month of July. The average condition of wheat on the 1st of August is reported to have been 77·8, against 79·8 a month previously; that of barley was 85·9 against 83, and of oats 80 against 76·4. Potatoes have much improved. They are now 98·4 against 89·9. But roots are only 74·9 against 76·6. Grass, whether for meadowing or pasture, has decidedly improved. The condition now is 74·8 against 68·4.

The Board of Trade returns for July are highly encouraging. Even if we allow for the fact that there was one working day less in July of last year than in the past month, we were not at that time in the throes of a general election, as was the case in July of this year; nevertheless the returns show that the imports increased over 10 per cent during last month when compared with July, 1894, and the exports more than 11 per cent.

The imports since January 1st have been as follows:

Imports.	1895. £	1894. £	Difference. £	Per Ct.
January	36,753,068	38,458,613	−1,705,545	−4·43
February	28,134,489	33,984,085	−5,849,596	−17·21
March	35,980,590	35,327,037	+653,553	+1·85
April	34,341,358	35,015,781	−674,423	−1·91
May	34,752,086	34,134,060	+618,026	+1·87
June	33,884,584	34,229,679	−345,095	−1·00
July	35,128,142	31,835,553	+3,292,589	+10·34
7 months	238,801,680	242,806,918	−4,005,238	−1·64

The exports since January 1st have been as follows:

Exports.	1895. £	1894. £	Difference. £	Per Ct.
January	18,224,236	18,151,880	+72,356	+0·39
February	15,968,395	17,679,449	−1,711,054	−9·67
March	18,523,030	18,098,903	+424,127	+2·34
April	17,252,311	17,559,876	−307,565	−1·75
May	18,344,744	17,184,212	+860,532	+4·92
June	17,800,100	17,909,155	−109,055	−0·60
July	20,559,486	18,398,536	+2,160,950	+11·74
7 months	126,677,002	125,282,011	+1,394,991	+1·11

The re-exports of foreign and colonial produce since January 1st show the following contrast:

Re-exports.	1895. £	1894. £	Difference. £	Per Ct.
January	3,887,258	4,346,643	−459,385	−10·56
February	4,407,824	5,051,720	−643,896	−12·74
March	4,846,599	5,342,836	−496,287	−9·29
April	6,608,362	4,810,362	+1,797,753	+37·37
May	5,215,785	4,904,108	+311,677	+6·35
June	5,265,773	5,198,180	+67,593	+1·30
July	4,789,951	4,289,764	+500,187	+11·65
7 months	35,021,805	33,943,663	+1,077,642	+3·17

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1895. Aug. 7.	1894. Aug. 8.	1893. Aug. 9.	1892. Aug. 10.

Messrs. Pixley & Abell write as follows under date of Aug. 8:

Gold—Failing all demand for gold, the Bank has received all the arrivals for the week. The total purchased is £661,000 and £250,000 has been sold, £200,000 of which has gone to the Cape. Arrivals: River Plate, £19,000; New York, £47,000; South Africa, £166,000; West Indies, £40,000; total, £272,000. Shipments to Bombay, £500.

Silver—There is very little change to report. Since we last wrote there has been some moderate inquiry, which caused a small advance, which has since been lost. New York has sold pretty freely. Arrivals: New York, £103,000; West Indies, £12,000; total, £115,000. Shipments to Bombay, £53,250.

Mexican Dollars—There have been no recent transactions, and the last price quoted is 30d. nominal. Arrivals from Vera Cruz, £26,000. Shipments to Penang, £9,300.

The following shows the imports of cereal produce into the United Kingdom during the first forty-nine weeks of the season compared with previous seasons:

Imports	1894-5.	1893-4	1892-3.	1891-2.
Imports of wheat, cwt.	73,207,856	63,122,060	62,766,447	65,175,772
Barley	24,206,114	30,014,272	16,729,766	15,890,981
Oats	14,600,517	13,251,746	13,616,255	14,159,746
Peas	2,205,469	2,213,527	2,130,738	2,611,917
Beans	4,074,162	5,066,338	3,770,741	3,909,560
Indian corn	24,773,224	35,756,043	31,113,154	28,882,728
Flour	18,252,830	18,276,249	19,602,182	18,686,064

Commercial and Miscellaneous News

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods August 15 and for the week ending for general merchandise August 16; also totals since the beginning of the first week in January.

Foreign Imports at New York.

For Week.	1892.	1893.	1894.	1895.
Dry Goods	$2,875,565	$2,457,690	$2,034,901	$3,079,793
Gen'l mer'dise.	8,890,312	5,516,134	5,672,920	8,207,917
Total	$11,765,877	$7,973,824	$7,707,821	$11,287,710
Since Jan. 1.				
Dry Goods	$80,698,645	$91,618,673	$53,482,744	$94,909,716
Gen'l mer'dise.	298,962,535	303,933,038	224,281,715	236,108,939
Total 33 weeks	$371,661,180	$395,551,711	$277,764,459	$331,018,655

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending August 20 and from January 1 to date:

Exports from New York for the Week.

	1892.	1893.	1894.	1895.
For the week	$6,964,279	$7,896,014	$6,313,924	$5,223,765
Prev. reported	246,852,180	224,768,838	229,211,860	208,998,991
Total 33 weeks	$253,816,459	$232,664,852	$235,525,784	$214,222,756

The following table shows the exports and imports of specie at the port of New York for the week ending August 17 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

Exports and Imports of Specie at New York.

Gold.	Exports. Week.	Exports. Since Jan. 1.	Imports. Week.	Imports. Since Jan. 1
Great Britain	$3,542,000	$16,973,268	.....	$14,781,813
France	.....	12,302,073	.....	4,603,988
Germany	5,000	5,805,086	.....	1,527,191
West Indies	5,000	7,519,646	.....	412,711
Mexico	.....	.....	4,442	45,849
South America	.....	955,054	42,380	341,847
All other countries	.....	261,488	.....	66,230
Total 1895	$3,552,000	$43,816,615	$46,822	$21,779,629
Total 1894	934	83,134,796	348,084	11,753,493
Total 1893	.....	68,694,497	11,248,760	36,325,483

Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	$803,700	$22,104,048	.....	$49,246
France	.....	.....	.....	3,451
Germany	.....	16,142	$1,008	6,168
West Indies	.....	135,129	6,679	245,936
Mexico	.....	349	652	356,003
South America	.....	695,292	54,041	552,971
All other countries	1,517	20,594	.....	18,136
Total 1895	$805,217	$22,971,604	$62,380	$1,231,91
Total 1894	933,019	24,085,279	64,548	1,136,041
Total 1893	264,600	20,092,970	4,246	2,366,851

Of the above imports for the week in 1895 $24,000 were American gold coin and $1,008 American silver coin. Of the exports during the same time $3,387,000 were American gold coin.

—Messrs. Redmond, Kerr & Co. offer 5,000 shares Oswego & Syracuse 9 per cent stock, guaranteed by the Delaware Lackawanna & Western RR. Co. in perpetuity. They state that this is one of the oldest of the Delaware Lackawanna & Western guaranteed stocks, and it is rarely offered for sale. This being the first lot of any size that has been offered in many years, is an exceptional opportunity.

Breadstuffs Figures Brought From Page 336.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Aug. 17, 1895, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	Bbls. 196lbs	Bush. 60 lbs	Bush. 56 lbs	Bush. 32 lbs	Bush. 48 lbs	Bush. 56 lbs
Chicago	47,[illegible]	[illegible]	1,[illegible]	1,[illegible]	[illegible]	40,116
Milwaukee	[illegible]	[illegible]	21,450	144,[illegible]	22,[illegible]	19,800
Duluth	[illegible]	[illegible]	.....	4,519	.....	.....
Minneapolis	.....	[illegible]	5,460	.....	.....	.....
Toledo	2,[illegible]	[illegible]	[illegible]	31,[illegible]	3,[illegible]	15,000
Detroit	3,[illegible]	[illegible]	[illegible]	62,148	488	..
Cleveland	1,[illegible]	[illegible]	14,[illegible]	[illegible]	.....	.....
St. Louis	19,[illegible]	[illegible]	[illegible]	[illegible]	.....	2,167
Peoria	3,[illegible]	[illegible]	[illegible]	647,[illegible]	700	600
Kansas City	.....	[illegible]	.....	.....	.....	.....
Tot. wk. '95	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Same wk. '94	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Same wk. '93	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Since Aug. 1						
1894-95	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
1893-94	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
1892-93	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]

The receipts of flour and grain at the seaboard ports for the week ended Aug. 17, 1895, follow:

Receipts at—	Flour. bbls.	Wheat, bush.	Corn, bush.	Oats, bush.	Barley bush.	Rye, bush.
New York	[illegible]	[illegible]	[illegible]	[illegible]	.....	.....
Boston	[illegible]	[illegible]	171,[illegible]	[illegible]	.....	1,650
Montreal	[illegible]	[illegible]	[illegible]	[illegible]	.....	.....
Philadelphia	[illegible]	[illegible]	[illegible]	[illegible]	400	.....
Baltimore	[illegible]	[illegible]	[illegible]	[illegible]	.....	11,862
Richmond	[illegible]	19,136	[illegible]	[illegible]	.....	.....
New Orleans	[illegible]	.....	[illegible]	11,223	.....	.....
Total week	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	13,512
Week 1894	621,676	2,015,516	291,164	2,140,[illegible]	1,300	14,[illegible]

The total receipts at ports named in last table from Jan. 1 to Aug. 17 compare as follows for four years:

Receipts of—	1895.	1894.	1893.	1892.
Flour.....bbls.	9,[illegible]	12,[illegible]	11,[illegible]	11,[illegible]
Wheat.....bush.	[illegible]	[illegible]	[illegible]	[illegible]
Corn	[illegible]	[illegible]	[illegible]	[illegible]
Oats	[illegible]	[illegible]	[illegible]	[illegible]
Barley	1,[illegible]	1,[illegible]	[illegible]	54,[illegible]
Rye	[illegible]	[illegible]	[illegible]	[illegible]
Total grain	73,171,432	9,[illegible]	126,[illegible]	177,639,297

The exports from the several seaboard ports for the week ending Aug. 17, 1895, are shown in the annexed statement:

Exports from—	Wheat, bush.	Corn, bush.	Flour, Bbls.	Oats, bush.	Rye, bush.	Peas bush.
New York	[illegible]	[illegible]	[illegible]	4,500	.....	2,587
Boston	[illegible]	[illegible]	[illegible]	115	.....	.....
Portland	.....	.....	.....	.....	.....	.....
Philadelphia	[illegible]	[illegible]	[illegible]	.....	.....	.....
Baltimore	[illegible]	[illegible]	[illegible]	.....	.....	.....
New Orleans	.....	.....	.....	.....	.....	.....
Richmond	.....	.....	.....	.....	.....	.....
Newport News	[illegible]	.....	[illegible]	.....	.....	.....
Montreal	[illegible]	[illegible]	[illegible]	.....	.....	2,000

WALL STREET, FRIDAY, AUGUST 23, 1895.—5 P. M.

The Money Market and Financial Situation.—The decline of some industrial stocks, notably American Sugar and American Tobacco, has been the principal feature of the trading at the Stock Exchange. The weakness of these speculative shares in no degree reflects the conditions of the general situation, which continue of a favorable character.

Exports of gold have continued, but the Government gold reserve has been maintained by the Syndicate; the latter part of the week the rates for foreign exchange declined, making further exports less profitable, and commercial bills were more freely offered at lower rates.

A gain of nearly half a million dollars in the gross earnings of the North Western Railroad for July had a favorable effect upon all the granger stocks, some of which are now higher than they have been since the panic of 1893.

We learn from good authority that the new Erie plan of reorganization will be announced on Monday next. Following the close of the summer holiday season there will doubtless be developed plans for the rehabilitation of other large railroad companies, which, when done, will have a beneficial effect upon the market for railway securities.

Currency in limited amounts is now being shipped to the interior. This movement may result favorably by relieving our local banks of an accumulated surplus of idle money.

The open market rate for call loans during the week on stock and bond collaterals has been 1 per cent. To-day's rate on call was 1 per cent. Prime commercial paper is quoted at 3½ to 4¼ per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £1,885,489, and the percentage of reserve to liabilities was 59·17 against 58·51, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 3,675,000 francs in gold and 1,300,000 francs in silver.

The New York City Clearing-House banks in their statement of Aug. 17 showed an increase in the reserve held of $3,212,600 and a surplus over the required reserve of $41,266,875 against $38,940,775 the previous week.

Foreign Exchange.—The market for sterling and Continental bills has weakened and quotations are fractionally lower. There is a slight increase in the offerings of commercial bills, but they are not sufficient to supply the demand, and gold to the amount of $4,200,000 has been shipped, including $1,100,000 which goes to-morrow.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 88¾@4 89; demand, 4 89¾@4 90; cables, 4 90@4 90¼.

Posted rates of leading bankers are as follows:

Aug. 23.	Sixty Days.	Demand.
Prime bankers' sterling bills on London..	4 89½@4 90	4 90½@4 91
Prime commercial.....	4 88¼@4 88½	.....
Documentary commercial.....	4 87¾@4 88	.....
Paris bankers' (francs).....	5 16⅞@5 16 16	5 15 5/8-5 14 15/16
Amsterdam (guilders) bankers.....	40¼@40 5/16	40 7/16@40½
Frankfort or Bremen (reichmarks) b'kers'	95½@95 9/16	95 13/16@95 7/8

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 50 premium; commercial 50c. premium; Chicago, 60@70c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Government bonds are strong and quotations are higher. Sales at the Board include $5,000 5s, reg., at 115¼; $25 000 5s, coup., at 115¼ to 115⅜, and $35,000 4s, coup., 1925, at 121¾. The following are closing prices:

State and Railroad Bonds.—State bonds continue dull. Sales at the Board include $15,000 Virginia fund. debt 2-3s of 1991 at 63½ to 63⅝ and $12,000 Tenn. settlement 3s at 90½ to 90⅞.

The railroad bond market has been strong and in several cases prices have advanced. Features of the active list include Ore. S. L. & Utah No. con. 5s rects., which have gained nearly 5 points during the week and about 10 points since Aug. 7. This movement is explained by the fact that the earnings show a very large increase and the prospects for the future are excellent. Chicago & Erie 1sts have advanced over 2 points, as they will be favorably affected by the reorganization plan, which will be announced early next week. Lex. Ave. & P. F. and Col. & 9th Ave. bonds seem to be favorites with investors and have gained about 2 points. Or. Short Line 6s are 1½ points higher. Other active bonds which have advanced include the Atchisons, Mo. Kan. & Tex., St. Louis Southwest., Ches. & Ohio con. 5s and some of the Reading issues. No. Pacifics have been weak and the con. 5s have declined about 2 points, as the proposed reorganization plan is not making satisfactory progress.

Railroad and Miscellaneous Stocks.—In the stock market the speculative interest has centered chiefly in the industrial list. American Tobacco, which sold on Aug. 12 at 114, declined to 92 on Monday, when over 130,000 shares were traded in.

Active hostility to the company has developed in the West and a lively competition is promised. American Sugar has also been weak, selling down to 106¾ on Thursday, a loss of over 7 points since the close last week. Nat. Linseed Oil declined about 2 points on Thursday, as a result of the commencement of an action to restrain the payment of a dividend. Chicago Gas, Distilling and Nat. Lead have also been active but steady.

The railroad list has been strong, and in a number of cases the prices recorded are the highest since 1893. This is true of several of the granger group. Lake Erie & Western has advanced about 3 points and New York Susquehanna & Western 1½ points for both common and preferred. No change has been announced in the coal situation, but Central of N. J. shares sold at 108 on Tuesday, a gain of 3½ points since our last quotations and 2 points above the highest of the year. Other coal shares have been strong, including Reading, which has been the most active of the railroad list. Manhattan Elevated has fluctuated between 113 and 116, closing at 114. Minn. & St. Louis has been a prominent feature, the 2d preferred having advanced from 48 early in the month and 52 at the close last week to 57.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every steam road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

Roads.	Latest Gross Earnings.			Jan. 1 to Latest Date.

* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & South western.

a These figures include results on leased lines.

b Includes earnings from ferries, etc., not given separately. ‡ Mexican currency. c Includes only half of lines in which Union Pacific has a half interest.

Street Railways and Traction Companies.

[The returns of earnings of the street railways, both gross and net, have been transposed to a place by themselves, at the end of this department of railway earnings, and will hereafter always be given in that place. They will be found to day on pages 320 and 321.]

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the second week of August our preliminary statement covers 71 roads, and shows 1·19 per cent gain in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. Besides the roads furnishing monthly returns, we have also added this time the roads which make quarterly returns. *The street railways, however, we give by themselves under a separate head at the extreme end of these tabulations —see page 320.*

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c Expenses for May, 1895, include $12,436 for account of new rails, and for March, April and May combined $.55,839 for the same purpose.
d $12,428 on account of steel rails is included in expenses for May, 1894.
e After deducting other expenditures for repairs, replacements and general expenses, the income applicable to interest on bonds in June was $66,915, against $57,023 last year, and for six months to June 30 $485,.05, against $434,749, after adding earnings received from Fel-

eral Government net from January 1 to June 30, 1895, was $185,568, against $512,414. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

f Results of coal mining operations only.

g Including other income, the net for July, 1895, was $45,641, against $44,993 for 1894, and from January 1 to July 31, $171,635 against $263,445.

h These figures include only eleven months' operations of the lines formerly known as the Charlotte Col. & Aug., the Columbia & Greenville and the East Tennessee Virginia & Georgia, and ten months' operations of lines formerly known as Georgia Pacific Railway and the Louisville Southern, all of which are now embraced in the Southern Railway. Including these lines for the full twelve months the gross in 1894-95 was $17,959,119, against $17,548,685 in 1893-94, operating expenses $12,790,533, against $13,190,470, leaving net $5,168,596, against $4,358,215.

i Mail for July, 1895, not paid.

l Expenses for 1895 include $311,155 paid on account of new equipment.

* After deducting proportion due roads operated on a percentage basis and including results of operations of auxiliary companies, net in June, 1895, was $342,139, against $510,029 in 1894; for six months ended June 30 $1,643,380, against $1,565,672, and for nine months from October 1 to June 30, $2,897,696, against $3,371,466.

† Includes only one-half of lines in which Union Pacific has a part interest. Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topeka & Southwestern and Montana Union.

; May and June for 1895 estimated.

‖ Including income from ferries, &c.

a After allowing for miscellaneous interest paid there is a deficit for the first six months of 1895 of $ 5,466, against $100,187 in 1894.

b After allowing for miscellaneous interest paid and received, and for Detroit Terminal charges, there is for the first six months of 1895 a deficit of $79,951, against a deficit of $119,019 in 1894.

‡ After allowing for miscellaneous interest paid, there is a surplus for the fiscal year ending June 30, 1895, of $66,823, against $68,233.

§ After adding other income and traffic guarantee, there is a surplus for the fiscal year of $42,374.

* After allowing for other income received.

† These charges are simply for taxes and rentals and do not include bond interest.

STREET RAILWAYS AND TRACTION COMPANIES.

We have been very successful in our efforts to secure monthly and weekly reports of the earnings of street railways, and the list of roads now furnishing such returns has become a very extended one. For this reason we have concluded to separate the street railways entirely from the steam roads and to bring them together under a distinct head. The following table shows the *gross* earnings for the latest period of all street railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all street railways from which we have been able to procure monthly returns, and also a few roads making quarterly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

‡ Including freight equipment in compliance with U. S. statute.

—V. 60, p. 335.

Boston & Maine Railroad.

(Report for year ending June 30, 1895.)

The preliminary statement of earnings for the late fiscal year is given below. The year's operating expenses include the following special charges, all of which are in the nature of permanent betterments to the property.

Boston terminals.	$219,635	†Air brakes and automatic couplers	$33,134
Station at Lynn..... ...	151,012	New equipment received.	167,251
Station at Medford	12,295	Equipment not yet delivered.....	200,000
Freight yard at Haverhill	12,457		
Double tracks.....	9,878		
Reconstruction of Eastern Division	89,586	Total	$905,147

† On freight equipment in compliance with U. S. statute.

By the receipt of $750,000 from the city of Boston, in payment for the Haymarket Square property, the road's cost of construction, shown in the general balance sheet, is reduced by that amount, less the cost of real estate purchased and devoted to railroad uses during the year. The actual reduction of the cost of the road's construction is $597,785. This amount, it is said, remains unexpended in the company's treasury, and may be used only for such permanent improvements to the property as are properly chargeable to the construction account. For the first time in many years the company is without floating indebtedness, the last of its obligations of this nature having been discharged in November, 1894.

The fiscal results for the year were as follows:

	1894-95.	1893-94.	Inc. or Dec.
Year ending June 30—	$	$	$
Gross earnings	16,992,314	15,962,277	I.930,037
Operating expenses	†11,752,459	10,833,667	I.918,791
Net earnings	5,139,855	5,128,610	I.11,246
Other income	565,684	625,962	D.60,278
Total net	5,705,539	5,754,572	D.49,032
Fixed charges	4,326,509	4,346,779	D.20,271
Balance	1,379,031	1,407,792	D.28,761
Sinking fund payments	72,750	67,283	I.5,467
Balance	1,306,281	1,340,510	D.34,229
Dividends	1,233,998	1,321,031	D.87,034
Surplus	72,284	19,478	I.52,805

† Includes $200,000 spent for new equipment.

BALANCE SHEET JUNE 30, 1895.

Long Island Traction System—Brooklyn Heights RR.

(Report for the year ending June 30, 1895.)

For the late fiscal year the Brooklyn Heights Railroad Company, which is the operating company of the Long Island Traction Company, reports as below. Its fixed charges include the rental due the Brooklyn City RR. Co. The large deficit for the recent year is attributed to the strike in January last. The quarterly statement is given on another page. The large item ($3,012,826) shown in the following balance sheet as due from the Brooklyn City RR. Co. is the sum expended on that property under terms of lease for con-

struction account, and is to be repaid whenever the lease, for any reason, terminates.

COMPARISON YEARLY STATEMENTS, JUNE 30, 1894 AND 1895.

	1895.		1894.
	$		$
Gross earnings from operation		4,052,189	4,303,117

—V. 61, p. 152.

American Grocery Company.

(Report for the year ending July 31, 1895.)

President T. L. Marsalis in his report to the stockholders says:

It is gratifying to show the results of the business for the thirteen months ending July 31, 1895, after deducting losses for bad accounts, to be a net profit of $63,697 94. While the dividend on the first preferred stock has been earned, it is deemed advisable to use the money to meet the demands of increasing business. The report further says:

You are familiar with the reorganization of Thurber, Whyland Company and the rehabilitating of its affairs, notably handled by the Reorganization Committee, which resulted in the formation of the American Grocery Company. The reorganization was carried through successfully during a period of extreme financial depression. The company commenced business when the business conditions of the country were at their lowest ebb, and succeeded to a business which had lost credit, its trade almost entirely gone, and which was affected by the uncertainty usually attending a receivership. The company had received from new subscribers and from assessments paid in by stockholders of Thurber, Whyland Company, $468,220, for which it issued first preferred stock. In the purchase of the property from the receivers, it gave notes for $2,275,000 to some of the creditors of Thurber, Whyland Company, payable respectively: April 1st, 1895; July 1st, 1895; and October 1st, 1895. The April and July notes have been paid, and the October notes will be paid at maturity. On June 30, 1894, we took under the purchase agreement) what assets the receivers had to turn over, and proceeded to conduct the business.

The following figures taken from the Treasurer's report show the condition of the company on August 1st, 1895:

BALANCE SHEET AUGUST 1, 1895.

Assets.		*Liabilities.*	
Acc. receivable (new)	$437,740	Capital Stock:	
Less a	5,129	First pref. rred	$410,780
Thurber, Whyland Co., accounts and notes	732,959	Second "	1,500,000
Bills receivable	19,884	Common "	1,000,000
Merchandise	353,820	Accounts payable	105,582
Real estate	25,000	Bills payable:	
Horses and trucks	6,000	October 1, 1895	75,600
Office & store fixtures	5,845	Accrued interest	4,900
Machinery in store	3,948	Bills payable	241,000
Fact'y (Moorest'n, N.J.)	10,342	Profits:	
Fact'y (Duane St., N.Y.)	7,203	Feb. 1, 1895	31,497
Trademarks, franchises and good will from Thurber, Whyland Co.	1,740,094	Aug. 1, 1895	32,201
Cash	63,855		
	$3,401,559		$3,401,559

The available assets have increased $70,202 since August 1st, 1894, of which $31,497 was net profits, $7,460 received from the sale of first preferred stock, and $31,333 07 received from receivers on final settlement.

Referring to the statement of August 1st, 1895, the following is given as the value of the assets:

Accts. (new and good)	$432,611	Fact'y (Moorest'n, N.J.)	10,342
Thurber, Whyland Co. claims (estim. good)	132,959	Fact'y (Duane St., N.Y.)	7,203
Bills receivable	19,884	Trademarks	100,000
Merchandise	353,820	Cash	63,855
Real estate	25,000		$1,161,465
Horses and trucks	6,000	Less liabilities	427,081
Office & store fixtures	5,845		
Machinery in store	3,948	Showing net good assets	$734,384

The old accounts and notes of Thurber, Whyland Company have been running from two to eight years. We collected of these claims to August 1st, 1895, $17,040 70. Other claims will doubtless be slow on them, but we feel sure they can be considered as good assets for the amount above mentioned. Regarding the trademarks, we have about two hundred (200) trademarks in roasted coffees, ground spices, teas, canned goods, French goods, farinaceous goods, cigars, etc., and believe these trademarks could be sold for $100,000, but are worth a great deal more than this amount to the business. It will be seen that there is a very large surplus of good assets over the first preferred stock.

GENERAL INVESTMENT NEWS.

Brooklyn Heights—Long Island Traction.—Earnings of the Brooklyn Heights RR., which operates the lines of the Long Island Traction Co., for the quarter ending June 30, have been reported as follows. Results for the fiscal year are given on a previous page.

3 mos. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance.
1895	$1,007,083	$349,551	$32,553	*$541,884	def. $131,120
1894	1,183,742	457,859	56,063	496,686	sur. 17,236

*Includes $23,222 loss on horses.—V. 60, p. 1145.

Called Bonds.—The following bonds have been called for payment. The numbers may be learned at the offices of the respective companies.

Cambridge, Mass., (Street) RR.—30 5 per cent bonds of 1903 will be paid off by the N. E. Trust Co., Boston, on Oct. 1.

Chicago & Western Indiana RR.—78 bonds will be paid off by Messrs. J. P. Morgan & Co. on Nov. 1st.

Henderson Bridge.—21 bonds will be paid off by the Central Trust Co. on Sept. 3.

Illinois Central RR.—50 sterling sinking fund 5 per cent bonds will be paid off by Messrs. Morton, Rose & Co., London, on Oct. 1st.

Mississippi River Bridge Co.—8 bonds will be paid off by Messrs. Cuyler, Morgan & Co. on Oct. 1st.

St. Paul Minn. & Man.—200 bonds for $100 each, 36 for $500 each and 687 for $1,000 each, of the 1st mort. sink. fd. 7 p. c. ld. grant gold bonds, will be paid at the office of the Great Northern Ry. Co., N. Y., on Nov. 1st.—Vol. 60, p. 1103.

Central Railroad Company of New Jersey.—For changing grade and elevating roadway through Elizabeth, and for general purposes of the company, general mortgage bonds for $1,644,000 have been issued, and this week were listed on the New York Stock Exchange. These are the bonds previously reported sold.—V. 61, p. 280.

Central of Vermont RR.—Malone & St. Lawrence Railway.—Notice is given that a special meeting of the stockholders of the Malone & St. Lawrence Railway Company will be held Sept. 12 for the purpose of taking action on a proposition for the consolidation of said company with the St. Lawrence & Adirondack Railway Company. Both these companies are operated by the Central of Vermont.—V. 59, p. 1004.

Chicago City Railway.—According to the Chicago papers the directors of this company have decided to submit to the stockholders at the next annual meeting a proposition to increase the capital stock from $10,000,000 to $14,000,000 for the purpose of retiring the company's outstanding bonds, of which the total issue is now $4,619,000. It is said the new stock will be offered to stockholders at par, the plan being to issue $1,000,000 new stock at intervals of six months until the entire $4,000,000 is put out. The bonds are subject to call on sixty days notice. Confidence is expressed that the company will be able to maintain its dividends of 12 per cent per annum on the increased capital.—V. 60, p. 1008.

Chicago Peoria & St. Louis Ry.—The following is a statement of the earnings for the year ending June 30, 1895, as certified, it is said, by General Manager C. H. Bosworth:

Earnings—		*Expenses—*	
Freight	$694,241	Maintenance of way	$104,297
Passenger	189,849	Maintenance of equipment	82,030
Mail	21,285	Conducting transport'on.	476,997
Express	12,398	General expenses	30,439
Miscellaneous	15,871		
Total	$933,646	Total	$693,765
Equal to per mile.	$4,225	Equal to per mile	$3,139
Net earnings (equal to per mile, $1,095.)			$239,881
Deduct—			
Rental of Peoria & Pekin Union Railway		$22,500	
Taxes		28,144—	50,644
Net income			$189,236

—V. 61, p. 280.

Chicago & Southeastern Ry.—The officers announce that the extension from Waveland Junction to Brazil, Ind., 31 miles, will be opened for traffic this week.—V. 59, p. 1057.

Cincinnati & Jackson.—A company of this name with an authorized capital stock of $160,000 has been incorporated at Lansing, Mich. The new company is organized by parties interested in the Cincinnati Jackson & Mackinaw and proposes to construct a new line of road from Jackson to Addison, a distance of 20 miles, affording the Mackinaw road a direct line from Jackson to Cincinnati. The necessary surveys have already been made. The Cincinnati Jackson & Mackinaw is in receiver's hands, consequently no union of the roads can take place till after its reorganization.

Colorado Fuel & Iron Co.—At the annual meeting of this company in Denver the following directors were elected: E. Thalmann, John G. Moore, Henry W. Cannon, Geo. H. Prentiss, C. D. Simpson, of New York; Henry R. Wolcott, Dennis Sullivan, W. H. James, C. H. Toll, J. L. Jerome, J. A. Kebler, J. C. Osgood, of Denver, and Paul Morton, of Chicago. Messrs. Moore, Cannon, Prentiss and Simpson are new directors. The executive committee is J. C. Osgood, C. H. Toll, W. H. James, Henry R. Wolcott and Dennis Sullivan.

The annual report is reported as showing: Net earnings, $678,450, an increase of $116,341; surplus over all charges, including preferred stock dividend, and after carrying $92,000 to credit of sinking fund, $4,874. President Osgood telegraphs: "All departments running full. We have doubled capacity of Merchant Mill; still unable to supply demand."—V. 61, p. 151.

Davenport & Rock Island Railroad.—At the stockholders' meeting on Aug. 15, 6,554 shares were represented and all but 116 voted in favor of the reorganization plans which plan provides for the sale of the property subject to the $630,000 first mortgage bond, of 1891 to an entirely new company with a capital stock of $600,000. Of this amount of stock $500,000 is to be issued at once, the old stockholders being given the right to subscribe for it at par, and the remainder will be held in the treasury to be issued when needed. This, it is estimated, will again put the company on a sound financial basis. It will permit of the payment of $350,000 certificates of indebtedness of 1890, also a good portion, if not all, of the floating debt in the shape of special street-paving assessments. It is hoped that the earnings will be sufficient to pay in the neighborhood of 6 per cent on the stock of the new company.—V. 61, p. 280.

Denver City Cable Railway.—The foreclosure sale of this railway, advertised to take place August 22, was postponed until September 10, as parties interested in the property could not be present.—V. 60, p. 1104.

Detroit Lansing & Northern.—The following comes from Boston: "The directors of the Detroit Lansing & Northern are actively at work on a reorganization plan, announcement of which, it is expected, will be made in about two months. Under the old plan, which failed, about three-fourths of the outstanding bonds were deposited. Only a few of these bonds have been withdrawn. An operative plan requires nine-tenths of the outstanding bonds, as one-tenth of the bonds can institute foreclosure proceedings."—V. 60, p. 747.

Distilling & Cattle Feeding—American Spirits Manufacturing.—At Chicago on Thursday Judge Seaman, in the United States Circuit Court, confirmed the recent sale of Distilling & Cattle Feeding property to the Reorganization Committee, with the proviso that the parties opposing the confirmation be allowed until Tuesday morning at ten o'clock to file their objections to the confirmation, and be heard on them. He said his course would be to overrule all the objections unless they were more substantial than those already made by counsel for Greenhut and Morris.

The American Spirits Manufacturing Company was incorporated Thursday under the laws of New York State as successor of the Distilling & Cattle Feeding Company. The directors are S. M. Rice, Richard B. Hartshorne, Jules S. Bache, T. H. Wentworth, F. M. Lockwood, Henry S. Carney, Nathan Bijur, of New York City; William E. Hutton, of Cincinnati; Clarence Buckingham, of Chicago; Edward S. Easton and Walter Barker, of Peoria, Ill. Subsequently the following officers were elected: S. M. Rice, President; R. B. Hartshorne, Vice-President and Chairman of the Board; Jules S. Bache, Treasurer; T. H. Wentworth, Secretary: Nathan Bijur, General Counsel.—V. 61, p. 281.

Flint & Pere Marquette RR.—In answer to an inquiry as to the truth of the recent newspaper report respecting the extension to Toledo, President Crapo writes the Chronicle as follows:

No definite arrangements have been made for construction between Monroe and Toledo, and whether the work will be undertaken this autumn is quite uncertain. The rumor which was recently published did not emanate from any one in the management of the F. & P. M.—V. 61, p. 196.

Kansas City Pittsburg & Gulf RR.—The Philadelphia Stock Exchange has listed $250,000 additional bonds and the same amount of stock of this company, making the total amount of each listed to date $6,275,000. The stockholders of the Kansas City Terminal Construction Co. have voted to increase the capital stock of the company to $3,000,000. The proceeds of the increase will be used to build that portion of the Kansas City Pittsburg & Gulf RR. from Shreveport to Sabine Pass. The Arkansas Construction Co. is building the road to Shreveport, La.—V. 60, p. 873.

Kings Queens & Suffolk Railroad.—This company was incorporated at Albany Aug. 16 to construct a railroad about nine miles in length, with termini at the westerly line of the town of Jamaica and in the village of Far Rockaway. The capital is $350,000. In this enterprise Frederick W. Dunton is the moving spirit and he proposes to construct and operate the line as a bicycle, or single rail, electric road, connecting Far Rockaway with the Kings County Elevated, and affording transportation at a very high rate of speed.

Lake Erie & Western RR.—This company's fiscal year ends Dec. 31, but earnings for the twelve months ending June 30 have been reported as follows:

12 mos. end. June 30.	*Gross earnings.*	*Net earnings.*	*Interest, taxes, etc.*	*Div. on pref.*	*Balance.*
1894-5	$3,517,780	$1,584,452	$691,909	$592,000	sur. $300,543
1893-4	3,081,323	1,293,994	830,822	592,000	def. 128,828
1892-3	3,579,167	1,655,423	603,613	592,000	sur. 459,810

—V. 61, p. 282.

Louisville Evansville & St. Louis RR.—A large majority of the consolidated 5 per cent bonds of this company have been deposited with the New York Security & Trust Company under the bondholders' agreement of May 1 last. The extended time for depositing bonds under that agreement without penalty expired this week.—V. 61, p. 196.

Macon & Northern RR.—Central RR. of Georgia.—It is now expected that the Macon & Northern Railroad will become part of the Central of Georgia system. An agreement to this effect has been signed by Alexander Brown & Sons, representing the bondholders of the Macon & Northern and the Thomas-Ryan reorganization committee. This agreement is to be ratified by the bondholders of the Macon & Northern before being finally accepted.—V. 61, p. 239.

Metropolitan Street Ry. (Kansas City.)—This company, which owns all the bonds of the Kansas City & Independence Rapid Transit Company, has begun formal proceedings to perfect its title to the property through foreclosure of the Rapid Transit mortgage, suit for this purpose having been brought this week.—V. 61, p. 279.

Metropolitan Street Railway (New York City).—Earnings for the quarter ending June 30 have been reported as follows. Results for the fiscal year are given on a preceding page.

3 mos. end June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, &c.	Balance.
1895	$1,482,398	$688,738	$84,548	$506,843	$271,453
1894	1,421,987	587,861	10,156	466,475	131,542

—V. 60, p. 1039.

National Linseed Oil.—This company has declared a dividend of 1 per cent, payable September 16. L. A. Coquard, of St. Louis, served notice that application would be made on September 2 to Judge Showalter to restrain the payment.—V. 60, p. 349.

New York Lake Erie & Western.—Judge Lacombe, of the United States Circuit Court, on Wednesday signed the decree for the sale of the New York Lake Erie & Western Railroad under the foreclosure of the second consolidated mortgage. The reorganization committee, composed of C. H. Coster, L. J. Fitzgerald and A. J. Thomas, will probably issue its plan in this city and London on Monday. It is expected that the foreclosure sale of the road will occur in about sixty days. The plan has been underwritten, it is understood, about equally here and abroad.

The new mortgage will cover in addition to the property of the Erie, the Chicago & Erie and the New York Pennsylvania & Ohio, which it is understood are to be owned absolutely by the new company.—V. 61, p. 282.

North Carolina RR.—Southern Ry.—A new lease of the North Carolina RR. has been made to the Southern Ry. Co. It will run for 99 years from Jan. 1, 1896, at the following rental: For the six years beginning Jan. 1, 1896, $260,000 per annum, equal to 6½ per cent on the $4,000,000 capital stock; for the remaining 93 years $280,000 per annum, equal to 7 per cent on the stock. The Southern Ry. Co. will also pay taxes on the property, heretofore tax exempt. It is understood also that all betterments will become the property of the lessor. The present lease does not expire till 1901, but since the road is wanted as part of the through line to Norfolk, and as such will require considerable outlays for improvements, it was thought desirable to ensure the permanency of the lease during a long period.—V. 61, p. 153, 196.

Northern Pacific.—President James J. Hill, of the Great Northern, has been in conference in New York this week with the Adams Committee. It is understood that Mr. Hill has declined to modify his original propositions, embodied in a contract that was executed by all the parties in interest, including the Deutsche Bank, the largest single holder of Northern Pacific securities. Mr. Hill stands ready to carry out his part of that agreement whenever the Northern Pacific Railroad shall have been reorganized. He claims that the charter of the Great Northern Company gives all the authority and power required to make the guarantee which he has pledged himself to give the Northern Pacific bondholders, and he is supported in this view unanimously by all of the counsel of the company.

The New York *Sun* prints the following:

Chief among the suggestions of the bankers and the Reorganization Committee is one for the formation of a third company to hold a majority of the stock of the reorganized Northern Pacific Company and also a majority of the stock of the Great Northern Company. Mr Hill on Tuesday informed Messrs Adams, Morgan and others interested with them in the third company plan, did not appeal to him, and that he had decided to stand upon his original proposition. Mr. Hill maintains, it is understood, that to seek to control or operate the Northern Pacific road by a third company or by any indirect means would be a reflection upon the chartered rights of the Great Northern Company.

The argument is also advanced that the history of the Oregon & Trans-Contin. the Richmond Ter., and other companies formed solely to control railway properties, have turned out so disastrously that that method has fallen into disrepute. Another argument against the third company is that the Northern Pacific would not derive the full and direct benefit of the credit of the Great Northern Company, and that to pass the third company above suspicion a large amount of money, say $25,000,000, would have to be placed in its treasury as a guarantee that it would live up to its obligations. The capital of such a company would easily run up to $100,000,000, upon which a large sum would have to be paid annually in taxes, and besides the character of the company would make it a target for politicians and unscrupulous officials.—V. 61, p. 241.

Northwestern Elevated RR. (Chicago).—The Columbia Construction Company, which is building the Northwestern Elevated Railroad, recently decided to increase their capital from $2,000,000 to $5,000,000. Not all the stockholders availed themselves of the privilege to subscribe to the new stock, but the Chicago papers report that the large stockholders came forward and completed the subscription. A call for the first payment, which is 10 per cent, has been made for Aug. 22.—V. 61, p. 241.

Ohio Southern RR.—At Lima, Ohio, on the 16th instant, N. B. Matthews and J. R. McGrew were appointed receivers in place of George W. Saul. The change is understood to be the result of efforts of the security-holders represented by a reorganization committee consisting of John I. Waterbury, J. D. Smith and J. S. Bache. The committee will formulate a reorganization plan shortly.—V. 61, p. 152.

Oregon Railway & Navigation.—A plan of reorganization having been prepared which is satisfactory to all the large interests, it is now submitted to the approval of the bondholders generally. Practically all the consols and collateral trust bonds have been deposited under their respective agreements, and the holders of the certificates of deposit for the former will take action on the plan September 6 and for the collateral trust bonds September 16. See further particulars as to these meetings in the advertising columns of to-day's CHRONICLE.

The plan refers to the foreclosure proceedings now in progress under the consolidated and collateral trust mortgages and of the proposed foreclosure of the mortgages deposited to secure the collateral trust bonds. It then says that the property of the Oregon Railway & Navigation Company covered by its consolidated mortgage, and also all other property of that company so far as the same shall be acquired, will be vested in a new company to be formed; and such new company will also acquire the property covered by the mortgage of the Oregon Railway Extension Company and the property covered by the mortgage of the Washington & Idaho Railroad Company, or the bonds and capital stock of those companies.

New Securities.—The new company shall create the following securities:

Consolidated mortgage 4 per cent 50 year gold bonds..... $24,500,000
These shall be a second lien on the property covered by the present first mortgage of 1879 under which $4,900,000 bonds are now outstanding; and a first lien on the remainder of the property of the new company, the new consols to bear interest from June 1, 1895, payable semi-annually, and interest to be payable at option of holder in Germany at the fixed rate of 4 marks 20 pfennigs per dollar.
Preferred stock, 4 per cent, non-cumulative 11,000,000
Common stock 24,000,000
Arrangements shall be made for transfer of both classes of stock and for payment of dividends in Berlin, Germany.

It will be provided in the articles of incorporation of the new company that the *preferred* stock of said new company shall be entitled in each calendar year to receive dividends, if declared, to the amount of 4 per cent per annum, non-cumulative, before any dividend shall be paid upon the common stock, and that the *common* stock shall be entitled after the payment of 4 per cent dividends to the preferred stock to all dividends declared during the same year up to 4 per cent per annum, and that after the payment of this dividend to the common stock all dividends declared during that year shall be distributed *pro rata* to the *preferred and the common* stock. In case of liquidation of such new company the holders of the preferred stock shall be entitled to receive the par amount of their stock out of the assets of such company in priority to the common stock. The preferred stock shall not be increased without the consent of all the stockholders of the company.

It will also be provided in such articles of incorporation that no other mortgage than that above described shall be put upon the property of the company and that no sale or lease of its railroad or telegraph line shall be made without the approval of the holders of a majority of the preferred and of a majority of the common stock, and that said company shall not consolidate itself with or into any other company without like approval.

Exchange of Securities.—The old stock and bonds, including all overdue coupons, will be exchanged for new securities, as follows, the stock first, however, to pay an assessment, as below indicated:

		New securities, etc., in exchange.			
Old securities.	Assessment.	Cons. 4s.	Common stock.	Pref. stock.	Consol. 4s.
Consol 5s, each $1,000	none.	¶ $45	none.	$450	$1,000
Collateral trust 5s, $1,000	none.	none.	none.	700	500
Common stock, $100	$6	none.	$100	‡6	none.

¶ For coupon of Dec. 1, 1893. ‡ For assessment.

Distribution of New Securities.—The securities of the new company are to be distributed as follows:

Four per cent consolidated mortgage bonds—
To existing consolidated mortgage bonds $12,583,000
To existing collateral trust bonds 2,591,000
Reserved to be issued only in amounts equal to the existing first mortgage bonds that may from time to time be acquired for the sinking fund, or to be issued at the rate of not more than $110 of the principal of such bonds for each $100 of the principal of said first mortgage bonds paid off otherwise than by the operation of the sinking fund 5,390,000
Reserved to be used for betterments and acquisition of terminals with the approval of two-thirds of the Board of Directors, and at the rate of not more than $250,000 per annum 1,106,000
For the construction if deemed advisable of additional road to the mouth of the Columbia River or elsewhere at the rate of not more than $20,000 per mile of constructed road 2,830,000
Total $24,500,000

Preferred stock—
To consolidated mortgage bonds 5,662,350
To collateral trust bonds 3,027,400
To common stock for assessment 1,440,000
To Reorganization Committee for general purposes of new company, and towards payment of expenses of reorganization 270,250
Total $11,000,000

Common stock—
To the holders of the present common stock who pay their assessment $24,000,000

New Stocks to be placed in Trust.—All of the stock of such new company, both common and preferred, except enough of the preferred stock to qualify directors, shall be deposited with some trust company selected by the General Reorganization Committee under a trust agreement, so as to ensure to the preferred stock the right to nominate ten members of the Board of Directors and to the common stock the right to nominate five members of such Board of Directors. Certificates shall be issued by the trust company to the persons entitled to the new common and preferred stock in lieu of the stock so deposited. Said trust agreement shall remain in force until June 1, 1945, unless the same be sooner terminated by the consent of the holders of two-thirds of each class of certificates.

The majority of the holders of certificates representing preferred stock shall have the right to nominate each year

ten directors, at least five of whom shall be residents of Oregon, and the holders of certificates representing common stock five directors, at least three of whom shall be residents of Oregon. It shall be made the duty of the trustee to elect as directors of such new company the persons nominated from time to time, as hereinbefore provided.

In case it shall happen at any time while the stock shall be held under the trust agreement, that the stockholders of the new company shall be called upon at any meeting to take action upon any question, it shall be the duty of the said trust company to submit such question at general meetings of the holders of certificates, representing respectively preferred and common stock, and it shall also be the duty of such trustee, unless an affirmative vote shall be directed by the holders of a majority of the certificates voting at meetings of each class of certificate holders, to vote in the negative upon all questions relating to the mortgaging, selling or leasing of the railroad or telegraph lines of the company or to the consolidation thereof; but upon all other questions the trustee shall vote as directed by the holders of a majority of the aggregate of all the certificates of both classes represented at the two meetings.

General Reorganization Committee.—The plan is to be carried out under the direction of a committee to be known as the General Reorganization Committee, consisting of Alfred S. Heidelbach, W. L. Bull, George Coppell, Charles S. Fairchild, A. Marcus, John Crosby Brown, A. A. H. Boissevain and Henry R. Reed.

Fixed Charges.—Under the foregoing plan the fixed charges of the new company during the first year of its operation would be approximately: Interest on $1,900,000 outstanding first mortgage 6s, $294,000; † net payment on account of sinking fund, $29,520; interest on $15,174,000 new consolidated mortgage bonds at 4 per cent, $606,960; total fixed charges, $930,480.

By the operation of the sinking fund provided in the existing first mortgage, the above-mentioned amount, viz., $930,480, of fixed charges will be annually reduced by about $1,000, and this amount is considered to be well within the earning capacity of the property.

The present fixed charges of the Oregon Railway & Navigation Co., under existing conditions, are $1,305,250.

Estimated Cash Requirements.—The estimated cash requirements under the plan are: Coupon due Dec. 1, 1893, on consolidated mortgage bonds, at 2½ per cent, $314,575; betterments, acquisition of terminals and settlement of outstanding claims, $1,250,000; for expenses of reorganization, including formation of new company, issue of new securities, stamps on bonds and stocks in foreign countries and contingencies, $435,425; total cash requirements, $2,000,000.

This amount will be provided as follows: The assessment of 6 per cent on $24,000,000 existing common stock will yield $1,440,000; there will be on hand from operation of the property about $560,000; total $2,000,000.

† Annual payment into sinking fund under provisions of existing first mortgage, about $123,000, which will be provided in part by the sale of $123,000 of new consolidated 4 per cent bonds at, say, 80 per cent, $98,400, leaving to be provided $24,600; add interest on $123,000 new 4 per cent bonds sold, $4,920; total, $29,520.

Pennsylvania Steel—Maryland Steel.—A consol. mort. for $7,000,000 to the Girard Life Insurance, Annuity & Trust Company, of Philadelphia, was filed this week to secure the joint bonds of the Pennsylvania Steel Company and Maryland Steel Company. The mortgage is made in accordance with the reorganization plan, and of the amount authorized $3,000,000 is reserved to retire at maturity first mortgage bonds for a like amount.—V. 61, p. 69.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the Chronicle *since* the last edition of the Investors' and the Street Railway Supplements were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's Chronicle.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

St. Joseph Traction & Lighting Co.—The property of this company, including all the street railway lines in St. Joseph, Mo., and the electric-light plant, was sold at auction on Wednesday to satisfy a mortgage to the Central Trust Co. of New York, as trustee. The property was bid in for the bondholders by E. H. Harriman of New York and E. A. Noyes of Portland, Me., for $300,000.—V. 60, p. 749.

Reports and Documents.

CHESAPEAKE & OHIO RAILWAY.

ANNUAL REPORT FOR YEAR ENDING JUNE 30, 1895.

To the Stockholders:

Pursuant to the By-laws, the annual report is submitted as follows:

EARNINGS AND EXPENSES.

The gross earnings and expenses of the Company, and the mileage operated during the year ending June 30th, 1895, compare with the four previous years as follows:

Year ending June 30.	1891.	1892.	1893.	1894.	1895.
Miles Operated.....	*934	*993	*1152·5	*1278·1	*1275·9
	$	$	$	$	$
Gross Earnings.....	8,127,111	9,001,599	10,336,810	9,014 108	9,596,030
Oper. Expenses, Main. and Taxes.....	6,083,518 (75 p. c.)	6,731,731 (75 p. c.)	7,132,760 (69 p. c.)	6,027,127 (67 p. c.)	6,464,527 (67 p. c.)
Net.....	2,043,593	2,272,867	3,204,049	3 016,980	3,131,502
Interest on Funded Debt, Loss on Grain Elevator, &c.....	1,823,781	1,981,548	2,780,289	3,002,920	3,112,796
Sur. over all Charges...	219,810	391,319	423,760	14,060	18,706

*Also 84·5 miles between Orange and Washington, operated under trackage agreement during a part of 1891, and during 1892, 1893, 1894 and 1895.

The depression in business noted in the report for the year ending June 30, 1894, has continued during the present year. There has not been, however, any coal strike to contend with, as in the previous year, but the rate of freight upon that commodity has been constantly declining, owing to competition and to the fact that as the company enlarged its coal market the business had to be done at low rates.

It will be seen, from the statements annexed, that passenger earnings show a large decrease, which is due to the depressed condition of industries along the line throughout most of the year. Freight earnings show an increase, also miscellaneous earnings, and express earnings a fairly good increase. The total increase of earnings is $551,923 20.

The decrease in the number of passengers was more than the decrease in passenger-train mileage, and consequently earnings per passenger-train mile have declined from 95 to 88 cents. The rate per passenger mile, however, has increased from 1·90 cents to 1·98 cents. The average haul of freight has increased from 2·9 miles to 303, which arises from the fact that the increase in tonnage has been from through business. The average number of tons of freight hauled per train mile has increased from 301 to 315 tons; the earnings per mile run by freight trains have, however, decreased from $1·43 7-10 to $1·33 6-10, due to the shrinkage in rate. The average amount received for coal to the seaboard decreased from 3·20 to 2·93 mills; coal elsewhere than to the seaboard, from 4·43 to 3·86 mills; freight other than coal, from 5·66 to 5·26 mills, and the total amount received per mile from each ton of freight, including coal, decreased from 4·78 to 4·25 mills. It may be remarked here that if the Company had obtained the same rate per ton per mile on freight as it obtained in the previous year, the earnings would have given over one per cent dividend upon the capital stock, notwithstanding the fact that the rate of compensation received in the previous year was very low. Nothing but the extraordinary cheapness with which your railway can handle freight has enabled it to carry this immense tonnage with profit at this low price. The economy with which the road has been operated is also due to its high physical condition and to efficiency in its train service. During the year there has been no serious accident either to persons or property.

Attention is called to the detailed statements of the Auditor and the General Manager, which show how successful the Company has been in handling this large increase of business with a relatively small increase in transportation expenses, viz., $208,000.

There is an increase of over $66,000 in the maintenance of way; over $145,000 in the maintenance of equipment; taxes decreased slightly; traffic expenses show a small increase; the Newport News Terminal a slight increase, and the Cincinnati Bridge an increase of a little over $14,000.

The result of the year's business is an increase of $114,522 30 in net earnings over those of the previous year. The policy of thoroughly maintaining and improving the property has been followed during the past year, as heretofore; and in a few distinct items alone $304,000 could have been saved or postponed if necessary; but, as the Company was earning its fixed charges, there seemed to be no necessity for economizing to the detriment of the property. This $304,000 of expenses was composed of the following items: 180 new freight cars (to replace old cars destroyed or dismantled), costing $80,570 97; 2 new ferry boats, costing $8,705 69; filling trestles at Hungard's Creek, Powley's Creek and Kilgore's Creek, $31,394 45; undergrade crossings at Bellevue and Huntington, $15,898 78; completing the ballasting of the Peninsula and James River Divisions, $28,865 08; cutting out Caldwell Tunnel for a double track, $41,715; and 13 miles of sidings and double track, and stations at various points on the line, making a total of $303,934 27.

The items which make up expenses for maintenance of way have been about the same in amount as last year, with the exception of the amounts for tunnels and ties, which are large this year, while there was a reduction in the expenditure for rails. The Company, however, has laid 1,083 tons of 100-

pound and 3,200 tons of 75-pound new steel rails during the year, the cost of which, less the proceeds of old rail sold, is included in expense account. The details of the rail in the main track are given in the General Manager's statement.

The Company has been extremely liberal in its expenditures for maintenance of equipment during the past year, having expended for the maintenance of freight cars alone $587,619 63, or over $42 per car: on locomotives, $341,245 94, or nearly $1,000 per locomotive; and on passenger cars, $170,461 94, or over $500 per car. The number of cars has been kept good, while the capacity has been increased. All of the new cars purchased or built are standard 30-ton cars, while a large number of those destroyed were old and of light capacity.

No change has been made in the policy of charging to expense account all improvements which were not a distinct addition to the earning capacity of your railroad. The only items charged to construction account during the year have been for the purchase of a small amount of land at various places along the line, the completion of the double-track bridge over the Big Sandy River, the double track from Kenova to Ashland, settlement of the contractor's claims for completing the Buckingham Branch, and sundry small matters brought over from previous years.

The details are as follows:

Cost of Road and Equip. 30th June, 1894	.....	$123,254,534 70
During the Year there has been added:		
For Completion of the Big Sandy Bridge	$198,123 25	
Completion of Improvs. at Ashland, Ky.	65,525 59	
For settlement of Old Claims for Damages, for Right of Way and for Purchase of Real Estate on Cincinnati Division, and Ohio River Bridge	15,889 79	
For Real Estate at Lynchburg, Va., &c	1,276 82	
For Completion of the Buckingham Br.	9,000 00	
For Sundry Expenditures	22,293 73	
		315,108 18
Making Cost of Road and Equip. 30th June, 1895, as per Balance Sheet	.....	$123,569,643 88

There is no new work in progress upon the line, and it is not the present intention of your management to undertake any. From present indications little, if anything, will be added to the construction account during the coming year.

The Chesapeake & Ohio Steamship Company, in which the Railway Company has a large interest, has been operated with freedom from accident during the year, but owing to the low rates prevailing for ocean freights no income has been received from the investment in its stock. The subsidy of the Steamship Company during the year, for which your Company was responsible under the contract, has been deducted from the Railway Company's earnings, the amount charged off for this purpose being $65,914 90.

The output and distribution of coal for the last year, as compared with the previous year, has been as follows:

Kind of Coal.	1894. Tons gross.	1895. Tons gross.
Cannel	18,110	23,794
Gas	511,408	628,718
Splint and Block	541,737	546,547
New River, etc.	1,541,875	1,951,301
Coke	205,453	269,961
Total	2,818,083	3,420,321
Distribution of Coal.		
Fuel for use of Company	394,422	474,045
Delivered Connecting Division of K. & M.	671,448	906,733
Delivered on the E. S. & Lex Divisions	98,414	103,025
Delivered on the C. & O. R. except Richmond	281,004	335,597
Delivered at Clifton Forge to James E. Div. for all points east of Richmond	121,186	105,160
Delivered at Charlottesville to Va. Midland Ry.	54,855	50,750
Delivered at R. F. & P. June. to R. F. & P. RR.	23,676	26,375
Delivered at Richmond for consumption, including Locomotives, etc.	123,947	139,811
Delivered at Newport News, Norfolk, etc. for consumption	34,025	37,780
Shipped at Newport News wharves	814,764	1,230,742
Total	2,818,083	3,420,321

This large increase is due to the fact that there were no strikes this year, and, further, that the superior quality of the coal for steaming purposes has become better known in the markets of the West.

During the year the Company sold $2,835,000 bonds heretofore in its Treasury, which transaction enabled it to pay off practically its entire floating debt. Since then there have also been received bonds for betterments and equipment notes paid, so that there are to-day in the treasury $499,000 of 4½ per cent bonds, including $177,000 received since June 30th.

The interest charges for the coming fiscal year, 1895-6 (*including interest on the 4½ p. c. bonds now in treasury*), stand at:

Amount of Authorized.	Character of Security.	Rate Per Cent.	Interest.
$22,500,000	1st Consolidated Mortgage Bonds	5	$1,175,150
22,541,000	Consolidated Mortgage Bonds	4½	1,014,200
2,297,000	Purchase Money Funding Bonds	6	137,220
2,000,000	1908 A Bonds	6	120,000
2,000,000	1911 Bonds	6	120,000
142,000	1922 Bonds	6	8,520
6,000,000	R. & A. 1st Mortgage Bonds	4	240,000
1,000,000	R. & A. 2d Mortgage Bonds	4	40,000
650,000	Craig Valley Branch 1st Mort. Bonds	5	32,500
170,000	New River Bridge Bonds	6	10,200
97,500	Mortgage Bonds	6 & 5	6,616
400,000	Warm Springs Valley RR. Bonds	5	20,000
3,000,000	E. L. & R. R. RR. Bonds	5	150,350
335,000	Greenbrier & New River RR. Bonds	5	16,950
270,000	Buckingham RR. Bonds	5	13,450
67,000	Equipment Bonds	6	4,020
$64,364,500	Total		$3,149,366

This shows an increase of $11,247 80 for the coming year over the interest charges for the year just closed.

The Company has no bills payable outstanding for its own purposes, but it is liable for $175,000 incurred for the purchase of an equal amount of the 5 per cent bonds of the Steamship Company, which bonds, when sold, are expected to pay this liability; and it is also liable as guarantor of the Norfolk Wharf Warehouse & Terminal Co. to the extent of $100,000.

There will be no occasion for the Company to dispose of any of its securities during the coming year, except possibly in reimbursement of payments of the principal of car trusts and equip. notes recently paid or falling due during the year.

Your Directors have decided to carry in a Special Account the discount upon the bonds sold during the year, and to charge off the proportion applicable to each year during the life of the bond, deeming this course more conservative than to swell capital account with the same, as has been the general custom heretofore. The amount thus to be written off for the fiscal year just ended was $7,132 40, which has been charged, as will be seen, to Profit and Loss Account.

During the year your Directors have completed arrangements for an extension of the line into Louisville, which is the leading commercial city of Kentucky, and one that has furnished much business to the Company. In connection with the Cleve. Cin. Chicago & St. Louis Ry. Co., your Company, pursuant to authority from the stockholders, acquired, on your behalf, the Louisville & Jeffersonville Bridge Company, which owns large terminals in the city of Louisville, and a bridge over the Ohio River between that city and Jeffersonville, Indiana. To avoid building a new line from Lexington to Louisville an arrangement was made with the Louisville & Nashville Railroad for the use of its line between those two points, that Company agreeing to build a cut-off, shortening the distance between the two cities to 84 miles. The liability of this Company for the use of this line and the terminals in Louisville is not likely to be over $100,000 a year, and it is confidently expected that the income derived from the business west of Lexington (the present end of your line) will not only provide for this amount, but will leave a surplus to the Company. In addition to this, your Company is strengthened in its traffic relations by owning and controlling its own line into a city like Louisville and to a connection with the railways centering there.

There are many things which afford encouragement at the time of writing this report. Such furnaces along the line as have been closed for the last two years are resuming work; the coke ovens, which have been shut down, are all at work, and there is a distinct and positive improvement in the local business of the line, both in passengers and freight. What is known as the "through" business of the Company is not large, the earnings from the same for the past year amounting to about $100,000 per month. This has been done, however, at a very low rate, and it is hoped that the present movement among the Trunk Lines for advancing this rate will succeed, in which case this Company will derive its share of advantage therefrom. Still lower rates are made on what is known as "tide-water coal," and, so far, it has been impossible to make such an adjustment of this business as to get a fair rate. It is to be hoped that with the improvement in general business there will come a better understanding among the operators and the transportation companies, so that at least a fair rate may be obtained. With the general improvement of business along the line, an increase in passenger earnings may be hoped for. Such increase will practically all be gain, as it will require no increased train mileage to secure it.

Your Directors have not changed the opinion which they have expressed on previous occasions, to the effect that the low grades of your line, its physical condition, together with its advantages of cheap fuel and labor, insure it a brilliant future. That it has stood the test of the last two years and earned its fixed charges, would seem to be proof of the soundness of their opinion.

Your attention is invited to the balance sheet and other statements of the Auditor and also to the report of the General Manager, which, it is believed, give as full an account of the operations of the year and of the present condition of the Company as it is possible to submit in a report of this nature.

Thanks are due to the operating officers and employees for faithful and efficient work during the year.

By order of the Board of Directors.

M. E. INGALLS,
President.

CINCINNATI, O., July 30th, 1895.

L. F. SULLIVAN,
Auditor.

RICHMOND, VA., July 27th, 1895.

Syracuse Consolidated Street Ry.—This street railway was sold in foreclosure on Saturday to Frederick Strauss of J. & W. Seligman, New York, representing the reorganization committee of the majority bondholders, for $865,000. The only other bidder was H. Clark Ford of Cleveland, who bid for the Syracuse Street Ry. Co. $864,000. The Central Trust Co. is the mortgage trustee.—V. 61, p. 70.

Texas Western Ry.—At Houston, Tex., August 6, this road was sold at public auction by Commissioner Dart, of the United States Court, and purchased for $30,500 by Elijah Smith, of New York. The road extends from Houston to Sealey, Tex., 52 miles. Mr. Smith has been identified with the property for a number of years.

Toledo Ann Arbor & North Michigan Ry.—The Murray Reorganization Committee announces that the Atlantic Trust Company has been instructed to return the stock deposited with it under this committee's plan. One-half of the one per cent cash assessment will also be repaid. This takes away the last opposition to the work of the present bondholders' committee.—V. 61, p. 113.

United States Cordage.—The Bondholders' Reorganization Committee announce that they have reluctantly reached the conclusion that the amount of securities deposited with them is not sufficient to warrant them in proceeding further with their plan; they accordingly declare said agreement abandoned. With a view of protecting the interests of all who deposited their securities under that agreement, it has been arranged with the committee, consisting of Messrs Sturgis, Barbour and Waterbury, that all receipts for said securities may, at the option of the holders, be delivered to the Manhattan Trust Company of New York, who will in exchange therefor issue their own receipts under the reorganization agreement deposited with it. No payment will be required on bonds either on withdrawal from the depositaries of this committee or on deposit with the Manhattan Trust Company to and including Sept. 5. On stock, payment of the two assessments heretofore called in by the Sturgis-Barbour-Waterbury Committee will be required, but without penalty. The assessments heretofore paid on stocks deposited with the committee will be refunded.

Before assenting to the course above outlined, the committee say they received the most positive assurance from Messrs. Sturgis, Barbour and Waterbury that they will confide the management of the reorganized Cordage Company to a board of practical men, familiar with the manufacture, sale and distribution of cordage. They were also offered a representation in the Board of Directors of the new company, but declined it, believing it best to leave its selection as originally contemplated to the votes of the majority in interest.

Under the company's plan—the only plan now extant—the third instalment of $5 per share on the guaranteed stock, $2 50 per share on the preferred stock and $1 25 per share on the common stock is payable on or before August 30, at the Manhattan Trust Company. Notice is given that the penalties imposed by the committee Aug. 5, 1895, for deposits of bonds and stocks are remitted to and including Sept. 5, 1895. —V. 61, p. 283.

Washington & Georgetown Railroad—Rock Creek Railway—Capital Traction.—The basis on which the Capital Traction Company is to absorb the two roads first named, it is understood, is as follows: The new company will issue $12,000,000 capital stock, of which $2,750,000 will be used to retire the Washington & Georgetown $500,000 stock (quoted at 275@300 per $50 share), $8,000,000 to take up its $4,000,000 of convertible bonds and $1,250,000 in exchange for the Rock Creek Company's stock and bonds. The Washington & Georgetown Road has been an extremely profitable property, the dividends on its small capital of $500,000 having of late been 20 per cent per annum.—V. 61, p. 283.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, August 23, 1895.

General trade has developed no unusual features during the current week. Jobbing operators report a satisfactory business, with increasing tendency for staple articles of seasonable character, but the demand for merchandise from first hands is slightly disappointing. The light movement of bulk parcels, however, is attributed to liberal investments consummated early in the present month and an indisposition on the part of buyers to incur new obligations until stocks in hand have been more closely worked off. Voluntary additions to wages have been granted in some industries, but several important manufacturing interests are still contending with striking workmen. Export demand for grain and flour has been fair but less active than last week. Prospects for cotton are construed as unfavorable and in consequence thereof increased speculative interest in the staple has developed. Grain crop conditions have undergone no important change, but corn is reported suffering somewhat from lack of moisture in central latitudes. Rice still promises abundant yield but harvest delayed by unpropitious weather.

There has been a fair amount of business transacted in lard on the spot for export, but at declining prices, closing at 6·32½c. for prime Western, 6·15c. for prime City and 6·30c. for refined for the Continent. The speculation in lard for future delivery at this market has been at a standstill, but prices have declined with the West, where the receipts of hogs have been larger than expected, closing easy.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September	c. 6·50	6·52	6·35	6·45	6·37	6·30

Pork has sold slowly and prices have weakened slightly, closing at $11 @$11 50 for mess, $12 50@$12 75 for family and $13@$14 for short clear. Cut meats have received a moderate amount of attention at steady prices, closing at 7@7½c. for pickled bellies, 12@10 lbs average, 5½c. for pickled shoulders and 9@9¼c. for pickled hams. Beef has declined, closing at $7 50@$8 for extra mess, $8 50@$9 for packet, $9@$12 for family and $16 50@$17 for extra India mess. Beef hams have also declined, closing at $16. Tallow has been in fair demand and firmer, closing at 4½c. Oleo stearine has been quiet but steady, closing at 6¼c. Lard stearine has declined, closing at 7½@8¼c. Cotton-seed oil has been dull and easy, closing at 26¼@27c. for prime yellow and 26¼@26½c. for off grade yellow. Butter has been quiet but about steady for choice, closing at 14@20c. for creamery. Cheese has been in fair demand and firm, closing at 6@8½c. for State factory, full cream. Fresh eggs have also advanced, closing firm at 14@14½c. for choice Western.

Coffee has been generally slow of sale, and offered with increasing freedom, both on spot and to arrive, influences that served to depress values on all grades. Rio quoted at 16c. for No. 7, good Cucuta, 19½@19¾c., and standard Java, 27@27½c. For future delivery the market was depressed under efforts of holders of "long" engagements to realize, and closes still in buyers' favor.

The following were the final asking prices:

Aug	14·70c.	Nov	14·65c.
Sept	14·70c.	Dec	14·65c.
Oct	14·60c.	Jan	14·60c.
Feb	14·55c.		
March	14·45c.		
April	14·45c.		

Raw sugars have not been very plenty, but found much neglect, and prices fractionally declined. Centrifugal quoted at 3½c. for 96-degrees test and muscovado at 2 15-16c. for 89-degrees test. Refined sugars slow and weak, finally resulting in decline without increase of demand; granulated quoted 4½c. Teas easy in tone.

For Kentucky tobacco the demand has continued limited but prices have held steady; sales 200 hhds. Seed leaf tobacco has received slightly increased attention and prices have ruled fairly steady; sales for the week were 1,600 cases, as follows: 200 cases 1894 crop, Zimmer's, 12@15c.; 300 cases 1894 crop, Zimmer's, private terms; 150 cases 1892 crop, Wisconsin Havana, 13@14½c.; 200 cases 1892 crop, New England Havana, 30@40c.; 200 cases 1893 crop, New England Havana, 8@9c.; 300 cases 1894 crop, New England Havana, 18@23c.; 100 cases 1892 crop, Little Dutch, 12c., and 150 cases sundries, 7@35c.; also 500 bales Havana, 75c.@$1 15, and 300 bales Sumatra, 60c.@$2 80 in bond.

There has been a trifle more activity to the speculative dealings in the market for Straits tin, and prices have advanced in response to stronger foreign advices, closing firm at 14·30@14·35c. Ingot copper has been without change, closing firm at 12·25c. for Lake. Lead has been quiet but about steady, closing at 3·20c. for domestic. Spelter has weakened slightly, closing quiet at 4·15c. for domestic. Pig iron has been in good demand and firm, closing at $11 50@$14 for domestic.

Refined petroleum has been steady, closing at 7·10c. in bbls., 4·60c. in bulk and 7·30c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have been steady, closing at 1·26c. bid. Spirits turpentine has been without change, closing at 27@27½c. Rosins have been about steady, closing at $1 47½@$1 55 for common to good strained. Wool has been moderately active and firm. Hops have been dull and lower.

COTTON.

FRIDAY NIGHT, August 23, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 2,715 bales, against 1,749 bales last week and 2,187 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,872,291 bales, against 5,945,910 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,926,381 bales.

Speculation in cotton for future delivery at this market has continued active and upon buoyant lines during greater portion of week. Further reports of injury and delay to crop by insects and unpropitious weather served as an incentive for investment and an increased number of orders from the outside buying element have been received. Saturday's market was vigorous and made 12 points gross gain, 9 of which were retained at the close, unexpected poor weather conditions at the South and strong cable advices acting as a stimulus. During Monday the feeling was feverish and undetermined, the fluctuations running from 3 points loss to 6 points recovery, closing without variation from final figures of preceding session. On Tuesday there was a net gain of 3@4 points and on Wednesday an additional net advance of 12@13 points, well sustained to the close. The stimulus was found in a renewal of unpromising crop reports and very strong advices from Europe. Yesterday the market opened 6 points higher, but the further advance served as temptation to liquidate some important "long" accounts, and under effort to realize there was reaction and 1@2 points net loss at close. To-day excitement was renewed and 17 points advance took place on strong advices from Europe, accompanied by purchasing orders. Cotton on the spot has been fairly active and firm at the advance. Middling uplands quoted 7¾c.

The total sales for forward delivery for the week are 957,500 bales. For immediate delivery the total sales foot up this week 3,381 bales, including 300 for export, 2,581 for consumption — for speculation and 500 on contract. The following are the official quotations for each day of the past week—August 17 to August 23.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1¼ on.	Good Ordinary	c. 1⅛ off.
Middling Fair	7/8 on.	Good Middling Tinged	Even.
Strict Good Middling	½ on.	Strict Middling Stained	7/32 off.
Good Middling	5/16 on.	Middling Stained	7/16 off.
Strict Low Middling	3/16 off.	Strict Low Mid. Stained	29/32 off.
Low Middling	7/16 off.	Low Middling Stained	1⅛ off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	6 7/16	6 7/16	6 7/16	6 1/2	6 1/2	6 5/8

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Aug. 23), we add the item of exports from the United States, including in it the exports of Friday only.

	1895	1894.	1893.	1892
Stock at Liverpool.....bales.	1,276,000	1,063,000	1,183,000	1,366,000

☞ The imports into Continental ports the past week have been 11,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 445,061 bales as compared with the same date of 1894, an *increase* of 200,350 bales over the corresponding date of 1893 and a *decrease* of 174,677 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns	Movement to August 23, 1895. Receipts. This week.	Since Sept. 1.	Shipments. This week.	Stock Aug. 23	Movement to August 24, 1894. Receipts. This week.	Since Sept. 1.	Shipments. This week.	Stock Aug. 24.

* Louisville figures "net" in both years.

The above totals show that the interior stocks have *decreased* during the week 6,557 bales and are now 20,662 bales *less* than at same period last year. The receipts at all the towns have been 14,568 bales *less* than same week last year and since Sept. 1 are 1,751,405 bales *more* than for same time in 1893-94.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Aug. 23.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stk at Interior Towns.			Rec'pts from Plant'ns		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
July 19. ...	11,021	3,813	2,676	110,269	73,105	56,364	894	340	216
" 26.....	10,205	3,921	2,334	97,788	65,945	50,396	.....	.....	.....
Aug. 2....	10,713	3,944	1,760	91,651	62,559	47,202	4,576	858	.....
" 9.....	9,243	5,232	2,137	84,667	59,935	43,742	2,788	2,808	.....
" 16.....	12,249	7,215	1,749	79,159	56,959	41,714	6,736	4,217	.....
" 23.....	12,434	14,122	2,715	76,824	55,819	35,157	10,579	13,002	.....

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,850,113 bales; in 1893-94 were 5,925,563 bales; in 1892-93 were 5,043,582 bales.

2.—That although the receipts at the outports the past week were 2,715 bales, the actual movement from plantations was only —— bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 13,002 bales and for 1893 they were 10,579 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Aug. 23 and since Sept. 1 in the last two years are as follows:

August 23.	1894-95.		1893-94.	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Shipped—				
Via St. Louis.....	4,340	947,779	3,273	620,580
Via Cairo.....	8	337,382	157	233,588
Via Hannibal.....	.....	545	.....	13,756
Via Evansville.....	.....	3,817	.....	7,406
Via Louisville.....	111	190,408	946	134,845
Via Cincinnati.....	298	178,609	61	108,613
Via other routes, &c.....	107	142,147	192	130,285
Total gross overland.....	4,862	1,800,687	4,629	1,249,873
Deduct shipments—				
Overland to N. Y., Boston, &c...	569	377,439	554	303,943
Between interior towns.....	.....	33,673	4	21,917
Inland, &c., from South.....	1,467	95,716	516	105,346
Total to be deducted.....	2,036	696,228	1,074	431,208
Leaving total net overland*..	2,826	1,104,459	3,555	817,665

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 2,826 bales, against 3,555 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 286,794 bales.

In Sight and Spinners' Takings.	1894-95.		1893-94.	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Receipts at ports to Aug. 23.....	2,715	7,872,291	14,122	5,945,910
Net overland to Aug. 23.....	2,826	1,104,459	3,555	817,665
Southern consumption to Aug. 23	10,000	760,000	5,000	687,000
Total marketed.....	15,541	9,736,750	22,677	7,450,575
Interior stocks in excess.....	*6,557	*22,178	*1,120	120,347
Came into sight during week.	8,984	.....	21,557	....
Total in sight Aug. 23.....	.....	9,714,572	.....	7,430,228
North'n spinners tak'gs to Aug. 23	10,501	2,063,037	557	1,581,473

* Decrease during week. † Less than September 1.

It will be seen by the above that there has come into sight during the week 8,984 bales, against 21,557 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,284,344 bales.

Weather Reports by Telegraph.—Our advices by telegraph this evening indicate that rain has fallen over the greater portion of the South during the week. In most sections of Texas, however, the precipitation has been light and the southwestern portion of the State still needs moisture. Damage from various causes—boll worms, sharpshooters and shedding—is reported from districts of Texas, Mississippi, Alabama and Florida. Picking is progressing well in Central and Southern Texas.

Galveston, Texas.—There has been rain on one day during the week, the precipitation reaching eighteen hundredths of an inch. Average temperature 80, highest 89 and lowest 72.

Palestine, Texas.—There has been rain on one day during the week and the rainfall reached two hundredths of an inch. The thermometer has averaged 81, the highest being 94 and the lowest 68.

Huntsville, Texas.—Rain has fallen on one day during the week to the extent of forty-eight hundredths of an inch. The thermometer has averaged 85, ranging from 74 to 96.

Dallas, Texas.—The warm weather is causing cotton to open and picking is in progress over the central and southern portions of the State. In Southwest Texas there is suffering from drought and a general rain is needed by the entire crop. Boll worms and sharpshooters are still reported over the State and fears are entertained that they will damage the crop greatly. In some localities they are doing great damage already. Cotton is shedding badly over Southwest and Southern Texas. There has been rain on two days of the week, the precipitation reaching sixteen hundredths of an inch. The thermometer has ranged from 68 to 94, averaging 81.

San Antonio, Texas.—We have had rain on two days of the week to the extent of seventy-five hundredths of an inch. Average thermometer 82, highest 96 and lowest 68.

Luling, Texas.—We have had rain on three days of the past week, the precipitation reaching ninety-nine hundredths of an inch. The thermometer has averaged 84, the highest being 96 and the lowest 72.

Columbia, Texas.—We have had rain on two days during the week, the rainfall reaching three inches and three hundredths. The thermometer has averaged 82, ranging from 70 to 94.

Cuero, Texas.—There has been rain on one day the past week, the precipitation reaching seventy-six hundredths of an inch. The thermometer has ranged from 72 to 94, averaging 83.

Brenham, Texas.—It has been showery on four days of the week, the rainfall reaching twenty-six hundredths of an inch. Average thermometer 85, highest 98 and lowest 72.

Belton, Texas.—It has rained on three days of the week, the precipitation being thirty-six hundredths of an inch. The thermometer has averaged 86, the highest being 100 and the lowest 72.

Fort Worth, Texas—We have had rain on three days of the week, the rainfall reaching one inch and twenty-five hundredths. The thermometer has averaged 81, ranging from 66 to 96.

Weatherford, Texas.—We have had rain on five days of the week, with a precipitation of four inches and twenty-seven hundredths. The thermometer has ranged from 70 to 94, averaging 82.

New Orleans, Louisiana.—Rain has fallen on six days of the week, to the extent of three inches and sixty-four hundredths. Average thermometer 81.

Shreveport, Louisiana.—We have had rain on three days during the week, the precipitation reaching one inch and twelve hundredths. The thermometer has averaged 82, the highest being 96 and the lowest 70.

Columbus, Mississippi.—Considerable damage is being done by boll worms. During the week rain fell on four days. The thermometer has averaged 83, ranging from 70 to 102.

Leland, Mississippi.—The week's rainfall has been one inch and forty hundredths. The thermometer has ranged from 66 to 91, averaging 78.

Meridian, Mississippi.—Telegram not received.

Little Rock, Arkansas.—We have had rain on one day of the week, the rainfall reaching one inch and nine hundredths. The thermometer has averaged 80, the highest being 90 and the lowest 65.

Helena, Arkansas.—Crops have not improved during the week. The stalk looks well, but there is a lack of fruit. It has been showery on two days of the week, the rainfall reaching fifty-eight hundredths of an inch. The thermometer has averaged 80, ranging from 66 to 94.

Memphis, Tennessee.—It is claimed that there will be a poor bottom crop, but reports generally are favorable. The week's precipitation has been forty-one hundredths of an inch on two days. The thermometer has ranged from 66·2 to 95, averaging 81·1.

Nashville, Tennessee.—The week's rainfall has been twenty-one hundredths of an inch. Average thermometer 79, highest 95 and lowest 63.

Mobile, Alabama.—There are complaints of rust and shedding. The yield is generally estimated at one-third less than last year. Only four bales of new cotton have thus far been received, against 57 to the same date last year. Rain has fallen on three days of the week, to the extent of one inch and eighty-seven hundredths. The thermometer has averaged 80, the highest being 92 and the lowest 72.

Montgomery, Alabama.—There has been rain on four days during the week, the precipitation being ninety-two hundredths of an inch. The thermometer has averaged 81, ranging from 73 to 88.

Selma, Alabama.—It is becoming more apparent every day that the crop is short. There has been rain on three days of the week, the rainfall reaching fifty hundredths of an inch. The thermometer has ranged from 69 to 93, averaging 80.

Madison, Florida.—There is general complaint that the plant is shedding. There has been rain on two days of the week, the precipitation reaching ninety hundredths of an inch. Average thermometer 83, highest 93, lowest 69.

Columbus, Georgia.—The week's rainfall has been one inch and fourteen hundredths on four days. The thermometer has averaged 80, the highest being 93 and the lowest 70.

Savannah, Georgia.—It has rained on four days of the week, the rainfall being two inches and eighty-four hundredths. The thermometer has averaged 83, ranging from 71 to 98.

Augusta, Georgia.—It has rained on five days during the week, to the extent of four inches and eighty hundredths. The thermometer has averaged 80, ranging from 68 to 95.

Albany, Georgia.—There has been rain during the past week to the extent of forty-one hundredths of an inch. Average thermometer 83, highest 93 and lowest 73.

Charleston, South Carolina.—Rain has fallen on four days of the week to the extent of seventy-eight hundredths of an inch. The thermometer has averaged 83, the highest being 98 and the lowest 73.

Stateburg, South Carolina.—There has been rain on five days during the week, to the extent of two inches and seventy-nine hundredths. The thermometer has averaged 78.3, ranging from 69 to 91.

Greenwood, South Carolina.—Crops are doing well since the rain came, but the stalk is too small for a good crop. We have had rain on five days during the week, with a precipitation of four inches and fifty-five hundredths. The thermometer has ranged from 68 to 89, averagiug 78.

Wilson, North Carolina.—Rain has fallen on three days of the week, the precipitation being one inch and sixty-five hundredths. Average thermometer 78, highest 91 and lowest 68.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock August 22, 1895, and August 23, 1894.

		Aug. 22, '95.	*Aug. 23, '94.*
		Feet.	*Feet.*
New Orleans	Above zero of gauge.	3·8	3·3

Shreveport	Above zero of gauge.	12·5	1·5
Vicksburg	Above zero of gauge.	8·0	2·2

India Cotton Movement From all Ports.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to August 22.

Bombay Receipts and Shipments for Four Years.

Year	*Shipments this week.*			*Shipments since Sept. 1.*			*Receipts*	
	Great Brit'n.	*Conti-nent.*	*Total.*	*Great Britain*	*Conti-nent.*	*Total.*	*This Week.*	*Since Sept. 1.*
'94-5	1,000	3,000	4,000	27,000	523,000	550,000	5,000	1,523,000
'93-4	....	3,000	3,000	47,000	834,000	881,000	7,000	1,787,000
'92-3	.....	5,000	5,000	44,000	808,000	852,000	4,000	1,736,000
'91-2	.....	3,000	3,000	69,000	832,000	901,000	5,000	1,748,000

According to the foregoing Bombay appears to show a *decrease* compared with last year in the week's receipts of 2,000 bales and an *increase* in shipments of 1,000 bales, and the shipments since Sept. 1 show a *decrease* of 331,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			*Shipments since Sept.*		
	Great Britain.	*Conti-nent.*	*Total.*	*Great Britain.*	*Continent.*	*Total*
Calcutta—						
1894-95...	.....	.....	.....	8,000	36,000	44,000
1893-94...	.....	.....	.....	20,000	86,000	106,000
Madras—						
1894-95...	.....	2,000	2,000	10,000	14,000	24,000
1893-94...	.....	.....	.....	31,000	22,000	53,000
All others—						
1894-95...	.....	1,000	1,000	29,000	95,000	124,000
1893-94...	.....	2,000	2,000	41,000	127,000	168,000
Total all—						
1894-95...	.....	3,000	3,000	47,000	145,000	192,000
1893-94...	.....	2,000	2,000	92,000	235,000	327,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1894, and for the corresponding periods of the two previous years, are as follows:

Exports to Europe from All India.

Shipments to all Europe from—	1894-95.		1893-94.		1892-93	
	This week.	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*
Bombay.....	4,000	550,000	3,000	881,000	5,000	852,000
All other ports.	3,000	192,000	2,000	327,000	7,000	181,000
Total	7,000	742,000	5,000	1,208,000	12,000	1,033,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, August 21	1894-95.	1893-94.	1892-93.
Receipts (cantars*)—			
This week	1,000	.....	.....
Since Sept. 1.	4,539,000	4,933,666	5,143,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool	2,000	276,000	.....	311,000	.....	313,000
To Continent†	2,000	352,000	2,000	351,000	3,000	352,000
Total Europe	4,000	628,000	2,000	662,000	3,000	665,000

* 1 Of which to America in 1894-95, 44,380 bales; in 1893-94, 27,054 bales; in 1892-93, 34,365 bales.

This statement shows that the receipts for the week ending Aug. 21 were 1,000 cantars and the shipments to all Europe 4,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market continues firm for both yarns and shirtings. The demand for both India and China is good. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.			1894.		
	32s Cop Twist.	8½ lbs. Shirtings, common to finest.	Cott'n Mid Upld.	32s Cop Twist.	8½ lbs. Shirtings, common to finest.	Cott'n Mid Upld.

Sundry articles							19,054	17,031
Total exports of cotton manufactures							1,050,535	1,047,093

The foregoing shows that there has been exported from the United Kingdom during the ten months 1,050,535,000 lbs. of manufactured cotton, against 1,047,093,000 lbs. last year, or an increase of 12,442,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during July and since October 1 in each of the last three years:

EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN JULY, AND FROM OCTOBER 1 TO JULY 31.

COTTON CROP CIRCULAR.—Our Annual Cotton Crop Review will be ready in circular form about Thursday, the 5th of September. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

EXCHANGES.—The following exchanges have been made during the week:

·05 pd. to exch. 900 Aug. for Oct.
·10 pd. to exch. 500 Nov. for Jan.
·06 pd. to exch. 500 Dec. for Jan.
·05 pd. to exch. 100 Dec. for Jan.
·15 pd. to exch. 200 Oct. for Jan.
·16 pd. to exch. 700 Oct. for Jan.
·21 pd. to exch. 500 Sept. for Jan.
·10 pd. to exch. 200 Jan. for Mch.
·22 pd. to exch. 100 Sept. for Jan.
·32 pd. to exch. 1,400 Sep. for Mch
·11 pd. to exch. 600 Sept. for Nov.
·11 pd. to exch. 1,600 Oct. for Dec.
·10 pd. to exch. 1,00 Oct. for Dec.
·17 pd. to exch. 600 Sept. for Dec.
·06 pd. to exch. 1,20[illegible] Sept. for Oct.
·05 pd. to exch. 1,500 Aug. for Oct.
·07 pd. to exch. 100 Sept for Oct.
·06 pd. to exch. 1,300 Oct. for Nov
·12 pd. to exch. 1,000 Oct. for Dec.

JUTE BUTTS, BAGGING, &c.—The demand for jute bagging has been light during the week under review at steady prices. Quotations this evening are 4⅛c. for 1¾ lbs., 4¼c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4⅛c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5¼c. for 2¼ lbs. f. o. b. at New York. Jute butts have been dull on the spot at 1⅛c. for paper quality, 1⅛c. for mixing, and bagging quality nominal in the absence of stock.

MEMPHIS FIRST BALE.—Our correspondent at Memphis advises us that the first bale of new cotton—crop 1895-96—was received at that point on August 20 from Mr. J. E. Carothers, West Point, Miss. It classed strict middling, weighed 585 pounds and sold at auction to Messrs. B. W. Hale & Co. at 8 cents per pound. This is three days later than last year and one day behind the average date. Last year the first bale arrived on August 17; in 1893 on August 22, and in 1892 on September 1.

AVERAGES OF TEMPERATURE AND RAINFALL.—As of interest in connection with our monthly weather record, we have prepared the subjoined tables, which show the State averages of thermometer and rainfall in April, May, June and July for six years, 1890 to 1895, inclusive.

Thermometer Averages.	April.			May.			June.			July.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (August 23) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

Receipts to Aug. 23.	1894-95.		1893-94.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894
Savannah	1	64,270	2	54,422	368	814
Charleston	....	5,359	....	2,245	24	289
Florida, &c.	34	5,173	....	4,200	....	785
Total	35	74,802	2	60,867	392	1,888

The exports for the week ending this evening reach a total of — bales, of which bales — were to Great Britain, — to France and — to Reval, and the amount forwarded to Northern mills has been 1 bale. Below are the exports for the week and since September 1 in 1894-95 and 1893-94.

Exports from—	Week Ending Aug. 23.			Since Sept. 1, 1894.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1
Savannah	.....	.....	.....	18,085	2,441	20,526	1	29,253
Charl'st'n, &c	.....	.....	.....	2,918	53	2,966	.....	1,497
Florida, &c.	.....	.....	.....	765	.....	765	.....	4,172
New York	.....	.....	.....	4,425	3,156	7,581	.....	.....
Boston	.....	.....	.....	8,471	.....	8,471	.....	.....
Baltimore	....	.....	.....	431	.....	431	.....	.....
Total	.....	....	.....	35,090	5,650	40,740	1	34,922
Total 1893-4	.....	.....	.....	32,647	4,686	37,333	31	23,560

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore, Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Aug. 23 at Savannah, for Floridas, all nominal. Charleston, Carolinas, all nominal.

WEATHER RECORD FOR JULY.—Below we give the thermometer and rainfall record for the month of July and previous months of this year and the two preceding years. The figures are from the records of the Weather Bureau, except at points where they have no station, and at those points they are from records kept by our own agents.

Thermometer	April.			May.			June.			July.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 6,157 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to to Thursday.

	Total bales.
NEW YORK—To Havre, per steamer La Touraine, 20	20
To Marseilles, per steamer Britannia (additional), 399	399
NEW ORLEANS—To Liverpool, per steamer Nicaraguan, 5,159	5,159
BOSTON—To Liverpool, per steamers Bostonian, 4... Cambroman, 65	69
To Yarmouth, per steamer Yarmouth, 300	300
To Halifax, per steamer Halifax, 10	10
BALTIMORE—To Bremen, per steamers Dresden, 100....Munchen (additional), 100	200
Total	6,157

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Havre.	Marseilles.	Bremen.	Halifax & Yarm'th.	Total
New York	.....	20	399	.....	.....	419
N. Orleans	5,159	.....	.....	.....	.....	5,159
Boston	69	.....	.....	.....	310	379
Baltimore	.....	.....	.....	200	.....	200
Total	5,228	20	399	200	310	6,157

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

NEW ORLEANS—To Liverpool—Aug. 20—Steamer Legislator, 3,211.
To Bremen—Aug. 21—Steamer European, 629.
To Hamburg—Aug. 22—Steamer Polonia, 87.
To Barcelona—Aug. 16—Bark Tafalla, 498....Aug. 17—Steamer Berenguer el Grande, 2,386.
BOSTON—To Liverpool—Aug. 19—Steamer Kansas, 326....Aug. 20—Steamer Georgian, 50.

Cotton freights the past week have been as follows:

	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.

BREADSTUFFS.

FRIDAY, August 23, 1895.

It has been a very tame and uninteresting week in the market for wheat flour. Buyers have been very few and decidedly indifferent operators, and quoted prices have been lowered 5 to 10 cents, owing to a decidedly weaker drift to the grain values. City mills have sold slowly and prices have declined. Rye flour has been in slow request and prices have weakened. Corn meal has had very little call, and while no changes have been made in quoted prices the tone of the market has been easy. To-day the market for wheat flour was dull and unchanged.

There has not been much animation to the speculative dealings in the market for wheat futures, and prices have steadily declined under dull and weaker foreign advices, the slowness of the export demand, and a liberal movement of the new crop wheat in the Northwest. In the spot market business has been quiet, as shippers have not been buyers and prices have declined. At the close, however, they were showing slightly more interest, and the sales yesterday included No. 2 red winter at 1/2c. over September delivered and 1 3/8c. over September f. o. b. afloat, No. 1 hard at about 3 3/4c. over September f. o. b. and No. 1 Northern at 3c. over September f. o. b. afloat. To-day the market was weaker during early change, but subsequently good buying for foreign account, mainly to cover contracts, caused an advance. The spot market was fairly active and steady; shippers were buying. The sales included No. 2 red winter at 1 1/2c. over September f. o. b. afloat and No. 1 hard at about 3 3/4c. over September f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
August delivery c.	70 3/4	69 7/8	68 1/2	67 5/8	67 1/8	67 3/8
September delivery c.	71 1/8	70	68 3/4	67 7/8	67 3/8	67 5/8
October delivery c.	71 3/8	70 1/8	69	68 1/4	67 3/4	68
December delivery c.	72 7/8	71 3/4	70 1/8	69 7/8	69 1/4	69 5/8
May delivery c.	76 1/4	75 1/8	74	73 3/8	73 1/8	73 1/2

Speculation in the market for Indian corn futures has been moderately active, but at declining prices, due to general selling prompted by the decidedly favorable outlook for the growing crop. In the spot market shippers have continued

fairly good buyers, but at lower prices. The sales yesterday included No. 2 mixed at 45⅛c. down to 44¼c. delivered, and 3¼c. over September for prompt loading f. o. b. afloat. To-day the market was fairly active and the close was higher on buying by foreign "shorts" to cover contracts. The spot market was active, as shippers were large buyers. The sales included No. 2 mixed at 2c. over September in elevator, and 3½c. over September for prompt loading f. o. b. afloat; also white at 2½c. over September f. o. b. afloat, and yellow at 44c.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	44⅞	44¼	43⅝	42⅛	41⅜	42¼
October delivery.....c.	43⅜	43⅛	42⅝	41⅞	41⅜	41⅜
December delivery.....c.	....	....	....	....	38⅛	38¼
May delivery.....c.	39⅛	38⅛	37⅞	37⅜	37⅝	37⅞

Oats for future delivery have been quiet and prices have gradually weakened under free offerings, prompted by the decline in corn and the favorable crop prospects. On the spot business has been fairly active but at easier prices. The sales yesterday included No. 2 mixed at 25½c. in elevator and No. 2 white at 28c. in elevator. To day the market was quiet and steady. The spot market was fairly active. The sales included No. 2 mixed at 25¼ @25½c. in elevator and No. 2 white at 28c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., August 23, 1895.

One of the best features of the situation this week has been the large attendance of buyers and the active business done by the local jobbing houses. There has only been a small proportion of large operators among the visitors, and the primary market has not benefitted to any great extent; but the smaller traders, both jobbers from out of town and retailers, have crowded the large jobbing stores here. Business has thus been best where just now it is most needed, at second hands, and good progress has been made with the distribution of general supplies. The out-of-town jobbing centres also send in reports again of good results, and the prospects of liberal supplementary demands at first hands are decidedly encouraging. Meanwhile the demand for staple cottons in the primary market is of fair extent, though not resulting in as much business as could readily be done if manufacturers were not so conservative in accepting bids for future deliveries, particularly in brown and bleached cottons. The strength of the market is unimpaired and prices still tend upwards in most directions. Printed fabrics also are against buyers in some instances and are selling well generally, while staple ginghams have advanced ¼c. per yard. There has been no alteration in the general condition of woolen and worsted goods. Collections still reported upon favorably.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending August 19 were 3,694 packages, valued at $111,636, their destination being to the points specified in the table below:

NEW YORK TO AUG. 19.	1895. Week.	1895. Since Jan. 1.	1894 Week.	1894 Since Jan. 1.
Great Britain	23	2,310	244	4,007

Other Countries	750	5,149	151	2,457
Total	3,593	131,466	2,505	147,763
China, via Vancouver*....	....	15,850	....	16,788
Total	3,593	146,750	2,505	164,241

* From New England mill points direct.

The value of the New York exports for the year has been $5,575,610 in 1895 against $7,611,731 in 1894.

The influence of the market for raw material is still evident in brown goods, sellers proving no less difficult to deal with than a week ago, and prices are again tending upwards. Business in sheetings and drills is moderate, but still sufficient to prevent any accumulation of stocks in either heavy or light-weight goods. Bleached cottons are strong with a gradual moving into line on the part of tickets not previously advanced, and expectations of a further rise in leading makes. Low grades are practically ⅛c. higher than a week ago. Kid-finished cambrics also have further advanced ⅛c., the strengthening influence in both cases being the strong market for print cloths. Silesias, satteens and other linings are selling more readily at firm prices. Denims have made no further progress in an upward direction and have been quiet this week. Ticks are firmly held, and plaids and cheviots are occasionally somewhat dearer. Cottonades dull. There has been a good demand for dark fancy calicoes at firm prices and further advances of ¼c. are reported in 56x60 makes. Fine wide-printed goods and printed napped fabrics ready sellers at firm prices; also napped woven patterns. Dress ginghams in generally dull demand, although an occasional line sells fairly. Staple ginghams have advanced ¼c. in Amoskeag, York and Bates tickets. Print cloths have sold at 3c. for contracts and at 3c. less ⅛ of 1 per cent for spots, closing firm in tone.

Stock of Print Cloths—	1895. Aug. 17.	1894. Aug. 18.	1893. Aug. 19.
At Providence, 64 squares	141,000	322,000	185,000
At Fall River, 64 squares	53,000	614,000 }	444,000
At Fall River, odd sizes	77,000	221,000 }	
Total stock (pieces)	271,000	1,157,000	629,000

WOOLEN GOODS.—The fact that most buyers are through for the time being with their first purchases of men's-wear woolens and worsteds has been emphasized by the dull market reported this week for light-weights in low, medium and fine grade goods alike, few agents recording other than small orders and not many of these. The conditions, so far as prices are concerned, are much as last reported. Medium grade woolens in piece-dyed staples, cheviots, etc., have again disclosed weakness in a number of directions, with consequent irregularity, while other descriptions can hardly be reported as better than steady at the best. Union and cotton warp cassimeres, satinets and doeskin jeans have been in generally slow current demand. Cloakings are selling well at steady prices but overcoatings are dull. Flannels in improved re-order request and very firm; blankets firm but quiet, and no further change reported in carpets. Worsted dress goods, plain and fancy, in steady re-order demand and firm, and plain woolen lines are selling better than soft wool fancies.

FOREIGN DRY GOODS.—A good distribution has again been reported from second hands in all lines of foreign merchandise, but the primary market has ruled generally quiet outside of deliveries on existing contracts.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending August 22, and since January 1, 1895, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1895 AND 1894.

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

BOSTON'S ASSESSED VALUATION AND TAX RATE.

According to the Assessors' official report, recently made public, the total assessed valuation of the city of Boston for the year 1895 is $951,362,519, which shows an increase of $23,253,476 on the figures reported in 1894. The new valuation of real estate is $744,743,550 and that of personal property $206,618,969. Although the valuation of personal property this year shows a gain of $2,253,776, it is still nearly ten million dollars behind the returns for 1893.

The gain in the number of polls during the past year has been 2,716, the total number reported being 142,505 against 139,789 in 1894. This indicates a more normal growth than was recorded last year, when the total gain over 1893 was but 40. The usual yearly increase has for some time previous to 1893 been between 1,000 and 4,000. A Boston paper says that the return to an average gain in the number of polls indicates that the revival in business and the consequent resumption of many business enterprises, affecting favorably as it has the demand for labor of all kinds, has led many of those who left the city in hard times, because they could live more cheaply elsewhere, to return to it. With more prosperous times these people have again found employment in the city. Their return has not only increased the number of polls, but also has given an impetus to real estate values and building operations in the less thickly settled parts of the city.

In the following table the valuation figures for 1895 are given in connection with those for previous years, which are taken from our State and City Supplement.

Years—	Assessed Valuation. Real.	Personal.	Total.	Rate of Tax per $1,000.
	$	$	$	$
1895	744,743,550	206,618,969	951,362,519	12·80
1894	723,728,750	204,363,706	928,092,456	12·80
1893	707,762,275	216,331,476	924,093,751	12·80
1892	680,279,900	213,695,800	893,975,700	12·90
1891	650,238,375	204,827,700	855,066,075	12·60
1890	619,990,275	202,051,525	822,041,800	13·30
1889	593,799,975	201,633,769	795,433,744	12·90
1888	563,013,275	201,439,273	764,452,548	13·40
1887	547,171,175	200,471,342	747,642,517	13·40
1886	517,503,275	193,118,060	710,621,335	12·70
1880	437,370,100	202,092,395	639,462,495	15·20
1870	365,593,100	218,496,300	584,089,400	15·30

The total tax this year of $12·80 per $1,000 is the same as that of 1894, but the items vary somewhat. The State tax this year is $0·55, against $0·75 in 1894, the county tax is $0·85, against $0·81 in 1894 and the city tax proper is $11·40, against $11·20 in 1894. Since 1893 the State tax rate has been cut down by $0·37, and the city and county rate has been correspondingly increased, so that the total remains the same.

Boston's population, according to the State census figures reported this week, is 494,205, in 1890 it was 448,477, in 1885 it was 390,393, in 1880 it was 362,839, and in 1870 it was 250,526.

Birmingham, Ala.—The following is a copy of the recommendation which has been submitted to the consideration of the holders of bonds of the city of Birmingham, Ala. The proposition was made in the mutual interest of the city and its creditors.

"The people of Birmingham are keenly apprehensive of the disastrous effects which a loss of the municipal credit would entail; they are not insensible to the serious damage which would be sustained by every material interest of their city in such event, and they propose to adopt the only possible method of relieving themselves of the stigma of actual default. It is proposed to secure the assent of all of the holders of the outstanding bonds to a proposition to deposit each alternate coupon maturing between August 13, 1895, and August 13, 1900 (the city paying the other as it matures), with the Baltimore Trust & Guarantee Company, agents for the city of Birmingham, and to accept therefor the receipt of said Baltimore Trust & Guarantee Company certifying to the fact that said coupons are to be held "in trust" for the owners thereof until August 13, 1900, provided that the city shall have the right to take up said coupons at any time before 1900. The city will practice rigid economy in the management and administration of its affairs during said period; and if at any time during said period after paying necessary current expenses and interest on bonds and coupons it has any surplus money at its disposal it will use the same for the purpose of paying off and retiring said coupons so carried. And the municipal authorities of said city will use all honorable means and do all in their power to obtain legislative authority which will ensure an increase of revenues and the enlargement of the city's taxing power within said period. And the city will pay semi-annually interest upon the amount of such coupons after their respective maturity at the rate of 5 per cent per annum, and in default of such payment of interest, or in default of payment of the principal of such coupons on or before August 13, 1900, or in default of the payments by the city of Birmingham of one-half of its annual interest charges, then and in that event said coupons shall be returned to the respective owners thereof, upon return of the receipt given for said coupons to the Baltimore Trust & Guarantee Company."

Massachusetts Savings Bank Laws.—The scope of the investments allowed by law to the Massachusetts Savings Banks was somewhat increased by an act of the State Legislature approved March 23. The date of approval was just too late to allow the provisions of the act to be included in our summary of the law given on page 19 of the last State and City Supplement. This new legislation authorizes savings banks of the State to invest in and loan money upon the bonds of Missouri and Minnesota or of any city in either State having a population of over 30,000 and a net debt which does not exceed 5 per cent of the city's assessed valuation. The full text of the act is as follows:

AN ACT to authorize savings banks to invest in and loan upon bonds of the States of Missouri and Minnesota and the cities thereof.

Be it enacted, etc., as follows:

Deposits in savings banks and institutions for savings, and the income derived therefrom, may be invested in the legally-authorized bonds of the States of Missouri and Minnesota, and in the legally-authorized bonds for municipal purposes, and refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the aforesaid States which has at the date of such investment more than thirty thousand inhabitants, as established by the last national or State census, or city census certified to by the City Clerk or Treasurer of said city, and taken in the same manner as a national or State census preceding such investment, and whose net indebtedness does not exceed five per cent of the valuation of the taxable property therein, to be ascertained by the last preceding valuation of property therein for the assessment of taxes; and in the note or notes of any citizen of this Commonwealth, with a pledge as collateral of any of the aforesaid securities, the amount invested in such note or notes not to exceed in any case eighty per cent of the market value of the securities pledged.

The term "net indebtedness" in this statute shall be construed to denote the indebtedness of any city, town or district, omitting debt created for supplying the inhabitants with water, and deducting the amount of sinking funds available for the payment of such indebtedness.

Bond Proposals and Negotiations.—**We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.**

Aitkin County, Minn.—Bridge bonds of Aitkin County to the amount of $16,000 have been sold to Mason, Lewis & Co., of Chicago.

Akron, Ohio.—Proposals will be received until September 7, 1895, for the purchase of $12,600 of improvement bonds. The securities will be dated September 7, 1895, interest at the rate of 5 per cent will be payable semi-annually, and the bonds will mature at the rate of $2,000 each year in from one to five years and $2,600 in six years, both principal and interest to be payable at the National Park Bank, New York.

Belmont, Wis.—Samuel I. Stein, village treasurer, reports to the CHRONICLE that proposals for the purchase of $3,000 of water works bonds of Belmont will be received until Oct. 1, instead of Oct. 30, as previously reported. The securities will bear interest at the rate of 5 per cent, and will mature at the rate of $300 yearly from Nov. 1, 1896, to Nov. 1, 1905. Interest will be payable annually.

Boston, Mass.—Only $500,000 of the $1,000,000 temporary loan offered for sale August 21 has been disposed of. The securities were awarded to the State National Bank at 2¾ per cent. Other bids received were: New England Trust Company $100,000 at 2·36 per cent, $100,000 at 2·42 per cent, $100,000 at 2·45 per cent, $100,000 at 2·53 per cent, $100,000 at 2·59 per cent and $100,000 at 2·65 per cent; F. S. Moseley & Company $1,000,000 at 2·50 per cent and a premium of $63 50; Puritan Trust Company $25,000 at 3·50 per cent and Blake Bros. & Co. $1,000,000 at 2·35 per cent. The loan is payable November 4, 1895.

Brownton, Minn.—F. E. Nichols, Recorder, reports to the CHRONICLE that proposals will be received until Sept. 2, 1895, for the purchase of $6,000 6 per cent water-works bonds. Interest will be payable semi-annually on January 1 and July 1 and the principal will mature in ten years.

The village has at present no debt of any kind and its assessed valuation for 1894 was $62,726; estimated actual value, $250,000; total tax rate (per $1,000), $24 00. The population in 1890 was 384; estimated present population, 600.

Canton, Ohio.—On August 17, 1895, the city of Canton sold $11,000 of 4 to 6 year refunding bonds. A list of the bids received is given below:

	Premium.
W. J. Hayes & Sons, Cleveland, Ohio	$387 00
C. H. White & Co., New York City, N. Y.	566 50
Sherre & Smith, New York City, N. Y.	526 00
Seasongood & Mayer, Cincinnati, Ohio	510 00
N. W. Harris & Co., Chicago, Ill.	503 00
Farson, Leach & Co., Chicago, Ill.	504 00
J. W. Longstreet & Co., Boston, Mass.	469 70
Blodget, Merritt & Co., Boston, Mass.	470 40
Mason, Lewis & Co., Chicago, Ill.	467 00
S. A. Kean, Chicago, Ill.	247 50

Canyon County, Idaho.—Bids will be received until Sept. 7, 1895, for the purchase of $40,000 of funding bonds. The loan will bear interest at the rate of 6 per cent, and will mature at the rate of $4,000 yearly in from 11 to 20 years from date.

Carrollton, Ohio.—Proposals will be received until September 2, 1895, for the purchase of $25,000 of 5 per cent water works bonds. The securities will be dated September 1, 1895, and will mature, part semi-annually, beginning September 1, 1903.

Chicago, Ill.—On August 19, 1895, the city of Chicago offered for sale $500,000 of 5 per cent one-year city warrants. Only one bid was received, that from W. J. Hayes & Sons offering a premium of $470 for $100,000, which amount was awarded to them. We are informed today that Messrs. Kuhn, Loeb & Co. of New York have purchased $1,500,000 of similar securities at par and that the remainder of the first $500,000 offered by the city has also been disposed of. This accounts for the entire $2,000,000 of tax warrants authorized.

Clinton, Ill.—Water-works bonds of this municipality to the amount of $6,000, voted August 16, will bear interest at the rate of 6 per cent, and will run 20 years, with an option of call after five years. W. Z. Dewey, Clerk, writes the CHRONICLE that the date of sale has not as yet been fixed, but that it will occur within the next six weeks.

Cohoes, N. Y.—Proposals will be received until September 3, 1895, for the purchase of $70,000 of 4 per cent bonds.

Crafton, Pa.—Messrs. W. R. Thompson & Co., bankers, of Pittsburg, Pa., were the successful bidders for the borough of Crafton, Pa., 4½ per cent tax free bonds to the amount of $20,000. The following bids were made: Robinson Bros., $20,116; William Bell, $20,027; Lamprecht Bros. Co. of Cleveland, $20,200 10; W. R. Thompson & Co., $20,483. The money realized from the sale of the bonds is to be used for street and sewer improvement. The first $2,000 bonds will be due September 1, 1898, and $3,000 every year upon the same date. Average maturity, 16½ years.

Fostoria, Ohio—Mayor J. M. Beaver reports to the CHRONICLE that on Aug. 20 $50,000 of city sewer bonds were authorized by popular vote. The time of sale has not yet been decided on.

Gibbon, Minn.—Bids will be received until August 26 for the purchase of $4,000 of village bonds, the loan to bear interest at the rate of 6 per cent.

Hamilton, Ohio—Bids will be received until Sept. 10 for the purchase of $4,629 11 of improvement bonds. The loan will bear interest at the rate of 6 per cent and will mature part yearly from 1896 to 1905.

Hennepin, Ill.—Bridge and railroad aid bonds of this village to the amount of $2,000 have been authorized.

Jackson, Mich.—The question of issuing $35,000 of bonds for water-works was voted down at an election held August 19. The votes cast were 395 for and 668 against the proposition.

Jefferson County, Tex.—Six per cent jail and bridge bonds of this county to the amount of $25,000 will soon be issued.

Lenox, Mich.—Bonds to the amount of $4,000 have been voted for water-works.

Lexington, Mass.—This town has voted to purchase the water-works for $200,000, for which amount bonds will probably be issued.

Manchester, N. H.—It is reported that 4 per cent schoolhouse bonds of this city to the amount of $70,000 have been sold to Messrs. E. H. Rollins & Sons at 101·43.

Mansfield, Ohio.—Bids will be received until September 2 for the purchase of $24,000 of assessment bonds. The securities will bear interest at the rate of 6 per cent and will mature in from one to five years.

Marlette, Mich.—Bonds of this municipality to the amount of $14,000 have been voted for water works.

Middlesex County, Mass.—On August 17, 1895, this county sold $100,000 of 4 per cent coupon public building bonds to E. H. Rollins & Sons, of Boston, at 103·59 and accrued interest. The securities are dated June 1, 1895, interest will be payable semi-annually on June 1 and December 1, and the principal will mature at the rate of $10,000 yearly from December 1, 1896, to December 1, 1905.

Milaca, Minn.—Bonds of this town have been voted for water-works and electric-lights.

Montesano, Wash.—Proposals will be received until August 27, 1895, by C. N. Wilson, City Treasurer, for the purchase of $6,300 of coupon funding bonds. Interest at a rate not exceeding 5 per cent will be payable semi-annually, and the principal will mature in 20 years.

Newton, Mass.—Proposals will be received until August 26, 1895, by John A. Kenrick, City Treasurer, for the purchase of $300,000 of four per cent coupon highway bonds. The securities are to be dated August 1, 1895, interest will be payable semi-annually on February 1 and August 1 at the National Revere Bank, Boston, or at the office of the City Treasurer, and the principal will mature August 1, 1935.

New York City.—A list of the bids received on August 22 for the purchase of $200,000 of 3 per cent registered gold assessment bonds of the City of New York is as follows:

	Amount	Bid
Manhattan Savings Institution	$200,000	100·12½
A. Cadet	5,000	100·12½
Richard M. Cornell	200,000	100·03
Blake Bros. & Co.	200,000	100·40
Harvey Fisk & Sons.		
Jno. E. Waterbury	25,000	100
Commissioners of Sinking Fund	200,000	100

The securities were awarded to Blake Bros. & Co. and Harvey Fisk & Sons, jointly. The loan is issued for the improvement of Park Avenue above One Hundred and Sixth Street. Interest will be payable semi-annually on May 1 and November 1 at the Comptroller's office, and the principal will mature November 1, 1901, both principal and interest to be payable in gold coin.

Norwalk, Ohio.—An election held August 13 on issuing $100,000 of water-works bonds resulted in favor of the proposition.

Oneida, N. Y.—It is reported that bids received on August 15 for the purchase of $150,000 of 3½ per cent gold water bonds were unsatisfactory and that no awards were made. The securities are to be dated September 2, 1895, and will mature at the rate of $50,000 each year in 1905, 1915 and 1925. The loan will probably be offered again at 4 per cent.

Perry, N. Y.—Proposals will be received until September 2, 1895, by T. H. Bussey, President of the Board of Water Commissioners, for the purchase of $40,000 of waterworks bonds. Interest will be payable semi-annually at the Chase National Bank, New York, and the principal will mature in 20 years.

Perry has at present no debt of any kind. Its assessed valuation for 1895 is $900,000; actual value, $1,600,000; total tax rate (per $1,000) $15·95. The present population, according to local figures, is 2,000.

Reno County, Kan.—A call has been made for the payment of refunding bonds, Series A, of Reno County, dated October 1, 1880, and numbered from 20 to 142, both inclusive.

The securities will be paid October 1, 1895, at the State Fiscal Agency, New York, on which date interest will cease.

Rockville, Conn.—On August 15, 1895, the city of Rockville sold $30,000 of 4 per cent sewer bonds to E. H. Rollins & Sons, of Boston, at 106·132. Twelve bids were received for the loans as follows:

	Bid.
E. H. Rollins & Sons, Boston	106·132
E. H. Gay & Co., Boston	106·09
C. H. White & Co., New York	105·67
Deitz, Dennison & Prior, Boston	105·27
R. L. Day & Co., Boston	105·199
N. W. Harris & Co., New York	105·17
Gladwin & Morse, Hartford	105·
Blodget, Merritt & Co., Boston	104·79
Ætna Life Insurance Co., Hartford	104·12
J. W. Longstreet & Co., New York	103·04
H. C. Warren & Co., New Haven	103·
Storrs & Smith, New York	102·50

These bonds are part of an authorized issue of $150,000. Another block will be sold next spring.

Sandersville, Ga.—A vote will be taken September 4 on issuing bonds for electric-light purposes.

Sparta School District No. 1, Wis.—On August 15, 1895, this district sold $25,000 of 5 per cent school bonds to N. W. Harris & Co. for a premium of $611. The securities are to be dated September 1, 1895, interest will be payable annually on April 1, and $500 of the principal will mature on April 1 in each of the years 1896 and 1897; $1,500 on April 1, 1898; $2,000 on April 1, 1899; $2,500 on April 1, 1900; $3,000 on April 1, 1901; $3,500 each year on April 1, 1902, 1903 and 1904, and $4,500 on April 1, 1905. Both principal and interest are payable at the National Bank of North America, New York.

The indebtedness of the district is at present $3,000. Its assessed valuation for 1894 was $631,000; estimated actual valuation, $1,750,000. The population of the district in 1890 was 2,895; in 1895, 3,725.

Spring City, Pa.—This borough has voted to issue bonds for $6,000.

Walpole, Mass.—It is reported that this town has sold $80,000 of water bonds to E. H. Gay & Co. of Boston at 103·95. The loan bears interest at the rate of 4 per cent and runs from 6 to 20 years.

Wellington, Ohio.—An election held August 19 on issuing $10,000 of fire protection bonds resulted in the defeat of the proposition by a vote of 156 to 90.

Wilmington, Del.—Proposals will be received until August 31 for the purchase of $50,000 of sinking fund bonds. The securities bear interest at the rate of 4 per cent and run 20 years.

Youngstown, Ohio.—It is reported that on August 19, 1895, the city of Youngstown sold $160,000 of 5 per cent waterworks extension bonds to H. M. Garlich for a premium of $12,608. The securities are to be dated August 31, 1895, interest will be payable semi-annually on May 1 and November 1, and the principal will mature at the rate of $10,000 yearly from May 1, 1896, to May 1, 1911. Both principal and interest will be payable at the office of the City Treasurer.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Detroit, Mich.—H. S. Pingree, Mayor. Below is a statement concerning the finances of the city of Detroit, which has been corrected to July 1, 1895, by means of the annual report of C. W. Moore, Comptroller.

Detroit is situated in Wayne County.

	July 1, '95.	Jan. 1, '95.	July 1, '94.	July 1, '93.
Total bonded debt	$4,825,000	$4,515,000	$4,461,000	$3,156,500
Sinking funds	1,223,203	1,073,811	1,101,706	979,067
Net debt	$3,601,797	$3,441,189	$3,359,294	$2,177,433
Water debt, addition'l	$1,183,000	$1,183,000	.....	$1,229,000

The outstanding bonds of the Water Commission, amounting to $1,183,000, issued on the faith and credit of the city, are not included by the city in its statement of bonded debt, as the receipts from water assessments and the annual appropriation of $75,000 for sinking and interest funds, as required by law, will be sufficient to redeem all outstanding bonds at maturity.

The sinking fund consists of cash, city bonds and Wayne County bonds.

The following shows the city's total funded debt, and sinking funds at different periods.

Month and Year.	Gross Debt.	Sinking Fund.	Net Debt
1895, July 1	$4,825,000 00	$1,223,203 00	$3,601,797 00
1894, July 1	4,461,000 00	1,101,706 00	3,359,294 00
1893, July 1	3,156,500 00	979,067 00	2,177,433 00
1890, July 1	1,634,500 00	745,274 24	889,225 76
1880, July 1	1,360,400 00	528,627 80	831,772 20
1875, Feb. 1	1,081,200 00	121,285 64	959,914 36
1870, April 1	704,283 73	37,252 89	667,030 84

CITY PROPERTY.—The city owns property free from all encumbrance which was valued on January 1, 1895, at $18,756,319.

ASSESSED VALUATION.—The city's assessed valuation (about ¾ actual value) and tax rate have been as follows in the years named:

Years.	Assessed Valuation. Real.	Personal.	Total.	Tax Rate per $1,000
1894	$.....	$.....	$209,151,220	$.
1893			199,679,210	15·16
1892	149,372,700	35,554,430	184,927,130	16·63
1891	136,028,940	39,123,670	175,450,310	16·78
1890	123,391,610	38,136,960	161,528,570	15·73
1889	117,454,140	33,052,650	150,506,790	14·20
1888	112,740,300	39,458,840	152,199,140	13·10
1885	87,536,645	28,713,300	116,249,945	10·77
1880	64,[illegible]05	19,807,705	84,363,790	11·83

The tax rate here includes the city tax, the school tax and the police tax.

DEBT LIMIT.—The charter limit of bonded debt is two per cent of assessed valuation.

POPULATION.—In 1890 population was 205,876; in 1880 it was 116,340; in 1870 it was 79,577. Population in 1894 was 237,835.

Fayette County, Texas.—Below is a statement of the financial condition of this county on August 1, 1895.

County seat is La Grange.

LOANS—	When Due.
REFUNDING BONDS 1895	
5s, s-ann.. $75,000	May 15, 1935
Subject to call after	May 15, 1905
Interest payable in New York.	
Total debt Aug. 1, 1895.. $161,500	

Tax valuation in 1894..	8,470,560
Real valuation	20,000,000
County tax (per $1,000).	5·00
Population in 1890 was.....	31,481
Population in 1880 was.....	27,996
Population, 1895 (est.), over.	40,000

New Hampshire.—Below is a statement regarding the indebtedness of the State of New Hampshire, which has been corrected to June 1, 1895, by means of a special report from Solon A. Carter, State Treasurer.

LOANS NAME AND PURPOSE.	Interest. P. Ct.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.
Agricultural College 1893	4	.....	1913	$135,000
Library bonds of 1891	4	J & J	July 1, 1911	175,000
Do do 1893	4	.....	1913	75,000
Municipal War loan	6	J & J	Jan. 1, '96 to 1905 ($150,000 yearly.)	1,500,000
do do (overdue)		.....	.....	9,300
Trust funds	4&6	.....	.....	632,092

Of the trust funds $80,000 bear 6 per cent interest and $550,399 46 bear 4 per cent interest, no interest being paid on the remaining $1,692 68.

PAR VALUE OF BONDS.—The bonds of this State are in $500 and $1,000 pieces.

INTEREST is payable at the Commonwealth Bank of Boston and at State Treasurer's office.

TOTAL DEBT.—The subjoined statement shows New Hampshire's total debt on the first of June of each of the last four years.

	1895.	1894.	1893.	1892.
Total funded debt	$1,891,300	$2,030,012	$2,007,200	$2,281,690
Trust funds	632,092	614,065	593,311	572,903

ASSESSED VALUATION.—The State's total assessed valuation has been as follows:

Years.	Valuation.	Years.	Valuation.
1894	$[illegible]	1889	$241,766,643
1893	274,816,842	1888	235,398,155
1892	266,427,500	1887	228,231,851
1891	259,191,770	1886	222,106,281
1890	250,530,530	1885	218,122,554

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, August 31, have been $899,655,916, against $900,503,611 last week and $770,608,393 the corresponding week of last year.

CLEARINGS. *Returns by Telegraph.*	Week Ending August 31. 1895.	1894.	Per Cent
New York	$[illegible]	$[illegible]	+24.7
Boston	[illegible]	[illegible]	+15.1
Philadelphia	[illegible]	[illegible]	+13.9
Baltimore	[illegible]	[illegible]	-13.7
Chicago	[illegible]	[illegible]	- 7.6
St. Louis	[illegible]	[illegible]	+24.3
New Orleans	[illegible]	[illegible]	+48.7
Seven cities, 5 days	[illegible]	[illegible]	+18.4
Other cities, 5 days	[illegible]	[illegible]	+10.5
Total all cities, 5 days	[illegible]	[illegible]	+17.1
All cities, 1 day	[illegible]	[illegible]	+14.8
Total all cities for week	[illegible]	[illegible]	+16.7

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, August 24, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a decrease in the aggregate exchanges of a little less than six million dollars, but at New York the gain is nearly five millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 12.7 per cent. Compared with the week of 1893 the current returns record an excess of 45 per cent and the loss from 1892 is 7.8 per cent. Outside of New York the gain over 1894 is 8 per cent. The excess over 1893 reaches 12.4 per cent, but making comparison with 1892 the decrease is seen to be 5.6 per cent.

Clearings at—	Week ending August 24. 1895.	1894.	1895. P. Cent.	1893.	1892.

THE FINANCIAL SITUATION.

The important feature of the week has been a reaction in the foreign exchange market, so that the rates ruling for actual business in sterling are now within one-half of a cent per pound of the highest lately recorded. This advance has been accompanied by a renewal of gold exports, such an outflow being favored also by the circumstance that the Bank of England this week raised the price of American gold coin to 76 shillings 3¾ pence per ounce. The reason for the higher rates for exchange is chiefly an absence of commercial bills usually abundant at this season. The manager of one of the Canadian banks said to us that on Thursday he bought the first cotton bill of the eason for short delivery and that last year the early purchase was made August 3. That comparison affords a fair indication of the maturity of the cotton crop, for it is this year distinctively a late crop, probably three weeks late. This fact and the short crop of winter wheat have been responsible for the absence of commercial bills, a condition which, as stated, gives the reason for the high rates ruling for exchange. Some writers make a mystery of the situation and of the Syndicate's connection with it. We have consequently written on that subject to-day. The article will be found on a subsequent page.

Another feature affecting monetary affairs has been the operations of the Syndicate. They have again reimbursed the Treasury for gold exported, having deposited with the Government this week $2,500,000—$1,000,000 yesterday and $1,500,000 on Thursday. A further act has been the distribution of the remainder, amounting to about $10,000,000, of the fund of legal tenders which was accumulated by them early in the spring to faciliate their proceedings. Those banks who participated in the operations of the Syndicate received in the distribution United States legal-tender notes, or certificates for such notes made payable to the order of the bank. Of course this payment, so far as it goes to the New York City banks, ought to show in the reserves this week—that is to say, it ought, if we understand the transaction correctly, to add the amount of the payment to the previous holdings of legal-tenders by our Clearing-House institutions. We are told that there is a good inquiry from the South and West for re-discounts, better though from the West than from the South, which would be natural in view of the fact already noted of the backwardness of the cotton crop.

Among the encouraging events this week has been the promulgation of the plan for the reorganization of the Erie railway. We review the plan in a separate article, but may say here that the indications point to the complete success of the present effort, as all the leading interests in the property were consulted before the plan was completed. Moreover, the determination is to bring the reorganization to a speedy conclusion, as is evident from the fact that the time limit for the deposit of the stock has been fixed at September 20. The event has had a very favorable effect both on the securities of the company itself and upon the general market, and further benefits may be expected hereafter with the restoration of the property to complete financial health and the placing of the securities, now so largely discredited, on a new and more promising basis. The plan in full is published on pages 368 to 373 of the Chronicle to-day.

Business revival continues steadily in progress, and evidences of this are multiplying every day. In view of that fact it may seem somewhat surprising that quite a number of railroads report decreases in earnings in their returns for the current weeks of August. But the explanation is very simple. The roads falling behind in their revenues comprise chiefly two main classes, namely Western grain-carrying lines and bituminous coal roads in various parts of the country. The loss in neither case reflects an unsatisfactory condition of trade. As regards the grain-carrying roads, we all know that the winter-wheat harvest the present year was very poor. This is the time when the new crop usually moves to market with great freedom, and hence the shortage is reflected in a decided falling off in the shipments over the railroads. In other words, the roads are having a diminished quantity of wheat to haul, and their earnings are decreasing for that reason and not because of any diminution in their general merchandise traffic. That the loss of this wheat tonnage is not a small matter will be evident when we say that for the week ending August 24 the receipts of wheat at the Western primary markets reached only 3,029,064 bushels the present year as against 5,698,096 bushels in the corresponding week last year, a contraction of 2,669,000 bushels, equal to over eighty thousand tons of freight—and this for only one week.

In the case of the bituminous coal roads the loss in earnings arises out of the peculiar situation of affairs existing a year ago. It will be remembered that there was a general strike at the bituminous mines in nearly all parts of the country in 1894, which strike lasted from April 21 to June 18, and in a number of cases even longer. When work was finally resumed at the mines the output of coal for a while was on a very extensive scale, for stocks of coal nearly everywhere had been almost completely exhausted and the object was to replenish these stocks while at the same time supplying the current demand for coal. The present year we have had no general strike, and with only the current demand to satisfy, shipments over many of the smaller coal roads in various parts of the country have been on a reduced scale as compared with the corresponding weeks of last year. A few roads also have suffered losses in earnings for special reasons, as for instance the Duluth South Shore & Atlantic because of a strike at the ore regions.

As reflecting the activity of trade, the statement of the Pennsylvania Railroad for the month of July, issued this week, is very instructive. On the lines east of Pittsburg and Erie an increase in gross earnings of $656,070 is reported and on the lines west of Pittsburg and Erie an increase of $630,346, making together an augmentation in receipts in the large sum of $1,286,416. Of course this follows a heavy loss last year, but the striking feature about the gain the present time is that it is almost equal to last year's loss, which was $1,400,945. The company, in view of the larger revenues, has continued its liberal policy in the matter of expenditures, and hence expenses on the Eastern lines were added to in the sum of $505,055 and on the Western lines in amount of $307,853, making together $812,908. But even with this augmentation in expenses, the net result is $473,508 better than for the month of July last year, when the loss in net on the combined system was only $146,094.

Money on call, representing bankers' balances, remains entirely unchanged at the Stock Exchange at 1 per cent. Banks and trust companies quote 1 per cent as the minimum, and as they are actively competing with bankers' balances they are unable to employ much of the money they are offering. Though the shortest time loans will carry the borrower over to the period when money usually begins to be active, there is little or no demand for them, or indeed for loans which will mature before the end of the year. The inquiry is chiefly for contracts maturing from January to March or April. Quotations are 1½ per cent for 30 days, 2 per cent for sixty days, 2½ per cent for ninety days to four months and 2¾@3 per cent for five to seven months, on good marketable collateral. There are one or two of the trust companies and one brokerage institution in the market for long-time loans, and these have placed some money at 2½ per cent for four months and 3 per cent for six to seven months. There is comparatively little new local commercial paper in the market and the demand is small, partly because buyers are disposed to wait for better rates and mainly for the reason that the large banks are out of the market awaiting a demand for currency from their correspondents in the interior. Quotations for paper are 3½@3¾ per cent for sixty to ninety-day endorsed bills receivable, 3¾@4¼ per cent for four months' commission house names, 4@4½ per cent for prime four months', 4½@4¾ per cent for prime six month's and 5@6 per cent for good four to six months' single names, some of which are good enough to attract buyers among banks.

The European financial situation has been devoid of new feature this week, except an advance in the price of American gold coin by the Bank of England to 76 shillings 3½ pence from 76 shillings 3½ pence per ounce (referred to above), due, it is said, to the fact that coin had been bought at the old price, melted and sent to the Bank in the form of bars, yielding a profit to those who handled the coin. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London ½ of 1 per cent. The open market rate at Paris is 1½ per cent, at Berlin it is 1⅜ per cent and at Frankfort 1⅜ per cent. According to our special cable from London the Bank of England gained £817,-211 bullion during the week and held at the close of the week £41,258,952. Our correspondent further advises us that the gain was due to the import of £1,544,-000 (of which £1,411,000 were bought, £125,000 imported from Australia and £8,000 from other countries); an export of £715,000 (of which £455,000 were to South America, £200,000 to the Cape and £60,000 to other countries) and £12,000 sent to the interior of Great Britain.

The foreign exchange market was easy at the opening, weak somewhat later, and then it grew firmer, becoming quite strong after the middle of the week at an advance of fully half a cent per pound sterling compared with the lowest price of the week. The recovery was due to a demand for bills, stimulated by the decline in rates; to the absence of other than drafts drawn against gold shipments, which are not generally bought by bankers; to a moderate inquiry for current remittance, and to a demand to cover short contracts in exchange. On Saturday the Canadian Bank of Commerce reduced the posted rates for long and short sterling half a cent. On Monday Brown Bros., the Bank of British North America, Baring, Magoun & Co., the Bank of Montreal, Heidelbach, Ickelheimer Co. and Lazard Freres reduced their posted rates half a cent per pound sterling, and the market opened easy, later growing weaker, and then rates for actual business in sterling were quoted at 4 88½@4 88¾ for sixty days, 4 89½@4 89¾ for sight and 4 89¾@4 90 for cable transfers. It was announced that Hoskier, Wood & Co. would send $600,000 gold to Europe on the following day. On Tuesday the market opened firm, the demand having absorbed all offerings, but the Merchants' Bank of Canada reduced their rates half a cent for long and short sterling. Rates for actual business were advanced one quarter of a cent during the day and cable advices reported that the price of American gold coin had been advanced to 76 shillings 3¾ pence per ounce. On Wednesday Handy & Harman announced the shipment on the following day of $50,000 gold bullion and Hoskier, Wood & Co. arranged for the export of $250,000, which they said would for the present complete the amount required for remittance against the 4 per cent bonds brought out from Europe. The market was firm on that day, with an ordinary demand and a limited supply of bills, these being chiefly drafts against gold exports. On Thursday there was a further advance in rates for actual business in sterling to 4 89@4 89½ for long, 4 90@4 90¼ for short and 4 90½@4 90⅝ for cable transfers, and the market was strong all day. The Bank of British North America soon after the opening advanced their posted rates for sixty day and sight bills half a cent, and Lazard Freres also moved their rates upward. W. H. Crossman & Bro. announced that they would ship $1,000,000 gold on Saturday and it was reported that Hard & Rand would send $200,000, Oelrichs & Co. $250,000 and Nesslage & Fuller $150,000. On Thursday the Syndicate deposited $1,500,000 gold at the Sub-Treasury, receiving legal tenders therefor, but no disposition had then been made by them of the $700,000 obtained in Boston last week or of $500,000 procured in San Francisco early in the week. The disposition of $500,000 gold deposited on Monday by the American Exchange Bank, for which a certificate of deposit was taken, was not disclosed. Yesterday the Syndicate turned another million into the Sub-Treasury in exchange for legal-tenders, making 2½ million dollars for the week. There was a further engagement of $500,000 gold for shipment by W. H. Crossman & Bro. (making $1,500,-000 by that firm to-day), and there was also an engagement of $150,000 by Steinwender, Stoffregin & Co., while Handy & Harman announced that they would ship $150,000 gold bullion. Altogether the shipments to day will be $2,400,000, in addition to $900,000 earlier in the week, or $3,300,000 in the aggregate. The following table shows the daily posted rates for sterling exchange by the leading drawers.

		Fri., Aug. 23.	Mon., Aug. 26.	Tues., Aug. 27.	Wed., Aug. 28.	Thurs., Aug. 29.	Fri., Aug. 30.

The market closed firm on Friday at 4 89@4 90 for sixty-day and 4 90@4 91 for sight. Rates for actual business in sterling were 4 89@4 89½ for long, 4 90@4 90¼ for short and 4 90½@4 90½ for cable trans-

ers. Prime commercial bills were 4 88½@4 88¾ and documentary 4 88@4 88¼.

In the earlier portion of this article we have referred to the good statement of earnings made by the Pennsylvania Railroad for the month of July. As showing how greatly the revenues of the company have increased the present year to date over the poor results of last year, it is worth pointing out that on the lines east of Pittsburg and Erie there is an increase of $3,966,670 in gross and of $925,653 in net for the seven months to July 31, and on the lines west of Pittsburg & Erie an increase for the same period of $2,540,190 in gross and of $1,401,394 in net. In other words, for the combined system the company is $6,506,860 ahead in gross and $2,327,047 ahead in net. The following furnishes a comparison of the results for the Eastern lines for several years past—for July and the seven months.

Lines east of Pittsburg.	1895.	1894.	1893.	1892.	1891.	1890.
July.	$	$	$	$	$	$
Gross earnings....	5,415,395	4,759,325	5,552,017	5,579,672	5,672,782	5,374,466
Operat'g expenses.	3,855,564	3,350,509	4,021,510	4,185,407	3,904,600	4,019,003
Net earnings...	1,559,831	1,408,816	1,530,507	1,393,265	1,775,182	1,355,463
Jan. 1 to July 31.						
Gross earnings....	34,974,173	31,007,503	39,437,464	38,274,121	37,155,198	37,332,977

Net earnings...	9,205,188	8,279,535	10,365,972	10,250,70[illegible]	10,783,267	10,331,71[illegible]

Quite a large number of other roads have furnished their returns for July this week. The Western roads of course are comparing with heavy losses last year on account of the great railroad strike which then existed. The St. Paul reports the present year a recovery of $510,014 in gross and a recovery of $358,823 in net; the Burlington & Quincy has only $62,196 gain in gross, with $5,072 loss in net; the Wabash $310,421 gain in gross and $200,877 gain in net, and the Cleveland Cincinnati Chicago & St. Louis $240,571 gain in gross and $135,489 gain in net. Among the anthracite coal roads, the Central of New Jersey reports $6,868 increase in gross and $62,462 increase in net; the Reading has $35,136 increase in gross and $20,675 increase in net for the Railroad Company, but $265,731 increase in gross with $201,973 decrease in net for the Coal & Iron Company. Among Southern roads the Chesapeake & Ohio has a decrease of $29,410 in gross and a decrease of $37,148 in net, while the Southern Railway has $163,894 increase in gross and $94,830 increase in net. In the following we furnish a comparison of the gross and net earnings for four years:

		July Earnings.			
Name of Road—		1895. $	1894. $	1893. $	1892. $
Allegheny Valley...	Gross	222,502	203,601	206,741	223,719
	Net	98,550	94,042	76,730	95,492
Canadian Pacific.....	Gross	1,543,544	1,517,603	1,863,267	1,796 095

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Aug. 30, 1895.	*Received by N. Y. Banks.*	*Shipped by N. Y. Banks.*	*Net Interior Movement.*
Currency....	4,165,000	$4,134,000	Gain. $31,000
Gold.....	640,000	312,000	Gain. 328,000
Total gold and legal tenders.....	$4,805,000	$4,446,000	Gain. $359,000

With the Sub-Treasury operations and gold exports the result is as follows. *These figures of course take no account of the payments into the banks by the Syndicate this week.*

Week Ending Aug. 30, 1895.	*Into Banks.*	*Out of Banks.*	*Net Change in Bank Holdings*
Banks' interior movement, as above	$4,805,000	$4,446,000	Gain. $359,000
Sub-Treas. oper. and gold expts....	18,400,000	22,300,000	Loss. 3,900,000
Total gold and legal tenders.....	$23,205,000	$26,746,000	Loss. 3,541,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	*August 29, 1895.*			*August 30, 1894.*

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

Note.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is, the latest reported figures.

THE SYNDICATE'S OPERATIONS IN FOREIGN EXCHANGE.

One statement with reference to foreign exchange and gold exports is worthy of notice. It is said the gold exports indicate that the Syndicate has lost control of the market. This statement is worthy of notice because, according to our belief, it assumes as a fact something that has never been a fact. It assumes that the Syndicate has been working all the time outside of natural influences regulating exchange by the mere force of the position and credit of its members. Accept that statement and what the Syndicate has done since the first of February is no longer a marvel simply—it has become a miracle.

Whatever in the world's history is entitled to the name of supernatural dates further back than the year of our Lord 1895. Financial classes know that as well as the general public, and the special wisdom and foresight the plans and operations of financiers show chiefly consist in never running counter to natural influences, but in foreseeing them and taking advantage of them. Narrower men are pinned to a theory, like the followers of silver; even if the theory in its development involves creative power, the making of fifty cents worth a dollar, they work over it all the same. Their idea though is no more absurd than the notion many seem to hold, both here and in London, that a combination of the most astute bankers in the world have during the period since February 1 been engaged in transferring a debt due by this country to London from one banker to another banker by the interposition of their personal credit. We say the notion is absurd, because the attempt could not succeed; it

would end in failure and disaster, if the leading characters in the Syndicate should have undertaken it; while to assume that they would be willing to embark upon such a venture is to impeach their good sense—we had almost said their sanity.

The truth of the matter is, the work the Syndicate undertook and has chiefly sought to accomplish was to remove the prevailing distrust which at the close of January last had become so confirmed as to induce a panicky condition. We have substantially covered their whole work in that sentence. Of course they acted most discreetly, understandingly and boldly. Their engagement called for all those qualities, like the arresting of a panic in a great army and turning a seeming defeat into victory. Every feature of the contract with the Government, every act on the day the contract was signed, and every act subsequently, was so arranged as to help restore and maintain confidence first in America and then abroad. We need not recall the various expedients used; we have done it so many times it is not necessary. And still we cannot help asking the reader to observe a bit of evidence just now conspicuous of the careful way at the start future events have been anticipated and provided against by calling upon him to note what is happening to-day. Gold is being withdrawn from the Treasury and exported, and the Treasury reserve is thereby in process of being impaired; but no sooner is this condition threatened than the reserve is replenished by new deposits of gold. What is transpiring in this contingency shows that the Syndicate, in studying the situation, saw from the first that all this would occur. They saw that gold exports in a natural way would be necessary at this time. They did not undertake nor intend to arrest them nor to arrest any natural outflow, so they created a gold fund to meet that contingency and are using it now.

It may be asked, how was it if what we have said be true that for so long a time gold exports were stopped and exchange was kept below the gold export point? The answer is not difficult. It was accomplished by re-establishing the credit of our dollar and by restoring confidence in our currency at home and in good measure abroad. When the Syndicate made its contract the foreign exchange market had been largely oversold under the influence of the fear that gold values in the United States could not be preserved many weeks, while much floating capital, including balances not immediately needed in the United States, had been transferred to Europe. Only look at our foreign trade conditions for the four months ending with the 1st of February 1895. The figures are the best of evidence that there was no miracle, as we have said, in what the Syndicate did; they only saw and took advantage of the existing conditions. We have made up from the records the following compilation, which presents in a brief, and therefore in a graphic, form the position of affairs.

	Excess of Exports.			
	Merchandise.	*Gold.*	*Silver.*	*Total.*
	$	$	$	$
October, 1894	23,633,135	*519,851	3,445,119	26,558,403
November, 1894	29,396,523	*1,507,399	2,881,739	30,760,863
December, 1894	22,741,415	9,424,349	2,903,278	35,069,042
January, 1895	13,692,064	24,698,489	3,093,127	41,473,680
Total, 4 months	89,443,137	32,095,599	12,323,252	133,861,988

*Excess of imports.

These totals are simply the excess of exports in each case. The grand result shown is that for the four months ending with February 1 the United States had accumulated a balance due it by Europe of $133,861,988. For interest and various items, other than imports, falling due that same four months, it is possible that the United States in the natural, usual way may have owed Europe 50 million dollars, not including unnatural transfers of capital under the prevailing currency scare. That leaves $83,861,988 to be accounted for: in other words, remove the fear and the return of a considerable part if not the most of this nearly 84 million dollars could be depended upon. But besides and in addition to that the Syndicate established a credit in their favor of 33 million dollars in London under the terms of the bond contract.

Such being the conditions, how did the Syndicate's affairs stand at that date? The obvious conclusion is that, with the facts as given above, abundant means were at hand for all purposes needed if the panicky condition of the public could be stayed and confidence restored. Bear in mind that the multiplication of silver issues had been stopped by law; and inasmuch as those outstanding had been kept in active employment in 1892 and would, it may be assumed, again be needed in the operations of the country's internal commerce as soon as business revived, there was no true cause for alarm. So it was by a series of bold moves the panic was arrested, each act of the Syndicate being cleverly aimed at the removal of one of the various sources of the fear which prevailed. Particulars are not needful, for, as already stated, they have been fully given on former occasions. By these means there was established in London a balance to the credit of the Syndicate undertaking, not alone covering the 33 million dollars standing in their own name, but whatever amount on February 1 represented oversold exchange, besides as much more of the 84 million dollars due the United States as might be from time to time returned to America under the influence of the new birth confidence had gained. Some of this latter became immediately available, but the most of it very naturally would be returned gradually as returning faith in our restored industries ripened into assurance.

The next epoch in the Syndicate procedure to re-establish the credit of our dollar includes two classes of events, one a steady outflow to Europe of the best railroad bonds over the counters of our bankers and the other the large amounts of our securities placed in London in April and May by Mr. J. Pierpont Morgan, besides considerable sales of bonds effected by other bankers about that time and subsequently in June through their London representatives. We do not pretend to know the amount of these transfers of capital. No doubt some of the bond sales represented in part loans already standing in Europe. Furthermore report states that a small portion of the securities so sold have come back; that a small fraction of the United States bonds have likewise been returned, though of those returned a portion at least were bought by the Syndicate and replaced in Europe. Altogether it is believed by those best informed that the net result of these transactions was a very considerable supply of fresh capital contributed so as to reinforce the above balance, which as we have shown stood at the start in favor of the country and to the advantage of the undertaking the Syndicate had in hand.

We have no intention of attempting to reach a definite result from all these trade and capital movements. That was not our object, and no such result could be obtained at this date which would be of value. In a general way, though, what we have said indicates

plainly enough that the demands of the situation and the plans of the Syndicate have been not to arrest exports of gold made in obedience to an actual trade demand, but simply to establish confidence and to arrest sentimental and speculative shipments. Cotton is distinctively a late crop this season, and winter wheat a short crop. Exchange has continued to rule high because of the state of these crops and a consequent lack of commercial bills, and not at all because of the condition of Syndicate affairs or action.

THE ERIE REORGANIZATION PLAN.

Whatever may have been thought of the scheme of reorganization of the Erie property originally proposed, somewhat over a year and a half ago, the plan now offered for the acceptance of the security holders seems to furnish little or no occasion for adverse criticism. It recognizes existing conditions, deals with the situation in a thorough and effective manner, and places the property on what promises to be an assured basis of solvency. The plan also possesses the merit, which is the characteristic of all reorganizations originating with the banking house of Messrs. Morgan & Co., of exceeding frankness in dealing with the different classes of security holders. No obligation, bonded or otherwise, is disturbed which may be perfectly secure, but on the other hand a rigid readjustment is made in the case of all other security issues, and the concessions required and the burdens laid strike one as being fair and equitable.

Perhaps the feature which will be most commended is that providing for a unified system all the way from New York to Chicago. Both the New York Pennsylvania & Ohio and the Chicago & Erie are included in the reorganization. The arrangement with the Pennsylvania & Ohio has been modified a great many times in the past, but has always remained unsatisfactory, and new differences have continually arisen, leading to much friction. One of the greatest drawbacks in the existing arrangement has been the difficulty of making provision to put the Pennsylvania & Ohio in condition to handle the business of the Erie with economy and dispatch. In the new scheme the property is to form part of the Erie system, the voting trustees of the Pennsylvania & Ohio having, in consideration of the delivery to them of certain securities of the new company, agreed to foreclose and deliver the property "subject only to the prior lien, equipment and leased line securities." Incidentally, the arrangement will have the effect of wiping out a large mass of worthless securities of the Pennsylvania & Ohio—a relic from the old Atlantic & Great Western Company. Aside from the $8,000,000 of prior lien bonds, which are to remain on the property, there are at present $114,680,000 of first, second and third mortgage bonds on the Pennsylvania & Ohio and $45,000,000 of preferred and common stocks, making $159,680,000 of securities subsequent to the prior lien bonds. Under the reorganization $14,400,000 of new bonds and $26,314,000 of new stock ($7,960,000 being 1st preferred stock, $1,368,000 2d preferred and $16,986,000 of common, on part of which latter an assessment of $742,320 will have to be paid) of the consolidated company will be given to replace this mass of $159,680,000 of securities. It is proper to say that while there is thus a very great reduction in capitalization, the terms offered the Pennsylvania & Ohio seem nevertheless exceedingly liberal. In the case of the Chicago & Erie (the line to Chicago) the income bonds are to be exchanged for the second preferred stock of the new company, and the Erie therefore will take that line, subject only to the existing first mortgage of $12,000,000. Altogether the Western lines are to be incorporated in the system subject to first mortgage liens of only $20,000,000. In this of course the Cleveland & Mahoning and some other lines leased to the Pennsylvania & Ohio on a rental basis are not included; these have about 6½ millions of independent securities outstanding.

Not only, however, are the Western lines brought into the system, but the new plan also seeks to make the collateral and auxiliary properties an integral part of the concern by freeing them as nearly as may be of all incumbrances. By calling in the collateral trust bonds, and liquidating the floating debt, a large amount of securities will be released, which can either be canceled or which will give unfettered control of properties now subject to various liens. For instance, the reorganized company will have absolute ownership of all the Erie coal companies, with no encumbrances except a mortgage of $400,000 on one of them, and also the ownership of the Union Steamboat Company with its fleet of five lake steamers, on which the Erie mainly depends for its "lake-and-rail" traffic. The coal properties represent 10,500 acres of anthracite coal lands, of which about 9,000 acres are held in fee, and 53,000 acres of bituminous coal lands held in fee and 14,000 acres of bituminous lands held under mineral rights.

Through this unification of the system, a sound basis is provided for the issue of new securities of intrinsic merit. In its general outlines the plan is very simple. It provides for four classes of securities—$175,000,000 of first consolidated 100 year 4 per cent gold bonds ($35,000,000 being Prior Lien and $140,000,000 General Lien bonds) secured by mortgage and pledge of all railroads and other properties of every kind embraced in the reorganization and also all property acquired hereafter by the use of any of the bonds; $30,000,000 of non-cumulative 4 per cent first preferred stock; $16,000,000 of non-cumulative 4 per cent second preferred stock, and $100,000,000 of common stock. The intention is ultimately to retire all mortgage debts of the entire Erie system, including the New York Pennsylvania & Ohio and the Chicago & Erie, and $92,668,000 of the $140,000,000 of new General Lien bonds are reserved for this purpose. There will be issued immediately of these General Lien bonds only $29,433,000, and these simply in exchange for existing securities; of the remaining $17,899,000, $17,000,000 are to be used after 1897 at not to exceed $1,000,000 a year, for new construction and equipment, &c. Of the $35,000,000 of Prior Lien bonds, $29,400,000 are to be used at once, $14,400,000 to go to the New York Pennsylvania & Ohio and $15,000,000 to be sold to a syndicate for cash; of the remaining $5,600,000, $600,000 are left for contingencies and $5,000,000 are to be used for enlargement and improvement of terminal facilities, elevating tracks, reducing grades, purchasing additional equipment, &c.

A very large amount of money is needed to place the company on its feet and to carry out the terms of the reorganization, and the plan provides for the raising of over twenty five million dollars in cash. Besides paying off the floating debt, amounting to $11,500,000, and calling in the $3,344,000 of Collateral Trust bonds, it is proposed to take up the $2,500,000 of Erie Reorganization First Lien bonds and to make pro-

vision for the early construction needs of the company, estimated at $5,337,288, and for $2,000,000 of car trusts maturing during the next three years. In detail the requirements of the company are as follows.

Floating debt, receivers' certificates, etc.	$11,500,000
Collateral Trust bonds @ 110	3,678,400
Reorganization First Lien bonds	2,500,000
Early construction requirements (system) and expenses	5,337,288
Car trusts for three years	2,000,000
Total	$25,015,688

Of this 25 million dollars, $10,765,688 is to be raised by levying assessments on the stockholders ($10,023,368 coming from the Erie stockholders and $742,320 from the Pennsylvania & Ohio stockholders), and the remaining 14½ million dollars is to be derived from the sale of the 15 million dollars of new Prior Lien bonds. The assessments have been fixed at $18·00 per share on Erie common stock and $12·00 per share on Erie preferred stock, but in order to secure prompt deposits under the plan a deduction of $6·00 per share on the common and $4·00 per share on the preferred stock is allowed on deposits made on or before September 20th. This makes the net assessments $12·00 per share on the common stock and $8·00 per share on the preferred stock, and the amount to be derived from the assessments has been calculated on this basis. As part of the plan a syndicate of $25,000,000 has been formed to subscribe for the $15,000,000 of Prior Lien bonds and to take the place of non-assenting stockholders.

The plan of course provides for that first requisite of a successful reorganization, namely a reduction in fixed charges. The second consols now bear 6 per cent interest, the new bonds will bear only 4 per cent interest, and in the exchange of one for the other only 75 per cent of new bonds will be allowed for the old, though in addition the consol. holders will get 55 per cent of new 1st preferred stock. At present the fixed charges and rentals of the whole system are $9,400,000, and if interest had been paid on the entire floating debt the amount would have been $9,650,000. The net earnings out of which to pay these charges were for the fiscal year ending September 30 1894 $7,400,000, thus disclosing a deficiency in amount of over two million dollars. Under the reorganization the charges are to be reduced to $7,850,000. On the basis of the net earnings of 1894 this would leave a deficiency of $450,000, but that was a year of extraordinary depression; taking the last eight years (including 1894) the net earnings show an average surplus of nearly $1,500,000 per year above the new basis of charges, though this is subject to the qualification that during the first six of these years the Erie had a considerable income from the trackage arrangement with the Lehigh Valley, which income it has lost since the latter road opened its own line to Buffalo.

On the other hand, for the first two years after reorganization the charges will be $300,000 less than the full amount of $7,850,000, making them only $7,550,000. The reason for this is that under the plan the new General Lien bonds to be given for the present consols will bear only 3 per cent interest (instead of 4 per cent) for two years after July 1 1896. As against the $7,550,000 fixed charges, the net for 1894 we have seen was $7,400,000, leaving on that basis a deficiency of only $150,000. Moreover, in these fixed charges is included the interest on a large sum of money intended to be spent immediately after reorganization in improving and adding to the property and in purchasing modern equipment, and this expenditure, we are told, should enable the company to enlarge its business and also to transact it with greater economy than heretofore. The result, then, is that fixed charges will be little larger than the net earnings of the property in 1894—one of the worst years, as the Reorganization Committee well say, the country has ever known, and one in which the Erie property was operated under great disadvantages.

We thus see that the plan meets the requirements in providing (1) for a unification of the system, (2) in raising a very large amount of cash to meet current needs, and (3) in effecting a reduction of fixed charges to the basis of the lowest net earnings reached in recent years. One other point remains to be considered, namely the provision made for the future capital needs of the company. Under the plan, as has already been pointed out, the company is given the right to issue after 1897 not to exceed $1,000,000 of General Lien bonds each year for "new construction, additions and betterments, additional equipment, etc." As $17,000,000 of bonds are reserved to be used in that way this will cover a period of seventeen years. In addition, a very large sum is to be spent upon immediate improvements and additions. Control of the new company is to be held by voting trustees to be appointed by Messrs J. P. Morgan & Co. and Messrs. J. S. Morgan & Co., who are to exercise the voting power on the stock for five years and for such further period as shall elapse before the first preferred stock shall have received a 4 per cent cash dividend in one year. After the termination of the voting trust the new bonds are to have voting rights the same as the stock.

THE WABASH REPORT.

In considering the annual reports for the fiscal year ending June 30 1895 which are now coming to hand, it is important to bear in mind that the results cover a year of unusually trying business conditions and that in the case of the Western roads they also cover a period of great crop shortage, particularly in corn, where the crop last season in many sections was almost a complete failure. Nor should the fact be overlooked that the situation has now entirely changed—that business in all lines of industry is steadily reviving and that the corn crop, already almost assured, promises to be the largest which the country has ever had. Mindful of all this, it becomes evident that the reports for the late year are useful mainly as showing what the companies have been able to do in a particularly bad period, and furnish no guide to the results for the current fiscal year, which, according to present indications, are certain to be materially better.

We have been favored with an early copy of President Ashley's remarks in the report of the Wabash Railroad to be submitted at the coming stockholders' meeting. The summary for the year which Mr. Ashley gives shows that the outcome has been just about as expected. In the fiscal year 1893-94 there had been a deficit on the operations for the twelve months of $671,765. For the late year, with a further loss in gross earnings of $591,610, the deficiency is somewhat smaller, being only $542,906. And Mr. Ashley says that a large part of this is attributable to the strike of employees during the first half of the month of July 1894, during which time the operations of the road were almost entirely suspended, while the expenses were only reduced by the wages forfeited by the striking force. He estimates the net loss to the company from

that occurrence at from $300,000 to $400,000. Hence he thinks it is fair to assume that but for this unprovoked strike the company would have earned nearly the whole amount of its fixed charges. Such a result for a year of unusual depression in railway traffic and low rates of transportation, he points out, cannot be considered unsatisfactory.

One gets a fair idea of the extent to which the company suffered from the depressing influences at work by noting that the shrinkage of $591,610 in gross revenues in the late year was additional to a shrinkage of $1,668,995 in the previous year, so that in two years the gross revenues have been reduced from $14,220,444 to $11,959,839. That due economy was practiced to offset as far as possible this loss in gross receipts is evident from the fact that in 1894-5 expenses were only $8,921,030, as against $10,807,604 in 1892-3. Mr. Ashley says the physical condition of the lines in the Wabash system continues excellent, although he notes that some important betterments have been temporarily suspended. It has been the policy of the management, he states, to preserve the tracks and motive power in the state of safety and efficiency hitherto maintained.

That it is recognized in financial circles that under the conditions prevailing the company has done remarkably well, and that the deficiency of earnings to meet interest charges represents an entirely exceptional and abnormal situation, and not a normal situation, is evident from the fact that in face of these deficits the company has been able to negotiate a sale of $9,000,000 of its 5 per cent first mortgage bonds for the purpose of paying off an equal amount of maturing 7 per cent bonds. Of the maturing bonds $6,000,000 fell due and were paid July 1 1895, and the other $3,000,000 will fall due Sept. 1. The result of the operation will be a saving in fixed charges of $180,000 per annum.

Referring to the outlook for the current fiscal year, Mr. Ashley observes that the company enters the year with substantial evidences of a larger and more profitable business. The corn crop is the most important factor in the freight traffic of the Wabash lines, and the prospects for that crop are very satisfactory. Transportation interests will not derive any benefit from the movement of new corn, he remarks, until December, but the revival of industry in every direction already contributes satisfactory gains to the revenues of the company. We may supplement this by saying that the return for July alone (when comparison was with the strike period last year) shows a gain large enough to wipe out a considerable portion of the deficit of the late year, the increase in net for that month having been $200,877.

Not less important than the volume of traffic to the Wabash is the question of rates. The company's lines are located in a section of country where railroads are very plentiful and where competition between the different lines is intense. Hence rates are low and a very trifling difference in the average per ton mile will make a very important difference in the final result. Accordingly, it is pleasing to have Mr. Ashley report that there are "gratifying evidences of a better maintenance of established rates." As he well says, the volume of traffic cannot be increased by senseless and ruinous competition. The change in the disposition of railway management in this respect, as far as developed, he regards as a healthful and an encouraging sign, but thinks that the administration of railway affairs would be much strengthened and at the same time public interests served by an amendment to the Inter-State Commerce Law legalizing an equitable division of traffic under the sanction of the Inter-State Commerce Commission. Like the rest of us, he can see no valid objection to a measure which will enable railway companies to regulate their own traffic while carefully guarding the interests of the people.

The Wabash is carrying a small floating debt. On June 30 1895 this debt, exclusive of $182,709 of car notes maturing monthly during the next two years, was represented by $600,000 of notes payable outstanding. Since the close of the fiscal year the amount was increased by $200,000 during July, making a total of $800,000. During August, however, the report states the company realized from its assets the sum of $450,000 in cash, reducing the liabilities to that extent, "and it is confidently anticipated that by a further sale of available assets, the entire amount of floating debt will be either removed or reduced to an insignificant item during the present fiscal year."

THE SOUTHERN RAILWAY REPORT.

The first annual report of the Southern Railway is useful as showing upon what a sound basis this new company has been organized. The old Richmond Terminal system, out of which the new company has been formed, had such an unfortunate career and had become so thoroughly discredited, that to many it hardly appeared possible that the system could be placed in sound and vigorous condition. Yet the experience of the last eighteen months shows that it only needed heroic treatment and the right people to give to the old lines vigorous health and restored vitality. Whether we look at the income account, the balance sheet, or the physical condition of the properties, the contrast with the old status is striking and pronounced. The whole character of things has been changed. The situation is as different as a difference in men and methods can make it.

The income account furnishes an excellent illustration of the new and changed conditions. It is strong where the old company was always weak. The company did not have full interest charges to meet during the year, nor were all the lines operated the full twelve months. Yet such charges as the company did have to meet fell well within the income of the property. Nay, more than that, the company was able to carry forward a surplus on the operations of the twelve months in the large sum of $895,745. In the presence of such a surplus one is forcibly impressed with the fact that if this is the result in a year of unfavorable conditions and trade depression (for the South suffered from the industrial depression prevailing no less than other sections), the outlook for the future of the property, under more promising conditions, cannot be discouraging.

Analysis of the expenses throws light on some of the other characteristics of the new management. We find, for instance, that with an increase of $471,493 in gross earnings, expenses were reduced $282,773, giving an improvement of $754,266 in net earnings. It will be understood that a reduction in expenses may be the result of true economy or it may be the result of false economy. It is almost a work of supererogation to undertake to state which of the two policies controlled in this case. Still the figures are interesting and they tell the story in no uncertain way. We find that in conducting transportation there was a saving of $417,364

and in general expenses a saving of $113,375, while on the other hand in maintenance of way and structures there was an increase of $160,324 and in maintenance of equipment an increase of $87,642. In other words, these comparisons indicate that the expenses were increased in those departments where they affect the physical condition of the property, while they were materially reduced in those of general administration and in the cost of movement. Moreover we have the gratifying announcement that the construction and improvement account does not include a single item of what are usually known as betterments on existing operated property, all of the current expenditures upon such property having been charged to and included in the operating expenses.

In the balance sheet we see reflected not only a state of solvency, with no floating debt and none existing at any time during the year, but we see revealed also open methods of bookkeeping and honest financiering. Besides the liabilities of the company itself, those of all subordinate companies, whether leased or not, are set forth in detail and treated, so far as income account is concerned, as liabilities of the Southern Railway Company. We wish all other large companies could be persuaded to adopt the same system of accounting.

RAILROAD GROSS EARNINGS FOR THE HALF-YEAR.

We gave last week a statement of the gross and net earnings of United States railroads for the half-year ended June 30 1895, as compared with the corresponding half-year of 1894. That statement embraced every road from which we are able to procure returns of both gross and net. In addition we have the returns of a considerable number of roads which make reports of gross alone. It seems desirable to bring the two classes of companies together in order to get a complete statement of the gross earnings of the whole body of roads. This we have accordingly done in the following table. It will be observed that we start with the total given by us last week and add the other roads not then included.

GROSS EARNINGS OF UNITED STATES RAILWAYS, JANUARY 1 TO JUNE 30.

Total (231 roads)	462,443,561	448,103,238	17,903,799	3,563,476
Net increase (3·20 p. c.)	.....	.....	14,340,323	.....
Miles of road	155.177	154.657	520	.....

In this way we get returns from 231 roads, operating 155,177 miles of line, and having gross earnings of $462,443,561 in 1895, against $448,103,238 in 1894. The interesting feature in this statement is that it shows an improvement in the gross earnings of these roads of only a little over 14 million dollars. A similar statement prepared by us a year ago and covering 153,335 miles of line recorded a loss in the extraordinary sum of $87,914,408, of which hence only about 14 million dollars has now been recovered. We also bring forward again the summary of the more important changes on the separate roads which we gave last week, incorporating in it of course the other roads which the enlarged scope of the tabulations makes necessary.

PRINCIPAL CHANGES IN GROSS EARNINGS IN 6 MONTHS.

Increases.		Increases.	
Pennsylvania (3 r'ds)*	$5,213,817	Bangor & Aroostook	$216,584
Gt. Northern (3 r'ds)	1,270,639	Pitts. & Western	295,743

Fitchburg	225,521		
Alleghany Valley	224,129		

* The gross on Eastern lines increased $3,310,599 and on Western lines increased $1,903,218.

We commented on these changes at length last week, and we will only say here that while the list of large gains is very numerous, it appears small alongside the much more formidable array of heavy losses reported in 1894, the Pennsylvania then reporting $12,273,606 decrease, the Atchison $5,336,958 decrease, the Union Pacific $5,161,815 decrease, the Burlington & Quincy $3,815,869 decrease, the Northern Pacific $3,475,470 decrease, the Erie $3,109,301 decrease, the Reading $2,902,551 decrease, the New York Central $2,869,958 decrease, the Baltimore & Ohio $2,800,559, the St. Paul $2,528,089, the Southern Pacific $2,468,235, the Lake Shore $2,434,339, the Chicago & North Western $2,106,132, the Missouri Pacific $2,066,801, &c.

LOW FREIGHT RATES.

PHILADELPHIA, Aug. 28, 1895.

To the Editor of the Financial Chronicle:

DEAR SIR.—In your issue of August 24, 1895, were two able articles dealing with freight rates and the necessity of securing returns that will be more just to holders of railroad securities. As it is a question in which I have taken much interest, I beg leave to call your attention to some official figures that are even more striking than those contained in your last issue.

The Philadelphia & Erie RR., 287 miles, from Sunbury to Erie, Pa., operated by the Pennsylvania RR as its trunk line

to the Lakes, and the essential connecting link of 40 miles in the Northern Central system, reports for the year 1894 a rate per ton per mile less even than the Chesapeake & Ohio. The Philadelphia & Erie *Railroad* figures are, as per report mailed with this, for the years ending December 31.

1894	0·418	1889	0·518
1893	0·444	1888	0·519
1892	0·417	1887	0·543
1891	0·487	1886	0·523
1890	0·475		

It is also surprising to note the *average cost per ton per mile*, namely :

1894	0·321	1889	0·378
1893	0·315	1888	0·320
1892	0·325	1887	0·324
1891	0·318	1886	0·310
1890	0·323		

It will be noted that the cost of operation has been practically the same for ten years, something that is entirely different from other roads in the country, and the reason why the Philadelphia & Erie is in such fine physical condition. It has really been practically double-tracked from earnings charged to expense account.

The figures of 0·468 cents per ton per mile given in your article as the rate received by the Philadelphia & Erie is for the "Division," which includes the Philadelphia & Erie *Railroad*. The latter is really entirely distinct from the Division. The "unabridged" report of the Pennsylvania RR., containing many statistics, shows that the rate on tidewater coal on the Chesapeake & Ohio of 2·93 mills cannot stand as a record for low through freight rates.

On page 91 of the unabridged report of the Pennsylvania Railroad for year 1894 I find that the Philadelphia & Erie Division in 1894 handled 788,198 tons of through freight East, carried 229,089,673 ton miles, for which there was received the small sum of $457,300 18. This is less than two (2) mills per ton per mile for the entire through Eastern freight. The exact figures of 0·199 is the average rate received, including coal and all other commodities.

The figures for the past four years are as follows :

THROUGH FREIGHT ON PHILADELPHIA & ERIE DIVISION.

	East per ton per mile.	*West per ton per mile.*
1894	0·199	0·308
1893	0·264	0·345
1892	0·195	0·363
1891	0·258	0·361

The through rate business is one that is most peculiar for investors to understand, and the CHRONICLE can materially aid a happy solution by publishing statistics.

Yours truly, DAVID S. THOMPSON.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Aug. 17, 1895

Money has been in exceptional demand this week, especially on Wednesday, the closing day of the fortnightly settlement on the Stock Exchange. The account to be arranged had extended over 19 days. It was therefore unusually long, and business in the mining market had been on an exceptional scale. It is said that the account in mining shares was the largest that has ever been settled yet—even larger than the famous one when the Stock Exchange completely broke down a couple of months ago.

This time preparations on an adequate scale had been made, and although the work to be done was exceedingly heavy there was no break-down and no serious difficulty. As a matter of course the demand for loans was very eager. On Wednesday as much as 2 per cent was offered for a week and more for a fortnight. The banks, however, were unwilling to increase their loans at the rates offered, and in consequence applications had to be made on a considerable scale for advances from the Bank of England.

The supply of money at the moment is temporarily short. It will be recollected that the great French banks borrowed considerable amounts just before the Chinese loan was brought out in Paris, and at the present rate of exchange it involves a loss to send back the money. Consequently there are delays in getting the remittances to London which had everywhere been anticipated. As trade is slowly improving, and holiday-making is going on, it looks as if we should have a gradual advance in the value of money. But it will be a considerable time before rates rise very much.

The silver market is a little stronger this week on French buying for Tonquin. There is a hope, too, that Japan will buy before long, and therefore speculators are encouraged to hold on. The demand for remittances to India is unexpectedly great. The India Council on Wednesday offered for tender 50 lakhs of rupees, and the applications were for between seven and eight times as much. The whole amount was sold at an average price of 1s. 1¼d. per rupee, and subsequently special sales were made at a slighly higher quotation.

The new Parliament met at the beginning of this week, but no contentious business will be undertaken; and as there is a desire on both sides to vote the money required as quickly as possible, it is expected that the session will close early without any important discussion. There is a better feeling, too, respecting foreign affairs, though the state of South-eastern Europe and Armenia continues to excite some apprehension, and so do the rumors of French activity in many parts of Africa, but more particularly in the direction of the Nile basin. There is a silly newspaper controversy going on between certain British and German journals. The German Emperor is on a visit to this country, and he has been received by all classes and all parties with great favor. Some of our newspapers in referring to his visit used language which was perhaps not quite diplomatic, and this has given offence to certain of the German newspapers which are not very friendly to this country. The matter, however, has no real significance. There is no cause of disagreement between the two countries, and the governments of both may be trusted to act towards each other with courtesy and consideration.

The report that the United States is acting in concert with the United Kingdom in China has been welcomed here very cordially. Even those who dislike too close a connection with other countries desire to see the most hearty friendship and the closest understanding between the two great English-speaking peoples.

As a better feeling respecting international politics has grown up, the Continental bourses have become stronger. Even Spanish securities have recovered somewhat. But the condition of Spain is extremely bad. She is ill able to bear the expenses of the Cuban expedition; and if, as is now reported, 30,000 additional men will have to be sent out, there are grave fears both in London and in Paris that the long-expected financial crisis may be forced on.

In the American market very little is doing, as operators are rendered nervous by the gold shipments from New York. It is understood here that the loan Syndicate will continue to pay gold into the United States Treasury until the period of active exports sets in, in the latter half of next month, and that therefore the gold reserve will be kept well up to the 100-million-dollar limit.

The failure of the City of Melbourne Bank has passed off very quietly in Australia, and it is hoped now that further difficulties may be postponed. But several of the reconstructed banks are in a bad way, and unless they can induce their depositors to accept a lower rate of interest they cannot go on very long.

For the time of the year there is a fair amount of investment going on here in what are considered sound securities; but the real activity is in mining shares. South African are still the main favorites. Every week new companies are being brought out in considerable numbers, and the shares of other companies which had not been registered in London nor regularly issued here are being sold upon the Stock Exchange. That prices are being put up too quickly is quite clear, and that the number of new issues is becoming dangerously large is also evident. But the eagerness of the public all over the Continent, as well as at home, for mining securities is as yet as great as ever. Indeed there is more buying at present for Germany and Austria-Hungary than there has been hitherto, and the French buying shows no sign of abatement. On the other hand, some of the great lending establishments here look upon the market as top-heavy and are beginning to contract the loans that they have hitherto made to it.

There is also a good deal of activity in Western Australian mining ventures, and a great number of new companies are coming out. As the Western Australian district is not fully explored, and as very little is really known respecting the value of the new properties, the Western Australian market is even more dangerous than the South African. The district may be equally rich, but that has yet to be proved.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1895. Aug. 14. £	1894 Aug. 15 £	1893. Aug. 16. £	1892. Aug. 17. £
Circulation	26,436,975	25,900,330	26,632,680	26,149,985
Public deposits	5,981,457	5,189,243	3,772,068	4,031,263
Other deposits	44,441,807	35,285,329	30,474,827	31,755,315

Messrs. Pixley & Abell write as follows under date of Aug. 15:

Gold.—There is absolutely no inquiry for gold, and all arrivals have been sent into the Bank of England. Cash has received during the week £331,000: Arrivals—Cape Town, £155,000, New York, £846, 000; China, £32,000; total, £853,000.

Silver.—Influenced to some extent by the tenders made in Paris and also by their being considerably more liquid, for the first time for some time past, the price rose to 30⅝d. New York then sold freely, and the market has since fallen to 30⅜d. Arrivals from New York, £165,000. Shipments to Bombay Aug. 9, £79,300.

Mexican Dollars.—Dealings in these coins have taken place at 30¼d., and the quotation to-day is 30⅛d. Arrivals from New York, £8,000.

The quotations for bullion are reported as follows:

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods August 22 and for the week ending for general merchandise August 23; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week	1892	1893	1894	1895
Dry Goods	$2,554,742	$2,260,437	$1,480,613	$3,226,814
Gen'l merchdise	3,847,788	6,281,198	5,864,028	7,117,167
Total	$6,306,530	$8,541,635	$7,264,641	$10,343,981
Since Jan. 1				
Dry Goods	$93,887,157	$93,879,110	$84,941,857	$98,146,530
Gen'l merchdise	292,784,308	310,214,236	231,088,243	243,226,106
Total 34 weeks	$378,171,745	$404,093,346	$285,029,100	$341,362,636

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending August 27 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893	1894.	1895.
For the week	$6,481,905	$8,336,507	$6,754,304	$6,738,623
Prev. reported	253,946,459	234,664,952	235,[illegible]25,784	214,322,756
Total 34 weeks	$260,428,364	$241,[illegible]01,359	$242,280,088	$220,981,379

The following table shows the exports and imports of specie at the port of New York for the week ending August 24 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold	Exports. Week.	Exports. Since Jan. 1.	Imports. Week.	Imports. Since Jan. 1
Great Britain	$3,498,700	$20,471,988	$959,911	$15,741,724

All other countries	.....	29,534	.....	18,136
Total 1895	$881,028	$23,852,632	$42,779	$1,274,690
Total 1894	614,200	22,647,479	1,948	1,137,979
Total 1893	718,224	20,811,194	111,292	2,478,148

Of the above imports for the week in 1895 $9,735 were American gold coin and $44 American silver coin. Of the exports during the same time $3,487,200 were American gold coin.

—Messrs. A. N. Chandler & Co., Philadelphia, advertise in our STREET RAILWAY SUPPLEMENT the first mortgage 5 per cent bonds of the Rapid Railway. This is a Detroit street railway, the particulars concerning which may be found in the STREET RAILWAY SUPPLEMENT issued to-day.

—The Columbus & Hocking Coal & Iron Company Bondholders' Committee, of which M. L. Scudder is the chairman, has prepared an agreement and invites deposits of bonds with the Central Trust Company. Foreclosure, it is said, is unavoidable.

Breadstuffs Figures Brought From Page 383.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Aug 24. 1895, and since August 1, for each of the last three years.

—Mr. C. W. Haskins, the expert whose advertisement appears in the CHRONICLE, is now supervising the investigation of the Dock Department for the City of New York. Mr. Haskins has had numerous engagements for making examinations that required superior skill and refers to many prominent people with whom he has held business relations. Mr. Haskins and his associate, Mr. E. W. Sells, were the experts who recently spent nearly two years in the preparation of a revised plan for conducting the accounting system of the United States Government for a joint commission of Congress. This plan, as is generally known, was adopted and has been highly spoken of.

—Attention is called to Bridgeport Traction 5 per cent bonds offered at 103 and interest by Messrs. Redmond, Kerr & Co., who have sold all but $250,000 out of the whole issue of $1,500,000. Full particulars will be found in the advertisement in our STREET RAILWAY SUPPLEMENT issued to-day.

—Messrs. W. J. Hayes & Sons, Cleveland and Boston, offer Haverhill (Mass.) and Waterbury (Conn.) fours, Portland (Oregon) sixes, Cincinnati Electric Street Railway fives and other issues.

—Remond, Kerr & Co. offer to investors a selection of guaranteed stocks and bonds, bearing from 4 to 9 per cent interest, as advertised in another column.

Messrs. N. W. Harris & Co.'s September municipal bond list will be ready in a few days. It can be had at their office, 15 Wall Street, New York.

WALL STREET, FRIDAY, AUGUST 30, 1895.—5 P. M.

The Money Market and Financial Situation.—The announcement on Monday of the Erie plan of reorganization was the most notable event of the week in financial circles, and has had a marked effect upon the market for railroad securities at home and abroad. The plan is very favorably regarded and gives promise of a speedy consummation. It has been reported that a new Reading plan is practically completed and will be announced next month.

Among other features of interest the foreign exchange market is conspicuous The weakness noted in our last issue has disappeared, and the conditions which had previously prevailed have returned. There is a dearth of bills of all classes, and gold shipments have continued. The Syndicate has also made deposits of gold in the Sub-Treasury to reinforce the Government reserve.

Included in the reports of railroad earnings, which reflect the larger volume of general business of the current year as compared with 1894, the figures given out this week by the Pennsylvania Company are suggestive. They show a gross increase of earnings for the seven months ending July 31 amounting to $6,506,859. Of this amount the company has paid out for increased operating expenses over $4,000,000, leaving a net increase of $2,427,047.

The open market rate for call loans during the week on stock and bond collaterals has been 1 per cent. To-day's rate on call was 1 per cent. Prime commercial paper is quoted at 3½ to 4½ per cent

The Bank of England weekly statement on Thursday showed an increase in bullion of £817,211, and the percentage of reserve to liabilities was 60·12 against 59·17, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 1,646,000 francs in gold and 193,000 francs in silver.

The New York City Clearing-House banks in their statement of Aug. 24 showed a decrease in the reserve held of $4,622,400 and a surplus over the required reserve of $37,566,675 against $41,268,875 the previous week.

Foreign Exchange.—The market for foreign exchange has been dull, with a hardening tendency as the week has advanced. The offerings of all classes of bills are very light and the limited demand is met in part by gold shipments. The total shipments of gold during the week are $3,300,000 including $2,000,000 going to-morrow.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 89@4 89¼; demand, 4 90@4 90¼; cables, 4 90⅛@4 90⅜.

Posted rates of leading bankers are as follows:

Aug. 30.	Sixty Days.	Demand.
Prime bankers sterling bills on London..	4 89@4 90	4 90@4 91
Prime commercial	4 88@4 88½	.....
Documentary commercial.....	4 87@4 88	.....
Paris bankers' (francs)	5 16¾@5 16¾	5 15⅜@5 15⅝
Amsterdam (guilders) bankers.	40⅜@40⅜	40⅜@40⅜
Frankfort or Bremen (reichsmarks) b'kers'	95⅞@95⅞	95⅞@95⅞

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 00 premium; commercial $1 25 discount; Chicago, 40c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Government bonds have been unusually dull but firm. Closing prices have been as follows:

State and Railroad Bonds.—The limited sales of State bonds at the Board include $32,500 Virginia fund. debt 2-3s of 1991 at 63⅜ to 63¼ and $1,000 No. Carolina con. 4s at 108.

The railroad bond market has developed unusual activity and strength, and reflects the favor with which the public regards the progress now being made in the reorganization of insolvent companies and confidence in the future of railroad interests in general.

The prominent features are Chic. & Erie 1sts and New York L. E. & Western 2d con. rects., which have advanced about 7 and 6 points respectively since the Erie plan was announced. The various Atchison issues have advanced from 1 to 4 points within the week, and Kan. Pac. 1sts and Mo. Kan. & Tex. 2ds are over 3 points higher than our last quotations. Northern Pacifics have been favorably affected by its increased earnings and better prospects. The Reading issues are all higher on the report that its reorganization plan will be announced next month. Sav. & West. 1st rects. are about three points higher, as the provisions of the Central of Georgia plan are favorably regarded.

Other active bonds which have advanced include C. H. V. & T. 5s, Rio G. West. 1sts, S. A. & A. P. 4s, Southern Ry. 5s and U. S. Cordage rects.

Railroad and Miscellaneous Stocks.—The market for railroad stocks was strong during the early part of the week on a largely increased volume of business, and in several cases the prices reached were the highest of the year. This was especially true of the grangers and some of the low-priced stocks. In this movement St. Paul took the lead both in activity and advance, selling at 77⅝ on Thursday. Burlington & Quincy sold at 92½ on Wednesday, but its report of July earnings was disappointing and it has declined to 91. Rock Island and North West. each advanced about 2 points. The coal stocks have been dull, but Central of N. J. has gained over 3 points. The London market for Americans has been strong, and stocks which are dealt in abroad have made substantial gains, including Louisville & Nashville, Northern Pacific pfd., Erie and the Atchison shares. The Chic. St. P. Minn. & Omaha stock has been more active than usual and advanced over 3 points.

With the increased interest in the railroad list the industrials have been less prominent than of late. American Tobacco has continued weak under heavy liquidation, and it was reported that the Attorney-General of the State would institute proceedings against the company under the anti-trust law. American Sugar sold down to 106⅞ on Monday and closes at 110⅝. The U. S. Leather shares have been dull and weak, as the dividend has been passed. Tenn. Coal & Iron has been a strong feature on the improvement in the iron trade and has moved up about 4 points. General Electric and Pacific Mail have each made an advance, while Chicago Gas and Distilling have been steady.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every steam road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

a* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & South western.

a These figures include results on leased lines.

b Includes earnings from ferries, etc., not given separately. ‡ Mexican currency. c Includes only half of lines in which Union Pacific has a half interest.

Street Railways and Traction Companies.

[The returns of earnings of the street railways, both gross and net, have been transposed to a place by themselves, at the end of this department of railway earnings, and will hereafter always be given in that place. They will be found to day on page 363.]

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the third week of August our preliminary statement covers 69 roads, and shows 1·29 per cent gain in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of August 24, 1895. The next will appear in the issue of September 21, 1895.

STREET RAILWAYS AND TRACTION COMPANIES

We have been very successful in our efforts to secure monthly and weekly reports of the earnings of street railways, and the list of roads now furnishing such returns has become a very extended one. For this reason we have concluded to separate the street railways entirely from the steam roads and to bring them together under a distinct head. The following table shows the *gross* earnings for the latest period of all street railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction

Street Railway Net Earnings.—The following table gives the returns of street railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of August 24. The next will appear in the issue of September 21.

ANNUAL REPORTS.

Southern Railway Company.

(For year ending June 30, 1895.)

The report of President Samuel Spencer, together with the balance-sheet and the other tables contained in the advance report for the late fiscal year, are given at length on subsequent pages of to-day's CHRONICLE. In view of the successful launching of this great corporation, the reader will find the full particulars so furnished him of especial interest. We give below merely a statement of the mileage leased, owned and operated by the company, and a four-year table indicating the fluctuations in the company's traffic. It will be noted that the gross earnings for the late year, while better than those for the year preceding, were still close to bed-rock, leaving much room for improvement as general business expands. This statement of earnings, it should be understood, is based on *all* lines (4,892 miles) for the *entire* year, whereas the statement for 1894-95 in the body of the report is based on the mileage actually operated by the Southern Railway Co. during the year.

OPERATIONS, EARNINGS AND EXPENSES OF LINES COMPOSING THE SOUTHERN RAILWAY SYSTEM (4,392 MILES) FOR THE YEARS ENDING JUNE 30.

Northern Pacific Railroad.

(For year ending June 30, 1895.)

The receivers have published a statement of operations for the late fiscal year, which we give below, in comparion with the figures for the three previous years In this compilation of the gross and net earnings the operations of the "Wisconsin Central Lines" are *included* for the first *three* months of the fiscal year 1893 94 [July 1 to September 26, 1893], but from the figures of the other years they are excluded entirely. In the year 1892 93 the gross earnings of the "Wisconsin Central Lines," here excluded, were $5,631,194 and the net $1,771,967 From this may be determined in some measure how far the Wisconsin Central disturbs the comparison.

	1894-95.	1893-94.	1892-93.	1891-92.
Mileage			4,443	4,412
Earnings—	$	$	$	$
Passenger	3,350,492	4,639,964	5,917,054	6,296,285
Freight	13,210,699	12,378,402	17,017,629	17,343,772
Mail, express, etc.	873,790	883,810	985,425	981,400
Total	17,434,941	17,902,076	23,920,108	24,681,457
Oper. expenses—				
Maint. of way, etc.	2,722,423	3,421,008	3,775,519	3,782,731
Maint. of equip't.	1,891,291	1,400,637	2,778,990	2,014,413
Trans. expenses	5,948,359	6,374,612	6,774,345	6,874,356
General	1,057,609	1,545,384	1,612,918	1,504,861
Total expenses (excluding taxes)	11,319,682	12,750,641	14,471,772	14,176,361
Net earnings	6,115,299	5,151,435	9,448,336	10,485,093

INCOME ACCOUNT 1894-95.

Net earnings	$6,115,298	Surplus	$535,973
Other receipts	616,229	Int., &c., of corporation paid by receivers	138,434
Total	$6,731,527	Paid trustee account of branch roads	140,000
Deduct—		Total	$278,433
Taxes and rentals	$1,710,483	Net surplus	$257,540
Interest on—			
Receivers' cert.	208,795		
Gen. 1st M.	3,286,010		
Mo. Div. M.	149,100		
P. d'Oreille Div. M.	49,540		
Coll. trust notes	568,458		
Dul & Man. bonds	140,754		
Spok. & Pal. bonds	82,413		
Total	$6,195,554		

It will thus be seen that the receivers earned a surplus of $257,540 36 after charging all operating expenses, interest and fixed charges stated, rental of branch roads leased, taxes, and $138,433 87 on corporation account.

—V. 59, p. 331.

Trow Directory Company.

(For the year ending July 31, 1895.)

The profit and loss account for the year ended July 31, 1895, shows:

Credits.		Debits.	
Sales—printing dep't	$354,867	Stock July 31, 1894	$64,355
Less allowances	12,584	Materials, etc.	80,676
	$342,083	Salaries and wages	266,547
Sales of directories	52,879	Rent, taxes & insurance	14,517
Circulars, etc	38,173	Repairs	11,380
Sundry credits	4,706	Legal expenses	4,429
Stock July 31, 1895	58,824	Int. & discount on bills	5,459
		Printing, stationery and sundry expenses	17,845
		Reserve for doubtful bts	3,546
	$496,655		$468,554
Balance, being profit for year, subject to charge, if any, for depreciation			$28,101

Messrs. Barrow, Wade, Guthrie & Co., Accountants, audit the report, and referring to the profit of $28,101 for the year say:

"This result is after charging all expenses relating to both manufacturing and trading, repairs and replacements, and an allowance (equal to 1% on the sales of the year) of $3,546 as a reserve to provide against possible losses on outstanding accounts. This sum is irrespective of a reserve of $6,117 already credited and now standing open on the books of the company as against the United States Book Company's debt. We have not included any charge for depreciation of machinery and plant, for the reason that there is at the present time a controversy in regard to the actual value of this asset. The company has during this year expended in repairs and renewals of plant the sum of $11,380, which has been charged against the earnings.

On July 31, 1895, the bills and loans payable amount to $54,000 as against $71,200 on July 31, 1894. There has also been a reduction in sundry liabilities on open accounts. The cash on hand stands at $70,107, as against $5,840 on July 31 last year. The accounts receivable have increased to the extent of $8,497, last year the amount being shown as $40,073, whilst this year they stand at $48,571. Other accounts open on the ledgers are practically as shown in last year's balance sheet.

GENERAL INVESTMENT NEWS.

Allegheny & Kinzua RR.—Judge Buffington has handed down an opinion in the United States Circuit Court in the suit of Woodbury & Moulton of Maine against the Allegheny & Kinzua RR. Co., Spencer & Bullis, the Central Trust Company, and others. The suit was for the foreclosure of a mortgage for $500,000, negotiated in 1891, under which bonds to the amount of $370,000 have been issued. The company defaulted in 1892, but the railroad people secured an order to restrain the foreclosure. Judge Buffington decides the case in favor of the plaintiffs, and the foreclosure will be made.—V. 61, p. 195.

Atchison Topeka & Santa Fe RR.—The decree for foreclosure was granted at Leavenworth, Kan., on Tuesday. Just previously a settlement was made with General J. T. Torrence, President of the Chicago Elevated Terminal Company. General Torrence declined to mention the terms of settlement, simply saying that it was made in cash and was perfectly satisfactory to him. He added that the Atchison had met him more than half way in the settlement, and he would hereafter work in harmony with the Reorganization Committee.—V. 61, p. 289.

Cape Fear & Yadkin Valley RR.—Messrs. Hambleton & Co., in their financial circular, explain the delay in reorganizing this company as follows: "The perfecting of a plan of reorganization of the Cape Fear & Yadkin Valley Railroad is delayed by a dispute and contention between the holders of the different series of bonds. The holders of A series claim that the property represented by the middle section of the road is more valuable than that represented by the two end sections, B and C. As it appears to us, the A bondholders are simply fighting for better terms, and that it is not at all likely that the courts would permit a dismemberment of the property. We understand that a proposition was made to the A bondholders which gave them somewhat better terms than the holders of B and C series, but it was rejected. Thus the matter stands, and it is difficult to foretell the result. We should think that mutual interest would lead to an amicable and equitable settlement."—V. 60, p. 1103.

Central RR. & Banking of Georgia—Savannah & Western RR.—On Monday, at the meeting of the holders of Central Trust Company certificates representing the Savannah & Western first consols, at which over 70 per cent in interest of the certificate holders were represented, it was unanimously resolved to adopt the plan of settlement proposed by the Central of Georgia plan as modified. Under the terms of the bondholders agreement any reorganization plan accepted by 65 per cent of the certificates was to be binding on the holders of all the certificates. Consequently this resolution of over 70 per cent ensures the acceptance of the plan by the owners of the bonds deposited with the Borg Committee, or of $3,688,000 out of the $6,127,000 held by the public, an additional $1,628,000 being held by the Central of Georgia. The Savannah & Western will therefore be retained in the Central of Georgia system, and it is expected that from now on the reorganization of the Central will progress rapidly. In the advertising columns of to-day's CHRONICLE will be found an important notice from the Borg Committee to the Savannah & Western certificate holders regarding the disposition to be made of the new bonds, to which, under the plan, the Savannah & Western bondholders are entitled.

The final decree of foreclosure and sale of the property of the *Central RR. & Banking Company of Georgia* under the consolidated mortgage was granted on Monday by Judge Don Pardee in the United States District Court at Atlanta. The sale is to be made subject to the tripartite mortgage. A. E. Buck and George S. Owens were named as commissioners to conduct the sale. The date of sale was not fixed, nor was an upset price fixed. The sale is expected to occur about Oct 1. A decree of foreclosure was also granted against the *Savannah & Western*, under that company's first consolidated mortgage, and E. A. Angier was appointed commissioner to sell its property. A commissioner was appointed some time ago to sell the Mobile & Girard, another branch of the Central.

The new securities under the reorganization are now being engraved and it is thought will be ready for distribution by November.—V. 61, pp. 197, 324.

Chicago Peoria & St. Louis Ry.—St. Louis Alton & Terre Haute RR.—The reorganization committee of the Chicago Peoria & St. Louis, consisting of Louis Fitzgerald, Chairman: Henry W. Putnam, Daniel B. Hatch, Charles F. Dean and William D. Guthrie announce that, owing to the exceptionally bad physical condition of the railroad, and the continued depressed condition of trade, agriculture and coal-mining in the immediate neighborhood of the road during the last eighteen months, the net earnings have not been such as to warrant the issue and distribution of the securities provided in the plan of January, 1894. They have therefore deemed it best to prepare a modified plan and to negotiate an agreement with the St. Louis Alton & Terre Haute RR Co. under date of August 15, 1895, by which the property is to be leased, and control transferred to such railroad company, said railroad company on its part undertaking to provide the funds necessary to discharge the receiver's certificates, etc., and additional sums for improvements, equipment, etc., and also to *guarantee* the payment of the *principal and interest* of the first mortgage bonds to be distributed among the C. P. & St. L. security holders. All of the shares of the capital stock of the new company mentioned in the plan of reorganization are to be transferred to said railroad company.

New securities—The new securities to be issued are as follows:

NEW SECURITIES TO BE ISSUED.

1. First mortgage thirty-year gold bonds ... with interest from July 1, 1895, to maturity, at the rate of 4 per cent per annum, payable semi-annually. To be guaranteed, principal and interest, by the St. Louis Alton & Terre Haute, if the agreement with that company be consummated.	$5,275,000
2. Second mortgage fifty-year gold non-cumulative income bonds ... with interest from July 1, 1895, to maturity, at such rate, not exceeding 4 per cent in each year, as the net earnings of that year shall suffice to pay; the right being reserved to the new company, at its option, to reduce interest to a 3 per cent absolute fixed charge.	4,220,000
3. Common stock ...	2,500,000
Preferred stock, non-cumulative 5 per cent ...	2,500,000

This stock, both common and preferred, will belong to the St. Louis Alton & Terre Haute if the agreement with that company is carried out.

Distribution of new securities—The new securities are to be used as follows:

Of the *first mortgage bonds*, $2,286,800 par value will be set apart for distribution among the holders of reorganization certificates for bonds of the old company, and $976,000 for the vendors of the North & South Railroad, if said property be acquired in lieu of the Jacksonville Louisville & St. Louis Railway Company, and $413,100 for the discharge of the obligations, expenses, etc., of the reorganization committee. The balance, viz., $1,800,100, is to be held in trust—*first*, to provide the $500,000 necessary to discharge the receiver's certificates, etc., and thus to discharge the existing car trust obligations. Any surplus to be applied to permanent betterments and additional rolling stock and equipment, etc.

Of the *second mortgage income bonds*, $2,282,000 are to be delivered to the reorganization committee for distribution among the security holders represented by it, and to provide for the obligations, expenses, etc., of the committee; $250,000 for purchase of North & South RR., and the balance of such issue, viz., $1,688,000, is to be reserved for the St. Louis Alton & Terre Haute Railroad Company.

"If practicable, the holders of certificates representing first mortgage and first consolidated mortgage bonds will receive, in addition to the bonds reserved for distribution under the modified plan, 4 per cent in new first mortgage bonds to cover interest from July 1, 1894. Difficulties, however, have arisen which may make it necessary for the reorganization committee to remove liens and give guaranties, in which event the committee may have to retain and use those bonds."

Should the agreement with the St. Louis Alton & Terre Haute Railroad Company for any reason not be carried out, the Chicago Peoria & St. Louis Railway Company will be reorganized in accordance with the modified plan of re-organization, under which the fixed charges of the new company will, in the opinion of the committee, be within the earning capacity of the property as soon as the necessary betterments are completed, and the equipment obligations discharged or provided for, and an adequate reserve of bonds will be made to cover present and future cash requirements.

* Or for acquisition or construction of other railroad property in accordance with provision to be inserted in mortgage.

Exchange of securities.—If the proposed agreement with the St. Louis Alton & Terre Haute be consummated, the holder

of each $1,000 bond of the old company will receive securities as follows:

	Will receive.	
Holders of old bonds—	1st M. 4s. guaranteed.	2d Mort. incomes.
1st Mortgage of 1888 (Mercantile Trust).....	$900¶	$100
1st consol mort. of 1889 (Central Trust)	90 ¶	100
2d consol. mort of 1891 (Metropol. Trust)....	none	1,200

¶ Also, if practicable, 4 per cent additional in said guaranteed bonds.

If for any reason the agreement with the St. Louis Alton & Terre Haute is not consummated, the holder of each $1,000 bond of old company will receive:

	Will receive.		
Holders of old bonds—	1st mort. 4s.	2d mort	Pref. Stock.
1st mortgage of 1888	$900	$200	$400
1st consol. mortgage of 1899....	900	200	400
2d consol. mortgage of 1891.....	....	1,200	250

Securities deposited.—The following securities have been deposited with the Mercantile Trust Company under the reorganization agreement of January 8, 1894:

First mortgage bonds, 1888 (total issue, $1,500,000).....	$1,449,000
First consol. mort. bonds, 1889 (total issue, $1,041,000) ..	1,041,000
Second consol. mort. bonds, 1891 (total issue, $1,276,000)..	1,196,000
Capital stock of the said C. P. & St. L. Ry. Co. (total issue outstanding, $3,500,000).....	2,200,000

Certificate holders not withdrawing their securities within one week after the expiration of the two weeks during which notice of the modification of the plan is being advertised will be deemed to have assented to the modification in the plan adopted by the Committee.

The Reorganization Committee earnestly recommend the terms and modification above provided for as being, in their judgment, advantageous to the security holders, and the best obtainable under the circumstances.—V. 61, p. 324.

Chicago & Alton.—The Peoria line of the Alton will be put in operation on October 1 by agreement between the Alton, the Toledo Peoria & Western and the Peoria Decatur & Evansville. The line will be operated as an extension of the Dwight branch of the Alton, and not the Toledo Peoria & Western, as was reported recently.—V. 60, p. 351.

Cincinnati Street Railway.—Stockholders of record September 19 will be entitled to purchase at par new stock to the amount of 5 per cent of their holdings, payment to be made between September 19 and October 3 New stock to the amount of $1,000,000 was authorized at the annual meeting July 31, of which $500,000 is now about to be issued, making the total stock outstanding $10,500,000. According to the Cincinnati papers the earnings of the company for the late fiscal year equaled 6·17 per cent on the capital stock, as compared with 5·94 for the year previous. The surplus, after paying all charges and the dividends of 5 per cent, was $73,000.

Distilling & Cattle Feeding—American Spirits Manufacturing.—Judge Seaman on Tuesday, after hearing argument by Attorney Eddy on a motion for an appeal against the order of the court confirming the receivers' sale, denied the appeal. Similar action had been taken by Judges Showalter and Woods on motions to appeal.—V. 61, p. 324.

Flint & Pere Marquette RR.—This company recently sold $306,000 of its consol. fives, the proceeds of which will be used in part to pay off floating debt. The reported sale of bonds for the proposed Toledo extension is denied.—V. 61, p. 324.

Green Bay Winona & St. Paul.—The two committees have practically agreed upon a reorganization plan, which will probably be submitted next week to the security holders.—V. 60, p. 1104.

Kansas City Water Co.—This company has exercised its option to pay all of the bonds secured by mortgage dated November 11, 1887. The holders may obtain payment by presenting the said bonds at the office of the Central Trust Company of New York at any time after the 27th day of August, 1895.—V. 60, p. 929.

Lake Shore & Michigan Southern Ry.—Actual earnings for the quarter and the six months ending June 30 have been reported as follows. The estimated earnings for the six months were published in the Chronicle of June 29, p. 1145.

3 mon. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, for divs.
1895.....	$4,963,382	$1,864,842	$112,815	$1,117,815	$859,842
1894.....	4,731,391	1,882,734	92,600	1,097,600	877,734
6 months.					
1895.....	$9,661,993	$3,576,715	$205,015	$2,230,015	$1,551,715
1894.....	9,396,327	3,531,241	189,933	2,199,933	1,521,241

—V. 60, p. 1145.

Lehigh Valley RR.—The Lehigh Valley RR. Co. has listed on the New York Stock Exchange $6,880,000 additional first mortgage bonds, making the total listed $10,280,000. The capital stock of the coal company ($650,000) is all owned by the Lehigh Valley RR. Co., which guarantees the bonds, principal and interest, by endorsement on each bond. The application to the Exchange says:

The Lehigh Valley Coal Company owns in fee 15,172 acres of lands, of which 7,242 acres are within the coal measure and estimated to yield at least 124,000,000 tons of merchantable coal. The company also own in fee 13,796 acres of surface of the above-mentioned lands These properties are all covered by the mortgage. In addition the company controls by perpetual leases 8,123 acres, of which 5,741 acres are within the coal measures, and estimated to yield at least 111,000,000 tons of merchantable coal. The company also controls under term leases 1,708 acres, all within the coal measures, and estimated to yield about 47,000,000 tons of merchantable coal; through ownership of stock of minor companies it also controls 9,229 acres, of which 4,519 acres are within the coal measures, and estimated to yield 50,000,000 tons of anthracite coal. Upon the lands owned and controlled as above stated are located forty-six collieries, with a daily capacity of about 30,000 tons.

The terms of the mortgage under which these bonds are issued provide for a sinking fund of ten cents per ton on all coal shipped from the mortgaged property, with a minimum of $25,000 per annum.—V. 61, p. 282.

Long Island Traction Co.—Holders of collateral trust notes who desire to avail themselves of the benefits of the plan heretofore announced are notified to deposit their notes with the Central Trust Company of New York on or before Sept. 4, 1895 Holders of participation certificates who have not deposited their holdings under the plan may have them redeemed by the committee on or before Sept 4, 1895, at par, with interest at 6 per cent to the date of payment, interest ceasing that day. All the stock except that held by two persons living abroad is said to have been deposited under the plan.—V. 61, p. 281.

Louisville Evansville & St. Louis Consolidated RR.—Evansville Rockport & Eastern.—Bondholders are notified that the interest due July 1, 1895, will be paid at the office of the New York Security & Trust Company, New York City, on and after August 29, 1895.

The consolidated 5 per cent bondholders' committee has extended the time for further deposits of bonds with the New York Security & Trust Company until September 10, after which date the payment of $10 per bond will be required. More than two-thirds of these bonds have already been deposited. Application for the listing of the negotiable trust certificates has been made to the New York Stock Exchange. —V. 61, p. 196.

Macon & Northern RR.—Central RR. & Banking Co. of Georgia.—At a meeting of bondholders of the Macon & Northern RR. held Thursday at Baltimore a proposition to bring the road into the Central of Georgia reorganization was unanimously adopted. Under the contract the title to the Macon & Northern property will be conveyed to the Central of Georgia Railway Company, which will give the Macon & Northern bondholders in payment therefor $840,000 of its first mortgage divisional bonds, $660,000 first preference income bonds and $770,000 second preference income bonds. Of the Macon & Northern bonds, $2,200,000, $1,546,000 were represented at the meeting.—V. 61, p. 324.

Middlesborough Railroad.—The Middlesborough Belt Railroad, which was bought in by F. W. Whitridge of New York, is reported to have been reorganized and incorporated under the name of the Middlesborough Railroad Company.—V. 60, p. 1,146.

National Water Works of New York.—President G. E. Taintor gives the following notice regarding the redemption of the company's bonds:

The decree of the Circuit Court of the United States for the Western Division of the Western District of Missouri in the litigation with Kansas City having been consummated, and the title and possession of the plant of this company having passed to said city, notice is hereby given that the bonds of this Company, secured by mortgage of August 1, 1883, have become payable, and the same, together with all unpaid accrued interest thereon, will be paid on presentation thereof to the Farmers' Loan & Trust Company of New York, Trustee in said mortgage.—V. 60, p. 929.

New York L. E. & Western RR.—The reorganization plan prepared for this company under the supervision of Messrs. J. P. Morgan & Co. was made public this week, and is spread *in extenso* on subsequent pages of to-day's Chronicle, where it may be studied to advantage. A brief statement of its main features is given below for the benefit of the general reader who may not care for the details in full. The plan has been well received; the concurrence of the elements who opposed the former plan was obtained before the present plan was published.

Messrs. C. H. Coster, Louis Fitzgerald and Anthony J. Thomas have undertaken to act *as a committee* for the purpose of carrying the reorganization into effect. Notice in regard to the deposits of securities and payment of assessments will be found in our advertising columns.

The Plan.—The plan provides for the formation, after foreclosure sale, of a new company, which shall absorb the Erie and various branches, also its leased or controlled lines, the New York Pennsylvania & Ohio and Chicago & Erie, thus uniting the control of the entire system in one corporation as a through line from New York to Chicago.

To carry out the plan the following securities, covering the entire property, will be created:

First consolidated 100-year gold mortgage securing:	
Prior lien 4 per cent bonds.....	$35,000,000
(General lien bonds, to bear interest from July 1, 1896, first coupon to mature January 1, 1897), at 3 per cent per annum for two years and 4 per cent thereafter.....	140,000,000
Of these last reserved for ultimate acquisition of bonds and guaranteed stocks not now disturbed, $92,668,000.	
First preferred 4 per cent non-cumulative stock.....	30,000,000
Second preferred 4 per cent non-cumulative stock.....	16,000,000
Common stock.....	100,000,000

The old stock is to be assessed $18 per share of common and $12 per share of preferred, but these assessments will be reduced to $12 and $8 respectively on shares paying the assessment promptly, as per notice.

The stock of the new company is to be held by voting trustees, to be named by J. P. Morgan & Co. and J. S. Morgan & Co., for five years, and thereafter until the new first preferred stock shall have received 4 per cent cash dividend in one year, although the voting trustees may deliver the stock at an earlier date. The voting trustees will in the meanwhile deliver certificates of beneficial interest, as usual.

Of the *prior lien bonds*, $14,400,000 are to be part of the purchase price of the N. Y. P. & O. Railroad; $15,000,000 are

sold to a syndicate representing $25,000,000 in money, which guarantees the payment of assessments on the stock; $5,000,000 are to be used for improvements; $600,000 for contingencies, etc.

Of the *general lien bonds*, $92,668,000 are reserved for the ultimate acquisition of all bonds and guaranteed stocks now left undisturbed on various parts of the system, and $17,000,000 are reserved for new construction, betterments, additions, etc., after 1897, under carefully guarded restrictions, not over $1,000,000 to be used in any one year.

An arrangement has been made with the *New York Pennsylvania & Ohio Railroad* voting trustees, whereby, subject to ratification by their beneficiaries, they undertake, in consideration of securities as set forth in the plan, to foreclose and deliver the N. Y. P. & O. property, subject only to the prior lien, equipment and leased line securities, for which reservation is made in the plan.

Treatment of Securities Disturbed.—Under the plan the Chicago & Erie firsts are undisturbed, as also are the bonds of N. Y. L. E. & W. known as the first consolidated mortgage 7 per cents, due Sept. 1, 1920, and also the first consolidated funded coupon 7 per cents due Sept. 1, 1920, and the several loans underlying these issues.

As said above, the *New York Pennsylvania & Ohio* is to be foreclosed, and all its securities, excepting the $3,000,000 of prior lien bonds, which last are left undisturbed, are to be wiped out. What terms will be allowed the securities so displaced it does not belong to the present plan to speak, but it may be noted that for them are reserved securities as follows: New prior lien 4s, $14,400,000; first preferred stock, $7,950,000; second preferred, $1,368,000; common stock, $16,986,000, of which $6,189,000 is set apart for securities junior to first mortgage bonds. The junior securities will be required to pay in the aggregate as assessments $742,320

Holders of the Erie and Chicago & Erie bonds disturbed and of the Erie stock receive securities and cash as follows, per $1,000 bond and $100 share of stock:

		—Will receive (stockholders only on payment of assessments)—			
Holders of Securities Disturbed	*Cash.*	*General 1st lien bds.*	*1st prf. stock.*	*2d prf. stock.*	*Com. stock.*
New York Lake Erie & We—

Preferred stock.....	.....	.....	.....	100	.....
Common stock.....	.....	.....	.....	.....	100
Chicago & Erie income bonds...	.....	.....	.....	1,000	.....

Prospects of New Company.—Regarding the outlook for the new company the circular says: "As fully set forth in the plan, the fixed charges of the Erie System (calculated on all bonds which will be outstanding on completion of the reorganization are reduced from $9,400,000 to $7,850,000 per annum, and for the first two years after reorganization a further reduction of about $300,000 per annum is made, to an amount nearly equaled by the net earnings of the property in 1893-94. Furthermore in the new fixed charge is included the interest on a large sum of money intended to be spent immediately after reorganization in improving and adding to the property. This expenditure should enable the Company to enlarge its business and also to transact it with greater economy than heretofore.

"The real net earnings of the Erie System from 1887 to 1894, inclusive, show (after allowing for all cross-entries and worthless items) an average surplus over the fixed charges under the plan of reorganization of about $1,500,000 per annum, a sum sufficient for the full 4 per cent dividend on the first preferred stock and nearly 2 per cent on the second preferred stock. While not intending to imply that any return to former average earnings can be immediately realized, we make the foregoing statement to show that the securities of the new company will have intrinsic value and that the reorganization is sound and conservative."—V. 61, p. 325.

New York & New England RR.—New England RR.—At a meeting of the Reorganization Committee on Wednesday the New England Railroad Company provided for under the reorganization plan was formed. The officers chosen are Grant B. Schley, President; Gordon Abbott, Vice-President; J. T. Odell, Second Vice-President and General Manager; Amos T. French, Treasurer; William H. Porter, Secretary; George B Pruyn, Assistant Treasurer; James W. Perkins, Assistant Secretary; W. H. Dudley, Auditor; S. B. Bidwell, Chief Engineer. The directors are Grant B. Schley, William H. Porter, Gordon Abbott, Amos T. French, Stephen M. Weld, David S. Plume, Edward D. Robbins, James M. Ripley and John Henshaw. The new directors will take charge of the property at midnight on August 31 and manage its affairs until their successors are elected at the first stockholders' meeting of the new company, which will be held early in November. The issue of new securities to take the place of the certificates of the reorganization committee is expected to begin within thirty days, and the time for the first meeting depends upon the completion of the exchange of securities. The new company has charters from the States of Massachusetts and Connecticut. J. Pierpont Morgan has positively declined to say in what interest his purchases of the reorganization certificates were made, but it is expected that this question will be settled by the vote for directors at the November meeting.—V. 61, p. 282.

Northern Pacific.—President Brayton Ives states that the managers of the company are preparing a reorganization plan.—V. 61, p. 325.

Northern Pacific RR.—Great Northern Ry.—There was filed in the U. S. Court at St. Paul this week a bill in equity by T. W. Pearsall, of New York, against the Great Northern RR. to prevent the consummation of the proposed scheme of co-operation between the Great Northern and Northern Pacific. It is thought the suit is brought with friendly intent. It is stated that the action is rather welcome than deprecated by the Great Northern, as it will bring to speedy settlement all the legal questions involved. In the arguments in the case on Thursday, counsel for the Great Northern said the fact was that there was to be merely a traffic agreement and that both roads were to be distinct and conducted by their own officers, but brought together in unity of action as to traffic matters. It was not to be consolidation or amalgamation, but even if it were there would be nothing wrong or illegal in it. Counsel claimed that there was nothing in the legislation in Minnesota to restrain a man from owning stock in the two companies. If the Legislature had attempted anything of the kind it would have gone outside its constitutional authority.

In an interview at Chicago this week President Hill is quoted as saying that he is working in harmony with the reorganization committee and that the prospects for a speedy reorganization are good. He stated that a traffic agreement and not a consolidation is what is proposed between the two companies.—V. 61, p. 241, 325.

Ohio Southern RR.—Coupons due June 1, 1895, on the first mortgage bonds (excepting a few outstanding as collateral) are being paid at the Central Trust Company. This payment is made with funds advanced upon receiver's certificates for $120,000, which were authorized July 18, but which could not be advertised and sold, owing to the change of receivers, in time to prevent a six months' default.—V. 61, p. 325.

Orange Mountain Cable.—An order for the sale of this road has been signed by Vice-Chancellor Emery. The road will be sold for the payment of the receiver's certificates and for the expenses of the receivership, any balance to be applied to the payment of the $350,000 mortgage.—V. 60, p 1010.

Peoria Decatur & Evansville.—The coupon due March 1 on the first mortgage Evansville division bonds will be paid at the Central Trust Co. on and after August 30. The payment will include ninety cents interest. The Second Mortgage Bondholders' Committee are formulating a reorganization plan, which will probably be made public in the course of the next thirty or sixty days.—V. 61, p. 282.

Peoria Street Railways.—A press despatch from Peoria Ill., August 27, says that the Central Railway Co. of that city has bought control of its rival, the Fort Clark Street Railway Co. The lines will be operated from a single power station, and it is proposed to immediately expend more than $250,000 in the betterment of the property. Columbus R. Cummings and other capitalists are supposed to own a controlling interest in both properties.—V. 60, p. 794.

Philadelphia & Reading.—The results of operations for July and the eight months of the fiscal year—Dec. 1 to July 31—have been as follows:

	—July.—		—Dec. 1 to July 31.—	
	1895.	1894.	1894-95.	1893-94.

St. Joseph & Grand Island R. R.—Union Pacific R. R.—At St. Paul, Aug. 26, upon application on the part of the Central Trust Company of New York for the appointment of receivers for the St. Joseph & Grand Island Railroad, Judge Sanborn made an order appointing the present receivers of the Union Pacific. The petitioner was, however, allowed to come into court at some subsequent date and ask for the appointment of other receivers. The Central Trust Company is trustee under the first mortgage bonds of the $7,000,000, and proceedings in foreclosure are advanced close to the final decree.—V. 60, p. 1009; V. 61, p. 283.

Reports and Documents.

PLAN AND AGREEMENT FOR THE REORGANIZATION

OF THE

ERIE SYSTEM,

INCLUDING

New York Lake Erie & Western RR. Co.,
New York Pennsylvania & Ohio RR. Co.,
Chicago & Erie RR. Co.

DATED AUGUST 20, 1895.

J. P. MORGAN & CO., 23 Wall Street, New York City,
J. S. MORGAN & CO., 22 Old Broad Street, London,
} Depositaries.

C. H. COSTER,
LOUIS FITZGERALD,
ANTHONY J. THOMAS,
} Reorganization Committee.

NEW YORK, August 20th, 1895.

The operation of the entire

ERIE SYSTEM

for the year ending September 30, 1894,* cross-entries and worthless items being disregarded, resulted approximately as follows:

Gross earnings		$28,800,000
Operating expenses and taxes		21,430,000
		$7,370,000
Other income (net)	$160,000	
Less rental Northern Railroad of New Jersey¶	130,000	
		30,000
Net earnings		$7,400,000
Fixed charges and rentals, about		‖$9,400,000

To bring about a condition of solvency and ultimate prosperity, holders of junior securities on various parts of the system must join in equitable and ratable concessions. The plan now submitted seeks to establish a community of interest between the holders of junior securities, to reduce to a minimum the burden of the concessions which it is necessary for them to make, and also to secure for this great system the utmost stability of value.

The Erie system is made up of the lines known as the New York Lake Erie & Western, the New York Pennsylvania & Ohio and the Chicago & Erie Railroads. These two latter are operated by or for the Erie, upon its guaranty that a fixed proportion of their gross earnings shall be paid as net earnings, without regard to the actual results of the business. This arrangement is inherently weak, and develops a conflict of interests between three companies which ought to be close allies; and it also checks development and improvement (which are especially necessary in respect to the N. Y. P. & O.) as expenditures for such purposes are beyond the ability of the Erie, which has no *real* proprietary interest in these two lines, and no means of securing reimbursement for betterments upon them. The permanent removal of these troubles is most desirable. In order to remove them, and to establish the community of interests above referred to, the annexed plan proposes to consolidate, or otherwise unite, as therein set out, the three properties in one new corporation.

The existing financial condition of the system is disclosed by the following Tables in the Appendix:

I. Mortgage debt of the New York Lake Erie & Western Railroad Company.
II. Mortgage debt of Erie Auxiliary Companies other than N. Y. P. & O.
III. Mortgage debt, Equipment trusts and Stock issues of N. Y. P. & O.
IV. Rentals of Leased Lines (other than those operated on Percentages).
V. Stocks owned by New York Lake Erie & Western Railroad Company.
VI. Result of Operations of New York Pennsylvania & Ohio Railroad Company.
VII. Result of Operations of Chicago & Erie Railroad Company.
VIII. Result of Operations of Erie and all subsidiary Companies.

* These calculations, so far as they relate to some of the subordinate companies, are based upon their respective fiscal years ending at other dates. The Chicago & Western Indiana RR., being a terminal company for various lines, is not included here or in the plan. All terminal charges are included in expenses.

¶ Throughout the plan, the Northern RR. of New Jersey (26 miles) is treated as no part of the system.

‖ If interest had been paid on entire Floating Debt, fixed charges would have been about $9,650,000.

The floating debt, including Receivers' debt, is about $11,500,000 exclusive of Second Consolidated Mortgage and Funded Coupons in default.

PRELIMINARY CONDITIONS OF PARTICIPATION UNDER THE PLAN.

(a)

Participation under the plan of reorganization, in any respect whatsoever, by any stockholder or bondholder (as specified on page 370), is dependent on his depositing his holdings with the Depositaries, Messrs. J. P. Morgan & Co., 23 Wall Street, New York, or Messrs. J. S. Morgan & Co., 22 Old Broad Street, London, within such time as may be allowed, and will embrace only securities so deposited. As to the preferred and common stock of the New York Lake Erie & Western Railroad Company so deposited, participation is further dependent on the payment of assessments, as provided in the plan (see page 370). All securities for deposit must be in negotiable form.

The assessments on deposited stock will be payable to Messrs. J. P. Morgan & Co., New York, or J. S. Morgan & Co., London, when and as called for by the Committee by advertisement at least twice a week for two weeks in two daily papers of general circulation published in the City of New York and in two similar papers published in London. All payments must be receipted for by one of the Depositaries on the reorganization certificates.

Failure to pay assessments when and as payable will subject the deposit, and all rights on account of any prior payments, to forfeiture.

Such bonds affected by the present plan as are already under the control of Messrs. J. P. Morgan & Co. or Messrs. J. S. Morgan & Co., pursuant to the authority given under the circular of Messrs. Drexel, Morgan & Co. and Messrs. J. S. Morgan & Co., dated December 10th, 1894, will be included in the present plan without further action by the depositors, except that the Committee, in carrying out the plan, may require the exchange of existing receipts for new receipts issued hereunder. Should, however, any holder of now outstanding receipts for such securities so desire, the Depositaries will, upon surrender of the receipts of such holder, return the securities represented thereby, on or before September 30th, 1895, after which date all privilege of withdrawal will cease.

(b)

MESSRS. C. H. COSTER, LOUIS FITZGERALD AND ANTHONY J. THOMAS have undertaken to act as a COMMITTEE for the purpose of carrying out the plan of reorganization. The duties, powers and rights of the Committee, in connection with deposited securities and otherwise, are set forth in the REORGANIZATION AGREEMENT ATTACHED TO THE PAMPHLET, TO WHICH ATTENTION IS INVITED.

PLAN OF REORGANIZATION.

THE NEW RAILROAD COMPANY.

A new Railroad Company will be created, or an existing charter or company will be used for the purpose of reorganization. The term "New Company," as hereinafter used, is intended to mean whatever company may finally be utilized to issue the new securities provided for in this plan. It is intended to vest in the New Company the ownership or control of substantially the entire Erie system, including the New York Pennsylvania & Ohio Railroad and the Chicago & Erie Railroad, as acquired by the Committee at foreclosure sale or otherwise, except so far as the stocks and bonds acquired may be converted or otherwise dealt with in effecting the purposes of the plan.

The New Company will, so far as practicable, be vested with direct ownership of the various properties comprised in the system, thereby avoiding the necessity of keeping up the separate existence of a large number of the subsidiary companies controlled by the principal Company.

Pending their use for reorganization purposes, all bonds deposited hereunder will be delivered by the Depositaries to the Farmers' Loan & Trust Company of New York, as Custodian, or to such other Custodian as the Committee may appoint, to hold the same subject to the order and control of the Committee. All stocks and bonds deposited under the plan are to be kept alive for the present.

NEW STOCKS AND BONDS.

A.

The NEW COMPANY is to create the following securities:

1. FIRST CONSOLIDATED MORTGAGE 100-YEAR GOLD BONDS limited in amount to $175,000,000.

These bonds will be divided into two classes, viz.:
$35,000,000, Prior Lien bonds
$140,000,000, General Lien bonds.

Both classes of bonds are to be secured by mortgage and pledge of all railroads and other properties of every kind embraced in the reorganization as carried out and vested in the New Company, and also all other property which shall be acquired thereafter by use of any of the new bonds. The

Prior Lien bonds are, however, to have priority of lien over the *General Lien bonds* as to both principal and interest, and the rights and lien of the holders of the *Prior Lien* bonds are not to be affected by a foreclosure of the lien of the *General Lien bonds*.

If, for any reason, it shall be found more convenient, instead of one mortgage, two mortgages may be created, one to secure the "Prior Lien" bonds and the other to secure the "General Lien" bonds.

All the bonds will bear interest at 4 per cent per annum, except $29,433,000 of the General Lien bonds, which will bear 3 per cent for 2 years from July 1st, 1896, and 4 per cent thereafter.

Of the new General Mortgage bonds a large amount is to be reserved for future construction purposes, and $92,668,000 are to be reserved so that they can be issued only to take up a like amount of the existing undisturbed bonds (Table B); but the right is reserved to extend, at not over 4 per cent per annum interest, the present First Mortgage bonds of the Erie Company, maturing in 1897 ($2,482,000), and now bearing 7 per cent.

After the termination of the Voting Trust hereinafter provided for, all holders of the new bonds will have a right to vote on all questions at stockholders' meetings; each bond of $1,000 rating as 10 shares of stock for voting purposes.

2. NON CUMULATIVE 4 PER CENT PREFERRED STOCK for $30,000,000, which will entitle the holders to non cumulative dividends up to four per cent per annum, payable out of net earnings before any dividends shall be paid on the Second Preferred or the Common Stock.

3. NON-CUMULATIVE 4 PER CENT SECOND PREFERRED STOCK for $16,000,000, which will entitle the holders to non-cumulative dividends up to four per cent per annum, payable out of net earnings before any dividends shall be paid on the Common Stock.

4. COMMON STOCK FOR $100,000,000.

All the stock will be divided into shares of $100 each.

B.

As a consideration for the property and securities to be conveyed or delivered to the New Company by the Committee, or which, pursuant to this plan, the Committee shall enable the New Company to acquire, it is contemplated that the New Company shall issue and deliver the foregoing bonds and stocks to the Committee or to its order, excepting the portions to be held against such of the existing securities as are not disturbed, and such final amounts as shall be reserved for the future use of the New Company.

The committee will thus be enabled to provide for the requisite deliveries of the new securities to depositors and subscribers under the plan.

C.

ALL CLASSES OF STOCK OF THE NEW COMPANY (except such number of shares as may be disposed of to qualify directors) are to be vested in three or five Voting Trustees, who shall be appointed, on or before completion of reorganization, by Messrs. J. P. Morgan & Co. and Messrs. J. S. Morgan & Co. The stock shall be held by the Voting Trustees and their successors, jointly (under a trust agreement prescribing their powers and duties and the method of filling vacancies), for five years, and for such further period (if any) as shall elapse before the first preferred stock shall have received four per cent cash dividend in one year, although the Voting Trustees may, in their discretion, deliver the stock at any earlier date. Until delivery of stock is made by the Voting Trustees, they shall issue certificates of beneficial interest entitling the registered holders to receive, at the time therein provided, stock certificates for the number of shares therein stated, and in the meanwhile to receive payments equal to the dividends collected by the Voting Trustees upon the number of shares therein stated, which shares, however, with the voting power thereon, shall be vested in the Voting Trustees until the stock shall become deliverable, as provided in such certificates of the Voting Trustees.

Provision is to be made so that no additional mortgage can be put upon the property to be acquired hereunder nor the amount of the First Preferred Stock authorized under this Plan be increased, except with the consent, in each instance, of the holders of a majority of the whole amount of each class of Preferred Stock, given at a meeting of the Stockholders called for that purpose, and with the consent of the holders of a majority of such part of the Common Stock as shall be represented at such meeting, the holders of each class of stock voting separately; also that the amount of the Second Preferred Stock cannot be increased except with like consent by the holders of a majority thereof, and a majority of such part of the Common Stock as shall be represented at the meeting.

The New Company may reserve the right to redeem at any time either or both classes of its Preferred Stock at par in cash, if allowed by law.

D.

These new bonds and Stock Trust Certificates are intended to be used as shown in the accompanying Tables (subject only to such changes as may be necessary for the effective carrying out of the plan), viz.:

BONDS.

1. Prior Lien bonds:	
For N. Y. P. & O. (see Table A)	$14,400,000 00
" Enlargement and improvement of Terminal facilities, including elevation of tracks at Jersey City, Buffalo and elsewhere, additional wharf facilities at New York, reducing grades, constructing double track and purchasing additional equipment (these bonds to be used only with the consent of the Voting Trustees, and all property acquired with these bonds, or their proceeds, to be brought under the lien of the new mort.)	5,000,000 00
" Sale to Syndicate (see Table A)	15,000,000 00
" Contingencies (any surplus to go to the new Company)	600,000 00
	$35,000,000 00
2. General Lien bonds:	
For Undisturbed bonds and guaranteed stocks, etc. (Table B)	$92,668,000 00
" Disturbed bonds and stock (Table A)	29,433,000 00
	$122,101,000 00
" New construction, additions and betterments, additional equipment, etc., after 1897, under carefully guarded restrictions, not over $1,000,000 to be used in any one year. All property acquired with these bonds or their proceeds to be brought under the lien of new mortgage	17,000,000 00
" Contingencies (any surplus to go to the new Company)	899,000 00
	$140,000,000 00

FIRST PREFERRED STOCK.

For Disturbed bonds (Table A)	$27,146,539 00
" Contingencies (any surplus to go to the new Company)	2,853,461 00
	$30,000,000 00

SECOND PREFERRED STOCK.

For Disturbed bonds (Table A)	$15,807,764 00
" Contingencies (any surplus to go to the new Company)	192,236 00
	$16,000,000 00

COMMON STOCK

For Disturbed bonds and stock (Table A)	$94,823,000 00
" Contingencies (any surplus to go to the new Company)	5,177,000 00
	$100,000,000 00

Subject only to the undisturbed bonds and stocks until retired by use of the bonds reserved for that purpose, or the rentals corresponding thereto, the new bonds and stocks will represent the ownership (either in fee or by possession of securities) approximately of

New York Lake Erie & Western proper	539 miles
New York Pennsylvania & Ohio	600 "
Chicago & Erie*	250 "
New York Lake Erie & Western Auxiliary Companies†	550 "
Total	1,938 miles

with valuable terminal facilities at Jersey City, Weehawken, Buffalo, etc., and also one-fifth ownership in the stock of the Chicago & Western Indiana RR. Co.

ALSO, All the Erie Coal properties, viz.:

Hillside Coal and Iron Company,
Blossburg Coal Company,
Northwestern Mining and Exchange Company,

representing an aggregate of 10,500 acres of anthracite, of which about 9,000 acres are held in fee; also 53,000 acres of bituminous coal lands held in fee, and 14,000 acres of bituminous held under mineral rights.

ALSO, The Union Steamboat Company, with its terminal and other properties in Buffalo, and its fleet of five Lake Steamers, on which the Erie mainly depends for its "Lake and Rail" traffic. While, owing to mistaken methods of accounting, the Union Steamboat Company has heretofore shown a deficit—and the Erie proper correspondingly larger net earnings—the Union Steamboat Company is believed to be one of the soundest and most valuable corporations in the Erie System, and is almost essential to it.

The properties of the Newark & Hudson RR. Co., Paterson & Newark RR. Co., Union Steamboat Company and the Coal companies will be free of outstanding encumbrance, except a mortgage of $400,000 on the Blossburg Coal lands, for which bonds are reserved. Consequently, a pledge of their stocks, together with other valuable securities, under the mortgage of the New Company, will at once impart an element of strength to the new mortgage, which, by its provisions, as already stated, is intended ultimately to retire all mortgage debts of the entire Erie system, including the N. Y. P. & O. and Chicago & Erie.

* This includes about 169 miles of leased line, of which the ownership will not be acquired at once; but securities are reserved for its ultimate acquisition if practicable.

† This, of course, does not include the Chicago & West. Indiana RR.

‡ This does not include leasehold interests in about 100 miles of road operated on a "percentage basis," or on permanent bases, and not provided for in the issues of new securities, although the rentals, estimated as closely as possible, are included in the new fixed charges.

The first step towards these results is to provide for taking up the

Reorganization First Lien bonds (Erie)	$2,500,000
Collateral Trust bonds (Erie)	3,344,000
Floating debt (Erie and Chicago & Erie)	11,500,000
Equipment trusts (Erie), maturing in three years	2,000,000
	$19,344,000

The money required for this purpose and also the amount required for immediate improvements and additions will be raised by sale of securities to a Syndicate and by an assessment on the present capital stock.

Many of the bond issues of the Erie and its subsidiary Companies are perfectly good, and cannot be disturbed until their maturity. Therefore, reservation of New General Lien bonds is made to provide for them at maturity as per Table B, on next page. This plan does not contemplate any enforced conversion prior to maturity of any of the securities for which a reservation is made in said Table B, and is not intended either to increase or to disturb their rights in any respect whatever.

Table B also shows the reservation of bonds, to provide for future Construction requirements.

An arrangement has been made with the New York Pennsylvania & Ohio Railroad Voting Trustees, whereby subject to ratification by their beneficiaries, they undertake, in consideration of securities as set forth in Table A. to foreclose and deliver the N. Y. P. & O. property, subject only to the prior lien, equipment and leased-line securities, for which reservation is made in Table B.

DISTURBED SECURITIES AND BASIS OF EXCHANGE.

The Securities Disturbed in this Reorganization are:

New York Lake Erie & Western Reorganization First Lien bonds (to be paid off in pursuance of the plan).

New York Lake Erie & Western Collateral Trust bonds (to be paid off in pursuance of the plan).

N. Y. Lake Erie & West'n New Second Consolidated Mortgage Bonds and Second Consolidated Mortgage Funded Coupon Bonds.‖
do do Funded Coupon 5s of 1885.
do do Incomes.
do do Preferred Stock.
do do Common Stock.
Chicago & Erie Income Bonds.

} All of which are to be exchanged for new securities as set forth in Table A.

The method of dealing with the securities to be exchanged as above mentioned is set out in detail in Table A below, and it is believed that the same will commend itself to the security holders whom it affects.

The Basis of their Exchange is as follows:

Holders of—	Receive New Gen'al Lien bonds.	First Pref'd Stock.†	Second Pref'd Stock.†	Common Stock.†
N. Y. L. E. & W. 2d Consols¶	75%	55%		
do Funded Coup. 5s of 1885¶	100%	10%	10%	
do Incomes¶	40%	60%		
do Prefer'd Stock (on payment of assessment)			100%	
N. Y. L. E. & W. Common Stock (on payment of assessment)				100%
Chicago & Erie Income Bonds¶			100%	

‖ These two classes of bonds are generally known as "Second Cons."
¶ With all unpaid coupons attached. † Trust certificates.

The foregoing percentages are based upon the principal amount of the bonds. Bonds must be deposited with all unpaid coupons, and no further allowance will be made for coupons.

These new bonds will be for $1,000 each. Interest will start from July 1, 1896 (first coupon to mature January 1, 1897), and will be at 3 per cent per annum for two years and 4 per cent thereafter. Equitable cash settlement will be made for fractional amounts of new bonds and of stock accruing to depositors.

The Assessments on the stock of the N. Y. L E. & W. RR. Co. ("Erie") are fixed at $12 per share on preferred stock and $18 per share on common stock; but, as prompt deposit of the securities and an early payment of a considerable assessment fund are important, a deduction of $4 per share on the preferred stock and $6 per share on the common stock will be allowed on account of the assessments above mentioned to such depositors as deposit their stock within a short period discretionary with the Committee, and also pay the assessment less such deduction within the dates hereafter to be fixed by advertisement, such payment to be in four instalments at least 30 days apart. Such depositors will thus obtain participation in the reorganization upon the payment of

$8 Per Share on the Preferred Stock.
$12 Per Share on the Common Stock.

Stockholders who do not comply with all these conditions must pay the entire assessment without deduction at the time of depositing their stock.

Effort has been made to impart to the new preferred stocks substantial value by limiting their amount and by a very large reduction of fixed charges. As now proposed, each of them should be good of its kind, as may be seen from the calculations submitted on next page.

A Syndicate of $25,000,000 in money has been formed to subscribe for $15,000,000 of the Prior Lien bonds of the New Company, and to take the place and succeed to all the rights of holders of preferred and common stock of the New York Lake Erie & Western Railroad Company who shall not deposit their stock and pay the assessments thereon.

The compensation of Messrs. J. P. Morgan & Co. and Messrs. J. S Morgan & Co. for their services as Depositaries and in carrying out the plan has been fixed at $500,000, in addition to all expenses incurred.

TABLE A.
PROPOSED READJUSTMENT WITH DISTURBED BONDS AND STOCKS.

Note.—The percentages of new securities are based and figured upon the principal amount of the bonds, and bonds must be deposited with all unpaid coupons; no further allowance will be made for coupons.

" " " " " " Terminal Bonds of Chicago & Atlantic	300,000	15,000	300,000	12,000
" " for various outstanding stocks (represented by "rentals") (See Tables I., II. and III. of Appendix).			1,000,000	40,000
			$92,667,777	$3,706,711
II.				
To provide for construction, additions to property, etc., see page 369, not over $1,000,000 to be used in any one year			17,000,000*	680,000
	$87,272,827	5,219,319	$109,667,777	$4,386,711

* In addition to the above, $5,000,000 Prior Lien bonds are reserved for Special Construction purposes, as set forth on page 368.

COMPARATIVE FIXED CHARGES.

The fixed charges of the Erie System for 1894 (see page 368.) amounted to about	$9,400,000
Under this plan they will amount to about	7,850,000
Making a reduction of about	$1,550,000

For the first two years after reorganization they will be further reduced by about $330,000 per annum, as the New General Lien bonds will, during that period, bear only 3 per cent per annum interest.

The ultimate substitution of 4 per cent bonds for those now bearing a higher rate of interest will further reduce the fixed charges by about $1,000,000. This feature cannot, however, be brought about for a long time, as most of the undisturbed bonds are of distant maturity.

The plan also provides for such moderate expenditures on Capital account in the early future and for a long series of years as shall be necessary for the regular and steady development of the property; and to the above figures must of course be added interest on bonds which may be issued for this purpose.

The absence of any such provision for capital expenditures has always been one of the chief sources of embarrassment of the Erie system, and has made it impossible for that system to keep up with its competitors, or to adapt itself to handling business with that economy which the character of its traffic renders essential if satisfactory results are to be secured. The system traverses a territory which affords a relatively small proportion of non-competitive traffic, and a large part of the revenue comes from "through" freight and from coal and iron on which low rates prevail at all times, and on which the rates are always among those most seriously affected in times of prolonged depression.

This plan, in order that its benefits shall be permanent, seeks to enable the Company successfully to meet these periods of depression when they come.

With this in view the fixed charge for the years ending June 30, 1897 and 1898, is reduced to about $7,550,000 per annum, a sum nearly equaled by the net earnings of the property in 1893-4—one of the worst years the country has ever known, and one in which this property was operated under great disadvantages.

Furthermore, in the new fixed charge is included the interest on a large sum of money intended to be spent immediately after reorganization in improving and adding to the property and in purchasing modern equipment. This expenditure should enable the Company to enlarge its business and also to transact it with greater economy than heretofore; circumstances which readily justify the slight increase of fixed charges after July 1st, 1898, as set forth above, to say nothing of the increased revenue likely to ensue from improved commercial conditions throughout the country.

ON THE BASIS OF THE PROPOSED PLAN, calculating interest at the maximum rate of 4 per cent on the New General Lien bonds which will be outstanding when the reorganization is completed, it is estimated that the real net earnings of the entire Erie System for the years indicated below (being the period since the Funding Scheme of 1885 was carried into effect) would have shown the following amounts available for dividends on the new *Preferred stocks*:

Year ending Sept. 30th.	*Amount.*
1887	$1,500,000
1888	1,500,000
1889	1,700,000
1890	1,800,000
1891	2,000,000
1892	1,600,000
1893	2,200,000
1894. *Def.*	*450,000*
	$11,850,000 in 8 years,
equal to an average of about	$1,500,000 per annum
All annual 4% dividend on the proposed First Preferred stock would require	1,200,000 "
Leaving	$300,000 *per annum*

which would equal nearly 2 per cent dividend on the proposed Second Preferred Stock.

At first sight it would seem as if this surplus were large enough to justify a more liberal bond issue. It is better, however, to limit the issue to an amount which shall be safe under the worst known conditions, and to create a new first preferred stock likely, after a short time, to receive dividends and a second preferred stock with reasonable prospect of dividends.

This course is also desirable from the fact that in the eight years ending June 30, 1894, $7,715,044 of gross earnings have come from trackage paid by Lehigh Valley Ry. Co. and other sources now discontinued, and can be made up in future only from the development of new business. This revenue has been:

1887	$1,131,926
1888	1,117,031
1889	1,209,103
1890	1,309,780
1891	1,511,907
1892	1,537,365
1893	106,732
1894	nil.
Total	$7,715,044

Of this total it is safe to say that from 60 per cent to 75 per cent was net revenue.

* Made up as follows: Table A $2,353,000; " B 5,219,000; Sundry Rentals (see Table IV.) 283,000; $7,855,000.

* For the purpose of comparison, there is included in the above figures $480,000 net per annum for the Chicago & Erie during the years in which it was not built or not included in the system.

TABLE I.

MORTGAGE DEBT OF NEW YORK LAKE ERIE & WESTERN RAILROAD COMPANY.

Bonds.	*Principal.*	*Date of Maturity.*	*Rate.*	*Due.*	*Amount of Interest.*
First Mortgage Bonds	$2,482,000 00	May 1, 1897	7%	Currency	May and November	$173,740 00
Second Mortgage Bonds	2,149,000 00	September 1, 1919	6%	Gold	March and September	107,450 00
Third Mortgage Bonds	4,617,000 00	March 1, 1923	4½%	Gold	March and September	207,765 00

SOUTHERN RAILWAY COMPANY.

FIRST ANNUAL REPORT FOR THE YEAR ENDED JUNE 30, 1895.

NEW YORK, August 22, 1895.

To the Stockholders of the Southern Railway Company:

The President and Board of Directors submit the following report of the operations of the Company for the fiscal year ended June 30, 1895.

The Company was chartered by special act of the Legislature of Virginia, passed February 29, 1894.

On July 1, 1894, it took possession and assumed the operation of the properties of the Richmond & Danville Railroad Company, and of certain of its leased and controlled lines, in all 2,612·29 miles of road.

On August 1st it took possession of the properties of the East Tennessee Virginia & Georgia Railway Company, the Charlotte Columbia & Augusta Railroad Company and the Columbia & Greenville Railroad Company. It operated during that month 1,531·39 miles of road.

On September 1st it took possession of the properties of the Georgia Pacific Railway Company and the Louisville Southern Railroad Company, and operated during the month and thereafter during the fiscal year 447·91 miles of road (see Table A in pamphlet report).

EARNINGS AND EXPENSES

of the lines actually operated by this Company as above for all or parts of the year ended June 30, 1895, as compared with those of the same lines and properties for the same periods of the year previous, were:

	1894	1895.	*Inc. or Dec*
EARNINGS.			
From—			
Freight	$10,368,223 61	$10,816,023 52	I.$447,799 91
Passengers	4,209,942 61	4,329,109 28	I.119,556 67
Mail	901,213 99	905,740 44	I. 4,526 45
Express	324,450 74	332,960 79	I. 8,510 05
Miscellaneous	838,467 69	727,567 66	D.108,900 03
Total earnings	$16,643,298 64	$17,114,791 69	I.$471,493 05
EXPENSES.			
For—			
Conduct. Transportat'n	$6,581,655 61	$6,164,291 87	D.$417,363 74
Maint. of Way & Struc.	2,817,921 36	2,978,245 19	I.160,323 83
Maint. of Equipment	1,706,850 09	1,794,192 30	I 87,342 21
Gen. Exp. and Taxes	1,239,200 52	1,125,824 90	D.113,375 62
Total Expenses	$12,345,627 58	$12,062,854 26	D.$282,773 32
Net Earn. from Opera.	$4,297,671 06	$5,051,937 43	I.$754,266 37

It will be observed that, while the gross revenues for the year increased $471,493, the expenses decreased $282,773, and that the decrease in the expenses was entirely in the items of

*Earnings of *all lines* (4,391·91 miles) for the *entire year* (see Table H of pamphlet report):

Gross Earnings	$17,959,119 00
Net Earnings	5,168,596 00

Conducting Transportation and General Expenses. There was an increase in the expenses for Maintenance of Way and Structures of $160,323, and in those for Maintenance of Equipment of $87,642; that is, the expenses were increased in those departments where they reflect the physical condition of the property, while those for general administration and the cost of movement of traffic were materially diminished.

GENERAL INCOME ACCOUNT FOR THE YEAR ENDED JUNE 30, 1895.

(For details see Table B.)

Gross Earnings from Operation		$17,114,791 69
Operating Expenses and Taxes		12,062,854 26
Net Earnings from Operation		$5,051,937 43
Income from Other Sources		89,677 62
Gross Income		$5,141,615 05
Interest and Rentals	$4,195,925 40	
Other Deductions from Income	49,944 84	
		4,245,870 24
Balance Carried to Credit of Profit and Loss.		$895,744 81

EQUIPMENT TRUST AND EQUIPMENT SINKING FUND PAYMENTS.

Equipment Trust Notes have been paid during the year as follows (including those due July 1, 1895):

Richmond & Danville Car Trust Notes	$180,350 00
Georgia Pacific " " "	100,114 84
East Tenn. Va. & Ga. " " "	52,026 81
Louisville Southern " " "	41,830 00
Richmond & Danville Locomotive Trust Notes	41,811 12
	$416,132 77

The outstanding Equipment Trust Notes of the old companies and of the Receivers, after making the above payments, amount to $958,590 10

The Southern Railway Company has created no equipment trusts, but has paid cash for all new equipment purchased by it.

Sinking fund payments on account of Equipment Bonds have been:

Richmond & Danville 5 per c't Equipment Sinking Fund	$80,805 00
Georgia Pacific 5 per cent " " "	82,645 00
	$163,450 00

CONSTRUCTION AND IMPROVEMENT.

Expenditures for construction and improvement charged to Capital Account during the year have been (see Balance Sheet, Table C):

Real Estate at Atlanta	$120,657 72
Real Estate at Norfolk and Pinner's Point	85,028 00
Sundry Small Pieces of Real Estate	1,165 50
Completing and Equipping the New Shops at Knoxville	84,694 83
Atlanta Shops	185 48
One-Half Interest in Cotton Compress at Charlotte, N. C.	12,000 00
	$303,731 53
Broadening Gauge Elberton Air Line	70,094 50
Total	$373,826 03

NEW EQUIPMENT.

Expenditures for new equipment during the year charged to Capital Account have been $474,933 52, representing the net cash cost of

11 Locomotives,
2 Passenger Cars,
886 Freight Cars.

In addition to the above the Knoxville & Ohio Railroad Company purchased during the year:

5 Passenger Cars,
2 Baggage Cars,
100 Coal Cars,
Costing $65,900.

Contracts were outstanding and unfilled at the close of the year for the following equipment in addition to that above mentioned:

22 Locomotives,
20 Passenger Cars,
14 Mail and Express and Baggage Cars,
280 Box Cars,
700 Coal Cars.

These contracts were made on favorable terms prior to the recent rise in the cost of manufacture.

The equipment of the several lines of railway acquired by the Company was inadequate in amount, and much of it unsuitable in character and condition, even for the traffic of the past year of great depression, and contracts were therefore promptly made for additional and more modern equipment in order to reduce operating expenses, to provide in time for an increase in the volume of traffic, and to secure the benefit of the low prices prevailing during the past year. The wisdom of this policy has been fully justified in all of these particulars.

FINANCIAL CONDITION.

The financial condition of the Company at the close of the year is shown in the general balance sheet (Table C).

The Company has no floating debt, and has had none during the year.

The liabilities of every character of all subordinate companies, whether leased or owned, are shown in the balance sheet, and treated, so far as income account is concerned, as liabilities of this Company.

At the beginning of the year, or as the several properties now composing the system were acquired, complete inventories of all motive power, rolling stock and other movable property were taken, and values determined by appraisement, and these values for equipment owned, leased and under equipment trusts are stated separately in the balance sheet.

As provided for in the plan of reorganization, the $21,911,000 First Consolidated Mortgage Bonds of the Southern Railway Company, delivered to the Richmond Terminal Reorganization Committee for distribution to security holders of the several reorganized companies, and for the expenses of the reorganization, and as reserve fund for betterments, improvements and purchases of additional property, were to bear interest beginning on different dates.

As will be seen from the Income Account $7,019,000 of these bonds carried coupons maturing January 1, 1895, and $10,867,000 carried those maturing July 1, 1895.

It cannot now be stated with accuracy what amount will carry those of January 1, 1896, but it will be approximately $16,000,000.

The Company will receive from the Reorganization Committee an improvement fund of about $5,000,000, as provided for in the reorganization plan, less such amounts as have been, or may be, expended by the Committee at the request of the Company.

The Reserve Funds shown in the balance sheet as liabilities represent amounts charged to Operating Expenses on account of renewals properly chargeable to the expenses for the year but not yet expended.

EQUIPMENT.

The equipment of all lines at the close of the year consisted of (see Table G. pamphlet report):

623 Locomotives,
487 Cars, Passenger Equipment,
18,924 Cars, Freight Equipment,
283 Cars, Road Service Equipment.

Of these there have been added during the year, as stated previously:

11 Locomotives,
9 Cars, Passenger Equipment,
986 Cars, Freight Equipment.

There have been condemned or destroyed and retired from service during the year:

17 Locomotives,
9 Cars, Passenger Equipment,
367 Cars, Freight Equipment,
46 Cars, Road Service Equipment.

As stated elsewhere, the equipment on hand when the properties of the several reorganized companies came into the possession of this Company was inventoried and appraised, and a system of accounting has been adopted under which the values thus determined shall be maintained out of operating expenses. In accordance with this system the inventory value of the equipment condemned or destroyed and retired from service has been charged to operating expenses, and the amount credited to renewal fund to be used for replacement.

The general condition of the equipment has been materially improved during the year. That undergoing or awaiting repairs in the shops at the close of the year was as follows:

63 Locomotives,
30 Cars, Passenger Equipment,
473 Cars, Freight and Road Service Equipment.

Less than 2·5 per cent of the freight equipment is thus undergoing or awaiting repairs, which is as low as is consistent with the proper operation of the shops.

STEEL RAILS.

The Company purchased during the year 41,000 tons of new steel rail, viz., about 25,000 tons of 75 pounds to the yard and about 16,000 tons of 80 pounds to the yard. Most of this rail was obtained at the low prices prevailing during the winter. The entire amount has not been laid during the fiscal year, but at its close this renewal was going on at the rate of about 5,000 tons per month, with the prospect that the entire amount will be laid and the track work in connection therewith completed before October 1, thus greatly improving the roadway for the coming winter.

The policy of thus strengthening the physical condition of the lines of largest traffic will be continued, and the lighter rail will be transferred to the branches, where its life will be much prolonged. All of the expenses incident to the renewals of rails have been and will be charged to operating expenses.

The amount so charged for the year on account of Rails and Fastenings was $532,522, as against $210,417 for the year preceding, an increase of $322,105.

KNOXVILLE & ATLANTA SHOPS.

The East Tennessee Virginia & Georgia Railway Company, prior to its financial difficulties, had purchased 105 acres of land near Knoxville, and had planned and nearly completed the buildings for an extensive and modern shop plant, expending therefor, prior to the reorganization, $225,799 96.

The shop facilities of the old companies were not sufficient for their purposes, and in the main were antiquated and poorly equipped. Additions to the plants were therefore necessary to secure the economical maintenance of the equipment of the Southern Railway Company. With this view it was determined to complete the Knoxville plant at a cost of about $100,000, including the buildings, interior fittings and necessary machinery, and to enlarge the shops at Atlanta at an estimated cost of $65,000.

Up to the close of the year there have been expended for this purpose at Knoxville $84,694 83.

The work of enlargement at Atlanta was delayed by lawsuits for claims of alleged injury to adjoining property, which suits had been lying dormant during the financial difficulties of the East Tennessee Virginia & Georgia Railway Company and the subsequent receivership. They were revived when it was thought that a solvent company could be mulcted for damages. The Company declined to make any improvements whatever while such suits were pending, and most of them were withdrawn. Some minor ones were forced to trial, with the result that the Supreme Court of the State of Georgia decided all in favor of the Company. Orders have therefore been given to resume work, and the proposed improvements will soon be made.

The Company will then have two large modern shops, both in healthful localities, where abundant labor can be obtained and economically used.

Some improvements and additions will be necessary in future in the way of divisional shops and roundhouses; but the expenditure for these need not be large, although there is a possibility that one additional large shop may be necessary for the system.

ATLANTA UNION PASSENGER STATION.

The Company has purchased during the year real estate in Atlanta to the amount of $120,857 72. This property is contiguous to the passenger station of the former East Tennessee Virginia & Georgia Railway Company, and was purchased in order to enable the Company, with the co-operation of the Georgia Central Company, to develop the only favorable site for a union passenger station in Atlanta which could be obtained and improved at reasonable cost.

A proposition has been made to the other railroad companies centering in Atlanta offering the use of this property for the purposes of a union passenger station, the other companies to become part owners on the basis of cost and appraised values, or to become tenants upon a basis of fair interest on the cost and a ratable division of operating expenses. There is every prospect that the plan will succeed if the City of Atlanta will co-operate by making certain concessions and improvements necessary as approaches to the proposed station, and in connection with the removal of certain roads from the existing one.

BROADENING THE GAUGE OF THE ELBERTON AIR LINE.

Under an agreement made in connection with the purchase by the Reorganization Committee of the outstanding capital stock of the Elberton Air Line Company, the Southern Railway Company agreed to broaden the gauge of the Elberton Air Line at an estimated cost of about $150,000. The amount expended during the fiscal year for this purpose has been $70,094 50 (see Balance Sheet, Table C).

The narrow-gauge equipment on this line was nearly worn out, and much of the expense of changing the gauge had already been incurred in strengthening bridges, widening roadbed and putting in broad gauge crossties. The cost per annum of transferring freight between broad and narrow gauge cars at the junction was about equal to the interest on the estimated additional cost as above stated. The work has been completed since the close of the fiscal year.

NORFOLK EXTENSION.

During the year the Company has acquired, by purchase and lease, real estate in the City of Norfolk, Virginia, and at Pinner's Point, on the opposite side of the Elizabeth River, sufficient for its purposes in establishing terminals at both points for local traffic and for coastwise and foreign steamship connections.

Trackage contracts have been made with the Wilmington & Weldon and the Norfolk & Carolina Railroad Companies for trackage rights for the trains of your Company over their lines from Selma, North Carolina, to a connection with the property leased and purchased at Pinner's Point, thus avoiding the construction of additional railway for this purpose.

The Company owns a considerable interest in the capital stock of the Norfolk & Carolina Railroad Company, and these contracts and the additional traffic which will be thrown upon that line will make this stock valuable. It is estimated that in the near future the dividends on this stock, together with the saving in the cost of train movement alone over the low-grade line to Norfolk, as compared with the high-grade line to West Point, will more than pay the entire trackage rentals under the above-named contracts.

These contracts extend until the expiration of the present lease of the North Carolina Railroad and during any future extensions or renewals of that lease, but terminate with it if that lease shall not be renewed.

It is confidently expected that an additional tide-water terminus at Norfolk will be of material advantage to the Company in securing more frequent and prompt coastwise steamship connections, better facilities for foreign shipments, and a connection with the Cape Charles line of the Pennsylvania Railroad system.

The Company has secured from the City of Norfolk a perpetual lease of real estate owned by the city and adjoining that purchased by the Company, and in so doing it has agreed to open its lines to Norfolk on or before January 1, 1896.

ALABAMA GREAT SOUTHERN RR COMPANY.
CINCINNATI NEW ORLEANS & TEXAS PACIFIC RAILWAY CO.

By purchase, at the foreclosure sale, of the collateral under the East Tennessee Virginia & Georgia Railway Company's Extension Collateral Trust Mortgage, and otherwise, your Company has acquired 34,500 A shares (par £10), and 90,500 B shares (par £10), of the Alabama Great Southern Railway Company, Limited, out of a total of 67,607 A shares and 156,600 B shares, and since the close of the fiscal year has issued to pay for the same $2,100,000 of its First Consolidated Mortgage Five Per Cent Bonds and 43,000 shares of its Preferred Stock.

The 34,500 A shares and the 90,500 B shares above mentioned have been delivered to the Trustee of said mortgage, pursuant to its terms.

In connection with the purchase of these securities, which control the Alabama Great Southern Railroad Company, agreements have been entered into by which the controlling interest in the Cincinnati New Orleans & Texas Pacific Railway Company (the lessee of the Cincinnati Southern) shall be owned equally and jointly, in some form yet to be determined, with the Cincinnati Hamilton & Dayton Railroad Company, thus providing for the joint and neutral operation of the line between Cincinnati and Chattanooga in the interests of the Southern and the Cincinnati Hamilton & Dayton companies.

A traffic contract was entered into at the same time with the Cincinnati Hamilton & Dayton Company, by which the Southern Railway, the Alabama Great Southern and the Southern Railway in Kentucky are fully protected in the distribution of traffic by the Cincinnati New Orleans & Texas Pacific and the Cincinnati Hamilton & Dayton Companies.

GEORGIA SOUTHERN & FLORIDA RAILWAY COMPANY.

The Company purchased in May and June, through the Richmond Terminal Reorganization Committee, a majority of the then outstanding certificates of the Mercantile Trust & Deposit Company of Baltimore for First Mortgage Bonds of the Georgia Southern & Florida Railroad Company.

Each of these certificates of $1,000 par value entitles the holder under the reorganization plan to

One $1,000 Five per cent bond of Georgia Southern & Florida Railway Company.

$200 First Preferred Stock Georgia Southern & Florida Railway Company.

$200 Second Preferred Stock Georgia Southern & Florida Railway Company.

$300 Common Stock Georgia Southern & Florida Railway Company.

The securities of the new Company will probably be ready for delivery about September 1.

The bonds to which your Company will be entitled have been sold upon favorable terms, to be delivered when issued, leaving the Southern Railway Company in possession of a controlling interest in capital stock of the new Company.

The control of the Georgia Southern & Florida Railway Company will be advantageous, as it originates a large lumber, fruit and melon business in Georgia, and reaches the fruit-growing regions of Florida, partially by its own rails, but to a much greater extent through its terminus on the St. John's River at Palatka, Fla., and its connections at several points with the most important railway systems in that State.

The line of the Georgia Southern & Florida Company is operated by the officers of that Company and its earnings are not included in those of the Southern Railway Company.

ATLANTA & FLORIDA RAILWAY COMPANY.

The Company purchased, through the Richmond Terminal Reorganization Committee, the property and franchises of the Atlanta & Florida Railway Company, and received deed therefor on June 21, 1895.

This line was worthless as an independent property and unable to earn operating expenses and proper maintenance.

Considerable expenditures must be made upon it to make up for past deficiencies in construction and maintenance, but it is expected that it will then earn operating expenses, and contribute, as a connection, sufficient traffic to compensate for the loss of interest on the investment.

TELEGRAPH, SLEEPING-CAR AND EXPRESS CONTRACTS.

The company, as the purchaser of the properties and franchises of the several reorganized companies, not being bound by the old contracts for telegraph, sleeping car and express service upon the several lines, annulled all of them, and made temporary ones with the respective companies having these privileges, substantially on the same terms as to payment and responsibility as provided for in the old contracts, but with the provision that these temporary agreements are subject to annulment on thirty days' notice by either party.

This action was taken with the view of making contracts for such privileges uniform for all parts of the system, and of obtaining more advantageous terms in the future. Negotiations for such contracts have not yet been undertaken, but this will be done in the near future. Many of the burdensome features of the old contracts can certainly be avoided, and it is expected that, in making new ones, expenses can be materially reduced and net revenue increased.

Especial commendation is due to the officers and employes in all departments for the zeal and fidelity with which they have responded to the complex requirements incident to the organization, in so short a period, of one large system from so many separate component parts, and for the loyalty with which many of them have adapted themselves to altered and in some cases trying conditions.

By order of the Board.

Respectfully submitted,

SAMUEL SPENCER,
President.

TABLE B.

WABASH RAILROAD COMPANY.

SIXTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1895.

The operations of the Company for the fiscal year ending June 30, 1895, are embraced in the following condensed statement:

Gross Earnings	$11,950,839 12
Operating Expenses (74 59 per cent)	8,921,029 73
Net Earnings	$3,029,809 39
Add Miscellaneous Receipts, Interest, Dividends, etc	130,394 54
	$3,160,203 93
Deduct Balance, Joint Track Rentals & Miscellaneous	365,775 05
Net Receipts	$2,803,428 28
Deduct Taxes	507,793 01
Net Earnings, applicable to Interest	$2,295,635 27
Interest on Bonds	2,838,541 68
Net Deficit	$542,906 41

As compared with the operations of the previous year, the following changes are noted, viz:

In Gross Earnings a decrease of	$591,600 80
Operating Expenses a decrease of	909,531 24
Net Earnings an increase of	317,741 44
Miscellaneous Receipts a decrease of	128,167 51
Balance of Joint Track Rentals, etc., an increase of	70,609 78
Net Receipts an increase of	118,084 15
Taxes an increase of	10,677 53
Net Earnings applicable to Interest, an increase of	107,406 62
Interest on Bonds a decrease of	30,859 50

The result of the year's operations is a deficit of $542,906 41, a large part of which is attributable to the strike of employés during the first half of the month of July, 1894 during which time the operations of the road were almost entirely suspended, while the expenses were only reduced by the wages forfeited by the striking force. It is roughly estimated that a net loss of from $300,000 to $400,000 resulted to the Company. It is fair to assume that but for this unprovoked strike the Company would have earned nearly the whole amount of its fixed charges. This result during a year of unusual depression in railway traffic and low rates of transportation, cannot be considered an unsatisfactory showing.

We enter the new fiscal year with substantial evidences of a larger and more profitable business, and, although the transportation interests will not derive any benefit from the corn crop until December, the revival of industry in every direction already contributes satisfactory gains to the revenues of the Company. In this connection it is relevant to say that gratifying evidences of a better maintenance of established rates are visible in recent traffic returns. This proof of greater practical wisdom in the methods of conducting railway traffic is a welcome sign of more harmonious co-operation in the handling of business, the volume of which cannot be increased by a senseless and ruinous competition. The change in the disposition of railway management in this respect, so far as developed, is a healthy and encouraging sign, as an indication of more prosperous conditions in the transportation interests of the country.

The administration of railway affairs would be much strengthened and the public interests would be greatly served by an amendment to the Inter State Commerce Law which would legalize an equitable division of traffic under the sanction of the Commission. No valid objection can be offered to a measure which will enable railway companies to regulate their own traffic while carefully guarding the interests of the people.

The floating debt of the Company at the close of the fiscal year, exclusive of $182,708 89 consisting of car notes maturing monthly for the next two years, was $6,000,000, represented by notes payable to that amount. In July this was increased by $500,000, making a total at the present time (August 1) of $6,500,000. During August the Company realized from its assets the sum of $450,000 in cash reducing our liabilities to that extent, and it is confidently anticipated that by a further sale of available assets the entire amount of floating debt will be either removed or reduced to an insignificant item during the present fiscal year.

An important financial negotiation will have been completed by the time this report is ready for distribution, under which the Company will have paid off $9,000,000 of the old 7 per cent bonds, secured by mortgage on lines west of the Mississippi River, having sold and substituted the new 5 per cent First Mortgage Bonds. The negotiations were conducted through the banking house of Kuhn, Loeb & Co and were highly satisfactory to the Company and creditable to that firm. The result of this transaction is a saving of $180,000 per annum in the reduced rate of interest. Of these old mortgage bonds the North Missouri, amounting to $6,000,000, matured July 1st and were paid at the Central Trust Co., and the Real Estate and Railway Mortgage for $3,000,000, which mature September 1st, will be paid on that date.

The prospects of the corn crop, which is the most important factor in the freight traffic of the Wabash lines, are very satisfactory, and during the coming winter and spring should add materially to the business of the Company. In this respect the Wabash will bear comparison with any Western line. If railway companies can be induced to maintain present rates, the transportation of this important crop will compensate to some extent the losses incurred during the trying years through which the country has passed since 1892.

The physical condition of the lines in the Wabash system continues excellent, although some important betterments have been temporarily suspended. It has been the policy of the management to preserve the condition of the tracks and motive power in the state of safety and efficiency hitherto maintained.

It is gratifying to be able to express the satisfaction of the management with the employees now in the service of the Company, including the trainmen, engineers and firemen, who replaced the strikers of July, 1894. To this entire force, as now constituted, the acknowledgements of the management are due.

Reference to the reports of Mr. Hays, Vice-President and General Manager, and to the usual tables of the Auditor, will give to the Stockholders all the details which can be of any practical use to them.

For the Directors.
O. D. ASHLEY,
President.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of over due coupons, that have been published in the CHRONICLE *since* the last edition of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com* for committee.

Southern Central RR.—Lehigh & New York RR.—Lehigh Valley RR—At Owego, N. Y., August 23, pursuant to an order of Justice Charles E. Parker of the Supreme Court, the Southern Central RR was sold under mortgage foreclosure and purchased by the Reorganization Committee for $1,000,000 in cash. At Albany on Saturday was incorporated the Lehigh & New York RR Co. to succeed to the property so foreclosed. The new company will issue securities according to the plan in the CHRONICLE of July 6, page 38.—Vol. 61, p. 197, 282.

Steinway Railway (Long Island City)—This company reports the following earnings for the year ending June 30, 1895:

Gross earnings.	*Net earnings.*	*Other income.*	*Interest on bonds.*	*Taxes.*	*Balance, surplus.*
$233,254	$93,748	$18,188	$99,555	$3,815	$17,816

The balance sheet of June 30, 1895, was given in CHRONICLE of August 17, page 283.—V. 61, p. 283.

Union Pacific RR—Coupons due September 1 from sinking fund 8 per cent extended bonds will be paid on and after September 3 by the Union Trust Company of New York, trustee.—V. 61, p. 283.

Wabash RR.—Notice is given to the holders of the St. Louis Kansas City & Northern Ry. Co real estate and railway mortgage bonds that the said bonds and coupons of same will be paid on September 1 next, the date of their maturity, upon presentation at the office of the Central Trust Co., No. 54 Wall St., New York.—V. 60, p. 1148.

West Virginia Central & Pittsburg RR—The report of the President for the year ending June 30, 1895, submitted at the annual meeting last week, according to the press dispatches, showed: Gross revenues from all sources, $1,069,719, an increase over the previous year of $81,056; total expenses of all kinds, including interest on bonds and other fixed charges, were $955,856 an increase of $64,771, leaving a net surplus for the year of $104,822, an increase of $16,785. Considerable work has been done during the year in improving the alignment and grades of the road. The headquarters of the company have been established at Elkins. The old board of directors was continued for the present year.—V. 60, p. 220.

Wisconsin & Michigan RR.—This company, which operates 48 miles of road, extending from Faithorn Junction on the Minneapolis St. Paul & Sault Saint Marie RR. (controlled by the Canadian Pacific) to Peshtigo, Mich., on Lake Michigan, proposes to run a number of ferryboats capable of carrying 28 cars each between Peshtigo and Chicago, a distance of 240 miles, enabling it to transport its trains direct to Chicago without the intervention of other railroad companies. Two boats, 317 feet in length, have been built for the service. They will be towed from port to port, as they have no power of their own. S. M. Fisher, President of Street's Western Stable Car line, is President of the railroad company, in which other Chicago capitalists also are interested.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, August 30, 1895.

In the jobbing division of trade business has been very good and the distribution of general merchandise into channels of consumption appears to be increasing. Wholesale operations in leading staples are still slow, but there is promise of considerable improvement during the incoming month. There has been further addition to cost of iron and steel and their products. Some important labor strikes have been settled through compromise agreements between manufacturers and workmen. Speculation in leading commodities is not general, but cotton has attracted a large number of investing ventures in consequence of apparent serious damage to crop. Information in regard to cereal crops has been conflicting, but latest advices appear to indicate no serious impairment. At the close export demand for wheat is more promising.

The demand for lard on the spot has been quiet and prices have declined with futures closing dull at 6·25c. for prime Western, 6·05c. for prime City and 6·75c. for refined for the Continent. The local market for lard futures has been neglected and prices have declined in sympathy with the weakness of corn and under larger receipts of swine at the West than were generally expected.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September ..... c.	6·25	6·22	6·30	6·25	6·15	6·20

At the close of the week the prices of pork were lowered and a large business was transacted for export, closing steady at $10 75@$11 25 for mess, $12@$14 for short clear and $12 25@$12 50 for family. Cutmeats have been quiet and easier, closing at 6¾@7¼c. for pickled bellies, 12@10 lbs. average, 5¼@5½c. for pickled shoulders and 9@9¼c. for pickled hams. Beef has been in better demand, closing at $7 50@$8 for extra mess, $8 50@$9 for packet, $9@$12 for family and $16@$16 50 for extra India mess. Beef hams have been steady, closing at $16. Tallow has declined and the close was easy at 4¼c. Oleo stearine has also weakened slightly, closing at 6⅛c. Lard stearine has been without change and dull, closing at 7½@8¼c. Cottonseed oil has been quiet, closing at 26¾@27c. for prime yellow and 26c. for off-grade yellow. Butter has been quiet but steady, closing at 13@20c. for creamery. Cheese has been in fair demand for choice and firmer, closing at 6@8¾c. for State factory, full cream. Fresh eggs have further advanced, closing steady at 14½c.@15c. for choice.

Coffee made no further important decline in price, but that slightly steadier condition is attributable more to lessened offerings than increase of demand. Rio quoted at 16c. for No. 7; good Cucuta 19@19⅛c., and standard Java 27@27½c. Contracts for future delivery have been sold out with some freedom and market was irregular, closing rather weak.

The following were the final asking prices:

Sept.....14·85c.	Dec.....14·85c.	March.....14·65c.
Oct.....15·05c.	Jan.....14·80c.	April.....14·60c.
Nov.....14·85c.	Feb.....14·75c	May.....14·45c.

Raw sugars have again fallen off in cost under the influence of indifferent demand, but at the decline appear somewhat steadier. Centrifugal quoted at 3 3-16c. for 96-deg. test and Muscovado at 2⅜c. for 89-deg. test. Refined sugars again declined, and modified cost serves to attract more demand; granulated quoted at 4⅜c. Teas about steady.

The inquiry for Kentucky tobacco has continued quiet, but prices have held steady; sales 180 hhds. Seed leaf tobacco has been in decidedly better demand at steady prices. Sales for the week were 2,580 cases, as follows: 200 cases 1893 crop, Wisconsin Havana, 7@9c.; 150 cases 1892 crop, Wisconsin Havana, 12@15c.; 1,000 cases 1894 crop Wisconsin Havana, p. t.; 200 cases 1893 crop, Pennsylvania Bs, 11@12½c.; 300 cases 1893 crop, New York State Havana, p. t.; 500 cases 1894 crop, New England Havana, 15@25c.; 300 cases 1893 crop, New England Havana, 6@9c.; 100 cases 1892 crop, New England Havana, 30@40c; and 100 cases 1892 crop Little Dutch, 11c.; also 600 bales Havana, 75c.@$1 20, and 325 bales Sumatra, 70c.@$3, in bond.

The speculation in the market for Straits tin has been quiet and prices have weakened slightly in response to easier foreign advices, closing at 14·25@14·30c. Ingot copper has had a fair call and the close was unchanged and steady at 12 25c for Lake. Lead has been without change, closing steady at 3·50c. for domestic. Spelter has advanced, closing steady at 4·20c. for domestic. Pig iron has been moderately active and firm, closing at $11 50@$14 00 for domestic.

Refined petroleum has been fairly active, closing at 7·10c. in bbls., 4·60c. in bulk and 7·50c. in cases; crude in bbls. has been nominal; naphtha 9·25c. Crude certificates have been steady, closing at 1·25c. bid. Spirits turpentine has advanced, closing steady at 27¾@28c. Rosins have been unchanged, closing at $1 47½@$1 55. Wool has been quiet but steady. Hops have been in slow demand and weak.

COTTON.

FRIDAY NIGHT, August 30, 1895

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 6,803 bales, against 2,715 bales last week and 1,749 bales the previous week, making the total receipts since the 1st of Sept., 1894, 7,880,494 bales, against 5,981,698 bales for the same period of 1893-4, showing an increase since Sep. 1, 1894, of 1,898,796 bales.

Speculation in cotton for future delivery at this market has again been upon a very liberal scale. Conditions were excited and tone buoyant, stimulated by circulation of very gloomy reports regarding prospects for growing crop and apparent confirmation thereof, as indicated by exceedingly small receipts compared with last season. Saturday opened irregular, but a free covering demand and new buying orders finally advanced prices 9@10 points, closing firm. On Monday the cable advices from Liverpool were not so strong as previously expected, which induced some selling and caused 10 points decline, but recovery followed and the net loss for the day was reduced to 3 points. Tuesday opened about 5 points lower, but at that a quick demand set in and caused an advance of 19 points from the lowest with only bare shading at the close. During Wednesday and Thursday very heavy trading and great excitement took place with many violent fluctuations in value, but eager buying took all the offerings and for the two days the net gain was 27 points. To-day the tone has been very feverish, but on whole somewhat easier under considerable liquidation. Cotton on the spot has rapidly advanced, but the increased cost serves to curtail demand. Middling uplands quoted 8 3 16c.

The total sales for forward delivery for the week are 1,713,600 bales. For immediate delivery the total sales foot up this week 4,914 bales, including 215 for export, 3,598 for consumption — for speculation and 1,100 on contract. The following are the official quotations for each day of the past week—August 24 to August 30.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1 1/4	Good Ordinary	c. 1 1/4 off.
Middling Fair	3/4	Good Middling Tinged	Even.
Strict Good Middling	1/2	Strict Middling Stained	7/32 off.
Good Middling	1/4 on.	Middling Stained	7/16 off.
Strict Low Middling	1/2 off.	Strict Low Mid. Stained	29/32 off.
Low Middling	7/8 off.	Low Middling Stained	1 1/4 off.
Strict Good Ordinary	15/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	6 11/16	6 11/16	6 11/16	6 7/8	7 1/16	7 1/16

☞ The imports into Continental ports the past week have been 18,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 339,154 bales as compared with the same date of 1894, an *increase* of 166,949 bales over the corresponding date of 1893 and a decrease of 216,260 bales from 1892.

At the Interior Towns the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

Towns.	Movement to August 30, 1895. Receipts. This week.	Since Sept. 1, '94.	Shipm'ts This week.	Since Sept. 1, '94.	Stock Aug. 30	Movement to August 31, 1894. Receipts. This week.	Since Sept. 1, '93.	Shipm'ts This week.	Since Sept. 1, '93.	Stock Aug. 31.

* Louisville figures "net" in both years.
† This year's figures estimated.

The above totals show that the interior stocks have *decreased* during the week 375 bales and are now 21,584 bales *less* than at same period last year. The receipts at all the towns have been 20,574 bales *less* than same week last year and since Sept. 1 are 1,686,796 bales *more* than for same time in 1893-94.

Quotations for Middling Cotton at Other Markets.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Aug. 30.	Closing quotations for middling cotton on—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Galveston...	7 1/4	7 3/8	7 3/8	7 9/16	7 5/8	7 3/8

Receipts from the Plantations.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stk at Interior Towns.			Rec'pts from Plant'ns		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
July 26.....	10,205	3,921	2,734	97,788	65,245	53,897	.....	.....	.....
Aug. 2.....	10,713	3,941	1,760	91,651	62,859	47,202	1,578	858	.....
" 9.....	9,243	5,732	2,137	84,667	59,935	43,742	2,259	2,808	.....
" 16.....	12,248	7,213	1,749	79,179	56,959	41,714	6,760	4,217	.....
" 23.....	12,434	14,122	2,715	76,824	55,819	35,157	10,479	13,062	.....
" 30.....	17,034	25,173	6,803	74,501	56,366	34,782	15,311	25,720	6,428

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,857,941 bales; in 1893-94 were 5,961,898 bales; in 1892-93 were 5,058,893 bales.

2.—That although the receipts at the outports the past week were 6,803 bales, the actual movement from plantations was only 6,428 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 25,720 bales and for 1893 they were 15,311 bales.

Weather Reports by Telegraph.—Our telegraphic advices from the South this evening indicate that while rain has fallen in many sections of the South the past week, the precipitation has in general been light. Over a considerable portion of the Southwest dry weather has prevailed and moisture is needed. Shedding is stated to be quite prevalent in Texas and boll worms are also complained of. Picking is making fair progress in Texas and is getting under way elsewhere.

Galveston, Texas.—There has been rain on two days during the week, the precipitation being three inches and seventy-eight hundredths. The thermometer has averaged 80, ranging from 71 to 88.

Palestine, Texas.—We have had dry weather all the week. The thermometer has ranged from 70 to 96, averaging 83.

Huntsville, Texas.—It has rained on two days of the week, the precipitation reaching twenty-eight hundredths of an inch. Average thermometer 82, highest 94 and lowest 70.

Dallas, Texas.—In some sections along the coast and at a few points else here rain fell in the latter portion of the week, but as a rule the precipitation was light. In the eastern part of North Texas, as well as in the Central and southern divisions of the State, moisture is much needed. Shedding is reported to be quite general, and there is much complaint of boll worms from Northern and Central Texas. The crop has started out in some districts but is backward as a rule. Conservative estimates place the prospective yield at fully one-third less than last year. There has been no rain here the past week. The thermometer has averaged 82, the highest being 96 and the lowest 68.

San Antonio, Texas.—The week's precipitation has been seven hundredths of an inch on one day. The thermometer has averaged 85, ranging from 72 to 98.

Luling, Texas.—Dry weather has prevailed all the week. The thermometer has ranged from 72 to 96, averaging 84.

Columbia, Texas.—We have had rain on two days of the week, the precipitation reaching eighty-seven hundredths of an inch. Average thermometer 83, highest 94 and lowest 72.

Cuero, Texas.—The week's rainfall has been fifteen hundredths of an inch on one day. The thermometer has averaged 85, the highest being 98 and the lowest 72.

Brenham, Texas.—The week's rainfall has been forty-six hundredths of an inch, on three days. The thermometer has averaged 83, ranging from 70 to 96.

Belton, Texas.—There has been no rain during the past week. The thermometer has ranged from 68 to 100, averaging 84.

Fort Worth, Texas—We have had no rain during the week. Average thermometer 82, highest 95 and lowest 69.

Weatherford, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 82, the highest being 94 and the lowest 70.

New Orleans, Louisiana.—We have had rain on four days of the week, the rainfall reaching sixty-one hundredths of an inch. The thermometer has averaged 82.

Shreveport, Louisiana.—Rain has fallen on one day of the week, to the extent of one hundredth of an inch. The thermometer has ranged from 70 to 95, averaging 82.

Columbus, Mississippi.—We are having too much moisture and crops have already been much damaged. We have had rain on two days of the week, the precipitation being eighty-three hundredths of an inch. Average thermometer 84, highest 102 and lowest 68.

Leland, Mississippi.—It has been dry all the week. The thermometer has averaged 77·9, the highest being 92 and the lowest 54.

Meridian, Mississippi.—Telegram not received.

Little Rock, Arkansas.—It has been dry all the past week. The thermometer has ranged from 67 to 93, averaging 81.

Helena, Arkansas.—Rust is complained of to a slight extent. Rain has fallen lightly on three days of the week, to the extent of thirty hundredths of an inch, but nearby the rainfall has been heavy. Average thermometer 81, highest 93, lowest 70.

Memphis, Tennessee.—The crop is late and needs rain. Condition has slightly depreciated. We had a drizzle of rain on Thursday, the rainfall reaching four hundredths of an inch. The thermometer has averaged 81·2, the highest being 91·7 and the lowest 70.

Nashville, Tennessee.—There has been rain during the week to the extent of thirty-eight hundredths of an inch. The thermometer has averaged 81, ranging from 68 to 94.

Mobile, Alabama.—Rain has fallen on two days of the week, the precipitation being fifty-four hundredths of an inch. Crop reports are unchanged. The thermometer has ranged from 74 to 94, averaging 84.

Montgomery, Alabama.—We have had rain on two days of the week, the precipitation reaching one inch and ten hundredths. Average thermometer 81, highest 90 and lowest 72.

Selma, Alabama.—Recent showers have been somewhat beneficial to crops on cotton lands, but upland crops are poor. Rain has fallen on two days of the week, to the extent of one inch and one hundredth. The thermometer has averaged 80, the highest being 91 and the lowest 70.

Madison, Florida.—It has rained on three days of the week, the rainfall reaching one inch. The thermometer has averaged 82, ranging from 68 to 92.

Columbus, Georgia.—There has been rain on one day of the week, the precipitation being seven hundredths of an inch. The thermometer has ranged from 72 to 92, averaging 83.

Savannah, Georgia.—We have had rain on four days of the week, the rainfall being ninety-one hundredths of an inch. Average thermometer 82, highest 95, lowest 72.

Augusta, Georgia.—There has been a trace of rain on one day of the week. The thermometer has averaged 81, the highest being 93 and the lowest 69.

Albany, Georgia.—Telegram not received.

Charleston, South Carolina.—It has rained on three days of the week, the precipitation reaching twenty-four hundredths of an inch. The thermometer has ranged from 74 to 93, averaging 82.

Stateburg, South Carolina.—Cotton picking is beginning. Rain has fallen lightly on two days of the week to the extent of twenty-three hundredths of an inch. Average thermometer 73·4, highest 88, lowest 66.

Greenwood, South Carolina.—Telegram not received.

Wilson, North Carolina.—Telegram not received.

Norfolk, Virginia.—The weather continues very favorable to crop development.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock August 29, 1895, and August 30, 1894.

	Aug 29, '95.	Aug 30, '94.

Vicksburg ..... Above zero of gauge.	3·7	0·8

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to August 29.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week. Great Britain.	Shipments this week. Continent.	Shipments this week. Total.	Shipments since Sept. 1. Great Britain.	Shipments since Sept. 1. Continent.	Shipments since Sept. 1. Total.	Receipts. This Week.	Receipts. Since Sept. 1.
1894	.....	.....	.....	28,000	493,000	521,000	9,000	1,532,000
1893	1,000	2,000	3,000	47,144	817,730	864,874	5,000	1,734,175
1892	.....	2,000	2,000	43,825	801,139	844,964	4,000	1,730,444
1891	.....	4,000	4,000	29,002	774,186	803,189	2,000	1,747,639

NOTE.—Totals since September 1 revised.

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 4,000 bales and a *decrease* in shipments of 3,000 bales, and the shipments since Sept. 1 show a *decrease* of 343,874 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Cocanada.

	Shipments for the week. Great Britain.	Shipments for the week. Continent.	Shipments for the week. Total.	Shipments since Sept. 1. Great Britain.	Shipments since Sept. 1. Continent.	Shipments since Sept. 1. Total.
Calcutta—						
1894-95...	.....	1,000	1,000	8,000	37,000	45,000
1893-94...	.....	.....	.....	19,685	85,759	105,444
Madras—						
1894-95...	2,000	2,000	4,000	12,000	16,000	28,000
1893-94...	2,637	3,694	6,331	33,952	25,935	59,887
All others—						
1894-95...	1,000	6,000	7,000	30,000	101,000	131,000
1893-94...	3,500	4,475	7,975	44,500	131,475	175,975
Total all—						
1894-95...	3,000	9,000	12,000	50,000	154,000	204,00
1893-94...	6,137	8,169	14,306	98,137	243,169	341,300

NOTE.—Totals since September 1 revised.

The above totals for the week show that the movement from the ports other than Bombay is 2,306 bales *less* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1894, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1894-95. This week.	1894-95. Since Sept. 1.	1893-94. This week.	1893-94. Since Sept. 1.	1892-93. This week.	1892-93. Since Sept. 1.
Bombay	.....	521,000	3,000	884,874	2,000	844,664
All other ports	12,000	233,000	14,306	341,306	7,000	205,115
Total	12,000	754,000	17,306	1,226,180	9,000	1,049,779

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, August 28	1894-95.	1893-94.	1892-93.
Receipts (cantars)—			
This week	3,000	1,000	.....
Since Sept. 1.	4,542,000	4,933,656	5,118,150

	1894-95. This week.	1894-95. Since Sept. 1.	1893-94. This week.	1893-94. Since Sept. 1.	1892-93. This week.	1892-93. Since Sept. 1.
Exports (bales)—						
To Liverpool	1,000	277,000	1,000	311,425	2,000	314,534
To Continent	.....	352,000	1,000	552,782	1,000	365,282
Total Europe	1,000	629,000	2,000	864,207	3,000	679,816

* A cantar is 98 pounds.

† Receipts in Alexandria in 1894-95, 44,600 bales; in 1893-94, 29,199; in 1892-93, 45,765 bales.

This statement shows that the receipts for the week ending Aug. 28 were 3,000 cantars and the shipments to all Europe 1,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is firm for both yarns and shirtings. The demand for India is poor, but for China is good. We give the prices for to-day below and have those for previous weeks of this and last year for comparison:

	1895. 32s Cop. Twist.	1895. 8¼ lbs. Shirtings, common to finest.	1895. Cott'n Mid. Uplds.	1894. 32s Cop. Twist.	1894. 8¼ lbs. Shirtings, common to finest.	1894. Cott'n Mid. Uplds.

COTTON CROP CIRCULAR.—Our Annual Cotton Crop Review will be ready in circular form about Thursday, the 5th of September. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

EXCHANGES.—The following exchanges have been made during the week:

·12 pd. to exch. 400 Oct. for Dec.
·25 pd. to exch. 2,500 Oct. for Mch
·07 pd. to exch. 100 Sept. for Oct.
·06 pd. to exch. 500 Sept. for Oct.
·25 pd. to exch. 500 Aug. for Jan.
·32 pd. to exch. 500 Sept. for Feb.
·18 pd. to exch. 200 Oct. for Jan.
·05 pd. to exch. 600 Aug. for Oct.
·25 pd. to exch. 100 Sept. for Jan.
·26 pd. to exch. 200 Sept. for Jan.
·24 pd. to exch. 600 Aug. for Jan.
·06 pd. to exch. 100 Dec. for Jan.
·18 pd. to exch. 100 Oct. for Jan.

EGYPTIAN COTTON CROP.—The following *resume* of reports on the cotton crop in Egypt was issued by the Alexandria General Produce Association under date of July 31:

The temperature has been really hot, with the result of destroying the worms, which have quite disappeared since the 10th July. At that time the general estimate of loss to the Lower Egypt crop was quite 10 per cent of a full crop, but since then this loss has been diminished. The heat and the disappearance of worms have allowed an excellent development, and the plants that had been badly damaged by the insects have regained their strength and part of the loss. We must also take into account the increased area planted, which will further diminish the loss otherwise occasioned. The first picking is likely to be rather late in the fields that have suffered, but a little earlier than last year where the plants had not been attacked. Such is the position at the end of the month, showing a considerable improvement since our last *resume*, and giving hope for good results if we escape worms and fogs in August and September. The reappearance of worms, however, is reported in a few fields, but in small quantities, and no damage is yet reported. The reports from Fayoum are good, and from Upper Egypt provinces excellent. The crop there is earlier than last year.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been without special feature the past week. Quotations this evening are 4 1/16c. for 1 3/4 lbs., 4 1/2c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4 1/16c. for 1 3/4 lbs., 4 5/8c. for 2 lbs. and 5 1/4c. for 2 1/4 lbs. f. o. b. at New York. Jute butts have been quiet on the spot at 1 1/16c. for paper quality, 1 1/4c. for mixing, and bagging quality nominal in the absence of stock.

NEW MISSISSIPPI COTTON.—The first bale of new cotton raised in Mississippi was received at New Orleans on Saturday, August 24, by Messrs. Hyam, Hilber & Co., from Messrs. Wilson & Addison, Osyka. It classed strict middling, and sold for 9 cents per pound. Last year the first bale reached New Orleans on August 16, from Osyka. In 1893 the first bale reached New Orleans on August 15 and in 1892 the first new Mississippi bale made its appearance at Meridian on Aug. 19.

EAST INDIA CROP.—From the Bombay *Prices Current* of August 2 we have the following:

A want of further rain for the cotton plants in the Bengal circle was reported by the telegraphic advices to hand on Monday morning, but from the other circles the news was generally of a favorable tenor, the rain, excepting in the Sholapore district, where it was much needed, having been sufficient for the present, and the plants flourishing in seasonable weather. A larger area was stated to have been sown with cotton this year in the Broach district, where crop prospects were good. Meantime light rain is reported by this morning's telegrams to have fallen over the whole of the cotton area, except at Bellary, where sowing had not commenced, owing to its absence, and at Wadwan, where the break in the weather was acceptable. From the other districts the news was generally favorable, and it is stated that at Barsee the plants could scarcely look better than they did.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 8,928 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales
NEW YORK—To Liverpool, per steamer Nomadic, 349	349
To Bremen, per steamer Wittekind, 963	963
To Antwerp, per steamer Noordland, 16	16
NEW ORLEANS—To Liverpool, per steamer Legislator, 3,211	3,211
To Bremen, per steamer European, 629	629
To Hamburg, per steamer Polonia, 87	87
To Barcelona, per steamer Berenguer el Grande, 2,386.... per bark Tafalla, 498	2,884
BOSTON—To Liverpool, per steamers Georgian, 50....Kansas, 326	326
PUGET SOUND—To Japan, per steamer ———, 413	413
Total	8,928

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Bremen.	Hamburg	Antwerp.	Barcelona.	Japan.	Total.

BREADSTUFFS.

FRIDAY, August 30, 1895.

For wheat flour there was a dull and drooping market during the greater part of the week, owing to a depressed market for the grain, but yesterday an advance in wheat stimulated buyers to some extent and a moderate amount of business was transacted at fairly steady prices. Rye flour has sold slowly and prices have weakened slightly. Corn meal has been in light request but choice grades have been steadily held. To-day the market for wheat flour was fairly active and firmer.

The speculation in the market for wheat futures has been quiet, and the course of prices has continued downward, due to liquidation by tired "longs," prompted by dull and depressed foreign advices, absence of an export demand and a full movement of the new crop at the Northwest. Yesterday, however, there was a rally on fair buying by "shorts" to cover contracts stimulated by a decided improvement in the export demand. In the spot market business was slow early in the week, but at the close shippers were fairly brisk buyers at steady prices. The sales yesterday included No. 2 red winter at 3/8@1/2c. over Sept. delivered; No. 1 hard spring at 3 1/8@3 3/8c. over Sept. f. o. b. afloat, delivery last half of Sept., and No. 1 Manitoba at 3 1/4c. over Sept. f. o. b. afloat. To-day the market was fairly active and higher on continued buying by shorts to cover contracts, stimulated by stronger foreign advices. The spot market was decidedly less active, although there was some buying by shippers. The sales included No. 2 red winter at about 1 1/4c. over Sept. f. o. b. afloat and No. 1 hard spring at about 3 1/4c. over Sept. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

September delivery.....c.	67 1/8	66 3/8	65 1/8	65 1/8	66 1/4	66 3/4
October delivery.....c.	67 3/8	66 3/4	65 7/8	65 3/8	66 1/2	67 1/8
December delivery.....c.	69 1/8	68 3/8	67 1/8	67 1/4	68 3/8	68 7/8
May delivery.....c.	73 3/8	72 1/8	71 3/8	71 1/4	72 1/2	73 1/8

The speculative dealings in the market for Indian corn futures have been moderatively active, but at fractional declines in prices under free offerings prompted by continued favorable crop accounts. Yesterday, however, there was a partial recovery on a statement by a well-known Western authority that owing to the recent wet weather the total yield would be reduced considerably, which stimulated a demand from

"shorts" to cover contracts. The spot market has been less active and prices have followed futures. The sales yesterday included No. 2 mixed at 2½c. over Sept. f. o. b afloat, delivery next week. To-day the market was firmer in sympathy with the improvement in wheat and on buying by "shorts" to cover contracts. The spot market was quiet. The sales included No. 2 mixed at 43 1-16c. delivered and 43⅞c.@44c. f. o. b. afloat; also No. 2 white at 43⅜c. delivered.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fr.
September delivery....c.	41⅞	41½	41½	41⅜	41⅝	41⅝
October delivery.....c.	41⅝	41	4	40⅞	41⅜	41⅜
May delivery .....c.	37⅝	37	36⅝	36¼	36½	36¾

Oats for future delivery have been quiet and prices declined during the greater part of the week under free shipments from the West and in sympathy with the weakness of corn. Yesterday, however, buying by "shorts" to cover contracts caused a slight rally. The spot market has been fairly active but at lower prices. The sales yesterday included No. 2 mixed at 24@24¼c. in elevator and No. 2 white at 27c. in elevator. To-day the market was quiet and the close was slightly lower. The spot market was moderately active and steady. The sales included No. 2 mixed at 24¼c. in elevator and No. 2 white at 27c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs	Fr.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., August 30, 1895.

The market has again been well attended, there being probably as large a number of buyers here as during any week for a long time past. As was noted last week, their presence has been most evident in jobbing circles, where business in all departments has again been active. In the primary market there has been a considerable business done in the aggregate to which brown and bleached staple cottons and printed cotton fabrics have contributed most largely. The sales in the first named might easily have been larger but for the very reserved attitude of many sellers, who, acting under instructions from their manufacturers, have either advanced prices to an at present prohibitive level, or have withdrawn goods from sale for the time being. The most potent influence at work in the brown goods division is the upward course of the market for cotton, price of which has now advanced out of all proportion to the advances secured in goods. There is naturally an indisposition on the part of manufacturers, the majority of whom still have considerable contracts to fill, to commit themselves to any extent to new business for future delivery until the market moves up more nearly to a parity with raw material, or until they have some more definite indication of the prices at which future supplies of the latter are likely to be secured. These buying opportunities are being curtailed and the tendency all round in staple cottons is towards a higher level of values.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending August 26 were 4,355 packages, valued at $151,421, their destination being to the points specified in the table below:

NEW YORK TO AUG. 26.	1895.		1894.	
	Week.	Since Jan. 1.	Week	Since Jan. 1.
Great Britain.....	68	3,378	150	4,157

Total.....	4,930	151,706	5,408	169,639

* From New England mill points direct.

The value of the New York exports for the year has been $6,825,691 in 1895 against $7,785,267 in 1894.

There has been a good inquiry for brown sheetings and drills throughout the week, but the actual business transacted has not reached a large total, many bids for quantities being turned down by sellers. In four-yard goods and heavier the market is some times ⅛c. to ¼c. per yard higher than a week ago, although there has been no general open advance in quotations. Bleached cottons also are tending upward, advances of ⅛c. in fine 4-4 bleached and of ⅛c. in low grades being noted, with a fair general demand. In wide sheetings an occasional advance is reported, but as a rule these continue disappointing, leading makes remaining unchanged. Cotton flannels and blankets are very firmly held. Sellers of denims are occasionally asking higher prices, but the demand is only moderate. There has been a good demand for ticks at full prices and in other directions coarse colored cottons are without special feature. Kid-finished cambrics, silesias, percalines, satteens and twills are firm with moderate sales. The demand for stiff cotton linings is improving. Business in printed fabrics has been good in all dress styles at firm prices for both regular fancies and specialties. Stocks are generally light. Staple ginghams are very firm with fair sales, but dress styles show no improvement in general demand. Napped fabrics, both printed and woven patterned, are in good request. Print cloths have sold moderately at 3c. for extras, sellers being reserved on that basis. Odd goods tending upwards.

	1895.	1894	1893.
Stock of Print Cloths—	*Aug 24.*	*Aug. 25.*	*Aug. 26.*
At Providence, 64 squares.....	134,000	267,000	173,000

At Fall River, odd sizes.....	73,000	195,000	
Total stock (pieces).....	234,000	950,000	653,000

WOOLEN GOODS.—The market for light-weight woolens shows no improvement, and prices still rule irregular and in buyers' favor in medium grades. Low priced makes are steady, having sold well early in the season in most makes. The current demand is indifferent throughout. In worsteds also only a limited amount of business has been done. Staples, such as clay diagonals and serges, have been well sold and are steady in price, but in fancies there has been an irregular business, with relatively best results in high priced qualities. Satinets and cotton warp cassimeres have sold slowly without change in price. Cloakings are still selling well in both plain and fancy makes, but overcoatings are quiet. Plain dress goods are in good request at firm prices in both woolen and worsted makes, and fancies are selling fairly, in rough effects principally. There are fair re-orders for flannels at full prices and blankets are firm but quiet.

FOREIGN DRY GOODS.—The market at second hands has again been active and fair, re-orders are reported in the primary market, notably in dress goods and silks. Foreign agents are showing no dress goods for spring and taking fair orders.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending August 30, and since January 1, 1895, and for the corresponding periods of last year are as follows.

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time		$3 50	Three Months	(13 times)..	$25 00
One Month	(4 times)..	11 00	Six Months	(26 times)..	43 00
Two Months	(8 times)..	18 00	Twelve Months	(52 times)..	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Kansas City Water-Works Bonds.—The legality of the Kansas City water-works bonds, which have been involved in litigation since early in 1892, has at last been established by the United States Supreme Court. A press dispatch from Kansas City this week states that "under the final order of Justice Brewer and Judge Sanborn, entered the 24th inst., any and every question as to the legality of the bonds of Kansas City given in payment for the plant of the National Water-Works Company has become finally settled. The fact that this final decree has been carried into effect by the acts of the parties makes appeal by either party impossible, and the decree in effect disposes of all minor suits in this relation of whatever sort."

It is reported that under the terms of the compromise just arranged the water-works company has transferred its plant to the city and has taken the $3,000,000 of 4½ per cent 20-year city bonds at par and a total premium of $58,000.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Antwerp, N. Y.—It is reported that 4 per cent water bonds of Antwerp to the amount of $19,000 have been sold for $19,700.

Bristol County, Mass.—Sealed proposals will be received until September 10, 1895, by Edward Mott, Chairman of County Commissioners, for the purchase of a $15,000 4 per cent note dated September 6, 1895, and payable in three years, and a $10,000 4 per cent note dated September 6, 1895, and payable in four years. Interest on both loans is payable semi-annually.

Bristol, Tenn.—Mayor John C. Anderson gives notice that the coupons on the city's 6 per cent funding bonds due September 1, 1895, will be paid at the National Bank of the Republic, New York City.

The official advertisement will be found elsewhere in this issue.

Chicago Sanitary District.—The Chicago Drainage Board are entertaining a proposition to issue warrants to the amount of $2,000,000 in anticipation of taxes. It is argued that if the city warrants just issued are legal, similar warrants issued by the Sanitary District would also be legal.

Some of the Chicago banks, when asked if they would purchase such securities, explained that they expected heavy drafts on their resources during the crop-moving period and advised floating the warrants in New York. The question has not yet come before the full board, but it will be brought up as soon as the Chicago bankers decide finally what they will do.

A Chicago paper says that at the beginning of the present year the Drainage Board had expended a grand total of $11,478,639, and it had a balance on hand of $1,302,586. A fourth issue of bonds was made Jan. 11, 1895, when the New York Life Insurance Company took $4,000,000 4½ per cent currency bonds at 100½. When the present resources are exhausted there will have been expended, therefore, $16,800,000.

It is thought that the proposed warrants if issued will bear 5 per cent interest.

Cicero, Ill.—On Tuesday last the people of this town voted in favor of issuing bonds to the amount of $102,411 to pay off floating indebtedness. Four per cent 20-year securities are proposed. The opponents of the scheme will ask for an injunction to restrain the floating of the loan, on the ground that a part of the indebtedness which it is proposed to fund was illegally incurred. It is reported that the parties opposed to the funding bonds are desirous of borrowing money for water-works.

College Hill, Ohio.—Bonds of this municipality to the amount of $43,000 will be issued for water-works.

Columbus, Ohio.—It is reported that $200,000 of 5 per cent bonds have recently been sold to W. J. Hayes & Sons. One hundred thousand dollars of the amount, dated September 1, 1893, and payable September 1, 1913, are issued for sewer purposes; $60,000, dated April 1, 1893, and payable April 1, 1907, are issued for water-works and $40,000, dated June 1, 1893, and payable June 1, 1904, are issued for fire department purposes.

Corning School District No. 9, N. Y.—On Aug. 28, 1895, this district sold $26,500 of 4 per cent school bonds to P. K. Tyng & Co., of Buffalo, at 106·275 and accrued interest. Seventeen bids in all were received for the loans. The securities are to be dated September 1, 1895, interest will be payable March 1 and September 1, and the principal will mature at the rate of $2,000 yearly from March 1, 1918 to 1930, inclusive, and $500 on March 1, 1931, both principal and interest to be payable at the Knickerbocker Trust Company, New York.

Escanaba, Mich.—The people of this city voted August 17 in favor of issuing $50,000 of water-works bonds.

Florence, Neb.—An election will be held September 17 to vote on issuing $13,000 of 6 per cent 20-year bonds to aid in the construction of an electric railway.

Garrett, Ind.—On August 22, 1895, the city of Garrett sold $19,500 of water-works bonds to Farson, Leach & Co. for a premium of $395 25.

Hawkinsville, Ga.—The people of Hawkinsville have voted to issue bonds for water-works.

Holgate, Ohio.—On August 20, 1895, this municipality sold $10,000 of 6 per cent 1 to 5 year street improvement bonds to Spitzer & Co., of Toledo, for a premium of $121. Six bids in all were received for the loan as follows:

	Premium.
W. J. Hayes & Sons, Cleveland	$177
S. A. Kean, Chicago	50
Farson, Leach & Co., Chicago	75
W. C. Spaulding & Co., Cleveland	187
Reed, Merry & Co., Bowling Green	71
Spitzer & Co., Toledo	121

Three of the bids were not accompanied by certified checks, and the bid of W. J. Hayes & Sons contained the condition that the city should furnish the blank bonds.

Homer, Mich.—Water-works bonds to the amount of $20,000 have been proposed.

Houston, Tex.—At a meeting of the Houston City Council this week two reports were submitted by the finance committee, one recommending the issuance of bonds for $400,000 and the other recommending a loan of $1,000,000. After a heated discussion as to which proposition should be submitted to the vote of the people, it was decided to let the question go over until the meeting of next week. The securities are to be issued for sewers and street improvements.

Laurel, Md.—It is reported that $24,000 of 5 per cent 10 and 20 year bonds of this city have been disposed of. Interest is payable semi-annually.

Lebanon, Ohio.—Proposals will be received until September 17, 1895, by R. B. Corwin, Village Clerk, for the purchase of $50,000 5 per cent water-works bonds. The securities will be dated September 17, 1895, interest will be payable semi-annually on April 1 and October 1 at the Merchants' National Bank of Cincinnati, and the principal will mature part yearly from October 1, 1897, to October 1, 1922.

The Village Clerk's notice of this sale, giving precise dates of maturity and citing the legal authority for the loan, will be found among advertisements elsewhere in this Departent.

Le Sueur, Minn.—An election will probably be held to vote on issuing bonds for water-works.

Long Island City, N. Y.—Proposals will be received until September 3, 1895, by Lucien Knapp, City Treasurer and Receiver, for the purchase of $500,000 of 4½ per cent general improvement bonds, $15,000 of 5 per cent refunding water bonds and $9,000 5 per cent refunding survey and map bonds. Interest will be payable semi-annually. Proposals must state the price per $100 exclusive of accrued interest.

Lorain, Ohio.—Three bids were received on August 24 for the purchase of $8,500 of 6 per cent prison bonds, as follows:

	Prem.
Spitzer & Co., Toledo, O	$17 00
W. J. Hayes & Sons, Cleveland, O	3 00
Niles Bank, O	26 75

The securities are dated August 15, 1895, interest is payable semi-annually and $1,500 of the principal will mature August 15, 1897, and $2,000 August 15, 1898.

Mount Vernon, N. Y.—Proposals will be received until Sept. 3, 1895, by the Common Council of Mount Vernon for the purchase of $50,000 of five per cent tax relief bonds dated Sept. 1, 1895, and payable Sept. 1, 1898, and $50,000 of highway improvement bonds, dated February 1, 1895, and payable at the rate of $10,000 yearly from February 1, 1932, to February 1, 1936. Interest on the securities will be payable semi-annually, both principal and interest to be payable at the office of the City Treasurer. The tax relief bonds will be delivered to the purchasers September 16, 1895, and the highway improvement bonds September 10, 1895.

Newton, Mass.—It is reported that on Aug. 26, 1895, the city of Newton sold $300,000 of 4 per cent coupon highway bonds to Guy Norman at 110·756 and accrued interest. The securities are dated Aug. 1, 1895, interest will be payable semi-annually on Feb. 1 and Aug. 1, and the principal will mature Aug. 1, 1935. School bonds to the amount of $70,000 have been authorized.

Oneida, N. Y.—William M. Baker, President of the Council, reports to the CHRONICLE in reference to the $150,000 of 3½ per cent gold bonds offered for sale August 15 for the purchase of the water works that $70,000 of the securities, running 10 years, were disposed of on that date at par. Since then $75,000 more, running 20 years, have been sold at par, and there are still remaining on sale $25,000 of 40 year bonds. Mr. Baker also states that arrangements have been completed to borrow the balance ($5,000) for a short time at 4 per cent, in order to take the water works on September 2, 1895, as per contract of sale. The securities are to be dated Sept. 2, 1895.

Passaic, N. J.—This city has sold $46,000 of 4½ per cent school bonds to C. Zabriskie, of Jersey City, at 104·82. The securities are dated August 1, 1895, interest will be payable semi-annually and $1,000 of the principal will mature August 1, 1899, and $5,000 annually thereafter.

Eight other bids were received for the loan as follows: Benwell & Everitt, 103·74; W. E. R. Smith, 103·13; N. W. Harris & Co., 102·78; D. A. Moran & Co., 102·398; E. H. Rollins & Son, 101·82; Parson, Leach & Co., 101·76; Passaic National Bank, 101·30; E. C. Jones Co., 100·75.

Pittsfield, Mass.—On August 26, 1895, the city of Pittsfield sold $90,000 of 4 per cent water bonds to Henry H. Skinner, of Springfield, at 104·55 and accrued interest. The securities are to be dated September 1, 1895, interest will be payable semi-annually on March 1 and September 1, and the principal will mature at the rate of $5,000 annually from date, both principal and interest to be payable in gold coin at the National Bank of Redemption, Boston, Mass. Fifteen bids were received for the loan as follows:

	Bid.
Blodget, Merritt & Co.	104·33
Caswell, Perkins & Co.	104·51
Blake Bros. & Co.	104·53
W. J. Hayes & Sons	103·17
Lamprecht Bros. Co.	103·375
W. L. Slayton & Co.	104·25
E. C. Stanwood & Co.	104·75
E. H. Rollins & Sons	103·039
Brewster, Cobb & Estabrook	104·218
R. L. Day & Co.	104·512
Parson, Leach & Co.	103·482
Henry H. Skinner	104·55
Dietz, Denison & Peltz	103
Jas. W. Longstreet & Co.	104·87
N. W. Harris & Co.	103

Platteville, Wis.—Bonds of this municipality have been voted for water-works.

Reynoldsville, Pa.—A vote taken August 24 on issuing $8,000 of bonds for paving resulted in the defeat of the proposition by a large majority.

Richmond Hill, N. Y.—On August 26, 1895, the village of Richmond Hill sold $65,000 of 4 per cent bonds to Daniel A. Moran & Co., of New York, at 105·279. The securities are to be dated September 1, 1895, interest will be payable semi-annually on March 1 and September 1, and $6,000 of the principal will mature yearly from September 1, 1916 to 1920, inclusive, and $7,000 yearly from September 1, 1921 to 1935, inclusive. Twelve bids were received for the loan as follows:

	Bid.
Daniel A. Moran & Co., New York	105·279
Storrs & Smith, New York	102·86
Seymour, Bartow & Co.	102·115 5-13
George M. Hahn, New York	101·47
E. D. Shepard & Co., New York	101·32
Edward C. Jones Company	101·26
George W. Cobb, Yonkers	101 07
E. Morrison, New York	100·76
Benwell & Everitt, New York	100·61
Walter Stanton & Co., New York	100·26
S. A. Kean, Chicago	100·25
Parson, Leach & Co., New York	100·103 1-13

Fifty thousand dollars of the amount will be issued for macadamizing streets, $10,000 for erecting a village hall and $5,000 for fire department supplies. The village has no other funded debt.

Rockford, Mich.—A vote taken Aug. 19 on issuing $10,000 of water-works bonds resulted in favor of the proposition.

Somersworth, N. H.—It is reported that this city is about to construct water works at an estimated cost of $115,631. Fifty thousand dollars will be raised at once, for which amount bonds will probably be issued.

South Glens Falls, N. Y.—The people of this municipality are in favor of issuing from $40,000 to $50,000 of bonds for water-works.

Waterbury, Vt.—Waterworks bonds to the amount of $20,000 are under consideration.

Wilmington, Del.—On August 26, 1895, the city of Wilmington sold a $50,000 4 per cent sinking-fund loan to the Equitable Guarantee & Trust Co. of Wilmington at 105·5. Interest is payable semi-annually on April 1 and October 1 and $19,900 of the principal will mature April 1, 1924, and $1,000 October 1, 1924.

Six bids were received for the loan as follows:

	Bid.
Equitable Guarantee & Trust Co., Wilmington, Del	105·50
Parson, Leach & Co., New York	105·155
Dick Bros. & Co., Philadelphia, Pa.	105·154
Scott & Co., Wilmington, Del.	105·
R. R. Richards & Co., Wilmington, Del.	104 51
Heald & Co., Wilmington, Del.	100·054

Yonkers, N. Y.—On August 26, 1895, the City of Yonkers sold $40,000 of 4 per cent water bonds to Blake Brothers & Co. at 107·30. The securities are to be dated September 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature April 1, 1913.

Fifteen bids were received for the loan, as follows:

	Bid.
Blake Brothers & Co.	107·30
Lamprecht Brothers Company	106 60
N. W. Harris & Co.	106·67
George M. Hahn	105·92
W. E. R. Smith	106·03
Parson, Leach & Co.	106·76
F. K. Ivey & Co.	104·72
Storrs & Smith	105 83
W. J. Hayes & Sons	106 155
Walter Stanton & Co.	106 08
Lamprecht Bros. Co.	106·77
Dietz, Denison & Peltz	106·77
Daniel A. Moran & Co.	107·279
R. L. Day & Co.	106 660
Yonkers Savings Bank	106 25
E. C. Jones & Co.	104 24

INDEX TO STATE AND CITY DEPARTMENT.

In the following index references are given by volume [V.] and page [p.] to every item regarding State, city, town or county finances which has been published in the CHRONICLE since the issuance of the last STATE AND CITY SUPPLEMENT, APRIL 13, 1895.

Items in the current number are not noted in the index.

Full face type refers to latest reports of total debt, assessed valuation &c.

This index will be published in the STATE AND CITY DEPARTMENT of the CHRONICLE on the last Saturday of each month.

1850. 1895.
The United States Life Insurance Co.
IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.
